The haphazard methods used by the garbage collectors in the city are causing increased complaints from the merchants along Broadway, as well as the householders in the sections of the city.

The conditions complained of, however, appear to be particularly objectionable along Broadway, where the garbage from containers is strewn about the streets while the receptacles are being dumped, so that it is necessary for merchants to clean the sidewalks and gutters in front of their places of business after the collections have been made, in order to make them look neat and attractive.

Particularly at this time, when every precaution is being taken to eliminate all health hazards that might cause the spread of contagious disease, more care should be taken in the matter of garbage collection, not only from the standpoint of appearance, but from the standpoint of health as well.

At a communication breakfast held by the Sacred Heart Parish Club, Sunday morning there were about two hundred members and guests in attendance.

The breakfast took place following the 7:30 mass, celebrated in memory of the deceased members of the club.

Judge John Rafferty, who talked on "Catholic Action," was the principal speaker and others who talked were John J. Cross, James Dobynski, and Lawrence Water, members of the board of governors. Thomas Kozlowski was the toastmaster.

Marion Gonska was chairman of the breakfast, which was prepared by members of the Rotary Society and the Sacred Heart Parent-Teacher's Association, and was served by the Young Ladies Sodality.

With the possible exception of the Congressional Record, there can be no dryer reading for the average person than a law book, and yet there can be nothing productive of more smiles than some of the conclusions made by lawyers and the decisions made by judges.

For instance, in Elizabeth the other day, a man appeared in court and asked for a divorce from his wife. He said she forced him to sleep in the attic, smoke in the cellar, was too friendly with a salesman, was possessed of a "fearful temper," refused to cook his meals or do housework and was continually nagging him, in addition to telling him she regretted marrying him.

At the conclusion of his recital, the judge declared that the man would have to produce some evidence of his wife's cruelty toward him, before he could hope to secure a divorce.

The great city of New York is about to select additional employees for its City Sanitation Department and among the athletic tests they must perform are to run 120 yards at top speed with a 50 pound dumb bell in each hand.

Reflection brings out the humor of this situation, when we recall that a man must almost perform the feats of a Hercules to get a job throwing ashes from ash cans on to a truck, while no physical, mental or moral tests or examinations are required of candidates who run for elective offices, and are entrusted with the welfare and destinies of millions, sometimes billions, of people and a like number of their dollars.

Throughout the length and breadth of these United States, there is no business man who can be classified as such, who does not recognize the widespread, constant pull of advertising as a business-getter.

Even the greatest advertising experts declare that none can definitely gauge the results of advertising to the point where they can tell where or when its work will end.

A case in point came to light recently, when a Newark camera dealer received from a resident of Portuguese India, 9,413 miles away, a coupon cut from a Newark paper and an order for a camera advertised.

As a case in point, this particular order indicated the pulling power of this one advertisement, in this one instance, but the many other sales that were made, or will be made, as a result of it, will never be known.

## BIG GAINS CLAIMED IN HOFFMAN HOME TOWN GROUP ROLLS

Membership Drive Will Be Continued Until Club Enrolls Five Hundred

Another substantial jump in membership was reported Monday night at the bi-weekly meeting of the Home Town "Hoffman For Governor" Club in Wilhelm's Hall on First street. Despite the bad weather the meeting was attended by 40 hardy souls.

D. W. Reed, Jr., president of the new local organization, said reports showed 185 applications on the desk at the meeting, this number boosting the total membership to 247. For the benefit of these new members, President Reed explained that the sole purpose of the organization was to further the nomination and election of Harold G. Hoffman as governor of New Jersey. Elated over the membership increase, he said, "South Amboy is behind Hoffman today more than at any time in his political career. He is certain to get whole hearted support of his home town." The goal set now by the organization is 500 members and the membership drive is to be continued until that number are enrolled, he said.

The charter was closed with Monday night's meeting and it was decided to continue the meetings every other Friday night for the time being. A few weeks hence, arrangements will likely be made to hold meetings every Friday night, with Wilhelm's Hall the main headquarters.

Because of the great influx of new members, President Reed deferred the appointment of most of the club committees until the meeting next week. One committee was named to arrange for the erection of two large "Hoffman For Governor" signs at the entrances of the city, those named to the committee were Joseph Kress, Fletcher Hoffman and Frederick Kurowsky.

Among the speakers at the meeting Monday evening, were Benjamin M. Kass, founder of the club; City Clerk G. Frank Disbrow and Mrs. Harold Hoffman.

It is expected that they will begin work on the contract as soon as weather permits and the job is to be completed in time for use beginning about the first of June.

First work to be done is excavating the rear of the property, setting up a retaining wall to protect adjoining property on higher ground, and the construction of garage buildings on the rear end of the lot. After that the present barber shop and residence on upper floors of the existing building will be moved to a new foundation directly across the street and modernized. The location will be on the corner property of Feltus and Fourth streets.

Contract for removal of the existing structure to the new location has not been awarded, chiefly because several factors entering into the plans for re-modeling the structure have not been decided upon.

## Another Hearing On 1940 Budget Again Postponed

Approval Not Forthcoming From Trenton, Clerk Announces

Another hearing on the city budget scheduled for Tuesday night was postponed when the council met and City Clerk Disbrow again reported that the budget had not been received from Trenton.

Another resolution set forth that the building on the northeast corner of Stevens avenue and David street encroached 3.61 inches on David street and since it was the intention of Adam Sepka to purchase the building from the Star Building and Loan Association, the city would permit the building to stand as at present.

It was another brief council session, beginning at nine o'clock and terminating at 9:03 P. M.

## CATHOLIC CHURCH IS ALONE ABLE TO TRACE SELF BACK TO CHRIST

There are many churches in the world today that claim to have sprung from the Divinity of Christ. Only one, however, can prove its claim with absolute certainty—the Catholic Church. All others are built on false foundations; the Catholic Church rests securely upon the rock of Peter. All others have crumbled into a mass of dismantled parts; the Catholic Church has remained united and constant from the moment Christ gave her being. She has persevered through two thousand years of existence to prove her divinity and to fulfill the promise of Christ that He would be with His Church until the consummation of time. The Catholic Church has ever stood out before all men as that society possessing all the four marks given by Christ to His Church to distinguish

from all false claimants: she is one, holy, catholic and apostolic.

The Catholic Church is the true Church of Christ, since she alone possesses the four marks by which Christ distinguished the society He established to continue His mission on earth. She teaches the same doctrines that Christ taught the Jewish multitudes; she administers the same sacraments that Christ instituted for the salvation of mankind, and she is ruled by the successor of Peter in the person of the Roman Pontiff and the successors of the Apostles in the persons of her Bishops. She has always borne the message of Christ and has insisted that it be received in its integrity. In essentials the Church has remained constant; in accidentals she has evolved with the progress of living organisms. The Church, therefore, has unity; she is "One."

The Catholic Church is holy, because she teaches, in addition to the other doctrines of Christ, His commandments of perfection, and succeeds in inducing many of her members to practice them. It is part of her very nature to bless and encourage all who strive to attain to the higher Christian ideals, the ideals of intimate union with God, of fraternal charity, and of self-denial in its many forms. She is in truth the mother of saints and martyrs. Her holiness is manifested especially in the long litany of her saints and the heroic sanctity of those whom she has led to a perfection beyond the powers of frail human nature.

The Catholic Church is not confined to a single people; she belongs not to any nation, but to the world. She is a stranger to no man and is at home in any part of the world. She constantly chafes against her frontiers, and is always impatient to enlarge them in her endeavor to fulfill the commands of Christ to teach all nations. Hence the Church is catholic or universal.

The Catholic Church alone claims to be ruled by the successor of St. Peter. She claims that the Pope has succeeded to the office of Peter; that he is the supporting rock of the Church; that he is the shepherd of the flock, and that his brother Bishops are subordinate to him as the other Apostles were to St. Peter. This claim is founded on indisputable truth. It is an historical fact that no one in the world but the See of Rome is linked in unbroken succession with an Apostle. St. Anselm has said, "Where Peter is, there is the Church." And Peter today exists in the world only in the person of the Holy Father. Therefore, the Church is apostolic.

The Church, therefore, is the Church of Christ; her teaching is His teaching, her mission His mission, and the great truths of Christianity are the truths Christ brought to earth that men might have a more perfect knowledge of God and know the way to salvation.

**EDUCATION AND RELIGION**  
Without religion and morality, every form of intellectual culture is injurious. Education alone is no safeguard to virtue or success, and education devoid of religion is a misleading progress. It is an unquestionable statement that there can be no perfect form of education without religion.

But what constitutes this religious education? The Christian manner of education is a process that enriches the mind with facts, vivifies the intelligence, and develops the will toward the practice of virtue. The moral and religious instruction of the individual, and the application of Christian principles to the numerous affairs of life are the two vital reasons for the existence of Catholic schools.

All educators agree that the end of education is character. Yet what institution does more in the formation of character in the individual, by religious and moral training, than the Catholic Church? The Christian education surpasses the ordinary forms of education which contribute to man's physical, individual, social, domestic and civic development, by contributing to the indispensable moral and spiritual development.

Our outstanding leaders in every field — Washington, Chesterton, Pasteur and Belloc, were educated men, but they loved God and kept His Laws first and foremost.

The leaders of the Church — Bosquet, Augustine, Don Bosco, Thomas a Kempis, Our reigning Pontiff, His Cardinals, Bishops and Priests are all educated leaders — per excellence. Religion and education together have a place in civilization, but religion alone can withstand time, while education lacking religion is false and misleading.

## TRY TO FOOL US

As we teach the manners of our fellow students it is no wonder that we are called heedless and flippant, for often we are careless in our manners.

The days of chivalry are over for some people. If the truth were known, Chivalry consists of those courteous little acts which help so much to make life smooth. These little services often determine an opinion about you. Remember, boys, with manners as with other things, it's that extra something that counts. And girls, if you would be known as refined, acknowledge these courtesies and you will be doing much to promote present day chivalry.

Other manners should be recognized in the classroom and halls. As holiness is well, for instance, laughter helps to lighten the work and laughing at really funny mistakes makes a study more tolerable. However, the student who laughs whether the mistake is funny or not, is not only boring, but is very crude and gives pain to the student who makes the faux pas.

Don't be alarmed if you are accosted by a group of anxious seniors eagerly soliciting aid for the souvenir program of their coming production, "Queen High." This year's class has biggest and best ever. At the rate they're going this goal will be attained.

All they ask is a little cooperation from the helpful friends of other years, and a speedy introduction to new potential advertisers. With the assistance of the ever-faithful patrons and patronesses, the seniors expect to reach a new high in the art of producing a play program.

Don't fail to have your name in the artists' memento of the Senior Class of 1940.

## ELSE'S ADOPTED A DOZEN BABIES

JUST for fun, we asked the gentleman at the Statistical Desk how many babies the milk from Elsie the Borden cow would feed each day. After some pencil-chewing, he told us twelve! Now you see why this "mother" looks so proud... and why we're so darned careful about the health of each of the cows that supply Borden's milk.

We're pretty sure that if you exchange places with us, you'd be just as careful. And we're sure you'd go right along spending the thousands of dollars a year we pay out to control scientifically, beyond the shadow of doubt, the purity of every drop of Borden's Milk. For the health and happiness of so many, many babies is a mighty big responsibility. Borden's Farm Products of New Jersey, Inc.

Large Sums for Special Games at St. Mary's Party

"Bonus Night" Will Be Held Wednesday Evening

At the weekly game social of St. Mary's Parish, to be held Wednesday evening in St. Mary's Hall, the "Lucky Seventh" prize will be \$230 in cash and the "Jack Pot" prize will be \$120 in cash. In addition there will be a large number of merchandise prizes awarded, with the usual cash option schedule in effect. "Bonus Night" will also be in effect, when the bonus award will be 100 gallons of gasoline, greasing and oil change at Messing's Esso Station. Door stubs and gold certificates of Wednesday, March 6th, and Wednesday, March 13th, will be exchangeable for bonus cards.

The general admission charge to these game socials permits the patrons to play for the "Lucky Seventh" and "Jack Pot" prizes without the payment of any additional fee.

It was announced this week, that because of Holy Week, there will be no party on Wednesday evening, March 20th.

The new plan of holding a party on the ground floor of the school building, as well as in the hall, is proving increasingly popular and last Wednesday evening, a larger number than ever before, took advantage of this added convenience.

Among the winners of the main prizes at the party Wednesday evening were: Miss G. Dwyer, Mrs. Chas. Dorman, Mrs. Disbrow and Mrs. Warn. The "Lucky Seventh" and "Jack Pot" prizes went unclaimed.

## PIPE DREAMS

By Nick-Tina

This morning over in Perth Amboy, the famous picture, "Gone With The Wind," starts a run and for the benefit of local women, who haven't heard about it, many of the women planning to see the picture, are going to leave off their girdles when they attend, so they can sit more comfortably through the four hour showing of the picture. Some of those who are pinched for finances but scrape up the money to see the picture won't be pinched about the waist when they attend G.W.T.W.

It's going to be funny to sit there watching the picture and seeing the women in it wearing bustles, hoop skirts and long old fashioned corsets when you know the women in the audience are not even wearing girdles.

It would be a good idea to stand outside the theatre and watch the local women walk in if you're curious as to what their real waist measurements are.

In connection with the forthcoming celebration of the fiftieth anniversary of the establishment of the South Amboy fire department, some one will probably suggest that the old fire alarm that used to serve as a fire alarm and was suspended from a frame back of the Broadway firehouse, be brought out and displayed. If it is found, another frame should be constructed and the old iron hoop hung up again, so that we would have at least one dependable fire alarm in town, something we have not at present.

Another example of the inefficiency of the present alarm was demonstrated Monday morning when sounds issued from the alarm, but they meant nothing, because the same signal was not sounded twice, and a number of parents, thinking someone was trying to send out the "no school" signal, kept their children home.

The alarm rang at exactly eight o'clock and it was ten minutes later before a fire engine put in its appearance. It wasn't the fault of the firemen, some of them thought it was not a fire signal and those who did didn't know where the fire was.

If the city fathers, who have had plenty of illustrations of the inefficiency of the alarm, persist in doing nothing about it, the firemen will start wishing all fires will take place at night so that they can look out of their bedroom windows, and find out where the fire is, by looking for the reflection in the sky.

The boys in a Broadway grocery store have for several weeks been trying unsuccessfully to learn the name of a woman who comes into the store, and refuses to tell them her name.

She is tall, and has light brown wavy hair, but no matter how hard the boys try to learn her name, they still have to classify her mentally as "Mademoiselle Question Mark."

Monday afternoon on Stevens Avenue, a dog gave an interesting performance for about five minutes. A truck belonging to a local butcher establishment parked near the curb on the west side of the street, and when it came to a halt, the dog recognized two girls who were riding in the truck with the butcher boy. When he couldn't get in the truck, the dog jumped on the hood then on the top of the car, and finding no way to get inside from there, came back and standing on the back, began scratching on the windshield for attention.

There may have been dogs in the back of that butcher truck, but it was the dog on the outside of the truck that was attracting all the attention.

In town there is a woman, who for years, has been making predictions, based on her dreams, many of which have come true, but only a few close friends know of them. However, she has almost twenty note books filled with her predictions, and one of her most recent ones is that in October of this year, this city will be plunged into darkness for several nights in succession. The only interpretation we can put on this prediction, is that by

that time the war mongers will have us in the big scrap now going on, and "blackouts" will be in effect here, as they are in European cities now.

There is among the eight thousand and some people in this town, an accountant who is much concerned with his personal appearance and gives himself part of his beauty treatment every Sunday morning when he sits in church and manicures his nails.

This lad also has a lot of worrying to do that we fellows with the shining pates don't have. In order to keep that wave in his hair, he refuses to use water on it and combs it with his fingers, using the same principal a woman uses when she attains a "permanent wave."

When the announcement of candidates is made in the months to come, one man put forward will make people realize that there has been a conference and at that conference one local leader made a very frank statement and declared, "Undertakers always make good local candidates."

One of the diminutive ex-service men in town is a pretty tough guy when he wants to be, but we don't think he is as tough as he appeared to be the other morning, when he tried to take his suit into a Broadway hardware store to have it pressed.

Apparently a little dizzy from the night before, this lad marched down Broadway with the suit on his arm and promptly marched up to the door of the hardware store, then realized he was in the wrong place and walked into the tailor shop next door with a smile on his face.

Those on the inside in the local political arena are watching with interest a little checker game that is going on. One person won't move until he can be assured he gets a king, if he loses a man in the shape of a job that he has now, and the other person wants him to lose that man before he permits him to move into the king row.

Is romance budding within the confines of City Hall? It rather looks so.

He is a well known bachelor and she works in the same office and she has never previously had a boy friend, yet the other day she was observed repairing the pocket on his sweater in the office, so it must be romance, what else could it be, I'm asking you?

We never knew a city official, who is labeled as one of the most conscientious within the confines of the burg, was an art lover or a dance addict, which he must be, judging from the fact that a picture of Sally Rand, the famous fish dancer, was seen on his desk in his City Hall office, this week.

There are a few marriages about town that took place recently, and haven't been announced.

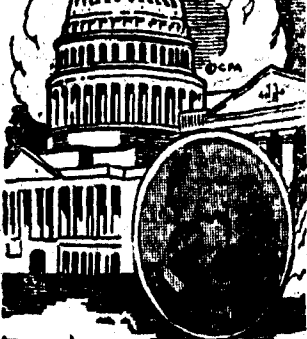

For instance, wonder why the smiling bartender who put his bachelorhood standing on the Fritz, recently, by getting married at Alexandria, Va., isn't loudly announcing the fact.

They are having all kinds of contests in taverns lately, but none of them we've heard of includes the bar tender. Now if they had a contest recently to select the most polished bartender, a certain young red headed mixologist would probably have won. During his attendance at a party in town, he had his toe-nails painted by a woman, so how many bartenders ever have their toe-nails polished, so wouldn't he have an easy?

If he hasn't received notification of it yet, there is a county job in the mail for a local party leader.

## CENSUS

So much ado is being made about the coming census that it is all so very uncalculated. The major dispute seems to have arisen from the fear that the enumerators will turn into an army of Paul Pry's and Dame Gossips. This is absurd for each enumerator is placed under oath and there is a heavy penalty for violation of this oath.

The law for taking the 16th decennial census beginning April 1st, 1940, was passed by the 71st Congress, 1st session and signed by President Herbert Hoover on June 18, 1929. The only additional questions added are those on housing facilities, to which no one seems to object. As a matter of fact, the Director of the Census points out that the questions which are causing so much excitement have been included in the census questions for the past 100 years.

When the figures are all gathered and the questions have all been answered no one is going to be interested in the personal history of any individual. The tabulated findings will, however, be of great value in solving the economic and social program of our nation.

When the questions on housing were discussed, a committee of non-governmental advisors was selected to determine the questions to be asked. Among those on the committee were the following: Dr. Robert E. Chadwick of Columbia University (a statistical expert), Dr. J. Frederick Dewhurst of the 20th Century Fund, Mr. Paul T. Cherrington, market analyst; Dr. William F. Ogburn of the University of

Chicago, Dr. Murray R. Benedict of the University of California and Dr. Willard R. Thorp of Dun and Bradstreet. Some of the organizations and individuals whose opinion was respected in compiling the housing census questions other than the aforementioned were the National Retail Lumber Dealers Association, the National Sand and Gravel Association, the Structural Clay Products Institute, the Metal Window Institute, Sears Roebuck, the National Lime Association, the National Paint Varnish and Lacquer Association, and many others.

The statistics to be derived from this census are seen as an aid to business also. Wage income is a question relating in a very vital sense both to population and unemployment. While the returns from this question alone will be of great service in the form of totals to be used in computing national income, the greatest value appears when they are used as a basis for classifying the population. Business organizations can plan their marketing activities much more effectively if they know in what areas high-income families are to be found, and in what areas low-income families, and also something about the other population characteristics which are found in combinations with high and low income. It will also help the farmers in knowing what crops are needed and which ones will prove a drag on the market. It will help to plan educational facilities, housing facilities, employment possibilities. As a matter of fact, this census is for our benefit and not for the purpose of providing material for petty gossipers.

## UP AND DOWN THE ALLEYS

By JOE KEE

Match of the week was the Inter-City Railroaders affair between the local lads and the Jamaica aggregation at the Y lanes Saturday night. The South Amboy outfit, who, as we made mention of before as being perhaps the most popular team in this section, proved their worth by taking two... these wins together with the fact that the second position Jersey City squad had met defeat in their match at J.C. City earlier in the evening, further increased the lead of the locals in the league... and barring any unforeseen accidents the town boys will cop that loop.

Dropping the first and copping the second, our lads went into the final game of the match determined to annex that one too. It soon developed into a nip and tuck affair with barely ten pins separating the battlers.

Coming up to the final frame with still no appreciable change, the anchor man of the visitors, who had been working on a strike, managed to stick in what seemed like the biggest double in the book, finishing up his share of the bagging by providing his outfit with an eight pin lead... thus leaving anchor-man Gene Thomas with no alternative but to strike out.

Whereupon Gene, a proven man under pressure, walked over to the ball-return, secured his pin, and deliberately proceeded to shove in three perfect hits... all of which proved to be "tenners," with the result that the town boys were the victors by two sticks.

In addition to winning the last game for his outfit, Eugene C. also managed to take down high individual honors for the night with a 659 set... made up of 202-247-210... (Incidentally, this is second high set in the league). Having two clean games and nary a miscue all night, the only thing that marred an otherwise clean sheet was a white spit in his third game.

All in all, we think it was a good night's work well done.

A funny thing about the local league is that it always seems to take them the first game to get warmed up.

The Sorrentino's slappers of the Community League are mourning the loss of Pete Pavich, one of the team's mainstays, who has departed this date for the arena and sandy shores of the sunny southland where he will train with the International League Jersey City BB club... here's luck to ya, Pete.

Never saw anyone get the mother-in-law stick (the ten-pin, ya sap!) standing on good hits as much as does our pal Steve Szabolcsky... his favorite expression on these "touchers" is an explosive "sucker."

Things we'd like to see: Al Barber, of the Scrubs and Railroaders, snap out of the disastrous slump that he's fallen into... the game he's knocking off now are certainly raising "all with it average... appears as if this is due to his breaking in a new ball.

That painful expression that has been adorning the puss of our own Robert D. Stivers these past few days, is the result of the loss of his inseparable saxophone-pipe, which has been confiscated, and eschewing (what a word, what a word!) of same ordered pending full recovery from the effects of a bit of throat trouble that had put him outta commission for a couple days.

Got a kick out of that "purse match" at the Brennan's Rec. Two Thursdays ago, in which Tom Coyne's wood-whacking efforts proved to be 90-pins better than that of Joe Kupsch.

It seems that before the match had begun the majority of the "smart-guys" were "betting" on Kupsch... yet when one of Coyne's cohorts flashed a C-note, nary a "time of it was covered... Just in case of whistling in the graveyard... for as the match progressed the boys were still with Joe, but when it was ultimately proven that Tom was victor these same lads were just another line in the "I-told-you-so" chorus.

A short time ago we were berating ourselves for being "fish" in an out-of-town "pot" match... but it looks like we've got company... it seems that the Brennan's pinsetters, led by that dashing King of the pinboys, Rube Buckalew, were invited to roll the prelude affair to the Brennan's Big Five match down in Keyport way last week.

Accepting the challenge, "Rube" reassured his team mates to an easy victory, and to put the whole thing in the bag, secured the services of "Big" Charmello.

But alas and alack! Rube and his rascals returned a sadder and wiser bunch... and, oh, yeah! we almost forgot, it also cost 'em two buckeros a man... hlyra brother!

Dizzy dolt's on the drives: John Potthoff getting the 4-7-10 split 3 times in a row, while brother Ray, in a Brennan's Club League match, had four successive 3-6-10 combinations set-up of which he isn't overfond... "Dutch" Hahn of the "Y" Men's Club setting some kind of a mark with two baby-splats in succession... but it remained for Joe Poulson of the Swan Hill five in the clincher, when he collected five varied splits in the first five frames of last Thursday's match.

"One-game" McGuire confounded experts and upset the dopers by living up to and over his seemingly well-adapted common by pitilessly pointing the pins to the triumphant plume of 206 and 214 in the City circuit last Sunday PM as the Greyhounds (that's the squad that harbors Jim) proved to be a stepping stone to first place for the Brennan's Alleys outfit.

Yours until "Bull Fiddles"

## Pete Pavich Leaves Today To Train With Jersey City B. B. Team

Pete Pavich, South Amboy's outstanding baseball gift to organized baseball, leaves this afternoon for Winter Haven, Fla., with high hopes that he can land the keystone position on the Jersey City Giant baseball team of the International League.

Pavich, who is considered the finest defensive man in the Giant organization, will receive a thorough trial from the Jersey City team. At the present time the local pride has the inside track for the second base position.

Pavich, who is considered the finest defensive man in the Giant organization, will receive a thorough trial from the Jersey City team. At the present time the local pride has the inside track for the second base position.

In his first three years of professional baseball Pavich played with Blytheville and Port Smith under the reins of Hirschel Bobo, one of the keenest managers in minor league baseball. Bobo proclaimed that Pavich would be in the big leagues in the near future because he possesses natural baseball ability and instinct.

South Amboy fans are greatly interested in Pavich's prospects this season due to the fact that he may stay in the International League. It has been quite some time since the city of South Amboy has had a representative ball player in the International League.

## Local Teams Enter Inter City B. B. League

A baseball league which will undoubtedly draw huge attention from the diamond fans of this section was formed on Sunday, March third. Two local teams, the Romeo All-Stars and the Mechanicsville Sporting Club have entered the circuit.

Teams of this vicinity in the league are: The Romeos, Mechanicsville, the Lance Association from Perth Amboy, C. M. Peterson, Perth Amboy, the Woodbridge Sports Club, the Mechanicsville S. C., the Milltown C. C., the South Amboy A. A., and the two more... and the two more... and the two more...

Officers chosen to preside over the league are: A. J. Lance, president; Jack Lindeman, of the Milltown Club vice president; Joseph Charmello, secretary. The league will commence on April 28th.

## THRU THE HOOP

Editor's Note: The opinions expressed here are those of the writer and do not necessarily agree with those of the management.

Still can't believe that Toms River High School eliminated the Governors from the State Tourney... Realists claim that over-confidence vanquished the John St. troupe... Then we hear that the Toms River coach did not use his first team against the Governors when the two teams met in the Shore Conference play-offs... The down-shore mentor was supposed to be resting his squad for the state tournaments.

Well, if the Ocean county coach used his reserve in the conference play-offs and then threw his regulars at the Governors in the tourney he certainly employed proper strategy because he caught the locals unaware.

Regardless of their defeat at the hands of the Toms River team and even though they were favorites to repeat as state champions, they did not lose any prestige in the opinion of yours truly. They had a great team and deserve unimpeachable credit.

Congrats to Joe Crowe for capturing the high scoring honors in the city circuit... The honors bestowed upon him for his feat are certainly deserving... He is without a word of doubt, the outstanding basketball player of the city circuit... This corner can even go further than that... He is the basketball player of the year as far as South Amboy is concerned.

Similar congrats to the Catholic Club for their almost impossible victory over the Massing team... It was an unexpected victory... But if the Massing team was to lose I was certain that the Catholic Club, a smooth working array, would be the team to accomplish this feat.

See where Manager English again publicly announced that his Mechanicsville Sporting Club team could defeat the Massing team... present any the latter players in his line... Well, when that night arrives, if a game is to be booked and I can't see why a game can't be arranged, the Mechanicsville backers had better leave their money on the other side of the hole in the wall.

The most depressing thought of the basketball season is the Sacred Heart basketball team. Theirs is an organization, widely known to possess the one quality year after year, floundering in the throes of the mediocre court teams throughout the entire present season... The team has been living on its past reputation throughout the past campaign.

If the Hearts intend to reach the heights they achieved in previous years, they had better put the Urbanik boys back in uniform... When you think back of the greatness of past Sacred Heart teams and then read the box scores of their present games it puts one into a quandary.

When yours truly makes the above assertions he doesn't take any credit from the present players or their manager. Because the present group fought courageous in every tilt during every minute... You might say, "The stuff just isn't there."

Gary Jankowski, the ace right-hander of the DeSantis squad for the past two seasons, has joined the Romeo forces for the forthcoming baseball season... Gary says he'll be back there winning again if he can lose about forty pounds.

This corner understands that Billy Ryan has to undergo an operation for appendicitis before he enters for the Millford team... Wow what a break... Billy claims if and when he is operated on, he doesn't believe that the operation will slow him down... He expects to report to his team in the latter part of April, operation or no operation... That's the old fighting spirit.

Pete Pavich leaves for Winter Haven, Fla., this Friday afternoon... Yours truly for one doesn't expect to wait until next September before he meets Pavich again personally... I expect to see Pete playing second base for the Jersey City Giants in the near future in Jersey City... Don't let me down Pete... Good luck to you and let's hope that the breaks will come your way as a proving point to show the Giant officials that you are a big-league ball player.

## International League Schedule Gives Bears Attractive Program

Will Be at Home Twelve Sunday Out of 22 During Season

NEWARK, N. J., Mar. 5.—The International League schedule for 1940 released this week gives the Newark Bears the most attractive program they have ever had in the 57-year history of the International circuit.

Instead of having three long road trips of 20 days or more and ninety per cent of the home games crowded into three long home stays in April, June and August, the Bears will be home and away almost an even number of days in each month.

Of the 22 Sundays, the Bears will be at home 12, and with one exception, from August 16 to Sept. 8, they will never be away for more than one Sabbath day at a time.

The schedule is an arranged that they will be home and away on alternate Sundays except, for the above, selected days and two occasions when they will be home for two consecutive Sundays.

The Newark Club was also fortunate in the assignment of Tuesday and Friday dates. As usual, night games will be played on Tuesday and eight Fridays of the 15 weeks after the first of June.

Square Meal a Month Most makes can live on one good meal a month. One "square meal" a month makes them thrive.

## Poulson vs. Coyne "Purse Match" at Keyport Tonight

Final Ten Games in Series To Be Rolled at Brennan's Alleys

Joe Poulson, well known local bowling ace, will meet Tom Coyne in the first 10-game set of a 30-game "purse-match" tonight at the Keyport Legion lanes.

Coyne, fresh from a recent 20-game affair victory over Sayreville's Joe Kupsch, tackles Poulson in his own "backyard" in this initial set of the fray.

The second set is to take place on the New Brunswick Elk's drives next Friday PM, and the final 10 games are to be rolled at the Brennan's Recreational Alleys the following week.

This match promises to be a very interesting and exciting affair. Poulson and Coyne to all appearances being evenly matched... these lads being about the best "money" bowlers in the vicinity.

The winner of this set to will probably be recognized as the unofficial match-game champ of the county.

Neither one of them lacks a following, it also promises to be a complete sell-out with the 880 sign making an early appearance.

## "GONE WITH THE WIND" OPENED TODAY AT THE MAJESTIC THEATRE

"Gone With The Wind," the most expensively made and most widely lauded motion picture to come out of Hollywood, opened at the Majestic Theatre in Perth Amboy, this morning. Several South Amboys were among the first to enter the cross-river theatre to view the David O. Selznick masterpiece, and doubtless there will be many others viewing the production during the week's engagement in Perth Amboy.

Vivien Leigh, shown herewith, plays the lead part in the play, Scarlett O'Hara, and among others that will be seen on the screen are Clark Gable, Leslie Howard, Olivia de Havilland and Thomas Mitchell, taking parts in Margaret Mitchell's long book of absorbing interest of the Civil War and the following reconstruction days, with the locale in Atlanta and nearby places in Georgia, as life was lived here seventy-five years ago.
