

TWIN TOWERS
BY "THE STAFF"

Every so often we read that labor leaders, Lewis and Green, have announced themselves as being in favor or not in favor of some phase of a national problem and we find them running off to Washington to tell the president what they want done.

Things have come to a sad pass when such conditions exist in a country where all are entitled to have an equal right in saying how the affairs of the nation shall be conducted, and all are affected by what the government does.

Why simply, because they have been chosen as heads of a group of the people, are not cornered with the welfare of the majority, some people should believe that they have been "stuck with something similar to" at famous "divine right of kings," is more than we can understand.

There is in the country nowadays, too much attention paid to those who are not elected by the people and therefore have no responsibility to them, and it is because they have had a great amount of encouragement, that they assume they have a right to dictate to the government.

This week the schools in the city began their sessions and again we see the little tots starting on the first great adventure of their lives, their school careers.

As we see these little tots marching off to school, it should make us think of the responsibilities, we older persons have to these youngsters, who are helpless, inexperienced, and entirely dependent upon us for their future welfare and existence.

The responsibilities we have are varied, upon the parents is involved the task of keeping these youngsters in school, feeding them and clothing them, and exercising our duty as citizens to see that the school system is kept up to standard, so that our children may get the best equipment in the way of an education, in order to earn a future livelihood.

Upon city, county and state officials rests the responsibility of so conducting the affairs of government that there will always be on hand, the funds to keep the schools at their highest mark of efficiency for their work of equipping these little Americans to carry on.

Of course the greatest responsibility rests upon the shoulders of the teachers, who have given to their care these youngsters which it is within their power to mould either into useful citizens or derelicts who will be a burden upon their fellow men and a drag upon progress and civilization.

The coming school year will be a crucial period in the lives of many of these youngsters, and upon their teachers will rest the responsibility of safely guiding them over this crisis. Some of them, under the supervision of clock watching teachers, who look upon their jobs as a means of making a comfortable salary by working from nine to three five days a week, and look forward only to pay days, are fit to be classed with the worst criminals, since they rob the children of their future chances of success and the taxpayers of their money, and there should be no hesitation about ousting them immediately.

All the eyes of the average citizen, Chief Edwin C. Sloat, head of the Keyport Police Department is the ideal police executive, efficient and demanding the respect of citizens for himself, and the law he is sworn to protect.

Recently Chief Sloat put the ban on the blowing of horns and attending unnecessary parties, by wedding parties travelling through the streets of the borough. Chief Sloat rightly labels the blowing of horns and other attending noises as unnecessary and dangerous, as well as a trespass on the rights and safety of others and a disturbance to the peace of the community. He adds that weddings usually occur on week ends, with the result that these wedding parties add another to the hazards that exist as the result of increased traffic.

There is no more reason for a couple and their friends to stir up the community when they get married than there is to do so when they get a divorce, and the noise after the wedding procession is a hand down from ancient days, that we can well get along without at the present time, when bigger communities make some problems more complex.

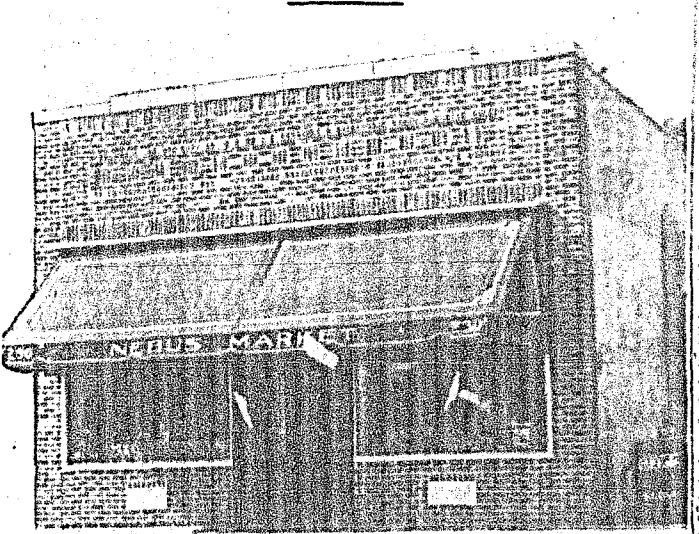

Joel Parker Council Celebrates
Its Fiftieth Anniversary Soon

With a gala celebration, Joel Parker Council No. 69, Jr. O. U. A. M. will celebrate its fiftieth anniversary on Wednesday evening, Sept. 18th at the Buttonwood Manor at Mahawan.

Otto H. Miller is general chairman of the committee, and is assisted by John L. Applegate, Harold G. Semoneit, J. H. Griswell, James F. Tustin and Charles Johnson.

A special effort will be made to have all charter members of the council attend the celebration and the committee has arranged for the serving of the dinner at 7:30 P. M. Roosevelt C. Walker, State Council Secretary of the order will be the principal speaker and there will be a program of entertainment. Dancing will also take place with music furnished by George Ruddy's orchestra. Reservations should be made with Otto H. Miller, telephone 182, not later than tomorrow evening.

The Council was instituted on September 11th, 1890 in Concert Hall, at Broadway and Second St., the present site of the Elmer factory, by J. R. Rollinson, of Rahway, a state organizer of the order. The Council was named in honor of

Vincent J. Nebus' Cherished Ambition
Realized As New Market Is Completed

EXTERIOR VIEW OF NEW BUILDING HOUSING THE NEBUS MARKET AT 230 FELTUS STREET

Years and years of dreaming, more years and years of planning, and then the equivalent of more years of hard work by a great many workmen reached a culmination this week when Nebus' Market removal to a new establishment at 230 North Feltus street was finally completed. For weeks past the removal of stocks and facilities from the former location at 238 N. Feltus street has been going on and more and more of the business of serving South Amboy housewives was done from the new establishment. Now the moving is completed and with the formal opening of the new market announced with this issue of the Citizen a business is to be done from the new headquarters.

The new market is the realization of a long-held ambition of Vincent J. Nebus, proprietor of the establishment, for a new, sufficiently roomy and altogether up to date store in which and from which to serve the long list of customers who will be a burden upon their fellow men and a drag upon progress and civilization.

First Meeting
Of Woman's Club
Tuesday Afternoon

Session At Parish House Will Be In Charge Of Garden Department

The South Amboy Woman's Club will hold the inaugural meeting of the 1939-40 term Tuesday afternoon at Christ Church Parish House, at 3 P. M., when the Garden Department will be in charge, with Mrs. Irvin House as the chairman. Dr. C. H. Connors, of Rutgers Agricultural College will talk on "small gardens," and there will be a flower show by the members of the club, who have been requested to bring the flowers they intend to exhibit, to the Parish House Tuesday morning.

Miss Jean Hornsby will be the soloist, and the hostesses will be Mrs. Joseph Tice and Miss Bertha Diebert.

CARD PARTY HELD
FOR WOMAN'S CLUB

Friday afternoon at the home of Mrs. Howard Bergen on Stevens avenue, members of the South Amboy Woman's Club held a card party for the benefit of the Program Department.

There were thirteen tables of players and the prize winners were: Mrs. Fred Holman, Mrs. John Applegate, Fred Davis, Mrs. H. Sandberg, Mrs. R. W. Greenleaf, Mrs. Harry C. Perrine, Mrs. Harper Lewis, Mrs. Robert P. Mason, Mrs. Thomas Grace, Mrs. Raymond Dowdell, Mrs. Joseph Tice, Mrs. Helmer Carlson, Mrs. Otto Douha, Mrs. A. Fahringer, Mrs. Allan Davis and Mrs. E. Robert Owen.

Record Enrollment
Of Beginning Pupils
At Public School 1

St. Mary's and Sacred Heart Schools Report Increases In Total Enrollment

A multitude of problems was created in the public schools here when they opened on Monday, and the enrollment in the various grades differed in many cases from what was anticipated.

The first grade class in School No. 1 was anticipated at 35 students, but on the opening day it was found a record class of 50 new students were starting their school careers, and it was necessary to create two classes to take care of the large number. Mrs. T. Armstrong, who had been previously assigned to the fifth grade was assigned as an additional first grade teacher, and Miss Francis Kress, who had been previously assigned as assistant science and English teacher, was placed in charge of the fifth grade, formerly taught by Mrs. Armstrong. The school No. 2 first grade class consists of twenty pupils.

In the high school also, it was necessary to rearrange the schedule because of the number of pupils. The total high school enrollment this year numbers 304 pupils, with the freshman class of 62 being much larger than was anticipated. The tenth grade class is also much larger than was anticipated, with 64 pupils enrolled. The eleventh grade class numbers 37, and the senior class 49. An unusual point in connection with high school pupils is the fact that 85 percent of the pupils enrolled have selected the commercial courses, so that the science classes are much smaller than usual.

The total enrollment in the high school is 304, in School No. 1, 153 and the enrollment in School No. 2, 130.

The enrollment in St. Mary's Schools is 1039, a slight increase over that of last year. St. Mary's Grammar School has enrolled 650 and the enrollment in the high school is 383 with a freshman class numbering 103 pupils.

The enrollment in Sacred Heart School is a slight increase over that of last year amounting to 410.

Large South Amboy
Delegation Parades
At Holy Name Rally

About 400 From This City Marched at New Brunswick Sunday

Local St. Mary's Parish was well represented in one of the largest and enthusiastic parades and rallies ever held in New Brunswick, when the parade and rally of the Middlesex County Federation of Holy Name Societies took place Sunday.

About four hundred members of the local unit marched in the parade. The group, led by Monsignor E. C. Griffin, flanked on either side by his assistants, Revs. Foley, Horn and Kelsey, followed by Marshalls, John Stalte, William Lyons and John Powderly, made a fine appearance. They were followed by other members of the parish uniformly attired. There were hundreds of local persons along the line of march, who greeted the marchers. A professional band from Elizabeth accompanied the local delegation.

Postmaster Thomas E. Downs, Jr., president of the local unit, and Vice President of the Executive Federation, as a member of the Executive Committee in charge of the rally parade, with the county officers immediately following the Parade Marshal, Captain John J. Grimes was a member of the official reception committee and reviewed the parade with state and church dignitaries from the reviewing stand.

St. Mary's parish was also honored, when two of the local curates, Rev. John Hanan and Rev. James Foley, natives of New Brunswick, were selected to assist Bishop Griffin, at solemn benediction.

Two members of the local delegation over seventy-six years of age, who marched the entire distance, were Mayor Thomas F. Gleason, and former Street Commissioner John Connors, who have been members of the local unit for many years.

M. E. Church Dollar
Roll Next Thursday

A program of unusual quality has been arranged for the Pre-Conference Dollar Roll of the First Methodist Church, Thursday night in the church school room, beginning at 8 o'clock.

Dr. C. J. Culp, pastor of the Presbyterian church of New Brunswick, will deliver his illustrated lecture on "The Holy Land." Dr. Culp made an extended visit to Palestine some years ago, and the pictures he will use in his lecture were taken during this tour. He also had the opportunity during his visit to make full observation of the land and the people and has gathered many interesting facts for his lecture.

In addition to Dr. Culp, there will be a fine musical program given by the senior choir of the church and others who will take part. Refreshments will be served by the Ladies Bible Class of the church. The collectors are at work, and all indications point to this being another crowning event of a very successful year for the church.

Present Selective Service Act Recalls
Drafting of Local Men For World War

To many men of this section, the present day talk of selective draft plans and preparations being made for the naming of boards to select, examine and assign men for army service, brings to mind incidents that took place twenty-two or more years ago, with which they were vitally concerned.

About the city are many cards preserved as mementoes of the World War that notify the recipient of the classification into which he was placed, and letters that tell their recipients when and where to report for military service. Occasionally also, a registration pin turns up. These pins bore a shield and above them the word "Registered," and were worn by men to indicate they had complied with the law and had reported, and were waiting the call to the colors.

Immediately upon the declaration of war upon Germany, plans were made for the drafting of men between the ages of 21 and 35. This age limit was later raised. At the time it was announced that men would be drafted, there was considerable public agitation, since the problem of who should be selected at once was a paramount subject. To surmount these difficulties, a Jerseyman, Colonel Chas. R. Morris, of Elizabeth, known to a number of local residents, was assigned the task of devising a system that would be fair to all. By the system devised, President Wilson drew from a specially prepared box, a series of key numbers that called to service men who had been assigned numbers in that particular series.

So satisfactory was this system of selection, that upon the termination of hostilities, the provisions of the plan were written out in detail for use in a future emergency.

At first, the work of registering the men of military age, was placed in the hands of election board mem-

bers, but this plan did not sufficiently centralize authority and proved unsatisfactory in many other ways, so that the organization of a separate Board to handle the selective draft was named.

The county was broken up into districts, this city, Sayreville and Old Bridge being placed in the Third District. The mayors of each municipality were asked to suggest men to be placed on the board, one representative to be from each municipality.

Richard M. Mack, Sr., of this city, was at the time City Clerk, and he was made the secretary of the Board, and Charles Fisher, of Sayreville, was the president. Dr. S. Crandall of Old Bridge was the medical examiner. Mr. Mack, however, served a little over six months as Secretary of the Board and John V. Newton, of Sayreville, was selected as his successor.

Mr. Fisher is at present a resident of Seaside Park, N. J., and Mr. Newton and Dr. Crandall have since died.

The board sat on certain days each week at the Borough Hall in Sayreville, where men selected for service reported and were placed in various classifications.

The board functioned from the declaration of war up until the signing of the armistice, but no figures are available of the number of men who appeared before it.

So successful, however, was this system in use during the World War, and so efficient were the majority of the boards that operated under its provisions, that the system which has been devised for the forthcoming draft, is modeled after it, and it was recently announced that this city, Sayreville and Old Bridge will again be in the same district as they were during World War days.

Local Legionnaires
Prepare For Battle
At County Meeting

Expect Fireworks at Wednesday Night Session At South Plainfield

Local Legionnaires are planning to march to South Plainfield next Wednesday for one of the stiffest battles they have participated in since they laid aside their uniforms at the close of the World War, for a meeting of the Middlesex County Executive Board that is calculated to make Legion history in the County and probably in the state is slated to take place.

The point of issue is the seating of Jack Galvin, of Joyce Kilmer Post, of New Brunswick, as county commander to succeed Al Miller, of Old Bridge, whose term expired. Rivalry previously unheard of in Middlesex County Legion circles, made its appearance when the election of a County Commander took place recently, and Gavin and Carl Roos, of Metuchen, were the candidates. When Roos was defeated, the Metuchen delegates, declared Gavin, who was elected was ineligible to serve as County Commander, because he did not meet Legion qualifications for county command, since he had not previously been elected as a delegate. Standing beside the Metuchen Post in this contention, were the members of the Milltown post, while the delegates from Perth Amboy, New Brunswick, and this city contended Gavin was legally elected and qualified.

For over a month, the matter has been the major subject of Legion meetings throughout the county and the delegates from this city, Perth Amboy and New Brunswick have decided to go through with the installation of Gavin Wednesday night regardless of opposition from the Metuchen and Milltown posts.

Defense Speaker
Talks at Unity League
Meeting Monday

Harrison Wemett Was Speaker At Meeting Held At Legion Headquarters

The place the home guard unit has in the scheme of national defense was explained by Harrison E. Wemett, counselor-at-law of New York City, when he spoke at the meeting of the local League for American Unity Monday night at the American Legion headquarters.

After explaining the special work that can best be performed by a home guard unit, and also its limitations, Mr. Wemett launched into a discussion of the factors in the present crisis and cautioned against undue excitement over Communism, K. K. K. and Bund activities, pointing out that they are under close surveillance of the national government. He added, however, it is the duty of every citizen to exercise extreme vigilance and report whatever he observes which he believes merits investigation, immediately.

A general discussion followed the meeting and plans were discussed for the election of officers to take place at the next meeting.

G. O. P. CAMPAIGN
STARTED LAST NITE
BY HOFFMAN CLUB

Mason Says Present Administration Is Issuing Second Mortgage on City

With all local candidates, and a larger number of members present, the Hoffman Republican Club started off another campaign last night in Wilhelm's Hall. The inauguration of the campaign was a rather mild affair compared to the campaigns of past years, and while there was no "straight from the shoulder" punches delivered, there were a number of "rabbit punches" that will probably have their effect as the campaign wears on.

Former Mayor Charles T. Mason, president of the club, in spurring the members on to an intensive campaign, which he declared if conducted would be certain to seat the entire Republican party ticket in City Hall, declared it was "very necessary that we have a radical change in the government of this city." "Things are not getting any better," Mason declared, "and if we don't have a change, I don't know what will be next." Criticizing the handling of city finances by the present administration Mason declared that the continual issuance of city bonds will have disastrous results and he added, "If this keeps up, I don't know where we will get off." He declared that city bonds are like a mortgage on personal property, and now bond buyers are taking a second mortgage on the city, and he concluded this part of his speech by saying, "And when we smell what the money secured from these bonds is being used for, it is just that much worse." We need people with sound judgment to take care of things."

Leading up to his introduction of Robert Casey, who heads the Republican ticket, as candidate for Mayor, Mason said that maybe some might use the argument that "Why make a change now, when the family has already been taken care of?", and he added that no one need express fears concerning the actions of candidate Casey after his election, since the members of his family already have jobs.

Mayor candidate Robert Casey pledged that if elected the people of South Amboy would have a truly

Activities Renewed
At Local 'Y' After
Summer Layoff

Management Committee Will Discuss Plans Monday Night

With the customary summer cessation at an end, activities have been resumed at the YMCA here. Members of the Association look forward to one of the biggest years, in the organization's chief recreation, bowling, that it has had in a long time. Monday night the first of the leagues inaugurated another championship race and the other leagues using the Broadway alleys are falling in line rapidly.

Tuesday afternoon, the Ladies Auxiliary held its first meeting of the new term, when a covered fish luncheon was served, and a tentative fall and winter program was given lengthy consideration.

Another organization group will swing into action tonight, when the Camera Club holds its fall re-opening meeting in the association parlors.

The committee of management will hold a meeting on Monday evening, when plans will be discussed for the annual membership campaign, which will begin early next month.

W. P. A. WILL RESUME
LOCAL ART CLASSES

Local WPA Recreation Supervisor Edward Powers announced today, the resumption of the art class which met with such splendid approval among local art lovers last winter.

For the present, classes will be held once a week on Wednesday afternoons from 3 to 5 at St. Mary's Guild Hall.

Plans Are Prepared For New Six Lane
Modern Bridge Over Creek at Morgan

Surveys are completed and plans have been drawn up for the proposed new bridge to span Cheesecake Creek at Morgan to take the place of the present bridge which serves the shore highway, Route 35. The surveys and maps have been prepared under the supervision of the State Highway Department. At present there are three sets of plans drawn up for the work, but they differ only in minor details.

The new bridge is being planned to be sufficiently high to permit the movement of craft of any kind under it without interfering with automobile traffic by the raising of the bridge, as is necessary with the present structure. A clearance of approximately thirty feet from the bottom of the bridge to the water is provided for in the plans.

The new bridge will be approximately twice the length of the present bridge, which has been the means of slowing automobile traffic up considerably, since it is a two lane bridge served by three lane highways leading to it on each side. The new bridge of the girder type, will be approximately 1,000 feet long, as compared with the existing bridge, which is less than 200 feet long.

On each side of the bridge, ramps will be constructed on the north approach giving access to the Robert E. Lee Restaurant, formerly Cadys, and the Old Spy road on the west, and the ramp on the south approach giving access to the present road leading to the bridge.

The northern approach to the bridge will be on a level with the highway bridge that at present crosses the tracks of the New York and Long Branch Railroad, and the bridge will drop on a gradual slope in a southerly direction coming down to ground level south of Blodgett's Restaurant.

The proposed bridge which will be twice as wide as the present structure, will provide for six lane traffic, three lanes in each direction, and eventually, the highway leading to the bridge, will be sufficiently widened to carry six lane traffic clear through, so that "bottlenecks" will not exist near the bridge.

Also, as a feature of the plan, the relocation of Slump Creek, a tributary of the Cheesecake Creek, is provided for in the plans. This tributary is in the path of the new bridge, and if permitted to follow its present course, piers and other supports for

PIPE DREAMS

By Nick-o-Time

A Fourth Ward groceryman recently put on a wrestling bout with a big soap man. The latter, however, must be slipping in his technique, for he was afraid to let go of his opponent's hands for fear of losing the bout, so there the two of them stood holding hands like Romeo and Juliet, and you'd never think they were supposed to be engaged in some kind of contest of manly skill.

One day recently a girl got on one of the buses in Perth Amboy. The bus was going to Keyport and didn't get in that direction fast enough to suit her, so she took the case up with the driver and told him she had a date to meet a boy friend at a certain corner at a certain time, and she must be there, for she said, "If I'm not there right on the minute, he won't wait."

The driver listened patiently to her argument, then looked up at her and replied, "So he won't wait, well then you can't be such a hot number." The girl had nothing to say in reply to that one.

Three well known local men got into a hot discussion Saturday night, while standing in front of a Stevens avenue store that threatened to break up their friendship of many years standing.

It came about when one of them ventured the opinion that the shore front was the most vulnerable spot in town in the event of invasion by a foreign power. The others each had a different opinion about the most vulnerable point, with the result that in raising their point they raised their voices and anger toward the others for their arguments.

Apparently he who argued about coming through Melrose after landing on the Sayreville shore and organizing and hiding in Stevensdale, had the better arguments.

There apparently is little more musical harmony in the makeup of the members of the council, than there is inclination toward political harmony.

At a meeting some time back, they decided the tones of "Bessie," the fire whistle were too harsh and adjustments should be made to make the whistle more harmonious.

Since nothing has been done to date, we take it the right combination of notes that they might class as "harmony" have not been discovered yet, or is it that there is no harmony among the council members concerning harmony in the fire whistle.

Next week there may be an exciting lodge meeting in town, because one who is known organization is doing considerable recruiting for members in the ranks of another organization, and there may be fireworks because the first organization doesn't want to give the impression that it is affiliated with the other one, although those who suspect the secretary of the first organization is a big shot in the organization objected to, are entirely correct in their suspicions.

It used to be that the bus drivers knew all the women along the bus line, and all the women who rode on the buses, but apparently now-a-days, they are ambitious to cover more territory.

One of them, the lad who looks sideways at the brunettes when they get in his bus, but leans towards and smiles at the blondes when they get in, now-a-days hands notes to a girl who works in a store near the end of the line. The girl delivers the notes to the married woman in Ford's, and the next day delivers the reply note to the bus driver.

The famous bus mechanic turns out also to be a dentist. The other night he had a relative visit him and the relative was wearing a loose tooth around in his mouth but was afraid to pull it.

The bus mechanic figured pulling a tooth must be something like taking a spark plug out of a bus motor, so he went to work and yanked the tooth out, and although he lives right next door to a gas station, the mechanic used no gas for the tooth pulling job.

The other day a woman named Mary, who is the housekeeper at an upper David street home had a little spare time on her hands and began back fence talking with a neighbor, also named Mary.

The second Mary invited the first Mary into her home to do some sit down visiting and partake of refreshments, and when they came out they saw the children riding around on bicycles and took them away from the children and began riding them themselves.

They took the bikes away from the kids and began riding them after they had the refreshments, and they claim the refreshments were only ice cream. If that's so, we hope they never get any stronger refreshments, or they will reach up into the sky and shake the aviators out of airplanes passing overhead.

The boys on the "Hill" are spending a lot of time these days planning on the kind of a liar's medal they will give the famous bachelor who was never fooled by anything but a parrot.

His latest series of lies is based on his recent adventures at Atlantic City and the salt air seems to have greatly improved his technique.

He went to Atlantic City for a vacation, because he thought he should have one after pitching for the single men in that annual Married-Single Men's game played recently by the Hillmen. The bachelor thought he was due for a vacation in Atlantic City, since, according to him, the rest of his team took a rest on the ballfield during the game, and that's the reason they lost.

However, we have our own theory about the reason for his trip to Atlantic City. We believe he was investigating the possibilities of the

You know, there have been whispers about City Hall that there is a romance building there and the famous bachelor is the man in the romance. Upon investigating, we find that the young lady supposed to be the other person in the romance, was also to Atlantic City recently. Could it be they have deferred wedding plans until they both find a place that suits them for the honeymoon, and each of them went down to Atlantic City to look the place over?

You remember that poem, "The Shooting of Dan McGrew," that tells about a guy walking into the gin mill up on the Hill in our town. Two well known girls were in the tavern, when in walked another one and threatened to whip the two of them for one of those things that the women folks get real angry over.

The fat bartender on duty that night was all flustered and was afraid of what might happen, so he did the same thing they did the night Dan McGrew was shot up in Alaska—he closed the place for the night.

Those who know what is going on around town have made their plans for next week so that they will have Tuesday night free to attend the council meeting, which may turn out to be mighty interesting for spectators.

Right now, this town like any other town, has a lot of people who have returned from vacations, but are not telling all that took place during the vacations.

For instance, there is the tall brunette in town, who works at a good job in New York City, who is telling what a wonderful time she had in Atlantic City during her vacation. However, she spent the vacation right in New York City, but because of the other three people who were also on vacation at the same time with her, she is not telling where, and with whom, she spent her vacation.

And there is also a lad who had a lot of fun on his vacation, which was spent at Lakewood. However, when a dumb stunt he pulled. He got a great deal of satisfaction out of telling people he was a big shot in this town, because he was the son of a big politician here.

However, he never stopped to think this politician never had any children and knows a number of truck drivers, one of whom told him he had an account for a firm with offices in a famous New York City building, and as a result the story got out.

UP AND DOWN THE ALLEYS

By JOE KERR

When the various sport seasons come to an end it is the usual procedure to select a combination of the best players in the respective league with the intention of forming a so-called "dream team."

Being no exception to the rule, we do hereby and forthwith take it into our hands and upon ourselves to give our version of a lineup we consider tops. Of course we don't expect everybody to be in agreement with our selections, but whine it cares?

Yessir, here's our setup on an all-league softball team, chosen from the WPA Softball Loop—with comments on why and how.

1st base—Joe McCarthy of Jeromes. Southpaw. Devil-may-care type. Fair hitter of slugger type. Better fielder. Steady.

2nd base—"Bully" Budniak of the Hearts. Rightie. Hitter O. K. also O. K. fielder. Fast. Plenty noisy. 3rd base—"Rummy" Ziobro, of the Hearts. Rightie. Best and most valuable ball player in the league. Combination of good hit, good field, good run, good head.

Shortstop—Tom Fitzmorris of Georges. Rightie. Best place hitter in loop. Fairly good fielder. Left field—Joe Crowe of Jeromes. Rightie. Elected unanimously. They ain't nothin' gets past him. Can use the stick too.

Centerfield—Mike Carroll of Georges. Rightie. Led league in batting most way. His good hitting main factor, overshadows fielding and footwork, which are quite O. K. Noses out "Smoke" Ifrankski, main reason for Parish Club being in playoffs.

Rightfield—Bob "Ace" Clark of Jeromes. Leftie. He's ace on the speed and fly catching. Slugger. When he hits 'em they ride.

Shortfield—"Spats" Bloodgood of Jeromes. Rightie. In a tossup with Frank Chonsky. Fair cloutier. Better on defense.

Catcher—John Coan of Georges. Rightie. Sparkplug of the works. Our idea of how a backstop should act. Very fast. Fair bat.

Pitchers—Al Lagoda of Hearts and Dewey Dwyer of Georges. Rightie and Leftie. Best in town.

Manager—Carl "Pat" Dugan of Zdanewicz Association. Better known as "Lippy Leo." Pat knows the game and its rules. Whenever he gets mixed up in one of these explosive arguments 'y can be sure Pat can back up his assertions—with more statements, of course. He's also endowed with that "never say such" spirit which is just about two-thirds of anything. As for the utility men on the outfit, well leave that up to Mr. Dugan. (You're welcome, Pat).

So there 'y are, you mugs, that's our opinion of the best team in town. No doubt, we may (and expect to) hear the argument that these are not the twelve best men in the league. Granted. But they are the best men qualified to play at the position they fill, and with the exception of Budniak and Fitzmorris, who can both alternate at 2nd and short with equal ability, the rest of the boys, to us, are tops in their spots.

There'll be action aplenty when that citywide Class A bowling league gets going. The loop, if ya don't know, will be made up of at least eight teams, all loaded up with the cream of the crop of this hamlet's teglers. The plan is to secure two teams from each of the town's four bowling estates, playing each other on a home and home basis.

Most important part of the affair will be the size of the prize list. Said list to hit up around the 4 C mark. The team copping first money will also be fabled champs of the city.

Bowling Burps: "Tavern League" would be more appropriate as a name instead of the "Community League," down at the Y, judging from the amount of thirst-judging emporiums represented.

All youse guys who finger on hitin' "300 games" this year will be happy to hear this: Eluzerne ball-makers of Trenton, are offering a pill for each perfect score hit—now get it? Get it? Get it?

Highest game yet this season is G. Thomas' 268 at the Y last week. Rolling on the two new lanes, Gene got himself a four-timer, missed, and then went all the way.

Speaking of that loop: Keep yer eye on John Budniak of Zolls; he's a comer, and coming fast.

Folksies, we're sad, yea and verily, 'Cause they tell us that our ole pal "Sinky" ain't got a scent to his name! Sniff, sniff!

RAILROAD BOWLING CHAMPIONSHIPS AT CANTON, OHIO

At a recent meeting of the Pennsylvania System YMCA secretaries at Jannetia, L. I., it was decided to hold this year's system bowling championship matches at Canton, Ohio, instead of at Philadelphia, as heretofore. The roll-offs will take place on Saturday, March 8th.

At this meeting, the new president of the Secretary's group, James A. Wooten, of Altoona, Pa., presided. He succeeds Paul Milburn, local YMCA secretary, who formerly headed the association.

SOFTBALL PLAYOFFS TO START SUNDAY

Competition in the local WPA softball league was at a low ebb this week due to the inability of the playoff teams to reach an agreement on playoff dates.

As the schedule stands at present, the Jerome's-Gus George game will be played Sunday morning at 11 o'clock at St. Mary's field. The winner of this game will then meet the winner of the Catholic Club-Parish Club game for the second half championship.

Crawl on Knees

Women in the Fiji Islands crawl on their hands and knees when men are at leisure inside the house.

Newark Bears Prepared For Title Play-Offs

Will Meet Either Baltimore or Jersey City in First Round

The seventh annual International League Governor's Cup series will open Tuesday night at Ruppert Stadium, Newark, the Bears having set a record by qualifying for the seventh straight year. Newark's first round opponents in the playoffs will be either the Jersey City Giants or the Baltimore Orioles, whose battle for third place may not be decided until Sunday, the final day of the regular season.

However, it is definite that the first two games of the series will be played at Ruppert Stadium since the club finishing highest in the percentage standing has the choice. While the Bears who are in, entrenched in second place, are meeting the third place club the permanent winning Red Wings will be meeting the fourth place club at Rochester.

Following the first two games of the respective series at Newark and Rochester the scenes will shift to Jersey City and Baltimore for the next three games. If more games are necessary the clubs will move back to the opening scene to play until one club wins four out of seven. The two winners will then meet in the final round with the winner of that series opposing the American Association champion in the Little World series.

JUNIOR TOUCH FOOTBALL HERE

The City WPA Junior Touch-football league will begin this coming Monday, announces Recreation Director Tom O'Leary.

Something new in local circles in the line of sports, the fast-moving, action-packed game is expected to go over with a bang. The league will be made up of at least six teams, with six or seven men to the squad. O'Leary stated that his first intention was of starting a senior as well as a junior loop, but after a careful and prolonged canvass of the prospective participants for the purpose of securing entries, he found the response from the older lads very discouraging.

However, Tom tells us that his plan of a senior loop is still open, and if enough of the boys can get themselves interested, he'll start the ball rolling.

JOE KERR.

COMMUNITY LEAGUE STARTS AT Y. M. C. A.

Last Monday night marked the opening of the YMCA Community League. Being the first of the town's many loops to get started, the initial performance of the leggers concerned was viewed with much interest by a sizable crowd.

The Community league, as of yore, is composed of 12 teams; and the workings the same as last year, with the squads rolling on a three cycle O'Shaughnessy playoff basis. Most of the previous season's teams are again represented, with a new face or two. In fact, in an effort to keep the loop opening in the same satisfying and successful rut, the same officials were elected to carry out their respective duties. Edward J. Kelly and Geo. A. Mochen being again appointed to the president and secretary posts.

The league has gained the reputation of being the most-spirited and noisiest affair around, and if Monday's opening can be used as any sort of a gauge, then the lads can be sure that their rep still holds. If not more so.

JOE KERR.

DESANTIS A. A. WILL MEET HOFFMAN A. A. HERE TOMORROW

Tomorrow afternoon at 1:30 P. M. at the City Stadium the DeSantis A. A. will meet the Hoffman A. A. in a double header in a three game series of playoffs to decide who will enter in the finals in the Inter-Borough League.

Sunday the teams met in the first game of the series at Perth Amboy, when the DeSantis clan scored a 6-3 victory over the losers from across the river.

In Two States

DIAMOND DUST

Editor's Note: The opinions expressed here are those of the writer and do not necessarily agree with those of the management.

A paramount production of base hits exploded about McWilliam Stadium Sunday afternoon, when the DeSantis A. A. trounced the Hoffman A. A. of Perth Amboy, in the first tilt of the three game series of the Interboro League playoffs.

Excellent pitching in the clutch by Ted Winegar spelled victory for the local nine. And from watching Winegar twirl Sunday, its pleasing to note that the former Governor star finally discovered that pitchers win games by using their head instead of depending solely on the strength of their arms.

Here are a few instances of Winegar's superb pitching when a base hit spelled doom. In the fourth inning, Winegar, rival first sacker, doubled with none away, went to third on a passed ball and failed to score.

On another occasion, Perth Amboy had men on first and second with no outs and Winegar held them scoreless.

Highlights of the DeSantis-Hoffman game: Joe Crowe's catch of Sam Marsicano's hard drive in the first inning was the most superb catch of the season. The game was an interesting affair although dulled at times due to the fact that there was a constant delay because of the lack of baseballs. At one time during the game there was such a lengthy delay because of the shortage of baseballs, Ted Winegar walked from the mound and sat in the dug-out and donned his pocket to await the return of the foul balls.

The youngsters who pilfer baseballs in Perth Amboy are much superior to our local ball thieves. In Perth Amboy the lads are very inconsiderate. They don't even leave a ball to finish the game. They believe in the old adage, "Get them while the gettin's good."

The thorned bushes caused many a mishap to the outfielders on both sides. Every outfielder who went to the fence for a drive came up with scratches. Pat Mola, Perth Amboy High School's famed left handed twirler, informed yours truly that he will play baseball in the Eastern Shore League next season.

The Hoffman A. A. are giving the excuse that the reason for their defeat was largely due to the fact that the team was celebrating the night before after clinching the city league pennant in Perth Amboy. They claim that they'll beat DeSantis before the sectional playoffs are terminated.

Sam Marsicano's nasty remarks to the umpire before the game time was anything but gentlemanly. Giving credit where credit is due, this corner must admit that Adam Jaglowski, of Perth Amboy, who was at shortstop outplayed our own Alfield. Clark, both in hitting and fielding. He handled twelve assists without an error. But Alfield Clark also made a beautiful stop at a ground ball behind second base.

Bill Ryan was the hitting star of

Firemen Will Plan For Bowling League At Meeting Tonight

Will Hold Session In Protection Engine Company's Headquarters

Tonight at eight o'clock, a meeting of all members of the fire department to make plans for the organization of a department bowling league will take place. Refreshments will be served.

Arrangements have been made to roll games in the league on Thursday evening's at Brennan's alleys, when the firemen will have exclusive use of the lanes.

CHARLIE MILLER CHAMPION RACER AT UNION SUNDAY

With the New Jersey Championship crown on his head and a rich bounty called away in the bank, Charlie Miller's youthful Liden, N. J. daredevil, will be out to repeat his sensational features event victory in the titular program last Sunday at the Tri-City Stadium, when the midget auto racers gather for another card of speed at the Union, N. J. racing plant this week.

Miller is expected to have a hard time of it trying to take two main event wins in a row, a feat only one driver has accomplished this season. That driver was Lyle Dickey, but he did not have the stellar fields to contend with that Miller has been matched against. In the past few meets every ranking driver in the East has competed at Tri-City in their mad quest for gold and glory. With the Miller start heats, a driver of Miller's calibre must start from scratch position at the rear of the field and fight his way up thru heavy traffic to register a win. The skillful handling of his Elto powered mount earned Miller his last victory; but mowing down his opponents in reckless fashion is dangerous and the brilliant Miller knows it.

Post Office Schedule and Information

Listing every service facility of the local post office for ready reference for the convenience of local patrons, private businesses and industries, the following schedule prepared by Postmaster Thomas E. Downs, Jr., reveals a total of 29 mails received and dispatched daily. Ideally situated to be served by both the Central Railroad of New Jersey and the Pennsylvania Railroad the train mail service is augmented by the additional service of the Star Route between New Brunswick, South River, Milltown, Parlin and South Amboy three times daily, by truck.

Parcel post and special delivery services are provided daily except Sundays, including holiday.

F. B. I. Asks Aid Of Jersey Newspapers

Also Seeks the Calm Co-operation of the General Public

So that it may effectively combat so-called "Fifth Column" activities, the Federal Bureau of Investigation seeks the calm co-operation of the general public during the present emergency. The newspapers of New Jersey can do much to insure the proper kind of co-operation within the State.

In September, 1939, the President of the United States instructed the F. B. I. to take charge of all investigative work in matters relating to espionage, sabotage, counter-espionage, subversive activities and violations of the neutrality laws. At the same time the President requested that anyone having information concerning these matters should promptly turn it over to the nearest Field Division of the F. B. I. The New Jersey office is located at 938 Raymond-Commerce Building in Newark. Its phone is Market 2-5511, and the office is now open both night and day for the convenience of the public in reporting complaints.

The need for such co-ordination of the national defense work is evident when we consider that espionage and sabotage activities are not local in nature. A few facts may seem insignificant indeed when investigated by local authorities, and consequently may be disregarded as mere idle rumors. When these bits of information are checked in the files of the F. B. I., however, they may assume a much broader significance and may in fact be the missing links in a huge espionage plot in an entirely different section of the country. Frequently time is of the essence in these matters, and all complaints should be reported promptly.

The newspapers of New Jersey can render a valuable service by impressing upon their readers the need for calm, orderly procedure in meeting the "Fifth Column" menace. The individual co-operation of all patriotic Americans is sorely needed today, but this should be limited to relaying information to the proper authorities. We must guard against mass hysteria and against the dangers of overzealous groups or individuals engaging in acts which are un-American in method even though patriotic in aim. There is absolutely no need for vigilante groups during this period of emergency.

During the past year thousands of communications were received from patriotic citizens offering their services and inquiring how they could assist the F. B. I. in connection with national defense work. Likewise, local law enforcement is meeting the challenge and co-operating to the fullest extent. As a result of the united effort of all, there has been a negligible amount of sabotage during the present war in contrast to a similar period in the first World War. The preventative aspect is of paramount importance in both sabotage and espionage.

Little has been published thus far of the activities of the F. B. I. in carrying out its responsibility of co-ordinating the handling of information regarding espionage and sabotage violations, and for the patriotic consideration the newspapers have shown in this regard real Americans are profoundly grateful. With continued co-operation of this type the newspapers of New Jersey as well as those of the entire nation will be rendering a real service to our country.

U. S. Gets \$50

The nation recently acquired a new "unknown"—this time an unknown contributor to the "confidence fund."

Legislators Endorse Monmouth Press Flight Scholarships

Defense Show Will Feature the Latest Types of Aircraft

The air defense show being sponsored by the Monmouth County Press Association to raise funds for flight scholarships for County high school students, has been endorsed by Representative William H. Sutphin, U. S. Senator W. Warren Barbour, and Governor A. Harry Moore. It has been announced by Harold M. Canning, chairman of the committee arranging the event.

The event, which will include an exhibit of the latest types of airplanes manufactured in the United States, contests for amateur pilots and parachute jumps, will be held at the Red Bank airport from 9 A.M. to 8 P.M., September 22.

Representative Sutphin, writing to Mr. Canning, said: "I am heartily in favor of your projected plan to raise funds with which to finance flying instructions for Monmouth County high school students. You may be sure that if any occasion arises in which I may be of help to you in any way, my services will be at your disposal."

Co-operating with the press association are the Red Bank airport, Asbury Park airport and the Jumping Brook Flying Club. Pilots from these fields will compete with each other in exhibition flying for a gold cup to be awarded by the association. All flying clubs in New Jersey, Pennsylvania, New York and Connecticut have been invited to send members to New York.

Approximately 5,000 persons are expected to attend. The money raised will be turned over to a committee made up of Monmouth County high school superintendents who will administer the spending of it in accordance with Civil Aeronautics Bureau regulations.

ONE PASSENGER CAR FOR EVERY 4.9 PERSONS IN NEW JERSEY

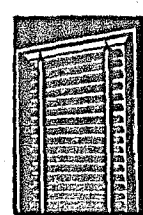

There was one passenger car for every 4.9 persons in New Jersey last year and the State ranked eighth in motor vehicle registration according to the Automobile Manufacturers Association's latest edition of "Automobile Facts and Figures."

Following were the passenger cars and trucks registered and the population per passenger car in the State's six largest cities.

The edition also furnishes some interesting data on the subject of school buses. A total of 468 schools used buses for the transportation of children, 1,561 buses were used, 92,712 children were transported daily and the total cost of the service was \$2,157,445.

The number of publicly owned trucks and passenger type vehicles in the State was 13,590.

JEDDO-HIGHLAND The Aristocrat of Anthracite

Our Jeddo-Highland customers have learned a good deal about coal. They may have once called up a coal dealer and asked for "a couple of tons of hard coal." But not any more. For while all coal may look alike, it's a different story in the heating plant.

It's the carbon in coal that makes the heat and Jeddo-Highland is practically pure carbon. Our customers found out that it's the cheapest coal to buy because a ton lasts much longer.

Why don't you order Jeddo-Highland today?

Deer Gets 'Jag'

A deer with a "jag" created a hitherto unknown brand of excitement at Kernville, Calif. The young buck went berserk after eating grass on which a property man with "Hidden Gold" had spilled alcohol. While Hollywood and Los Angeles have been enjoying a stretch of summer weather, Kernville is having its first taste of winter. It is so cold in the mountain location that automobile radiators have to be treated with anti-freezing liquid. It was while serving Boyd's car that the prop man inadvertently saturated the grass with the intoxicant.

SHERIFF'S SALE

In Chancery of New Jersey
Between Allard B. Ervin, Complainant, and John Winkler, et al., defendants, Pl. No. 10, for the sale of mortgaged premises dated August 9, 1940.

By virtue of the above stated writ, to me directed and delivered, I will expose to sale at public vendue on WEDNESDAY, THE EIGHTEENTH DAY OF SEPTEMBER A. D. NINETEEN HUNDRED AND FORTY

at One o'clock Standard Time and Two o'clock Daylight Saving Time in the afternoon of the said day at the Sheriff's Office in the City of New Brunswick.

All the following tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the City of Perth Amboy, in the County of Middlesex and State of New Jersey.

FIRST TRACT: BEGINNING at a point on the Western side of Cortlandt Street, distant Northerly from the intersection of the same with the Northwesterly line of Cortlandt Street 175 feet; running thence Westerly at right angles to Cortlandt Street 100 feet to a point; thence Northerly on a line parallel with Cortlandt Street 25 feet to a point; thence Easterly on a line parallel with the first described course 100 feet to the Western side of Cortlandt Street; thence Southerly along the Western side of Cortlandt Street 25 feet to the point or place of BEGINNING.

SECOND TRACT: BEGINNING at a point on the Western side of Cortlandt Street, distant Northerly from the intersection of the same with the Northwesterly line of Easton Street 150 feet; running thence Westerly at right angles to Cortlandt Street 100 feet to a point; thence Northerly on a line parallel with Cortlandt Street 25 feet to a point; thence Easterly on a line parallel with the first described course 100 feet to the Western side of Cortlandt Street; thence Southerly along the Western side of Cortlandt Street 25 feet to the point or place of BEGINNING.

Being the premises commonly known and designated as No. 717 Cortlandt Street, Perth Amboy, N. J.

The approximate amount of the debt to be satisfied by said sale is the sum of Three Thousand Three Hundred Sixty-Eight Dollars (\$3,368.00) together with the costs of BEING.

Together with all and singular the rights, privileges, hereditaments and appurtenances thereunto belonging or in anywise appertaining.

JULIUS C. ENGEL, Sheriff.
Harry C. Brown, Collector.

37-53-62. L. H. FETTER, Treasurer.

This Winter Have Both...

—plenty of good hot water at low cost

Install a modern automatic gas water heater in your home now. It will maintain the hot water supply at very little cost—only a few cents a day! You will get abundant hot water; no running lukewarm or cold, no waiting.

Ask Public Service for an estimate of cost based on your hot water usage. A modern automatic gas water heater may be purchased for as low as \$49.50 cash installed, less liberal trade-in allowance for old water heater. Terms if desired.

—a good warm house

Use your furnace 100% for house heating—as it is designed to do—and let a modern automatic gas water heater take care of the hot water supply.

When the extra "load" of heating a boiler of water is saddled on the furnace, by means of a furnace attachment, house heating efficiency is reduced and cost of operation is increased. (Additional fuel consumption is about 20%.)

Be comfortable this winter—use your furnace for house heating only.

MERCURY OIL BURNERS

LOOKING BACK 22 YEARS

Issue of September 14, 1918

Shortly after 6 o'clock last Sunday evening, a train load of wounded American soldiers passed through this city en route for the base hospital at Lakewood. The men were all in the best of spirits and it was their cheers that attracted the attention of those standing on the station platform.

Sub-Contractors Baker & Smith at the Morgan Landing Plant have about completed their work at that place and are making ready to remove their equipment to California. Several local men who have been working for the firm during the past month, expect to travel with the company.

On Sunday afternoon several army trucks owned by the Ordnance Department, were brought into Parlin loaded with material for that plant. The trucks were driven by uniformed men of that department, who spent the night in South Amboy.

If you would make a friend for life, just have the proper change ready (six cents) when you board the J. C. T. car in the future. The conductors of these cars are the strongest objectors to a 6 cent fare.

A special meeting of the Common Council will be held in the City Hall Friday evening for the purpose of making arrangements for the new overhead tracks that will be placed over Broadway by the artian River Railroad Company.

The Androvette Towing Company who for the past number of years, have been docking their boats at the city pier, have discontinued this practice and are now doing their docking at Perth Amboy. The office of the company which occupied the house on the end of the pier has been moved up town. For the past few years it has been this towing company which has practically kept the dock in repair.

Col. Howard S. Borden, of the Second New Jersey Field Artillery, has made a donation to the Red Cross of two finely bred horses to be sold at auction at the Inter-State Fair at Trenton. This is one of many means that this public spirited man has helped during the present war. Colonel Borden was formerly major of the Third battalion and has visited this city on several occasions.

A number of "Old Timers" were in town Thursday to register. Men who are temporarily making their homes elsewhere and wanted to be sent off with their fellow towns-men all signed up in this city.

An effort is being made in the present Liberty Loan Campaign to get the assistance of the men who have been granted deferred classifications. While a number of South Amboy boys are out on the battlefields of Europe taking their chances, these men remain at home, secure from all dangers and in a number of instances do not take bonds or only a small amount. They have been "getting away with it" long enough now, and an effort will be made to make them "come across" both with work and financial help.

Resolved, that South Amboy would have its community ambulance, the people of this city turned out in full force to the one day carnival held on Wednesday evening. The carnival was possible only through the courtesy of Father Hayes, who is in charge of St. Mary's rectory, who kindly loaned the grounds and equipment. Arrangements were not made until it was too late for any publicity in last week's edition of the Citizen, so a strenuous publicity campaign along other lines had to be resorted to.

At 7:30, the call 3-3-3 was turned on the fire alarm. This is the new mobilization call for Company F. Shortly after this, the people began to arrive at the grounds. At first things were in a great state of disorder, but military efficiency soon straightened out matters and things started to run smoothly. The affair was a great success.

Last Saturday night the people of St. Mary's Church ran off another one of those carnivals that has made South Amboy famous during the latter part of the summer. The affair was largely advertised throughout the county and persons came from all points for a good time. This was also the occasion for awarding the Ford car to the holder of the lucky number. Promptly at 11 o'clock, Mayor Kerr, Father Hayes and Mr. Charles Saffran drew the cards and passed them in turn to Father Hayes and Mr. Saffran did the announcing. The lucky number was 48 cents, being held by Louis Borden, of Fourth street.

The Rev. George W. McCombe, of Belleville, recently selected as pastor of the First Baptist Church, is expected to move to this city next week, and will have charge of the services in the church on Sunday, September 22. The parsonage has been placed in first class shape, both outside and inside, and when Pastor McCombe arrives in this city, he will find a cozy home awaiting him.

At the Tuesday night council meeting, City Engineer McMichael submitted a report on the test wells driven in this city and the report was indeed very favorable. It stated that on July 11th, Redpath & Potter had started drilling on what is known as the Conover property. Excellent results were obtained from the first well at the depth of 203 to 230 feet. At this depth there is an excellent source of sand strata. Pumping tests showed this well sufficient to pump at least 150 gallons per minute. In order to see just how much water was no this property, a second well was driven further north and at a depth of 100 feet, practically the same strata of sand was reached. The drilling was continued, as an experiment and at the depth of 205 feet rock bottom was struck. This well has practically the same delivery as the other one.

Behind the Scenes in American Business

By John Craddock
Business

New York, Sept. 12.—Most important to the country's business news is that the country's wholesale markets, after a long stretch of lethargy, have suddenly picked up speed and prices. The continuing trend to better retail sales has begun to make serious inroads on shelves of retailers, and last week there was quite an epidemic of telegrams and special letters as department stores and other merchandisers began finding their stocks actually too low. Most experts figure that this signals the end of a period of hand to mouth purchasing, and that merchants who have been holding their buyers in check because of war uncertainties may now loosen up on their inventory policies.

Chief buying movement was in cotton cloth, but woolen and worsted goods were in strong demand, too. Textile operations for fall seem almost sure to be very good. With a large amount of woolen mills' current capacity being taken by various government orders, some mills are even having to ask customers for a little extra time on deliveries.

Housing, in the small home brackets, continues at the unusually rapid pace set earlier in the summer. In August, applications for FHA insurance of mortgages on new small homes reached the third largest total in the agency's history—and were 45 per cent larger in number than for August, 1939. Last month's operations brought total small home mortgages selected for appraisal by the FHA during its six years of operations to over 1,000,000 mark. Average cost of homes in this bracket is \$4,400.

Should a war emergency suddenly confront the United States, the nation's transportation system can move an army of one million men, together with a year's supply of food, from coast to coast in ten days. So K. N. Merritt, general sales manager of Railway Express, told an audience in the Goodrich arena at the New York World's Fair upon accepting for his organization the rubber company's award for distinguished public service. To illustrate the enormity of this task, he explained that the population of a city the size of Baltimore or St. Louis is less than a million persons. The food requirements for a million armed men, as estimated by a food industry expert, would come to some 855,000 tons. Included are such sizeable items as 11,250,000 chickens, 30,000,000 dozen eggs and 45,000,000 tons of onions. Actually the job is not as taxing as it appears, Mr. Merritt declared, explaining that the railroads move more than that much freight in a single day. Railway Express carries over 150,000,000 packages a year, while the air lines, buses and railroads combined carry that many passengers every eight hours on the average.

Passenger traffic on domestic air lines in August hit a new all-time peak — for the sixth consecutive month. Nation's major carriers flew approximately 8 per cent more revenue passenger miles than in July, and 61 per cent more than in the same month of 1939.

United States Steel faces a possible excess profits tax on this year's income of approximately \$7,500,000, according to John L. Sullivan, assistant secretary of the treasury. Chemical industry has plans for very greatly increasing the national output of nitrogen for use in high explosives.

Child Refugees Met by Marshall Field

Left: Marshall Field, chairman of the committee for the care of European children, gets acquainted with Gwendolyn Kell, 6, of London, and Geoffrey A. Newbold, 6, of Middlesex, as the children arrive on the Samaria. Homes are available for them, and according to all indications, they were happy because of the hospitality extended to them. Right: Bunks were at a premium, and at times during the voyage some of the 138 refugee children from Great Britain slept in lifeboats. Clyde and Trevor Davies (shown) are so doing. They were sent to a home in Boston.

explosives.

Bureau of Agricultural Economics says that present indications point to a mandatory loan of 61 cents a bushel on corn this fall under the Agricultural Adjustment Act.

Ground has been broken at Glenn L. Martin airplane factory in Baltimore for an addition which would more than double bomber production—the plant is now turning out three large bombers a day.

New Dodge Fluid Drive Cars Are Announced Here

Raritan Bay Motors Explains Workings of New Models

"If there were news of an automobile that would run without having any engine; it could not provoke much greater interest than the announcement, made a few days ago, that 1941 models of Dodge cars will be available with the Fluid Drive," says Charles Straub of Raritan Bay Motors, Inc., Dodge dealers of Main street and Stevens avenue, this city.

"Ever since the release of that information we have had a veritable deluge of inquiries regarding what the Fluid Drive is like, how it operates, why it is an improvement over the conventional drive and, of course, how soon new Dodge models will be here for local inspection and trial.

"Fluid Drive is one of the things that are difficult to describe in words; one must experience it by seeing and feeling the marvelous improvement it makes in the way the car handles and acts.

"Basically, the Fluid Drive is a drive through oil, with no fixed mechanical connection between the engine and the rear wheels. The oil does it better than it could be done through any fixed coupling. Some of the things that can be done with the Fluid Drive are almost uncanny. For one thing, it makes driving

almost unbelievably simple. It enables you to drive all day under average conditions without touching the gearshift or the clutch pedal. You start, stop, then start again, all in "high". Think of what it means to drive a car with that kind of alloy, smooth performance! And you slip out of soft mud and ease out of snow heaps where formerly it took a tow car to free you.

"On hills you can slow down to a mile an hour without stalling the engine. Going downhill, the engine acts as an efficient brake through the Fluid Drive. With all of it, there is nothing new to learn about operating the Fluid Drive Dodge; it is simply much less work at the wheel and at the controls.

"While the Dodge Fluid Drive is undoubtedly the most dramatic of the advances found in the new 1941

NOTICE OF BIDS

Bids will be received at the regular meeting of the Board of Education on September 25th, 1940, at 8 P. M., Daylight Saving Time, for the following materials:

OIL
50,000 gallons, more or less of No. 4 Fuel Oil; Four Point; below 0 degrees Fahrenheit; Viscosity maximum 75 seconds at degrees Fahrenheit; Flash Point; maximum 200 degrees Fahrenheit; Gravity; minimum 24 degrees Baume; Carbon residue; maximum 1-4 of 1%; Sulphur; Maximum 1%.

COAL
50 tons, more or less, of fresh mined, buckwheat white ash coal.

Such fuel to be delivered during the present school year at such times and in such quantities as may be needed.

The Board of Education retains the right to reject any or all bids.

LEILA L. NEILL, Secretary.

9-6-25

Polish sailors on destroyers serving in the British navy now prefer gin to vodka because it is less fiery. So they have evolved a "pin gin" of their own. It is drunk neat with a couple of dashes of red pepper, instead of hitters.

ORDINANCE NO. 416

An Ordinance Authorizing the Construction of Street Improvements in the City of South Amboy, providing for the payment of the Cost Thereof, and providing for the Assessment of Part of the Cost Thereof Against the Lands and Real Estate Specially Benefitted Thereby.

WHEREAS the Works Progress Administration of the United States of America has offered to aid in the construction of the improvements described in Section 1 (a) hereof by a grant of money, and the City of South Amboy has accepted of the offer, and the construction of the improvements described in Section 1 (b) hereof by a grant of money, labor and/or materials in the amount of \$6,718;

NOW, THEREFORE, BE IT OBTAINED BY THE COMMON COUNCIL OF THE CITY OF SOUTH AMBOY:

Section 1. Pursuant to the Provisions of Chapters 49 to 56 of Title 40 of the Revised Statutes of New Jersey and other applicable laws, there shall be constructed by the City of South Amboy the following improvements in said City:

(a) The improvement of the following streets in the City of South Amboy by the laying of concrete sidewalks thereon:

John Street, Mason Avenue to Rosewell Street.

Portia Street, Stevens Avenue to Pine Avenue.

Main Street, Thompson Street to Feltus Street.

Wilnot Street, Ridgeway Avenue to West End.

Alpine Street, Wilnot Street to Railroad Street.

George Street, Pine Avenue to Feltus Street.

Leonia Street, Pine Avenue to Feltus Street.

First Street, Broadway to Railroad Street.

Fourth Street, Potter Avenue to Stevens Avenue.

Potter Street, Fifth Street to Main Street.

Thompson Street, Fifth Street to Main Street.

Fifth Street, Thompson Street to Stevens Avenue.

Center Street, Elm Street to Feltus Street.

Congogue Avenue, Main Street to Bordertown Avenue.

Campbell Street, Dayton Street to Congogue Avenue.

Catherine Street, Congogue Avenue to Bertram Avenue.

Robert or Thomas Street, Bertram Avenue to Congogue Avenue.

Feltus Street, Portia Street, Southernly End.

Parker Street, Bordertown Avenue to South 900 feet.

Weish Street, Main Street to Washington Street.

all in accordance with the plans and specifications drawn and prepared by Karl H. Wilber, Civil Engineer, and heretofore approved and filed in the office of the City Clerk.

(b) The setting of bluestone sidewalks on the following streets in the City of South Amboy:

Main Street, Stevens Avenue to Broadway.

Second Street, Stevens Avenue to Broadway.

First Street, Stevens Avenue to Broadway.

Broadway, Main Street to Presbyterian Church W. side.

Broadway, E. side Bordertown Avenue to Gordon Street.

Broadway, E. side Bordertown Avenue to Gordon Street.

Bordertown Avenue, Stevens Avenue to Broadway.

Augusta Street, Broadway to Stevens Avenue.

David Street, Broadway to Stevens Avenue.

Augusta Street, Mason Avenue to Rosewell Street.

all in accordance with the plans and specifications drawn and prepared by Karl H. Wilber, Civil Engineer, and heretofore approved and filed in the office of the City Clerk.

Section 2. That the improvements described in Section 1 (a) shall be financed as follows:

\$3,000 from the budget appropriation contained in the 1940 budget of the City of South Amboy for said purpose and

\$6,128 from the proceeds of an emergency appropriation heretofore made by resolution of said Council, together with the share of the cost of said improvements to be contributed by the Works Progress Administration of the United States of America in the sum of \$19,845.

Section 3. That the improvements described in Section 1 (b) shall be financed as follows:

From the budget appropriation of 1940 in the sum of \$913, together with the share of the cost of said improvements to be contributed by the Works Progress Administration of the United States of America in the sum of \$9,718.

Section 4. That the sum of \$10,203, together with all amounts received by the City of South Amboy as a grant for the construction of the improvements authorized in Section 1 hereof from the Works Progress Administration of the United States of America, be and the same, in so far as may not have been heretofore appropriated, be and the same are hereby appropriated for the purposes stated in Section 1 hereof.

Section 5. That the cost of the construction of the improvements described in Section 1 (a) hereof in an amount not exceeding the sum of \$7,023, shall be assessed against the property specially benefited by the construction of the concrete sidewalks on the streets referred to in said Section 1 (a). Said special assessments shall be made and levied in the manner provided by law upon any land or real estate benefited by the construction of said improvements, which special assessments shall in each case be as near in proportion as possible to the particular benefits, advantages or increase in value which the respective lots or parcels of land and real estate legally liable to such assessments shall have received by reason of such improvements, and in no case shall such special assessments on any lot or parcel of land or real estate exceed in amount such particular benefit, advantage or increase in value.

Section 6. Notice is hereby given to all owners of land and real estate on the streets named in Section 1 (a) legally liable for the special assessments authorized by this ordinance, of the intention of the City of South Amboy to make and levy such special assessments in the manner provided by law.

Section 7. This ordinance shall take effect upon its passage and approval and publication in the manner provided by law.

NOTICE

The foregoing ordinance was introduced and passed first reading at a meeting of the Common Council on the 3rd day of September, A. D., 1940. It will be considered for final passage at a meeting of the Common Council at the City Hall on September 17th, 1940, at 8 P. M., Daylight Saving Time, at which time all persons having objections thereto are hereby notified to be present and present same.

G. FRANK DIBROW
City Clerk.

ARE WE RESEARCH MINDED?

Is the United States sufficiently conscious of the importance of industrial research? Do we in this country appreciate the tremendous stake we as individuals possess in the endless work that is going on in hundreds of industries all over the country to improve existing products and find new ones?

We'd answer the question affirmatively, and without the slightest hesitation, after hearing about something taking place at the du Pont New York World's Fair exhibit. The folks there have been asking visitors all over the country to tell what new products they'd like to see invented. And the answers reveal an extremely serious interest in the subject on the part of the typical American.

The greatest number of people—about one out of every four—hoped for more new medical developments to check diseases now called incurable.

Longer-lasting fabrics and materials were second on the list. And third came new developments in food production.

In all these fields, industry has already made tremendous strides and day to day advances are to be expected.

Of course a handful of facetious individuals asked for a method of disposing of used razor blades. Americans have a sense of humor, and it's one of their most commendable traits. But above and beyond that, the great majority have a profound recognition that they can depend upon industry, and upon industrial research, to bring them the same gains in comfort and pleasure that these "forces for better living" have brought them in the past.

ABOUT THESE MACHINE TOOLS

The public demands utmost speed from government and industry in their current job of providing this country with sufficient equipment to meet its national defense needs. When the public hears reasons advanced for delay, it wants to know the facts. And it's entitled to them.

On that account, having heard frequent mention of the problem our national defense industries are having with "machine tools," we decided it would be a good idea to find out more about this matter. This seems to be the story:

Of course vast numbers of machines are needed to make tanks and guns and airplanes. But did you ever consider that, before the armaments are produced, "super machines" must be put to work to make these vast numbers of regular machines? It's the opposite of Dean Swift's little verse about the little fleas who "have smaller still to bite 'em,

And so proceed ad infinitum!"

The super machines in question are known as "machine tools." Most of these huge machines that can cut metal like butter and shape it to desired form are enormously complicated and expensive. Machine tools can't be made in a day under any circumstances; and the increased demand for them because of the national defense emergency has made the problem of production even more complicated.

That's why there's nothing hypocritical connected with industry's statement that machine tools are causing a lot of delay and defense headaches. These delays are being cleared up as rapidly as possible. In the meantime, public understanding of the difficulties involved will be a real contribution to progress.

SOUND TALK FROM THE PAST

P. T. Barnum may have had some of the weaknesses generally credited to showmen, but he was highly successful and he ran a good circus where you generally got your money's worth. A word of advice from the man who operated the "Greatest Show on Earth" is therefore apropos at the present time.

Here's a very pithy declaration from Barnum's own lips: "Advertise, or the chances are that the sheriff will do it for you."

The great showman's estimate of the value of advertising is surely worth the attention of certain individuals, even some in high places; who are inclined to view wit with contempt. Those who argue that advertising is a waste of money forget that it sells goods widely, helps to make mass production possible, and thus in the end leads to far lower prices for the average consumer.

Barnum understood these matters. It was perhaps when he ran into folks with a contrary view that he made a second famous remark: "There's one born every minute!"

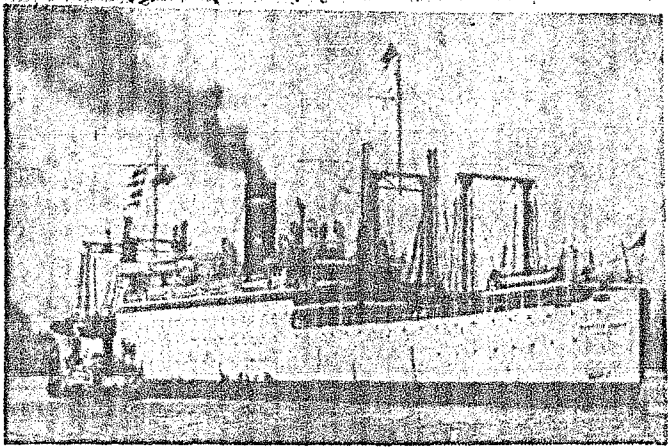

STRIKING AT THE NATION'S STOMACH

The people are willing and anxious to dig down in their pockets for the billions which are necessary to defend the United States in a hostile world of force. But the people should not be expected to tolerate unnecessary drains on their incomes. Laws which deter enterprise and artificially boost the cost of living must be relegated to the scrap heap. "Anti-efficiency" laws directed at modern distribution methods are good examples of this kind of legislative negation.

An army fights on its stomach. The same is true of nations. We are not at war. But we are fighting against time to gain the power to survive in the event that war is ultimately forced into our hemisphere. By all odds one of the most essential tasks is the low-cost distribution of food and other necessities. This is the stuff on which morale is built—and it becomes all the more important at a time when the portion of national income absorbed by government is taking a sudden and drastic rise. America has perhaps the most efficient distribution system in the world. But pressure groups have been attacking this system on the ground that it is too big and too efficient! Many states have passed laws which, in effect, make economy and efficiency in distribution a crime.

What we need today is more efficiency, not less. We need more efficiency in our people, in our industries—and in our legislative halls. Business and political groups that spend their time in irrelevant sniping at imaginary evils of some other group, right well be looked upon with favor by the fifth columnist.

Nazis 'Wash Hands' of Ship's Safety

The American army transport, American Legion, which sailed from Petsamo, Finland, recently, with 897 refugees aboard. The German government declined responsibility for the vessel's security because her scheduled course lay "dangerously near the field of military operations around England."

Renowned Thrillers Signed To Appear At Trenton State Fair

Clyde Beatty and Lucky Teller With His Hell Divers Will Appear

Trenton, Sept. 12.—Thrills galore will be offered at the New Jersey State Fair here September 22-29, with the fair's exciting program crammed with the names of such headliners of the show world as Clyde Beatty, the greatest wild animal trainer of all time; Lucky Teller, the world's No. 1 automobile stunt star, and Wilno, the "Human Cannon Ball," and many others.

Clyde Beatty is to be presented twice daily in front of the grand stand with his jungle of ferocious beasts. He will be assisted in his thrilling performance by the charming wife, herself one of the leading wild animal trainers.

Lucky Teller, supported by his Hell Divers, is to offer twenty-eight automobile and motorcycle thrillers Sunday afternoon and Monday afternoon, Sept. 22 and 23. Chief among his stunts will be his celebrated "rocket car leap," in which he will attempt to jump a regulation stock model sedan clear over the top of a transcontinental bus.

Wilno will be shot out of a mammoth cannon twice daily on the huge midway. This thriller will be offered free to fairgoers as a special, added attraction of the midway, where many exciting rides and shows will be presented.

Fall Days Demand Colorful Sports Outfits

By Jane Floyd Buck
September is a month filled with sartorial excitement. Its arrival means that one can definitely settle to the business of a new fall outfit or two and make a serious visit to the department stores. Those lovely, luscious and always flattering colors—tawny browns and yellows, mellow greens, warm reds—are at the forefront against the background of autumn landscapes. All of which adds up to the fact that it is a wise girl who includes at least one tweed suit or bright wool frock in her autumn wardrobe.

This year tweeds and bright colors are even more important than ordinarily. A good choice is a tweed jacket in a checked or plaid pattern with two skirts of different color, one a darker shade for town wear and the other in a bright hue for wear to football games and automobile trips into the country. Both velvet and corduroy are very good this year and for the younger set are being shown in suits with frog trimmed, close fitting jackets and in pinaflore type dresses to be worn with blouses.

Suits for big sister and mother have longer jackets this season and trimming details are important. Big lapels distinguish some of the smartest suits. Many of the skirts have suspender or bodice tops, the latter eliminating necessity for a blouse.

There is a suggestion of another era in some of the jersey dresses which have rib-knit bodices and front fullness. Tailored dresses are frequently cut to suggest a suit.

River Diverted
The small Pigeon River in North Carolina has been diverted into a pipe and carried eight miles through the mountains to fall 80 feet to power turbines.

John Adams Started Custom
John Adams probably started the custom of observing the Fourth of July as a national holiday. When the Declaration of Independence was signed, July 4, 1776, he said the day "ought to be solemnized with pomp and parade, with guns, bells and bonfire."

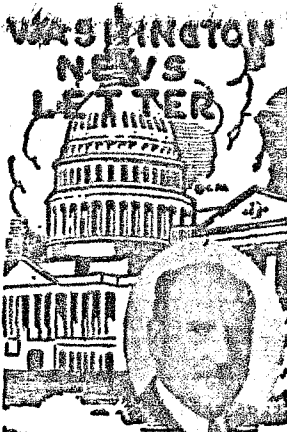

Sutphin Describes Jersey Coast As Ideal For Destroyer Bases

Would Provide Excellent Cover For Shallow Draft Boats

Washington, Sept. 12th: Speedy Naval Patrol boats skimming along the Jersey coast and using the many inlets and coves on the New Jersey shore as bases while the more potent destroyers are free to work off shore was the scene pictured today by Congressman Wm. H. Sutphin as he spoke of the part which the Garden State would play in national defense.

Sutphin, a high ranking member of the House Naval Affairs Committee, pointed out that the coast of New Jersey would provide excellent cover for the high speed shallow draft craft which the Navy is planning to put into service on a large scale.

The veteran representative of New Jersey's Third Congressional District recently was aboard one of the patrol craft and has first hand information of their characteristics. Because they draw only 5 1/2 feet of water while going at high speed he sees the inlets along the Jersey shore which are now used for pleasure craft as perfect bases from which the patrol craft can operate. One of the greatest values attached to these speedy boats in Naval circles is that they will enable the Navy to use Destroyers on operations further out to sea than is now possible while they are on coastal patrol.

BY CONGRESSMAN WILLIAM H. SUTPHIN

FIVE BILLION DEFENSE BILL

Fourteen thousand new Army planes, four thousand for the Navy, spare engines, armament, and the latest scientific flying equipment—these are only a few things provided for in the huge five billion dollar defense bill which was sent to the President for his signature this week.

Also included in the bill are funds totalling \$123,000,000 for construction at military posts. The measure is also designed to permit the start of new warships to build up a two ocean navy. It also provides funds for reserve stocks of tanks, artillery and ammunition for a second army of 800,000 men, if such a force becomes necessary.

All in all, it appears that when Congress adjourns everything possible in the way of law making will have been done to provide defenses against any combination of aggressors.

RAIL LOADINGS UP

The Association of American Railroads has reported that 52,424 more cars of revenue freight were loaded during a recent week than during the same period a year ago. This represented an increase of 7.3 per cent over 1935 and 18.6 per cent over 1938.

NO PILOT SHORTAGE

Fear that the country would some day have more planes than pilots is rapidly dwindling in the face of a great expansion in training facilities for prospective flyers.

Training establishments for military pilots are being stepped up every month as fast as stations are opened and new equipment is placed into service. It is estimated by November the Army and Navy will be turning out pilots at the rate of 13,000 yearly.

Almost as important to building up a reserve force is the great spurt in civilian pilot training. College men and women in 496 institutions of learning throughout the country are reported to be enthusiastic about

Last Wives Hold

Monday Morning For Patrick J. Conway

After a lingering illness, Patrick Joseph Conway, seventy-two years of age, died at his home, 149 Stockton street, Friday evening.

Born in Ireland, Mr. Conway was a member of the Holy Name Society of St. Mary's Church here and he was also a former member of the Protection Engine Co.

He is survived by six daughters, Mrs. Frank Bolan, of New York City; Mrs. Anna Kelly, of New York City; Mrs. William Freeman, Mrs. Elizabeth Robbins, Mrs. Norman Lacey and Miss Evelyn Conway, of this city; three sons, John and Albert, of this city; and Thomas, of Florida; also three sisters, Mrs. Mary Connell of New York City; Mrs. Martin Carroll, of South Amboy; and Catherine Horan, of Ireland; eight grandchildren; and two great grandchildren.

The funeral was held from the residence Monday morning at 8:30, followed by a solemn high mass of requiem at St. Mary's Roman Catholic Church at 9 A. M. Interment was in St. Mary's Cemetery.

The pall bearers were Edward Frank and Joseph Carroll, Thomas Conway, Patrick Horan and John Keenan, all nephews of the deceased.

Gladys S. Brock

Passes Away

Gladys S. Brock, wife of Alex E. Brock, of 112 South Broadway, died at her home Wednesday morning after a lingering illness. The deceased was born in London, England and had made her home in this city for a number of years. Funeral services will be held this afternoon at three o'clock from the funeral home of The Gundrum Service, and interment will be made in Rose Hill Cemetery, Linden, N. J.

Besides her husband, she is survived by two sisters, Mrs. Frances Carey and Mrs. Marie Holcer, both of New York City; and two brothers, John Dunn, of Long Island and Robert Dunn, of New York City.

Your Home and Mine

By Jane Floyd Buck

When you begin to freshen up your kitchen against the arrival of winter you might also treat the cook to some of the new gadgets which will make the kitchen a pleasant place to work in.

To the cutlery drawer you might add one of the new cake knives of plastic which have a series of holes caused when cutting cake with a designed to eliminate the vacuum blade. Thus, the knife will not stick, and the slices come out more even.

For the ice box storage there is a line of gaily colored utility bags of the bellows type so that they balloon out and accommodate more fruits and vegetables. There are also handy mitts of the same material, which is a thin silk treated with

If you suffer from backaches resulting from fatigue or exposure... if sore muscles or a stiff neck have got you laid up... SORNTONE is what you need. It is a medicinal, analgesic solution developed by the famous drug house, McKesson & Robbins.

SORNTONE acts fast—gives soothing relief right where relief is needed—speeds the superficial blood flow to the affected area. Also helps to prevent infection. Not an animal preparation—made for human beings. Wonderful, also, for sore, tired feet. Note trial offer.

Mail this coupon, with 5¢ in coin or stamps, to McKesson & Robbins, Bridgeport, Conn., Dept. B-1.

A new type of can opener can be attached to the wall and, unbelievably though it may seem, really makes opening a can rather fun.

In the matter of kitchen decoration there is a new line of oilcloth patterns which are amusing and colorful. One pattern glorifies the Dutch girl who chases dirt with a can of well known cleanser, and the artist has substituted a flock of geese for the dirt. Another amusing pattern depicts a kitten pursuing a ball of thread around willow bushes and another uses the state flower of each of the 48 states for a design.

VINCENT NEBUS OPENS NEW STORE

(Continued from Page 1)
of the building, Nels Deats, well known local mason, put in the foundations and Fred Fessler did the architectural drawings. Steel came from J. J. Cross, welding plant, and lumber and other materials from Miller, Bergen & Welsh, local lumber supply source.

Mr. Nebus plans on operating the new establishment with the same force of workers that have made good with him heretofore. Besides himself he is aided in serving South Amboy and vicinity housewives by Joseph Szarejko, of John street, who spends most of his time on the outside of the store serving housewives from an up to date delivery truck. Szarejko has been with Nebus Market for about fifteen years and would be a hard man to replace if anything ever happened to him. Then there is Leon Nebus, newest addition to the clerical force, in the service for about a year. If and when needed Mrs. Nebus proves a valuable help about any part of the store.

By way of launching the new establishment into the local business field, Mr. Nebus is holding the greatest sale of his career beginning tomorrow and continuing over Monday and Tuesday. There is a coincidence in the launching of the new

store with such a pleasant sale and the fact that Mr. and Mrs. Nebus will be celebrating their wedding anniversary.

Mr. Nebus is a local product all the way through. He was born here, attended the Sacred Heart Grammar Schools, worked in the store operated by Alex Pavlovski for 7 years as a clerk, which store he purchased from Pavlovski nearly sixteen years ago, continued the store at the 236, Fulton street address, married a local girl, Miss Agnes Jakubowski, of local avenue, Melrose, has a family of four boys and two girls, all living here, is active in the affairs of Sacred Heart Parish, and now plans on continuing his business actively indefinitely at the new local establishment.

A handy gadget for kitchen use is to be presented to ladies visiting the new store tomorrow so far as the available supply will go as a souvenir of the occasion.

JOEL PARKER PLANS 50TH ANNIVERSARY

(Continued from Page 1)
by Charles Komar and Sons as a factory. In 1929 the council bought the South Amboy Yacht Club, 113 present home at the foot of Bordentown avenue. The second floor of the building is used as a lounge room, and the first floor is equipped with bowling alleys and a pool table. These recreation facilities are available to the members every evening except Sunday.

During its history, the members have maintained a charity fund, which is controlled by a cheer committee. The members in a body visit the various local Protestant Churches on Decoration Day and on Thanksgiving, when special services are held in honor of deceased members. The Council also boasts of having one of the leading Junior Mechanics degree teams in the state.

The present officers of the Council are: John A. Criswell, Councilor; Frank Grob, Vice Councilor; J. L. Applegate, Secretary; Harold G. Monell, Assistant Secretary; Burk Lake, Treasurer; Nelson Saunders, Conductor; Daniel Saunders,

Warden. Fred Hage, Hilda Seidman, East Amherst, N. Y., Secretary. Alexander Brown, Jr., Past Conductor. Serrell Newman, Charles Johnson and Russell O. Martin, Trustees; Burk Lambertson, John T. Hill, Otto H. Miller and Martin Nelson, Representatives.

PLAN NEW BRIDGE OVER MORGAN CREEK

Continued from page 1

The new bridge would make it almost impossible for craft using the creek. It is proposed to close the creek along its present route and relocate it further to the west of the present outlet, at a point about in the center of the space between the existing bridge of the New York and Long Branch Railroad and the proposed new bridge.

The present bridge and roadway will be maintained until the new roadway and bridge have been completed, and it is not expected that traffic will be interrupted while the construction is going on.

At two o'clock, standard time, in the afternoon of the said day, at the Sheriff's Office in the City of New Brunswick, N. J.

All the following tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the Borough of Milltown, in the County of Middlesex and State of New Jersey.

BEGINNING at the northwest corner of Church and Clay streets, running thence (1) along the westerly side of Clay street north thirty-three degrees west fifty feet to a point; thence (2) at right angles to Clay street south fifty-seven degrees west one hundred and fifty feet to a point; thence (3) south-east at right angles to the second course, south thirty-three degrees east fifty feet to a point in the northerly side of Church street; thence (4) along the

NO SUBSTITUTE FOR CARE

There are no short cuts to perfection in compounding a prescription. The vital ingredients are fresh, pure chemicals plus skilled, painstaking caution. When your doctor specifies a combination of drugs, that combination must be prepared precisely, cleanly, expertly. We are schooled well in that field—to protect your health. When there's a prescription to be filled, use care—as we do.

WIECZOREK ZAGOTA WEDDING WAS HELD HERE RECENTLY

At Sacred Heart Church here recently, Miss Julia Ann Wiecezorek, daughter of Mr. and Mrs. Joseph Wiecezorek of David street, was married to Simon Zagata, son of Mr. and Mrs. Peter Zagata, of Sayreville.

The bride wore a gown of white satin and lace. Her tulle veil fell from a tiara and she carried a bouquet of roses and lilies of the valley.

The bridegroom's sister, Miss Cecilia Zagata, was maid of honor. She wore a gown of yellow net and lace and carried a Colonial bouquet of yellow roses.

The bridesmaids, Miss Jeanette Wiecezorek, sister of the bride, dressed in baby blue, and Miss Cecelia Wyluda, dressed in pink, wore gowns made similar to that worn by the maid of honor. They carried Colonial bouquets of pink roses, baby's breath and Delphiniums.

Frank Zyskowski served as the best man. Ushers were Walter Zagata and Stephen Janusewski.

Plant 1,300,000 trees.

This year 1,300,000 trees will be planted in the southwestern "C" bowl."

St. Mary's Church News

(Rev. John J. O'Reilly)

Extreme Unction is primarily a sacrament of the living. The sick, then, should prepare for its reception by making a good Confession and receiving devoutly the Holy Eucharist. For it must be borne in mind that the remission of mortal sin is not the fundamental object of Extreme Unction, since the ordinary means of defacing mortal sin is the sacrament of Penance.

If the sick person is able to make a Confession, this must be done since Confession is a matter of precept. It can readily be seen, therefore, that the priest should be called as soon as it is known that the illness is serious. Thus, if the sick person is conscious, he will be able to make his Confession and dispose himself for the worthy reception of the Holy Eucharist.

Then, with the soul prepared in the best possible way, the sacrament of Extreme Unction, the Last Sacrament, may be administered. The graces consequent upon its reception, the heavenly consolation it affords the dying, are of inestimable eternal value—yet they take on new meaning for the suffering person only if he can consciously realize them.

Although Extreme Unction is really a sacrament of the living intended to increase sanctifying grace in the soul, it may, nevertheless, become a sacrament of the dead, remitting grievous sins and restoring lost grace. It can and does, in many instances, supply the place of the sacrament of Penance. If, for example, a person is seized with a sudden and severe sickness that deprives him of his sight, his hearing, and his speech, but leaves him perfectly conscious and capable of making a perfect act of contrition mentally, or if a Confession already begun can not be completed, or if there has been unrevoked sorrow for sin, even imperfect contrition, then Extreme Unction supplies the place of the sacrament of Penance.

Such is the Catholic doctrine. And it is established on the words of the Apostle, St. James, who attributes to Extreme Unction the remission of sins, without any distinction between mortal and venial sins. "And if he be in sins they shall be forgiven him" (James v. 15). The form itself of the sacrament shows this: "May the Lord forgive thee whatever sins thou hast committed". That the Fathers of the Church recognized this fact is evident, for they called the sacrament of Extreme Unction the supplement, the perfection, and the consummation of the sacrament of Penance. There can be no doubt, then, that the grace of the Holy Ghost, which is signified by the sacred oil, is infused directly into the soul by virtue of this sacrament.

Not only does Extreme Unction confer sanctifying grace and destroy the remnants of sin in the soul, but it is also the source of a multitude of actual graces. For every spiritual emergency—and there are many for the dying—this sacrament provides the necessary grace. It is, therefore, a source of great comfort to the dying. It fills the sick person with a heavenly consolation, sustains him and assists him as the devil redoubles the violence of his attack. It upholds the dying person, strengthening him against despair and inspiring him with confidence in God. It gives him peace of mind and brings him finally to the port of eternal happiness.

Only secondarily and conditionally does Extreme Unction effect the recovery of health, should it be beneficial to the sick person's soul. Though it is lawful and natural for everyone to desire to recover from illness, there must be a true resignation to the will of God. One might well ask: "Of what advantage is it to recover? Since all are appointed once to die, even those healed by Christ's own touch, everyone must yield eventually to the call of death. In the final analysis, in conformity with Catholic belief, it ought to be far more desirable to be dissolved in Christ than to continue longer in this vale of tears."

Frigidaire Equipment For Food Preservation At Nebus Market

Modern Installation Was Made By Hellyer & Blanchard, Inc.

Hellyer & Blanchard, Inc., of 504 Amboy avenue, Perth Amboy, authorized dealers and service organization for Frigidaire refrigeration in Middlesex County, who sold and made the installation of the refrigeration equipment for the fixtures installed at the new Nebus' Market have been selling and installing refrigeration for the past twenty years.

During that period, this company has only handled the best quality material and the finest of refrigeration equipment as specified and manufactured by the Frigidaire Corporation, subsidiary of General Motors Corporation. In the installation of the new Frigidaire Mowing Cold refrigeration, Mr. Nebus is assured not only of the proper degree of temperature but of the four requisites of good refrigeration: namely, proper temperature, proper relative humidity, correct circulation and the cleaning and washing of the air. This type of refrigeration is possible only through the proper design of the cooling units as supplied by the Frigidaire Corporation. The coils are manufactured and designed to have a direct relation between the temperature control and the moisture control and yet maintain the proper efficiency and result in a lower cost of operation. The customer who buys food kept under this type of refrigeration is always assured of that freshness of flavor and all the tenderness which can only be kept in meats and produce by the elimination of shrinkage and discoloration. In addition to refrigeration equipment for food handlers, Hellyer & Blanchard, Inc., are also responsible for a good many of the best installations in Middlesex County in establishments where food and beverages are served and where they are produced and prepared for the market, such as dairies, bakeries, etc. Hellyer & Blanchard, Inc. are also the authorized Frigidaire air conditioning dealers of Middlesex County and are able to furnish proper air conditioning, which is also manufactured by the Frigidaire Corporation, suitable for the smallest room or the largest auditorium or assembly room.

No One at Party
When fresh corn dropped to 75 cents a hundred pounds, George Foudriat invited everyone in his neighborhood to come into his field near New Orleans and help themselves. No one came. They thought there was a catch to it.

Interior View of Nebus Market, Formally Dedicated By Gigantic Sale Tomorrow, Monday, Tuesday

ONE THIRTY CLUB OUTING TOMORROW

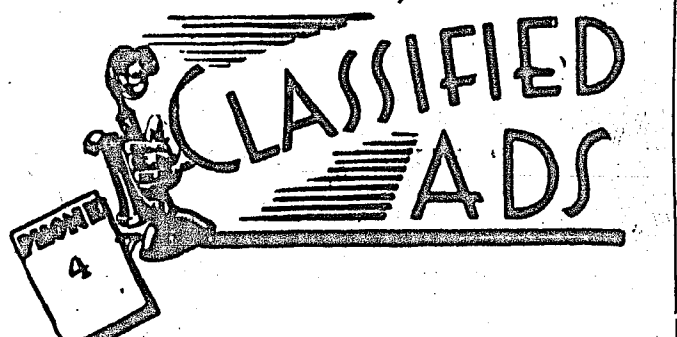

The local One Thirty Hunting Club will hold its annual bus excursion to Coney Island tomorrow night, the closing night of the mardis gras festivities at the island. Buses will leave from John street and Broadway at 6 o'clock. The committee in charge of the affair is composed of William Fitzgerald, Frank Minnick, Steve Connors and William Brennan.

Now is the time to plan for velvety green grass all summer! In early spring new grass grows rapidly and establishes firm roots to resist hot weather.

Burpee's First Lawn Grass is prepared from the highest quality seeds—pure, clean heavy, free from chaff. It contains only the very best fine-leaved and deep-rooted grasses to grow an even, thick, durable turf. Yet it is not expensive!

New "Refrigerated" Vegetable Stand Installed At Nebus's New Market

One of the most important and sanitary of all the new fixtures installed at Nebus's newly renovated market is the Frigid-Fresh Fruit and Vegetable Stand. This stand keeps fruits and vegetables as fresh as the day they are picked. The contents are kept fresh by a constantly moving bed of moist air which covers the merchandise. The stand, however, has no water sprays or doors and customers may reach in and select their merchandise at will. The Frigid-Fresh Stand also keeps flies and other insects away from the merchandise due to the cold air.

This in itself is a great sanitary improvement over other types of vegetable racks. This stand, which is the first to be installed in this territory, has gained popularity throughout the country and it is predicted that all

merchants handling fruits and vegetables will install equipment of this type in the near future. Public inspection of this and all new equipment at Nebus' is invited for those who wish to see the latest in refrigerated equipment

Coming Clean?

by Squier

WHEN CLOTHES GOT DIRTY IN THE DAYS OF "GOOD KING CHARLES," WOMEN SENT THEM TO BE DYED A DARKER SHADE—RATHER THAN TO LAUNDRY!

RAIN! MY HUSBAND WILL BE RUINED!

W.B. JEFFERSON—
COULD HAVE CONDUCTED A BEAUTY COLUMN!
JUDGING FROM A LETTER TO HIS 11-YEAR OLD DAUGHTER, WRITTEN IN 1795. HE WROTE: "WASHING IS SO DISGUSTING TO OUR SEX, AS WANT OF CLEANLINESS AND DELICACY IN YOURS."

RENAISSANCE LADIES USUALLY OWNED BUT ONE ORNATE HANDKERCHIEF—AND NEVER THOUGHT OF LAUNDERING IT!

NEW CARE! SLEEP WHEN THAT FUR KEEPS TICKLING?

NIGHTGOWNS FIRST SAW GENERAL USE AMONG THE MODERN LADIES BUT WERE MADE OF SILK, VELVET OR FUR, AND FEW EVER OWNED MORE THAN ONE AT A TIME.

...NOT SO TODAY, HOWEVER, WHEN THE SLOGAN ABOUT CLOTHES "IF IT'S DIRTY, IT'S DIRTY!" PREVAILS.

New Chevrolets on Display Next Week

William Briggs, of Briggs Chevrolet, local Chevrolet agent, advises that he expects to have a supply of the new Chevrolet cars on display the latter part of next week at the latest. New Chevrolets are being announced ready for display in all showrooms on Saturday of next week and advertising is being put out under the caption "Built to be First Again".

Mr. Briggs has no hesitation in predicting that the new Chevrolets will meet with the same degree of popularity that has boosted the line to the leadership among the lower priced automobiles for so many years.

ONLY FOUR DISEASES KILL MORE THAN AUTOS

Chicago, Sept. 12.—Which are more deadly, accidents or disease? The answer is contained in the 1940 edition of Accident Facts, the National Safety Council's statistical yearbook, just off the press.

Only four diseases—heart disease, cancer, nephritis and general hemorrhage—kill more persons of all ages than accidents. For males alone, accidents take more lives between the ages of 3 and 38 than any disease.

If you haven't voted yet, watch out! More young people between the ages of 3 and 21 are killed by accidents than by any disease.

G. O. P. CAMPAIGN STARTED LAST NITE BY HOFFMAN CLUB

(Continued From Page One)

representative government, and added that at all times the books of the city would be open for public inspection. "We make mistakes," he said, "but they will be only honest mistakes."

Richard Nelltopp, Jr., candidate for Councilman-at-Large, declared that he had a pet grievance against the present administration and if elected, there would be no petty graft in the administration of city affairs. He said there was room for a big change in the manner of administering of city business. "You all know what is going on now," he said in conclusion.

"We won't win this election unless we get out and fight," declared Richard Ryan, candidate for Councilman in the Second Ward, who said the important thing is to continue fighting for the election of the entire Republican ticket. "If we are elected," Ryan declared, "we will clean house from top to bottom."

George Hasselbacher, candidate for Councilman in the Second Ward, when he took the floor, declared, in referring to the local ticket, "We are not professional politicians, and we will give the people of South Amboy a business administration."

Pointing out the importance of a concerted effort on the part of all members of the party to secure the election of the entire local ticket, Roy Bennett, Municipal Chairman, pledged that the party will conduct a clean campaign and he declared, "We will get some of the Democrats to come along with us because we have four winners."

How One Woman Lost 20 Pounds of FAT

Lost Her Prominent Hips
Lost Her Double Chin
Lost Her Sluggishness

Gained a More Shapely Figure and the Increase in Physical Vigor and Vivaciousness Which So Often Comes With Excess Fat Reduction.

Thousands of women are getting fat and losing their appeal just because they do not know what to do. Why not be smart—do what thousands of women have done to get off pounds of unwanted fat. Take a half teaspoonful of Kruschen in a glass of hot water first thing every morning to gently activate liver, bowels and kidneys—cut down your caloric intake—eat wisely and satisfyingly—there need never be a hungry moment!

Keep this plan up for 30 days. Then weigh yourself and see if you haven't lost pounds of ugly fat. Just see if this doesn't prove to be the surprise of your life and make you feel like shouting the good news to other fat people. And best of all a jar of Kruschen that will last you for 4 weeks costs but little. If not joyfully satisfied—money back.

Rotary Club Members See Movies of Bathing Beauty Contest Tuesday

Members of the South Amboy Rotary Club sat in wrapt attention Tuesday as they watched the contestants in the recent Atlantic City bathing beauty contest parade before them in a colored moving picture. The second, more businesslike film, not calculated to soothe the "tired business man," was a colored movie showing the raising of the girder on the new Edison Memorial bridge.

Paul Milburn, chairman of the program committee, outlined the programs for the coming meetings, and announced a plan by which three members of the club will be assigned to the arrangement of the meetings for a period of one month. Mr. Milburn will have charge of the meetings for the month of September, and next Tuesday, Leo O. Law, of Hoffman High School and Richard Holton, of St. Mary's High School, winners of the plaques awarded by the club to the outstanding members of the 1940 graduating classes of the local schools, will be the guests together with Rev. James Foley and James Dawson, principal of the Hoffman School. The formal presentation of the plaques will take place at the meeting.

Visitors at the meeting were Edward Price, of South River, Charles Peterson and James Auburn of Perth Amboy and J. S. Smith of New York City.

Symphony With No Audience
There is a symphony orchestra in Albany, N. Y., that has played a thousand concerts—and not one before an audience. The musicians play for their own benefit.

Summer Suntan Is Not Good For Fair

By Jane Floyd Buck
That suntan which you have been at such pains to get this summer will not be a beauty asset this fall, so it would be wise to get right to work on your skin.

First of all, remember that while sun is a good energy builder and gives you needed vitamins, the rays and heat which achieve those results also dry out the natural oils in the skin.

Therefore, before starting the use of bleaching lotions, it would be a good idea to go to your beauty parlor and have at least one—several would be much better—massage. Ask your operator to use a nourishing cream in oil or fat for these massages and arrange to let the cream stay on at least fifteen minutes.

Invest in a jar of the cream and use it nightly for at least a week before starting to use any bleaching cream or lotion.

Even after you start with the bleaching treatment it is a good idea to rub some of the nourishing cream into your skin every night and let it stay a few minutes. Be-

WHY SUFFER Functional FEMALE COMPLAINTS

Lydia E. Pinkham's Vegetable Compound Has Helped Thousands!

Few women today do not have some sign of functional trouble. Maybe you've noticed YOURSELF getting restless, moody, nervous, depressed lately—your work too much for you—Then try Lydia E. NEWARK'S GRID BEARS OPEN SEASON SUNDAY

Newark's Grid Bears start defense of their American Pro Football Association crown Sunday afternoon at Newark City Stadium on Bloomfield avenue. Their opposition will be the sensational Wilmington, Del. Clippers, barely beaten out for the playoffs by the Bears last December. The game gets under way at 2:30 o'clock.

Since playing a fine exhibition against the Chicago Bears of the National League, Coach Gene Ronzoni's Newarkers have been strengthened by the addition of Young Bussey, L. S. U. star last fall, and Phil Martinovich, Californian, who starred at placement kicking for the Detroit Lions last year and was recently bought by the Chicago Bears. Both are property of Chicago and subject to recall at any time.

Coach Quarterback Walt Masters, baseball pitcher and football star at Penn, comes to Newark with 18 veterans of last year and seven "farm hands" from the Philadelphia Eagles.

Woman Bowling League Tonight

Tonight at the YMCA here, a meeting will be held when plans will be drawn up for the organization of a woman's bowling league, sponsored by the organization.

The organization of this new group was prompted by the fact that this year, for the first time in local YMCA history, woman memberships will be granted. It is planned to set aside one night each week for the matches in the new league.

At the present time, a six team league is in operation under the direction of the Woman's Auxiliary. It started its season on Tuesday.

SEWING SOCIETY ENTERTAINED HERE

Mrs. Joel Magnuson, of Upper Main street, entertained the Swedish Sewing Society of Perth Amboy on Thursday afternoon. About 25 members and friends from this city, Perth Amboy, Rahway and Plainfield were present. Refreshments were served.

Currents introduced
Currents were introduced into England from Corinth about 1533.

Speedway Auto Sales Opens Branch Agency In South Amboy

Joe Janas, local Resident, Is Owner of Concern

This week a branch of the Speedway Auto Sales Co. was opened in this city and despite the informal launching of the venture a considerable amount of business is reported to have been transacted. The branch is located next to Joe K's garage on the new State Highway where the new entrance to the Edison Bridge intersects the new road this side of the traffic circle in the Melrose section.

The local branch will be under the direct supervision of Joseph Janas, manager of the Speedway Auto Sales Co and the concern will continue to maintain the establishment at Woodbridge as heretofore. Both branches will feature high grade late model used cars as the chief activity. There will be a representative of Speedway in attendance at the local branch at all times during business hours and definite appointments with Mr. Janas can be made by telephone if desired.

Formal announcement of the opening of the new branch is made in the advertising columns of this issue of the Citizen with emphasis being made on the slogan that has been the guiding principle of the business since the beginning some eighteen years ago. It's a catchy way of cutting a long selling talk down to a few effective words when Joe says "We sell a good transportation, not merely used cars." Mr. Janas has been following that idea in his efforts to see that every customer for a used car gets a satisfactory deal and that the principle works is proven by the steady growth of business and the reputation he has built among people with whom he has done business through the years.

Mr. Janas makes his home with his family in this city and patronizes for the most part local business concerns, and is well known to local townspeople as well as to a wide clientele throughout the county and adjoining territory.

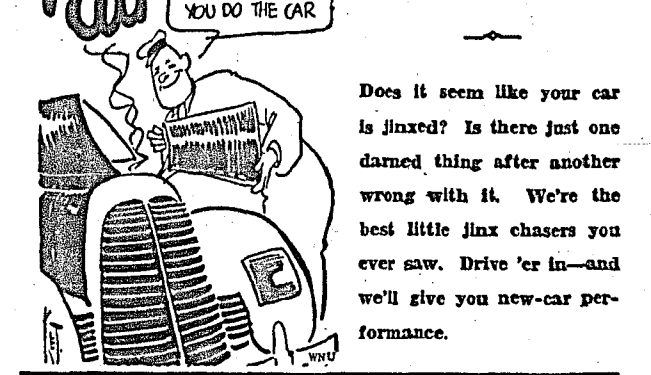

Survey Colorado River
The federal government and seven basin states have spent more than \$3,000,000 in surveys of the Colorado river to determine reclamation and power possibilities.
