FROM TOPICS TO TOPICS

Sunday the nation will celebrate Mother's Day, "in honor of the best mother, who ever lived—the Mother of your heart."

We celebrate Mother's Day, not because of any famous person or event, but to give expression to the honor in which we held our mothers. The mothers of famous men undoubtedly did a great deal to help their sons, but it is to our own mothers that we owe the most.

The custom grew up after being established in Philadelphia by Miss Anna Jarvis. The first Mother's Day was observed on May 10, 1908. As early as 1913, it became a state holiday in Pennsylvania, and on May 8, 1914, an act of Congress was passed, authorizing the president to set the day each year by proclamation. The same year it began to be generally celebrated in England.

Whether mother is far or near, don't forget her on this important occasion. A few kind words, a little gift, mean more to mother than the grandest eloquence, and the most elaborate entertainments to anyone else.

Those whose mothers are gone, realize what a precious boon has passed from their lives. They, too, may observe Mother's Day. If your mother has passed on, put a flower at her resting place... surely she will know.

One of the strangest and most dangerous things about inflation and its continuing development in this United States of America, is that a very large number of us Americans do not realize how inflation has already picked our pockets, and how it is threatening our future security.

With more dollars floating around than in 1939, we get a feeling of prosperity. But, during the past twelve years, we have had a taste of what inflation can do in this country, and we know that the time to halt it is before it starts galloping.

We are faced today with a tremendous defense program—tens of billions of dollars a year, for how many years we do not know. How we meet this problem of financing our defense efforts, is perhaps as important to the future of our nation and the cause of freedom, as the plots now being executed by the Kremlin.

Nothing would bolster Communist plans more than to have America drained and weakened by inflation.

Bomb Found Yesterday At Minnow Ditch

Two Young Lads Brought It To Police Headquarters

Early last evening two boys, Ned Smith, nine years old, of 230 Henry Street, and Eugene O'Brien, of Boomhurst Avenue, Bayview Manor, while walking along the shore near the Minnow Ditch, discovered a metal object, they thought might be a mine, shown there from the last May 19th explosion, and they picked it up and brought it to police headquarters.

Patrolman Thomas Kvist, on duty at the headquarters, after examining the object, called Acting Chief of Police, John Gleason, who immediately identified it as an unexploded anti-personnel mine, and notified authorities at Camp Raritan, who sent a man here to remove it.

Gleason declared this was the

SLAG CRUSHER IS DESTROYED AT CHEMICAL PLANT

Last evening, shortly after five o'clock, another fire on the local shore front broke out and caused considerable damage when a slag crusher at the plant of the American Agricultural Chemical Company caught fire, and was completely destroyed before the blaze could be brought under control.

Employees of the plant telephoned the police when the blaze was discovered and Patrolman Kvist, on duty at headquarters, immediately dispatched Patrolman Travinsky to turn in the alarm from box 24, at the corner of Main Street and Broadway.

When firemen arrived at the scene, they found the wooden building, a huge tower like affair, completely enveloped in flames, and it required their best efforts to keep the fire from doing greater damage.

LOCAL MASONS PLAN TO HONOR R. C. STEPHENSON

Richard C. Stephenson, president of the First National Bank will be honored by St. Stephen's Lodge of the Masons, in the near future, for having reached his fiftieth Masonic Birthday, an honor which few men attain.

On Sunday, Mr. Stephenson will mark his 50th year as a member of the order, which he joined May 13, 1901. He was St. Stephen's Worshipful Master in 1908.

At the celebration being planned by the lodge, a representative of the Grand Master will be present, to present Mr. Stephenson with a 50 Year Gold Token.

School Board Calls All Full Time Employees To Special Session

In an action unprecedented in local history, the Board of Education called to a special meeting Monday evening in the Hoffman High School Auditorium, all members of the teaching staff of the schools as well as all other full time employees, for the purpose of discussing some matters, the Board felt all were concerned with. It was a sort of spring house-cleaning meeting, and Board President Vincent Higgins explained that some matters which would normally have been handled by the Board in a routine manner during regular meetings, had been sidetracked because the Board was forced to devote so much of its time in the past to building problems that were the outgrowth of the May 19th explosion. There was much "dirty linen" brought in the open during the session, but apparently little of it was cleaned to the satisfaction of all present, particularly the three members of the Board who were on hand. Commissioners Charles Brinamen, and Edward Lake did not attend.

Thomas Gleason, several times Board President, and now chairman of the teacher's committee, sharply criticized President Vincent Higgins, shortly after the

meeting of the Board, when way he handled the last regular meeting of the Board, when there was considerable discussion of the alleged lack of discipline in the schools, and Superintendent of Schools Tustin was ordered to take special measures to remedy it.

Gleason criticized Higgins, who presided over the session, for permitting Andrew Peterson, who attended as a spectator, to make charges of laxness of discipline, to the point where he became the person directly responsible for the special action ordered with regard to the restoration of discipline. Gleason declared Higgins should not have permitted Peterson to criticize the Board for the lack of school discipline, and said he (Gleason), as a member of the Board, who was in the schools frequently, had found no evidence of a lack of discipline, and he said Higgins should not have permitted a man who walked in off the street to a Board meeting and had little contact with the school operation compared to that of the Board members, to level criticism at the lack of discipline to the point where he ordered measures to correct the alleged condition complained of. Gleason

Jersey Turnpike Talk Is Heard By Rotary Club

Harry E. Rose
Publicity Director
Was Tuesday Speaker

The plans that have been made for the New Jersey Turnpike, 118 mile long highway to run from north to South Jersey, were explained to the members of the South Amboy Rotary Club, holding their weekly meeting at Georgetown's on Tuesday. The talk was delivered by Henry E. Rose, Publicity Director of the Turnpike.

After explaining the history of the founding of the organization and its purpose, Rose said that the turnpike, which will extend from the George Washington Bridge in Bergen County, to Deepwater on the eastern side of the Delaware River, will cost more than \$200 million. He explained the financing plan, which he said is unique with the majority of the bond subscribers, the large insurance companies. The project, he said, will be financed entirely by private capital, and no state or federal funds will be involved in any way. This plan of financing, he explained, has been the means of saving \$12 million during the construction period.

In pointing out the pressure the turnpike would take from existing

Sun Oil Plant Meets Approval After Inspection

Safety And Fire Fighting Equipment Is Approved

Monday night, Councilman William O'Leary, and members of the Bayshore Improvement Association made a tour of the local shore-front storage plant of the Sun Oil Company. The delegation was accompanied by a safety expert, whose services were secured by Councilman O'Leary.

After the trip, O'Leary, and members of the Association expressed satisfaction with the safety measures that have been taken, and the equipment on hand for fire fighting.

At the suggestion of the group, the protective dike around the storage tanks, which is now but a few feet from Roswell Street, will be moved to the opposite side of the plant, in order to provide better protection for firemen in the event they should be called to the scene.

O'Leary said he had been informed by the company that the storage tank, which was moved some distance during the November hurricane, and considerably damaged as the result, will be moved to Detroit in the near future.

Assemblyman Kurtz Still Working On Safety Measures

Would Have Department Of Labor Supervise Explosives Handling

Despite the fact that the S. at Legislature has adjourned, Assemblyman William Kurtz of this city is still busy with plans for more legislation to safeguard citizens and prevent a recurrence of the May 19th explosion here. During the past session, he sponsored a number of bills, which were the direct outgrowth of conditions arising from the explosion.

At present, EKurtz is drawing up bills to be introduced at the next session, and among them is one that would require that granting of permission for the unloading of explosives in limited quantities, would be placed under the jurisdiction of the State Department of Labor, which if it granted permission

Resolution Would Cut Two Members From Police Force

Expect Matter Will Come Before Council Wednesday

It was learned this week, that plans for the elimination of two members from local police force, have been made, and reportedly have the sanction of the Democratic organization here.

The matter has been discussed for some time, in party circles but there was no definite action in this direction until recently when a resolution covering the action was prepared and placed in the hands of one of the Democratic members of the Council. According to present plans, the measure will be introduced when the Council holds a public session.

LEONARD VOTED MOST INTERESTING RADIO CONTESTANT

Recently, when the radio program "Strike It Rich," celebrated its first year as a five-a-week program on CBS, former local mayor John D. Leonard, was voted the year's "most interesting contestant" from the State of New Jersey.

In the days after the explosion, Leonard arranged to appear on the program, to arouse national interest in the plight of this city and the need for assistance. Leonard, who was awarded a cash prize for his appearance at that time turned the money over to the local Citizens' Emergency Relief Committee.

For the honor of being selected as the "most interesting contestant," he recently received an additional \$300.00.

Moral Indictment

IN ONE OF the most savage indictments of the moral standards of the American people on record, Sen. William Fulbright, of Arkansas, proposes to set up a commission of eminent citizens to re-evaluate our moral standards and strengthen the "faith of all decent men in our democratic society." Among other things, Senator Fulbright said:

"Too many people in our nation do not believe anything with conviction. They question the precepts of God or of man indiscriminately. The values of life which were clear to the Pilgrims and the founding fathers have become dim and fuzzy in outline. False propaganda and the 'big lie' of demagogues have created doubts in the minds of men. Professional political hucksters imported from afar, without local responsibility or restraint, corrupt free elections and poison democracy at its source."

Senator Fulbright's speech on the senate floor, in which he said that "government and its activities are in a very real sense, a mirror of our national life", grew out of his committee probe of the reconstruction finance corporation and the Kefauver committee's sensational television side show of the nationwide crime syndicate and its connection with politics in the larger cities of the nation.

What Senator Fulbright says is true then it is time for you folks in the home towns of the country to examine your consciences. Also, if what he says is true, what has happened to the churches in our country? Did the crime expose outrage your sensibilities or did you shrug it off as a good show? Were you outraged at the fact that some government employees received favors in the reconstruction finance corporation, or did you pass it off as something that is incidental to politics?

Perhaps it has taken a side-show such as was staged by the Kefauver committee to awaken the people to the fact that criminals wielded influence in high places, and if the people did not know that before, then this highly publicized television show was worthwhile. But this reporter has pointed out time and time again that if there is any lack of faith in our federal government it has been engendered by "the big lie of demagogues which have created doubts in the minds of men" and by the chipping away of our cherished civil liberties in these staged committee hearings while the members have one eye on how much publicity they are getting and the other on whether it is making votes for them at the ballot box.

The "Big Lie" Smear

McCarthyism, a perfect exemplification of the "Big Lie", has run rampant through several committee probes smearing the names of innocent men, along with the guilty by association. These are the things which breed disrespect for government.

There is not a man in Washington who knows the facts, who will not agree that the congress of the United States is a big white, with all its imperfections, as compared to any state legislature in the land. There is not a man here who will not agree that the entire government of the United States is a Sunday school class, as compared with any given state government.

Challenge to America

The challenge to the moral standards of the American people in the home towns of the country is not whether some basketball players accepted bribes, or whether a half-dozen government employees accepted drink tickets or deep freezes, or hotel rooms in return for favors, or whether Castello is still out of town where he should be, representative as these facts are. The chal-

enge is whether we shall keep our hard earned freedoms and civil liberties in the face of the mortal threat of Soviet Communist aggression. This is the one menace this congress and all the people should be united in opposing. Never before have the American people faced a menace of this magnitude—the Kremlin blueprint for a Communist world. Of what relative importance is the Kefauver committee as compared to the meeting of the foreign ministers of the 21 sister American Republics here in Washington?

Character Assassination

Probe after probe has been under way in this and receding congresses in which witness after witness, the innocent and the guilty, have been paraded before television and the radio without benefit of the inalienable rights guaranteed under the Declaration of Independence and the Bill of Rights. Names have been assassinated while justice and the due process of law have been shunted aside by the very men who make the laws of the land.

Paint Can Hint

If you are like most folks who do a little painting around the house periodically, you have a great array of partly empty paint cans. Here's a way to avoid opening each can to check the amount of paint left and its precise color. At the end of each paint job, paint a line on the outside of the can at the level of the leftover paint inside.

"Was a nervous wreck from agonizing pain until I found Pazo!"

says Mrs. A. W., San Antonio, Texas
Speed amazing relief from miseries of simple piles, with soothing Pazo! Acts to relieve pain, itching instantly—soothes inflamed tissues—lubricates dry, hardened parts—helps prevent cracking, soreness—reduce swelling. You get real comforting help. Don't suffer needless torture from simple piles. Get Pazo for fast, wonderful relief. Ask your doctor about it. Suppository form—also tubes with perforated pile pipe for easy application.

Carried Tails to Carts

Mary's little lamb led a pampered life, but even he couldn't last of the service given some of his cousins in parts of Asia. Members of a variety of sheep storing a large amount of fat in their tails, they are fitted with little two-wheeled carts in which to carry the heavy appendages.

Old Fashion Note

Robes made of penguin skins were popular in Mayan Society in Mexico about 100 B.C. The people of this great ancient civilization are also described as wearing "garments of wonderfully soft and fine cotton cloth with brilliantly colored geometric designs."

GAVE GOERING POISON . . . Eric Von Dem Bach-Zelewski receives sacrament at Catholic convent after stating he gave Herman Goering the poison with which the latter committed suicide. He claims that he whispered the word "cyanide" (cyanide of potassium) to Goering through the flap of his cell, and later slipped the Nazi leader a cake of soap containing an ampule of the poison. He was classified as "major offender" and sentenced to 10 years labor.

We get excited about

KITCHENS

We're so interested in kitchens we wrote a book about them. We have illustrated different kitchen arrangements; we give the latest news on cabinets, sinks, counter top coverings and floor materials; we suggest color schemes and tell how to get the correct illumination in all work areas; we even explain how convenient storage of pots and pans can save steps.

This is the kind of information neighbors exchange over the back fence. We can't do that, so we wrote this book for you. Copies are free. Write Public Service, 80 Park Place, Newark, N. J., Room 8311.

PUBLIC SERVICE

Citizen of a Great State

LOOKING BACK 22 YEARS

ISSUE OF MAY 10, 1929

Friday evening, May 17th will be gala night in South Amboy. This is the date selected by the South Amboy High School Alumni Association for the presentation of their annual show. Previous announcements have called for dates, May 16th and 17th, but due to the large number of social activities under way and contemplated by various organizations in the city, it has been thought advisable to limit the performance to one night only. No other change has been made in the original plans. The show, which is of the musical comedy type, is fast being whipped into shape under the able direction of "Bob" Mason. Throughout the program the serious and the comic are generously mixed and a delightful bit of classical music or dancing is quickly followed by some side splitting humor. Congressman Harold Hoffman will be master of ceremonies. Solos, duets and quartets, both vocal and instrumental, as well

April Honor Roll For St. Mary's School

Senior Class — Marie Connor, Lotita Francis, Robert Casey, Julia Karts, Mildred McGuire, Marie Phillips, Matthew Zamorski.

Junior Class — Chris Brennan, Rosemary Miller, Rita Lee, James Harrigan, Joseph Sereyko, Walter Walczak, Stanislaus Wilus, Dorothy Dwyer, Sophie Barlowicz.

Sophomore Class — Alice Doyle, Walter Kowalewski, Hedwig Zdanowicz, John Karts, Eugenia Leonard, Olive Welsh, Rita Muller, Anna Connors, Grace Dugan, Catherine Connors, Mary Mochen, Francis Coan, Helen Neff.

Freshman Class — Margaret Coakley, May Kelley, Joseph Carroll, Frances Kress, Ignatius Spina, Frances Grombowicz, Clara Kregar, Eugene Manion, Elizabeth Clark, Edwin Letts, Mary McCloud, Helen Delaney, Dorothy Bill, John Bros, James Coan, William Claffey, Henry Leonard, Anthony Cross, Mary Travinsky, John Kane, Margaret Powers.

Eighth Grade — Kathryn Parker, Ethel Baranowski, Beatrice Sullivan, Gertrude Cokucci, Margaret Bahnen.

Seventh Grade — Regine O'Connor, Frances Delaney, Aloysius Frank McCormack, Gene Leonard, Margarete O'Brien, Helen Humphreys, Margaret Demele, David Kelley, John Everitt, Emmet Ford, Mary Soltis, Margarete McCory, Cecelia Poulsen, Florence Nebus, Rose Menna, Helen Farley, Andrew Scully, George McChen, Margaret McNeany, John Lucitt, Helen Baker, Ruth Keene, Gerald Duggan.

Sixth Grade — Margaret Kelly, Loretta Manion, Katharine Bros, Olga Jerome, Marie Grant, Evelyn Grant, Edward Lynn, Thomas O'Leary, Antonette Vona, Helen Joseack, William O'Brien.

Fifth Grade — Evelyn Harricks, Donald Farrell, George Kierst, Francis Leonard, George Everitt, Monica Brennan, Margaret Gordon, James Hollywood, William Simanek, John Whelan.

Fourth Grade — James Kennedy, Helen Lynn, Mary James, James Dwyer, Timothy Sullivan, Martha Kowalewski, Grace Suma, Joan Nordin, Marieta Fleming, Mary Krieger, William Coan, John Dunham, Francis Joseack, Joseph Farrell, William Humphreys, Mary Smith.

as dance novelties and special features are designed to keep the audience in a happy frame of mind from the rising of the curtain until the last echo has died away.

At the last meeting of the Official Board of the First Methodist Episcopal Church on John Street, it was decided to organize a Ladies Auxiliary, this to consist of ladies of the church willing to assist in raising funds that may be required by the board from time to time.

At a later meeting the Auxiliary was organized and the following officers were elected:

President, Mrs. F. M. Stratton, Vice President, Mrs. John Perkins; Secretary, Mrs. E. C. O'Brien; Treasurer, Miss Dorothy Stultz.

Any lady of the church willing to help is requested to give their name to anyone of the above officers so that the Secretary may have a complete list. No dues in connection with the organization.

Plans were under way to serve a noon time luncheon on Tuesday, May 16th, but this has been postponed until May 23rd on account of the dinner being served by the Methodist Protestant Church on the evening of May 16th.

James Frank Hackett now heads Monsignor John F. Brady Assembly, Fourth Degree, Knights of Columbus. The election took place at the regular monthly meeting of the Assembly Monday night at Burew's restaurant, Laurence Harbor.

Mr. Hackett succeeds George Gundrum r., who has been the head for the past year. Guy Bachman, Joseph Smith, Francis Kuhn, John Dane and John Van Pelt were elected to other seats in the assembly. John T. Gleason was re-named secretary by the organization.

On Tuesday, June 11th, the Assembly will pay a surprise visit to Father Lannary, recently curate of St. Mary and now pastor of the High Bridge Church. A bus has been chartered for the occasion and Joseph Smith is heading a committee in charge.

The majority of the members of the Fourth Degree Assembly will make their annual retreat at West End, where Father is in charge the latter part of his month.

St. Mary's track team surrendered to the Perth Amboy High field men in a dual meet Wednesday afternoon at the local track by a total score of 60-30. Although the Saints were only able to accomplish half of the Cross River's points, considering the material of both schools, local critics have praised the locals for their work.

Mayor Andrew N. Kvist, it is learned, has been elected a member of the Advisory Board of the New Jersey State League of Municipalities. There is a member elected by league member delegates from each county in the state, the selection usually being made of men of known interest and knowledge of municipal affairs and because of connection with national or regional associations concerned in municipal affairs.

The constitution of the League provides for an advisory board in the following language: "There shall be an Advisory Board of the League to consist of present and former municipal officials and other persons selected on account of their interest in the objects of this organization. The members shall be appointed annually

by the Executive Board, at its first meeting after the annual meeting, and from time to time; and shall serve until the next annual meeting and until their successors are appointed. The number of members shall be in the discretion of the Executive Board.

THE TV SCENE By MIKE MONTGOMERY

NEW YORK, N. Y. — One of the most successful trade billings of entertainers throughout America is: "Heard on Arthur Godfrey's 'Talent Scouts.'" To an enterprising contestant, winner or not, it usually means a job of several months to several years.

Arthur Godfrey ... he's "gold" show frequently is.

"Pope" Whiteman doesn't like his own face (he's never seen himself in a movie). He keeps to the side on his "Paul Whiteman Review" (Sun. nites, ABC-TV), preferring to bank on the show's strong entertainment value. "It is easy," says "Pope," "to get yourself killed on TV."

"The Bert Parks Show," is the first to bring night-time television talent to daytime TV. Two "old kids" spark the program (afternoons, Mon., Wed., Fri., NBC-TV). Bert, 36, has been on the networks 15 years. Singing comedienne Betty Ann Grove, 21, has been a professional entertainer since 10.

Betty Ann Grove ... she quit devote all of her time to the hectic, exciting television scene.

Dick Tyler, TV's "Henry Aldrich" (Sun. nites, NBC-TV), was the model for artist Norman Rockwell's 1951 Boy Scouts calendar. Eagle Scout Tyler, 18, is quite an American boy—descendant, in fact, from four U. S. Presidents (Jefferson, Tyler and the two Harrisons).

Uncle Sam Says

It's Your Freedom — Protect It! What better can you do in times like these but initiate the teamwork which welds an invincible defense force. Teamwork like that means a strong America. U. S. Savings Bonds are now Defense Bonds and your purchase of these bonds means you are doing your part in building a strong, financial America. Buy them now and buy them regularly through the Payroll Savings Plan where you work or the Bond-A-Month Plan at your bank. U. S. Treasury Department

How to Treat Painful Piles

For fast, blessed relief from sore, itching, simple Piles, get CHINAROID from your druggist. See how fast it usually soothes away pain, soreness, itching, nervousness. See how it cools fiery burning and helps shrink and heal swollen tissues. Wonder-soothing CHINAROID must prove a blessing to you or money back is guaranteed.

Try this Tempting Salad...It Tastes as Good as it Looks!

Sparkling jellied salad ring in cool shades of green. A delightful blend of flavors

Dress your salads in the best of taste with fresh-as-a-daisy Ann Page Mayonnaise. It's made of fine salad oil smoothly blended with eggs, mild vinegar, and pure lemon juice. Ann Page Mayonnaise is sold only at A&P.

LIME SALAD RING: Pour 1 1/2 cups hot water on 1 pkg. Ann Page Sparkle Gelatin, Lime flavor. Stir

until dissolved. Add dash of salt, 3 tbsps. Ann Page Vinegar, 1 cup chopped celery, 1/2 cup chopped stuffed olives. Pour half into ring mold. Chill until firm. Stir 1 cup chopped cucumber, 1/2 cup Ann Page Mayonnaise into remaining mixture; pour onto firm gelatin. When firm unmold on lettuce. Garnish with radishes. 5 servings.

Wheat Fertilizer

Topdressing wheat with 60 to 120 pounds per acre of ammonium nitrate frequently produces yield increases of 10, or more, bushels per acre in central and eastern Kansas where soils have been badly depleted in fertility. In the event that ammonium nitrate is unobtainable 90 to 180 pounds per acre of ammonium sulfate may be substituted

Young Lobster Lulls

The young lobster molts or sheds its bony shell as often as a grade-school boy outgrows shoes. Beginning from the second to the fifth day after birth, the lobster sheds up to 17 times the first year of its life and continues at a slower rate thereafter. At each molt, a small lobster can grow as much as 20 per cent.

SUNDAY IS MOTHER'S DAY

She will be pleased with a token of your appreciation and esteem—when you give her a present.

PERSONALS

Wednesday evening the monthly meeting of the South Amboy Chapter of the Red Cross will be held in the First Aid Squad headquarters on First Street, at 8 o'clock.

Wednesday night, a public meeting of the Common Council will be held at City Hall, beginning at 8 o'clock.

Tuesday noon, a meeting of the South Amboy Rotary Club will be held at George's Restaurant.

Joel Parker Council No. 60, Jr. O.U.A.M., will hold its weekly meeting tonight at Christ Church parish house.

Mrs. William Schwarick of Henry Street is a surgical patient at Middlesex General Hospital in New Brunswick.

All members of the Protection Engine Company have been requested to be at the headquarters at 8 o'clock tomorrow morning with paint brushes, to complete the painting of the new addition to the building.

Wednesday afternoon at 3:30, the annual meeting of the South Amboy Parent-Teacher Association will take place in Hoffman High School Auditorium, where the recently elected officers will be installed.

Acting Police Chief John Gleason has been named one of the chairmen of the committee arranging the 13th Annual Banquet of the New Jersey State Identification Association, at Paddock Lounge, Long Branch, Thursday evening, June 21.

Recently, Mr. and Mrs. Andrew Skarzynski, of 172 Benram Avenue, were honored on their 25th wedding anniversary, when they were tendered a surprise party to mark the occasion.

The infant daughter of Mr. and Mrs. Patrick J. Vona, was christened Bernadette at recent baptismal services held at St. Mary's R. C. Church, when the Rev. James Murphy officiated. Sponsors were Miss Helen E. Kowalska and Erminio Vona, aunt and uncle of the child.

Mr. and Mrs. George Samuelson, and Mr. and Mrs. Russell Park of Fortia Street, are spending a vacation in Florida.

The annual banquet of the Friday Night Bowling League, sponsored by the YMCA here, will be held Thursday evening, May 17th, at John's Hall, Way House in Mechanicsville.

Monday evening, St. Martha's Guild of Christ Episcopal Church will hold a social in the parish house at 8 P. M. Miss Uhler is in charge of the arrangements.

Members of the Ladies Auxiliary of the Ancient Order of Hibernians, will hold a game social at the Protection fire house, on Wednesday, May 23, beginning at 8:35.

Plans have been reported almost completed for a home made South Amboy Women's Republican Club at Nicastro's Store on Broadway, Saturday, May 19th.

This week, members of the local...

attended a convention of the organization held at Atlantic City. Delegates of the local unit who attended were: Mrs. Robert Bowser, Worthy Matron, Mrs. William Reinhardt, Associate Matron, and Mrs. Russell Hardy, Past Matron.

Plans are being made by the South Amboy Woman's Republican Club for a picnic to be held in this vicinity on Sunday June 10th.

Rita T. Tomaszewski Wed Here Monday To Andrew Egan

Monday afternoon at 4:30 in St. Mary's R. C. Church here, Miss Rita Theresa Tomaszewski, daughter of Mr. and Mrs. Edmund Tomaszewski, of 186 Conlogue Avenue, became the bride of Andrew Egan, son of Capt. and Mrs. John Egan, of 708 King George's Road, Fords. The Rev. Albert Tomaszewski, uncle of the bride, performed the double ring ceremony.

The bride, was given in marriage by her father, and wore a white satin gown, ballerina length and an elbow length veil of illusion draped from a crown. She carried a prayer book marked with white orchids.

Miss Joanne J. Egan, of Fords, sister of the bridegroom, was the maid of honor, and wore a pink gown designed with a Chantilly lace bodice and taffeta skirt, gold accessories, and she carried American Beauty roses.

The bridesmaid was Miss Marilyn Lee of this city, who wore a similar ensemble in green, and also carried American Beauty roses. Miss Sylvia Jean Dunham, of Fords, the flower girl, was dressed in a matching outfit. Kenneth Mayer, of Fords, was the ring bearer.

The best man was Edward B. Dinar of Carteret and James Collins, also of Carteret, was the usher.

The couple are on a wedding trip to Bermuda, and they will make their home at the Conlogue Avenue address.

For traveling, the bride wore a navy blue suit, cobra skin accessories, and had an orchid corsage.

The bride is a graduate of St. Mary's High School, here and employed by the Prudential Insurance Company, in Newark. Mr. Egan, a graduate of St. Mary's High School, Perth Amboy, is in the U. S. Air Force, stationed at Langley Air Force Base, in Virginia.

TWO LADS DISCOVER BOMB

(Continued from Page 1) first bomb that had been discovered in that section of the city since the explosion, and he said it demonstrated that a careful watch must still be kept for mines in all sections of the city. He said the beach at this point had been carefully combed at least three times by experts since the explosion.

The Acting Chief said the incident should point out to parents the importance of warning their children to be extremely careful about what objects they picked up, and if they discovered anything with which they were not familiar, they should not pick it up or move it, but notify police at once.

Sunday, May 13th—
10:00 A. M. Church School.
11:00 A. M. Morning Worship, the pastor preaching on the subject, "An Old-Fashioned Mother." We will recognize the mothers present.

8:00 P. M. Listen to "The Crusade Hour" over the P. M. Station, WJEN, New Brunswick. Rev. Francis Patterson of the Sayreville Methodist Church will be the speaker.

7:30 P. M. Union Evangelistic service at the First Methodist Church. With the help of the Union Order of the United Brethren.

gelistic Crusade we will have a great Gospel song service lead by one of the pastors and the showing of the thirty minute film especially for youth, "Crossroads."

Monday through Saturday at 8:45 A. M. be sure to listen to "Morning Devotions" over New Brunswick station WJTC, 1430 on your dial, when the Rev. William Blackley of the First Baptist Church will be speaking.

Monday evening, May 14th, regular Monthly meeting of the Official Board at 8:00 P. M., home to be announced.

The W.S.C.S. will hold a Pic Social on Thursday evening, May 17th, from 6 to 8 P. M. at the church, with Mrs. George Evigan and Mrs. Leon Tice as co-chairmen.

Irene P. Standowski Wed Here Saturday To Andrew Pacansky

The marriage of Miss Irene Patricia Standowski, daughter of Mr. and Mrs. Henry Standowski, of 11 Scott Avenue, Metrose, to Andrew A. Pacansky, son of Mr. and Mrs. Jacob Pacansky of 369 High Street, Perth Amboy, was solemnized Saturday afternoon at Sacred Heart R. C. Church with the Rev. Melvin Standowski, officiating at the ceremony.

The bride, who was given in marriage by her father, wore a gown of white Chantilly lace, with a fitted basque, of the shoulder yoke of nylon tulle, outlined with hand cut lace flowers, and embroidered with seeded pearls and rhinestones. She wore a three quarter length French veil of illusion, attached to an orange blossom crown.

The maid of honor, Miss Stella Standowski, wore a dress with a bodice styled similar to that of the bride, and in aqua with a yoke edged with an embroidered organza ruffle, and with two embroidered organza flowers on the skirt, over taffeta on hooped skirts. She wore a picture hat.

The bridesmaids were Miss Theresa Standowski of this city, Miss Doris Pacansky of Perth Amboy, and Miss Ruth Hansen of Metuchen. They were attired in gowns similar to that of the maid of honor, in pink, violet and maise.

Madeline Lauro was the flower girl, and was attired in a miniature gown designed like that of the maid of honor, and also in aqua.

Frank Pacansky of Perth Amboy was his brother's best man, with Richard Standowski of this city, John Maruska of South River, and Robert Debus of Perth Amboy as the ushers. Gary Pacansky was the ring bearer.

Following the wedding trip through the southern states, the couple will reside at the Scott Avenue address.

WOMAN'S CLUB TO HAVE LUNCHEON

On Tuesday, a covered dish luncheon will be held at Christ Church parish house by the South Amboy Woman's Club. The hostesses will be Mrs. H. J. Sandberg, Mrs. Helen Deats, Mrs. Caroline Slater, and Mrs. L. L. Sheppard.

The event will mark the close of the present term of the club.

Plans For O'Shea Day Are Reported Nearing Completion

Local People On Program And On Committees

Plans are rapidly nearing completion for the "Billy O'Shea Day," benefit to be staged at Waters Stadium in Perth Amboy, Saturday afternoon, May 19th, for the Sister Kenny Polio Fund. The event, a testimonial to the Clifford had, accordion player and singer, is being arranged by his friends in the professional entertainment field.

A four hour show is planned, at which a number of top notch professionals, and a large group of amateurs from this city will take part. Appearing will be a troupe sponsored by Nick Kenny, and among the toastmasters will be Ted Mack, of the television talent scout program.

Raymond Luciti will be one of the singers on the program, and Edward Powers, popular local toastmaster, will be one of the four masters of ceremony, who will appear.

It has been announced that a rehearsal will take place Sunday afternoon at 1:30 at the Masonic Hall in Perth Amboy.

Local members of the sponsoring committee are former Governor Hoffman, Assemblyman William Hurts, Mayor Thorvald E. Olsen, Robert Himmelfarb, and Victor Oppenheim.

RESOLUTION WOULD CUT POLICE FORCE

(Continued from Page 1) sion Wednesday evening.

This move, it is understood, from reliable sources, will be taken notwithstanding the fact that it was during a Democratic administration that the personnel of the force was increased. The possibility that this fact might be made much of by Republican Mayor Olsen and Republican Councilman at Large Robert McGowan, in fighting such a move, has held back action in the past, but it is understood that if such action draws criticism now, the Democrats will declare that the appointments were made by the previous administration without the official approval of the local Democratic organization.

It is understood Democratic leaders are certain that sufficient votes necessary to secure majority approval of the Council will be secured.

MILITARY SERVICE

Master Sergeant William R. Staley, non-commissioned officer in charge of the Marine Corps Recruiting Station, Post Office Building, New Brunswick, announced today that 3 and 4 year enlistments in the regular Marine Corps and indefinite period enlistments in the Marine Corps Reserve were still open. Staley also announced the recent lowering of certain mental and physical qualifications and extended an invitation for previously rejected applicants to apply for enlistment during the month of May.

Staley said that mental and vision qualifications had been lowered considerably, and minimum and maximum height requirement had been lowered and raised 4 inches respectively.

He also stated that although business is continuing to be excellent, there is only a few days waiting period between the date of application and date of enlistment. All initial enlistments are transferred to Parris Island S. C. for basic training in the famous "Marine Corps Boot Camp."

Walter J. Smith, Jr., radarman, third class, USN, of 232 South Broadway, has returned from a seven-month tour of duty in Korea aboard the attack cargo ship USS Montague.

The Montague, scheduled for a routine overhaul, took part in the landings at Inchon and Wonsan and in the redeployment for United Nations forces from Hungnam.

Colonel L. N. Bloomer, New Jersey, Director of Selective Service, today called attention to the fact that May 16 is the deadline for mailing Selective Service College Qualification Test application cards. All postcard applications for the test must be postmarked not later than midnight May 16. Colonel Bloomer, pointed out.

The deadline is to allow the administrators of the test, the Educational Testing Service of Princeton, New Jersey, time to process the applications and assign each applicant a testing center, of which there are approximately 1,200, and a date on which the applicant is to report to take the test.

The three testing dates are May 26, June 16 and June 30. All of these dates are Saturday. A fourth examination will be held Thursday, July 12. This examination is for students whose religious beliefs are such that they could not in conscience take the examination on a Saturday. Colonel Bloomer, said that the students, like others must mail their applications not later than midnight, May 16.

FORT DIX, N. J. — Armed Forces Day a day set aside to allow the public to see the Armed Forces in action, will be observed this year on Saturday, May 19. Fort Dix and McGuire Air Force Base, the largest service installations on the East Coast, will feature Open House with the theme of "Training as Usual."

Marine and Naval personnel of the Lakehurst Naval Station, which is holding Open House this year, will join the men of the 9th Infantry Division and elements of the 52nd Fighter-Interceptor Wing for a combined display of their individual tech-

niques, tactics, and equipment at Ft. Dix and McGuire. Therefore, civilians desiring to visit a service installation on Armed Forces Day can, by visiting Fort Dix and adjacent McGuire Air Force Base, see all of the services in action.

Shore, Marine, Army, and Air Police will be placed throughout Dix and McGuire to direct visitors to the various demonstration areas.

The 9th Infantry Division will feature demonstrations and displays on the Fort Dix Parade Ground using the "county fair" technique, and in addition, certain ranges will be open to the public so that they may see infantrymen in "Battle Action." All of the Infantry weapons will be on display, and many will be put in and out of action as they would be in combat. New weapons such as the J.5 Rocket Launcher, the 67mm and 76mm Recoilless Rifles will be shown.

Walter J. Smith, radarman, third class, USN, of 232 South Broadway, recently returned from a seven-month tour of duty in Korea, aboard the cargo ship USS Montague.

DEADLINE FOR G. I. TRAINING COURSES ONLY 3 MONTHS AWAY

The July 26 deadline for starting GI Bill courses of education and training for most veterans is exactly three months away. Veterans Administration reminded veterans.

The date, established by law, should be kept in mind, V-A said, by World War II veterans making plans for schooling or training at Government expense. This coming Summer term, for example, will be the last during which most veterans will be permitted to enter or re-enter GI Bill training.

A veteran actually must be in training by the deadline if he wants to continue afterwards. V-A will consider him in training, even though he has temporarily interrupted his course for the summer vacation or for other reasons beyond his control, such as re-entry into military service.

Once he completes or discontinues his program of training after the cut-off date, he may not start another course.

Also, he must meet these requirements:

He will be expected to pursue his training "continuously until completion, except for conditions which normally would cause interruption by any student."

He may change his educational objective "only while in training and then for reasons satisfactory to the Administrator."

The July 26 cut-off date applies to World War II veterans discharged before July 26, 1947. Veterans discharged after the 1947 date have four years from the date of discharge in which to begin G. I. Bill training. Most veterans in both groups however, must finish training by July 26, 1956, wind-up the program.

An exception has been made for those who enlisted or re-enlisted under the Armed Forces Voluntary Recruitment Act (between October 6, 1946, and October 6, 1946). Those veterans have four years from the end of their enlistment or re-enlistment period in which to start training, and nine years from that time in which to complete it.

FEDERAL EXCISE TAX INCREASE NEARLY DOUBLE PRESENT FEES

The proposed increase in U. S. automotive Excise taxes will cost the New Jersey car owners almost \$40-million a year in additional Federal fees, the Automobile Club of Central New Jersey revealed.

Mrs. Kathryn D. Sullivan, secretary-manager of the AOCNJ, pointed out that this will mean the average motorists will be paying a total of \$56.00 a year in Federal automotive taxes alone. "In addition," she said, "the motorist is paying an average tax to the state of about \$50 a year."

The secretary-manager pointed out that Federal Excise taxes are not collected for the benefit of the motorist. "In 1960, the Federal Government collected \$49,542,000 in taxes from motorists in the state of New Jersey."

"The State Highway department said that the Federal Government returned to the state \$8,385,664 in funds for road uses."

Iron and Gold
Iron was more precious than diamonds or rubies during the days of King Tut-ankh-amen. Bits of the metal were set like valuable gems in jewelry and lucky pieces designed for Egyptian royalty.

PROTECTION FIREMEN MAKING PLANS FOR ANNUAL BAZAAR

Protection Engine Company is presently making plans for one of the biggest affairs of its kind ever sponsored by the company, when the annual bazaar takes place this year, from June 2 to June 9 inclusive.

Members of the committee have announced there will be many new attractions, including a number of new features for the kiddies.

It has been assured that the addition to the firehouse will be completed in time to use it for this bazaar. All work on this addition is being performed by the firemen themselves.

YOUR GARDEN

By Charles H. Connors
Rutgers University, the
State University of New Jersey

Magnolias, now past their bloom, belong to a group of plants that should not be pruned as ordinary plants are pruned. Wounds, especially large ones, heal very slowly.

If twigs or branches are growing in such a way as to interfere with or rub against others they should be removed. Do it now, when growth is starting. At this period of growth better healing takes place. Make the cuts close to the main part so as not to leave stubs.

Training magnolias is better than later pruning. As soon as a bud starts and is seen to be growing in a direction that will later cause trouble, rub it off with a thumb or finger. If you make large cuts, watch near them for new shoots starting to take the place of the one removed. Rub them off.

Insect Control Necessary

Too much emphasis on insect control may seem like making gardening a burden. However, we do have some pests that surprise us and become serious all at once.

Bagworm is one of these. Eggs hatch from mid-May to June and the young move about and feed. At this time a thorough spraying with arsenate of lead, one-half tablespoonful to a gallon of water will give control. To increase effectiveness, add one-half tablespoonful of wheat flour previously made into a paste with cold water.

Sawfly larvae attack new shoots on two-leaved pines, such as Mugho Pine, Red Pine and Austrian Pine. Many of these pests are about the color of the plant, but the eye can detect movement. As soon as the inch-long larvae are seen working, spray with arsenate of lead or rotenone.

Regal Retreat

At Marly-le-Roi, now a Paris suburb by the corkscrewing River Seine, French kings, surfeited with palace pomp, found escape at the huge hunting chateau built by Louis XIV in the 1680's. To feed the four tamed gardens of Versailles, an old rate "water machine" was built at Marly, lifting water from the Seine to an aqueduct which still leaps the forest. The pumping station, modernized a century ago, is still in operation.

"Old North State"

Total Registrations
Reported At 1,637,212

TRENTON.—One in every 3½ persons owned a passenger car and one in every 2½ persons was licensed to drive in New Jersey during the 1960 motor vehicle registration year ending March 31. Motor Vehicle Director Martin J. Ferber reported today in the 46th annual report of the Division of Motor Vehicles.

Total vehicle registrations amounted to 1,637,212 of which 1,343,797 were for passenger cars and 210,689 for commercial vehicles.

The number of licensed drivers was 1,800,970 and motor travel exceeded 16,800,000,000 miles. Division revenue from registrations and all other sources was \$37,667,960.

Traffic accidents reached an all time high of 779,970, a 26 per cent increase over the previous year; fatalities totaled 687, a rise of 16 per cent and persons non-fatally injured 33,112, an increase of 20 per cent. Director Ferber commented thusly on the accident rise:

"On the surface, it would appear that safety and precautions over the year have been of little value in making the motoring

and walking public more safety conscious. There are certain elements, however, that must be considered in appraising the present day highway accident record.

"Foremost, is the fact that exposure to accidents in New Jersey in 1960 was the greatest in the State's history. Motor vehicle travel exceeded that of 1949 by 1,400,000,000 miles. There were 160,000 more vehicles registered and in operation. There were 112,000 additional licensed New Jersey drivers on the roads.

"A long range view does indicate definite progress in safety, especially in the field of highway fatalities. A drop from 1,302 deaths 20 years ago to 687 in 1960 was achieved in the face of 62 per cent more vehicles, 76 per cent more drivers and 124 per cent greater mileage.

"Another encouraging aspect is the decline in pedestrian casualties. Pedestrian deaths in 1960 represented 206 out of the year's total which was 36.5 per cent of total deaths as compared with the pedestrian toll in 1945 when it was 60 per cent of the total. Pedestrians injured numbered 4,811, or 14.5 per cent of the 33,112 persons injured in traffic accidents. The latter was also the lowest pedestrian injured rate in the history of accident records. Here is marked improvement when considering the increased hazards on the streets and highways."

Another indication of highway

safety program, Director Ferber said, was the 4.98 death rate, or deaths per hundred million vehicle miles of travel. While slightly higher than the 3.88 rate in 1949, the 1960 rate was considerably lower than the 7.5 rate for the country.

PUBLIC NOTICE

Notice is hereby given that sealed proposals are invited and will be received by the Mayor and Council of the City of South Amboy, N. J. at a regular meeting to be held at City Hall, South Amboy, N. J. on May 16, 1961 at eight (8) o'clock P. M. Daylight Saving Time for the furnishing of approximately one hundred (100) tons, more or less, of cold patch material for use on surface treated roads. The material to be made up as follows: Three (3) tons ¾" Stone; one half (½) ton sand or stone sand to one (1) barrel (50 to 55 gals) suitable asphaltic material thoroughly mixed.

The Mayor and Council reserve the right to reject any or all bids if it be in the best interest of the City to do so.

By order of the Mayor and Common Council of the City of South Amboy, N. J.

G. FRANK DUBROW,
City Clerk.

PUBLIC SERVICE
PLACES ORDERS FOR
185 NEW BUSES

In compliance with a condition contained in the decision of the Board of Public Utility Commissioners when the basic interstate bus and trolley car fares were increased from five to seven cents, Public Service Coordinated Transport and Public Service Interstate Transportation Company have placed orders for the purchase of 185 new buses from the Truck and Coach Division, General Motors.

The order calls for the purchase of 100 thirty-six-passenger transit-type diesel mechanical buses by Public Service Interstate Transportation Company.

Delivery of these new buses will be made during the last quarter of the year.

The new buses will be of lightweight aluminum and steel construction and will be equipped with hydraulic torque converter-type transmission providing smooth, rapid acceleration; foam rubber cushions with Koroseal on the seats. The larger buses will have twenty-four dome lights and the smaller ones will have twenty. All buses will have pressure ventilators and thermostatically controlled heating systems.

Emblem for Party

The raccoon was adopted as a badge by the old Whig party about 1860.

CRACKPOT THINKING

The nation's capital is frequently the source of amazing stories. And one of the most incredible of all was carried by the press associations under a Washington dateline early in April.

It seems that staff experts of the House-Senate Economic Committee, which is studying inflation and related problems, suggested that a "luxury tax" be placed on meat. They added that meat is really a "luxury food" and so it might as well bear a special tax.

This, to put it mildly, is about as crackpot an idea as anyone has come up with in a long time. Its only purpose can be to drive the American standard of living down toward subsistence levels as rapidly as possible. If meat is a "luxury", then the vast majority of Americans indulge in luxurious living every day—and many of them do it three times a day. They don't all go in for T-bones by any means, but they buy some kind of meat and they relish it.

Moreover, it has been scientifically proven that meat, because of its whole protein content, has a direct beneficial influence on the mental and physical health of the individual. It makes for strength, stamina, and morale—a fact which was demonstrated on a mass scale in the Army during the last war when the military diet contained an unusually high proportion of meat. Other established discoveries show that meat is of the greatest value in many kinds of illness, and in a high percentage of prenatal and post-natal cases.

It is good to report that the committee itself did not endorse a "luxury tax" on meat. Apparently the members, who are responsible to constituents with the power of the ballot, had better sense. But the fact that alleged "staff experts" even suggested such a tax, casts a great white light on some of the thinking that is going on in the nation's capital where laws are made and policies established.

HERE TO STAY

It certainly looks as if coal is here to stay, despite the existence of other fuels with which it must compete.

During the 12 months which ended last February 28, the soft coal industry produced and shipped nearly 560,000,000 tons, including a re-stocking of depleted storage piles. And it is now predicted that production for consumption during the present calendar year will be at about the same high rate.

All the major consumers of coal are showing an increasing appetite, including the electric utilities and the railroads. More coal is being used by steel and by general industry. More is being exported. And domestic use for home-heating is running at an annual rate of nearly 90,000,000 tons.

This speaks well for the vigor and progressiveness of the coal industry. Like all free enterprise, it has faced and met tough competition. It has held down costs by immensely improving production methods and this has also made a great contribution to safety in the mines, and to miners' wages and working conditions. It has carried on a very extensive research program, which has given users a better, cleaner and more adaptable product. Its purpose is to improve coal's service to all types of consumers—which is always an industry's purpose in a competitive economy.

Last, but certainly no least, coal is one of the essential mainstays of our rearmament effort. It is a weapon in war, and a tool in peace.

PLANNED INFLATION

Most of us tend to shy away from discussions of inflation by economists. They are apt to be lengthy, technical and, to the layman, hopelessly involved.

However, an outstanding banker recently gave a general description of the causes of inflation in words which anyone can understand. Here's what he said:

"Inflation was brought about in this country as a matter of deliberate government policy over a period of almost 20 years with World War II thrown in for good measure . . .

"Almost 20 years ago during a period of severe depression

those in charge of our government apparently decided that the fundamental law of supply and demand was too slow in functioning, and their economists wrote a prescription for a government-supplied excess of purchasing power and a government-created short supply of commodities. Such a program obviously required money, and lots of it. The government does not produce wealth—it consumes wealth . . . So the government embarked upon the policy of taking tax money from those who had something and piling up government indebtedness and spreading the money around in the form of doles, subsidies, parity payments, price support programs, and other such devices among people who would immediately spend it . . .

"Thus there was created the doctrine that the way for people to get along in this world was to get more and more for doing less and less. This was man-made, synthetic, artificially-inseminated inflation, manufactured to order and found for some years to be politically quite profitable."

There are the roots of our inflation, from which today's towering plant has grown. It is just one more example of fact, that when government attempts to "repeal" a natural economic law, everyone is hurt in the long run.

SAVING THE WOUNDED

Deaths from wounds in the Korean war have been at the lowest rate in history. This is a tribute to the magnificent work which the doctors, nurses and medical corpsmen attached to our fighting forces are doing under the most difficult and dangerous conditions.

But there is even more to it than that—and it is found in the high protein diet of American soldiers. Their rations include about a pound of meat a day, and meat is one of the best of the limited number of sources of whole protein. According to Dr. I. S. Ravdin, professor of surgery at the University of Pennsylvania, and formerly a brigadier general in the medical corps, the amazing success in saving the wounded has resulted in part from "the recognition that high grade animal protein in diets may be almost as important as antibiotics (germ-killing medicines) in healing wounds faster."

This comes hard on the heels of the experience during World War II, when the enormous value of protein to troops was proven. Then, as now, military personnel received rations high in meat content. It was found, further, that protein has a definite beneficial effect on energy and morale, no less than in helping the sick and wounded to regain their health.

What is true of the soldier is true of the civilian. Research has firmly established the fact that large amounts of proteoan are needed by almost everyone. This is now strongly advocated by the leading medical authorities on dietetics. It marks a step forward on the march toward a stronger, healthier people—as the experience in Korea is demonstrating.

MUCH FOR LITTLE

Retailing provides an essential service and, in return, makes a very moderate "charge" on its customers.

The last annual report of a nationally known variety chain is a good case in point. Last year, it had a total income of \$162,862,154. Its expenses came to \$157,870,535, including the payment of \$7,055,022 in dividends—only 4.3 cents on each dollar of revenue to its stockholders. The balance of \$4,991,619 was retained in the business.

In the last generation or so there has been a great change in retailing. First of all, competition has become steadily more intense, and this, naturally, has tended to better the service to the consumer. Second, retailing has in part developed along the line of mass distribution at a minimum profit on each sale. This idea was pioneered by the chain systems, and other types of stores adjusted themselves to the trend. The result is a better deal for the consumer.

The competitive drive forces every retailer, large or small, to try to do a better job and so hold his old trade and gain new. This has been of immeasurable aid to the average family which is trying to make our deflated dollar meet inflation's demands.

KNOW YOUR GOVERNMENT

1951 LEGISLATURE

The record of the 1951 Legislature includes enactment of the largest budget in the history of the State. Its sponsors on the Joint Legislative Appropriations Committee point out the bill involves no new taxes.

The spending program for the new fiscal year totals 180 million dollars. This is 7.2 per cent more than last year's 168 million dollar appropriations program. As the bill cleared the legislative chambers during the closing days of the 1951 regular session, the total of the annual appropriations was nearly a half million dollars under the budget presented by the Governor. His budget message had warned:

"The proposed budget is not a blueprint for the spending of State revenues. It constitutes a challenge to save money and to spend less than the amount recommended for appropriation."

Such advice will have the hearty endorsement of taxpayers, as State fiscal officers proceed to place the new budget into effect with the start of the fiscal year on July 1. "In view of the back-breaking demands upon taxpayers nationally, needs of the State and local governments should be subjected to most careful study and appraisal," says the New Jersey Taxpayers Association.

The Association's year-by-year chart for the period since the end of the war shows an overall increase of 100 million dollars in annual State Government appropriations. From 80 million dollars in the fiscal year 1945-46, annual appropriations climbed 126 per cent to the 180 million dollars for 1951-1952.

The course of State Government appropriations is depicted below:

Fiscal year	Millions of dollars
1945-46	\$ 80.0
1946-47	101.1
1947-48	126.7
1948-49	123.8
1949-50	141.8
1950-51	168.0
1951-52	180.1

Night Bloomers

Is there a flower which blooms only at night? There are a number of flowers which do this. Most of them are strongly scented, sometimes almost overpowering in sweetness, and they are generally white or pale yellow. They are pollinated by various kinds of moths. Some of the more common of these plants are the "Night-blooming Cereus" (the common name for several species of cactus), the Moonflower, several species of Evening Primrose, and the Angel's Trumpet.

Largest Dam

The world's largest earthfill dam is on the Missouri River in northeastern Montana. Called the Fort Peck Dam, it contains 128½ million cubic yards of earth, four million cubic yards of gravel, and a million cubic yards of rock. When full, the artificial lake will be 182 miles long, and have a shoreline of 1,600 miles.

Ballot in Room

America, from the tiniest unit of community life on up to the big White House on Pennsylvania Avenue, is built on the ballot, and bossed by it.

Industry Survey For Civil Defense To Start Soon

Plans For Study Of
Schools here Also Made

Within a short time, a survey of all local industries will be begun under the direction of Acting Police Chief Olmson, to obtain information required by the local Civil Defense to complete its disaster operation plans. This record will contain vital information concerning the industries, which will be prepared for quick reference. Recently Olmson and Defense Chairman Michael P. Nagle, conferred with Chief Murray of the Perth Amboy Police Department and inspected a similar record compiled for that city.

A survey along similar lines, to cover all local schools will be made by Superintendent of Schools Tustin, a member of the Defense Council.

Chief Warden Charles Eppinger reported that there are still some vacancies to be filled in his organization, and a similar report was made by Joseph DeMarco of the Defense Police, who said that the fourth class in First Aid has been started by the members of that group.

PERSONAL APPEARANCE FOR BUSTER CRABBE AT MAJESTIC THEATRE

Buster Crabbe, Olympic swimming champion, movie star, and now star of his own WOR-TV cowboy show, will appear in person at the Majestic, a Walter Reade Theatre in Perth Amboy, at a special kiddie matinee on Sunday afternoon, May 14th. It was announced today by William Saxton, manager.

The cowboy star, who now operates his own Silver Saddle Ranch in North Branch Station, N. J., and appears daily on the tremendously successful "Buster Crabbe Western Show" on WOR-TV, will recollect Western adventures and stories for the youngsters from the Majestic stage. He will also give autographed photos to the first 1,000 children attending.

Mr. Saxton said the theatre's regular adult show will not begin until 8 P. M., to make way for this special matinee show which will begin at approximately 1:30. Johnny Weissmuller's famous "Tarzan Triumphs" and six Walt Disney cartoons have been booked for the youngsters.

METHODIST W.S.C.S. TO MEET TUESDAY

Tuesday evening, beginning at 7:30, a meeting of the Woman's Society for Christian Service of the First Methodist Church, will be held in the parsonage. The hostesses will be Mrs. W. N. Pike, Mrs. John Gallagher, and Mrs. Marion Van Kirk.

Graduation Class At Rutgers Will Have About 2,200

Plan 185th Anniversary
Commencement On June 9

NEW BRUNSWICK.—An estimated 2,200 graduates of eleven colleges and divisions of the State University of New Jersey will receive baccalaureate or advanced degrees when Rutgers University holds its 185th Anniversary Commencement here Saturday evening, June 9. The ceremony will begin at 6:30 P. M.

The 1961 class of graduates will number slightly less than that of the preceding June when a record group of 2,300 received Rutgers diplomas.

Secretary of the University Karl E. Metzger announced today that the University-wide exercises will again be held in the 22,000-seat Rutgers Stadium in order to accommodate the degree candidates and their guests. Near 15,000 persons are expected to attend.

The Commencement will be held at 6:30 in the evening instead of at 10 o'clock in the morning for the convenience of graduates' families and friends. Many guests have to travel long distances to attend the program.

Arrangements also provide for moving the commencement to the Rutgers gymnasium on College Avenue here if it rains. Attendance there will be limited to degree recipients. Guests will be able to hear the ceremony through radio broadcast of the proceedings brought to seating areas about the campus.

The entire program will be broadcast radio or clear, by Stations WCTC (1450 kc.), New Brunswick; WNJR (1430 kc.), Newark; and WTTM (930 kc.), Trenton, beginning at 6:30 P. M.

All units of the University except the New Jersey College for Women which is holding its graduation exercises on June 8 will participate in the University commencement.

This year's class is expected to include the first student to complete requirements for a degree at Rutgers College of South Jersey in Camden. It will also include graduates of the four men's colleges in this city, the four Newark Colleges, the Graduate Faculty and University College. Inservice teachers who are graduating from the School of Education will also receive their degrees at the University commencement.

Baccalaureate services for graduates of the men's colleges in this city will be held in the College Avenue gymnasium at 11 A. M. on Friday preceding commencement. Services for the graduates of the four Newark colleges will be held at the Second Presbyterian Church in Newark on Sunday, June 3 at 4 P. M.

TOPICS

(Continued From Page 1)

The rising cost of defense and other activities of the Federal Government are causing those capable of seeing into the future, a great deal of concern.

For every man, woman and child, about \$447.76 will be spent in the next fiscal year, according to present plans. This is exclusive of the cost of State and Local Government, and figures out to \$1,830 for a family of four. The money, of course, will be raised through taxation and borrowing.

Since the turn of the century, the combined per capita cost of war and the other functions of the Federal Government has multiplied sixty seven times. Even after a correction for the inflation of the dollars over this period (wholesale prices are now about three times as high as they were in 1900), the rise in the cost of wars and other Federal Government functions has been phenomenal.

THREE CAR CRASH INJURES SIX

Sunday morning, a three car collision took place near the Edison Bridge on Route 35.

State police identified the drivers of the cars as Mrs. Dorothy Devine, 36, of Livingston; Joseph Anger, 50, of Garwood; and Charles Kirchbaum, 53, of Elizabeth.

Six people who suffered injuries were taken to the South Amboy Memorial Hospital for treatment, by the First Aid and Safety Squad. They were identified as Mrs. Devine, Edwin Devine, 35, and Dennis, age 8, all riding in the Devine car; Bernard Anger of the Garwood address, Robert Anger, 5, and Theresa Spindler, 63, of Newark. After treatment for their injuries, all were released.

MARGARET T. KERR WILL IS PROBATED

Probated this week in the office of the Surrogate of Middlesex County, the will of the late Margaret T. Kerr, widow of Robert Kerr, provides for a donation of \$600 to the Altar Guild of Christ Episcopal Church, and a gift of \$2,000 to the Cemetery Association of the church for the perpetual care of her burial plot. The sum of \$1,000 is bequeathed to a grandson, Donald M. Travin, and \$150 goes to Ruth V. Kerr, "for acts of kindness."

Robert M. Kerr Jr., Marjorie K. Travin and Constance K. Keady are to share equally in the residue of the estate, while the first named, son of the deceased, has been named the executor.

The will was dated May 12, 1947, and was witnessed by John A. Lovely and Walter A. Mahlen.

Wigs Are Not New
Wigs and other types of false hair were worn by the ancients.

MISSIONARY SOCIETY MEETS TONIGHT

The Women's Missionary Society of the First Baptist Church will meet at the home of Mrs. Charles Hamilton on George Street, this evening, when the hostesses will be Mrs. Charles Hamilton, and Miss Jennie Cole.

Why Sunday?

Why do most Christians observe Sunday rather than Saturday? The custom of Sunday worship began in apostolic times as a weekly commemoration of Christ's resurrection. Most Christians have not regarded this change of days as signifying disrespect for the Commandment, "Remember the Sabbath Day to keep it holy."

Farmers Asked To Supply Food For Wild Life

Suggest Use Of Land Unfit For Intensive Agriculture

TRENTON.—Farmers now actually engaged in preparations for the planting season are requested by the State Division of Fish and Game, Department of Conservation and Economic Development to give some thought to the installation of food for wildlife in those sections of the farm not suitable for intensive agriculture.

In many farm areas farms contain fence corners, openings in woodland lots, small ravines or other land types not suitable for crop production, the State Fish and Game Division said. Locations of this kind lend themselves well to foodpatch installations.

Farmlands throughout New Jersey play an important role in the maintenance of wild birds and animals and under certain conditions this wildlife can be of great value to farmers and sportsmen alike. All animal life is reliant upon vegetable life for growth and sustenance and the ultimate population of game birds and game animals are governed by the adequacy of food and cover.

The planting of food patches, food bearing vines, trees, and shrubs, and cover trees and shrubs, will increase brood survival and will create better game conditions next fall. The State Division of Fish and Game emphasizes the time is now opportune for the planting of the food patch mixture advocated by the division. The mixture can be procured at various dealers throughout the State and composition and instruction for planting may be obtained from the Division of Fish and Game, State House Annex, Trenton, N. J.

It is recommended that the mixture be planted in one half acre plots and should in every case be planted adjacent to good cover. A patch of yellow dent corn planted to be left uncut near good cover makes an excellent food supply. Plots of either millet, soy beans, cow peas, and Sudan grass make a good food supply, especially adapted to poorer soils where the more desirable grains do not thrive.

The State Division of Fish and Game emphasizes a food patch planted now will mean more game next fall. It assures the success of broods hatched in the wild by creating that very necessary factor, and adequate food supply. Chances of survival of liberated birds will be much improved.

"Modern civilization and its trends have seriously depleted food and cover facilities," declared the Fish and Game Division of Fish and Game. "Game life can no longer shift for itself. A food patch properly planted this spring will be of great value to game life when the going gets difficult later in the year."

SCHOOL EMPLOYEES CALLED TO MEETING

(Continued From Page 1)

said that at no time, during his visits to the schools, he had found any basis for such charges.

Criticism was also leveled at Superintendent of Schools Tustin, by Gleason, because the latter, had not supplied the information necessary to prove to the Board that charges of lax discipline had not been proved groundless by him, but instead, had indirectly admitted the conditions existed, when he called a meeting of the teachers on the subject the next day, and promised the Board the situation, which Gleason said did not exist, would be improved.

A new set of regulations with regard to the conduct of employees of the system, when read by Gleason brought forth comment from Tustin, who inferred they were not satisfactory, and would in some cases, work a hardship on the teachers, and a sharp reply came from Gleason, who took the attitude that the regulations covered what the Board wanted done, not what the Superintendent approved of.

Gleason declared all employees of the system will be provided with a copy of the regulations, and he added that if Tustin had objections to them, he should have voiced them before this meeting, since he and members of the Board had copies in their hands for the past seven months.

Higgins also criticized Tustin and blamed him for permitting heckling at a meeting of the teachers held recently.

Higgins in the course of his questioning of Tustin said, "I am convinced there are a lot of things getting by me," and he added that the probe into various conditions in the schools he has been conducting, will be continued. Gleason also criticized Tustin for handling matters which rightly were the prime concern of the Board, and he quoted as an instance, the fact that when Tustin received a check from an insurance company for injuries sustained by one of the pupils, he had sent it to the parents of the boy. Gleason said this matter should have been turned over to the Board of Education for handling.

Also discussed was a recent incident, when the Board charged, Mrs. Tustin, a member of the teaching staff and wife of the Superintendent, was guilty of an alleged act of subordination, in refusing to turn over her plan book when Joseph Vail, high school principal asked for it, was brought up by Gleason and Higgins. There were sharp verbal exchanges, between the Board members and Mrs. Tustin, that bordered on being personal. Mrs. Tustin defended her action and, declared the Board had been guilty of failure to permit her to exercise her right of free speech, a guarantee of the Constitution.

When after three and one half hours, the meeting came to a close, Gleason declared there were a number of other matters to be discussed, and there would be further consideration of some which came before the meeting, but because of the limited time available, had not been approached from all angles.

This Tiny Age

Newspapers, magazines and books are printed with type metal, another in the tin alloy legion. Babbitt metal makes possible soft replaceable engine bearings. Solder is the tie that binds. As bell metal, tin rings from the world's church towers. Gun metal contains tin; so does the bronze of statues in the park.

Terra Cotta Company To Sell Building Here

In Last Of Those On Site Long Identified With Ceramics Industry

The factory building on lower Broadway, owned by the Federal Seaboard Terra Cotta Company, is for sale, it has been announced. The factory was for some years used by the Terra Cotta company, but manufacturing operations were discontinued some years ago.

The entire factory contains approximately 60,000 available square feet, and occupies a plot 260 by 970 feet, and the total area of the factory site is 5.7 acres.

The buildings are constructed of brick and hollow tile, and the ground floors are of concrete. There are wooden floors on the second floor.

Officials of the company have revealed that the sale price has been set at \$120,000.

The building is the last of a number of pottery and terra cotta manufactures that have been located in the Swan Hill section over the years.

Almost since South Amboy was settled, there have been one or more ceramics manufacturing factories on the site, and history records that there were several potteries located there before the Revolutionary War. In the Swan Hill section was located one of the most famous potteries in the East, the Congress Pottery, and the products of this factory, today bring big prices as collectors' items.

ASSEMBLYMAN KURTZ IS STILL WORKING

(Continued from Page 1)

for such operations, would also be charged with the supervision of handling to insure that all possible precautionary measures would be taken. Kurtz declared one of his reasons for such action is that since the lives of those handling the explosives are in the greatest danger, better supervision would be afforded by the Department of Labor, primarily concerned with safety for labor, and such concern would in turn afford better protection for all citizens.

Kurtz has had a number of conferences with authorities on explosives, among them Colonel Garner, commanding officer at Camp Raritan, and the plan he advocates, has met with the approval of many authorities with whom it was discussed.

Stressing the necessity for legislation of this type, which would definitely place the responsibility on a single agency, Kurtz recalled that when the Congressional investigation was held here following the May 19 catastrophe, one of the difficulties encountered was the inability to place the blame with any single group of individuals.

Shells Use

Wicker hampers present a problem to housewives who wish to keep them spic and span. The hundreds of little crevices are easily coated with a thin coat of fresh white shellac.

ASTHMA

Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. This alleviates coughing and aids freer breathing and better sleep. Get MENDACO from druggist. Satisfaction or money back guaranteed.

LOCAL SODALITY MEMBERS TO ATTEND CEREMONIES SUNDAY

On Sunday afternoon members of the Children of Mary Sodality of Sacred Heart R. C. Church here, will take part in the World Sodality ceremonies to be held at Waters Stadium, 13 Perth Amboy.

Mink
A man may live without water for about 12 days, but three days without water is almost certain to be fatal to a mink.

ANNUAL REPORT

BOARD OF PUBLIC WORKS

City of South Amboy,

We herewith submit the Annual Report covering the activities of the Board of Public Works, during the year ending December 31, 1950.

WATER DEPARTMENT

During 1950 the Pumping Plant was in operation 391 days. We lost 14 days during the High Tide of November 26, 1950.

We pumped 377,725,000 gallons during the year plus the purchase of 14,000,000 gallons from Perth Amboy at a cost of \$2,081.00. This was 38,000,000 gallons less than 1949.

The Capital Improvements during the year were as follows:
- 1000 ft. 6" C. I. Water Main on Sixth Street costing \$1,570.00.
- 340 ft. 4" C. I. Water Main on Thomas Street costing \$650.00.
- Relocated 5" meter from Upper Main Street to Conique Avenue costing \$1,389.00.

Lowering 6" Water Main on Ferris Street costing \$450.00.
3 New Hydrants on 6th Street and Thomas Street.
Replaced Hydrant damaged on Broadway near Church Street.
Damage to the Reservoir caused by the explosion of May 19th, was \$12,000.00.

The damage to the Building at the Water Plant was \$5,306.20. This was covered by Insurance.

There was a loss of Income from Large Consumer users amounting to \$10,779.42, also Income loss from Repairs amount of \$1,521.03 or a Total loss in revenue from the above accounts of \$12,300.45.

The following is the Income and Operating Expenses for 1950.

INCOME	1950
Water Rents	\$61,508.90
Meters, Taps and Repairs	4,797.48
Sewer Taps	2,300.00
Prior Years' Surplus Appropriated	—
Miscellaneous Credits to Income	9,306.90
Total Income	\$74,551.61

OPERATING EXPENSES

Water Purchased	\$ 2,081.10
Purification Expenses	597.50
Pumping Station Wages	54,212.54
Electric Pumping Power	8,548.44
Other Pumping Expenses	10,918.04
Repairs to Station Structures	2,300.00
Distribution System Expenses	9,850.00
Commercial Expenses	7,704.15
Administration Expenses	1,500.00
General Office Expenses	792.00
Insurance	1,001.00
Transportation Expenses	1,007.50
Amortization	3,000.00
Taxes	60.00
Sanitary Sewer Costs	2,187.50

Total Operating Expenses **77,908.01**

Operating Income Loss	\$2,186.40
Interest on Funded Debt	2,322.25

Total Loss **\$5,508.75**

SANITARY SEWERS

300 ft. 8" Sanitary Sewer Main laid on Sixth Street at a cost of \$3,700.00

Repaired Manhole bottom and cleaned out sand from 50 ft. on South Feltus Street near Ferris Street.

200 ft. 6" Sanitary Sewer laid on South Feltus Street at a cost of \$300.00.

In Bergen Hill, between Elm and Cedar Street we had to dig up 300 ft. of 6" Sewer Main and clean out the tree roots that blocked it.

LIGHTING

During the year a 400 C. P. light was placed on Main Street between Stevens Avenue and Stockton Street.

Changed a 100 C. P. light on Bordentown Avenue, and Florence Avenue to 400 C. P.

Changed 100 C. P. light on Fisher and Fortin Street to 400 C. P.

SEWAGE DISPOSAL

Was damaged during the May 19th explosion and November 26, "High Tide." All major repairs have been made and Plant was in complete operation all year, by using the stand-by equipment.

We wish to express our sincere thanks to the public for their co-operation in the trying year of 1950.

New Breeder House In Operation At State Game Farm

Building At Rockport Most Modern In Construction And Equipment

TRENTON. — Sportsmen of New Jersey can take pride in the new breeder house put into operation at the Rockport State Game Farm, the State Division of Fish and Game, said today.

This breeder embodies the most modern in construction and equipment in order to insure production of a quality bird at minimum cost, the Division of Fish and Game added. The building is 450 feet long and contains in a single unit, thirty brooding compartments, having dimensions of twenty by twenty-four feet.

In addition two feed rooms are located at strategic intervals in order to reduce the labor that was previously been necessary in the rearing of birds. Each brooding compartment contains automatic water fountains and each compartment is heated by two automatic gas heaters.

Each brooding compartment has an outdoor pen 75 by 25 feet in size which is directly connected with large open top hardening pens. These pens also contain automatic fountains and are so arranged they are connected with large covered holding pens having dimensions of 300 by 600 feet.

This installation is regarded as being one of the most modern in the northeast. It was designed by Mr. Robert Buntain, Superintendent of the Rockport Farm, and Mr. L. G. MacNamara, Superintendent of Wildlife Management of the division.

Construction was carried on by Mr. Alfred Horner and a crew of three men, all employees of the Division of Fish and Game. Horner, Chief of the Maintenance Crew, performs the maintenance work for the division throughout the State.

Due to the hurricane of last November 26 it was necessary to stop work on the breeder to effect repairs to damaged buildings and installations throughout New Jersey under the supervision of the Fish and Game Division. In order to catch up with the building schedule the crew worked at night under electric lights so that the breeder would be ready for birds this spring.

The initial hatch of 3,600 birds was placed in the brooders on Wednesday, May 2, the State Division of Fish and Game announced.

Also Some Diverses

Nevada, the Union's sixth largest state in land area but the smallest in population, was built originally on the gold and silver bonanzas found there. Today, it also contributes copper, lead, zinc, mercury, tungsten and magnesium to the nation's industrial might. Most of its old gold centers are ghost towns.

French Aid Paint Manufacture
French zinc oxide was invented by LeClaire, a French painter. Titanium oxide was discovered by Rossi, a French chemist working with Barton, an American chemist, at Niagara Falls.

The SNAPSHOT GUILD

Sincere thanks
for your
lovely gift

A card like this says a charming thank you for a graduation gift.

Photo Greetings Say Thank You

WE ARE all so very familiar with the welcome photo greeting cards that came our way at Christmas, we may tend to think of them as being restricted to the Yuletide season when in fact they offer an ideal medium for sending highly personalized messages on many occasions throughout the year.

Your photofinisher can show you a variety of forms suitable for many types of greetings.

Thank you cards are one of the most popular types because they are so very useful on those occasions when a number of gifts are received. It may be Jean or Johnny's graduation, a wedding, the arrival of a new heir to the family fortune, a golden wedding anniversary—any event which calls for an aftermath of thank you notes.

These are all the type of events that call for picture taking. So you hurry your rolls of film off to your

photofinisher for developing and finishing. As soon as the prints are returned, select the one that you like best and turn the negative back to the finisher for printing on a card which bears a message of "sincere thanks for your lovely gift."

For graduation gift thank you's, the card should bear an informal close-up of Jean or Johnny in cap and gown. Anyone who was sufficiently interested to send a gift will be delighted to have the picture to add to his personal collection.

The wedding thank you's can carry to friends and relatives who may not have been able to attend the ceremony, a delightful informal shot of the bride and groom, made either at the church or during the reception.

Photo thank you's will be treasured just as are the picture Christmas greetings.

—John van Guilder

Pioneer

The first Florida "tourist" was Juan Ponce de Leon. He discovered the area which is now the famous resort state, in 1513, while searching for the Fountain of Perpetual Youth. The futile quest made de Leon, who was governor of the Spanish settlement of Porto Rico, a historic figure, an object of ridicule, and a source of inspiration for poets and writers of the time.

Shaving and Chivalry

Shaving was chivalrous under England's Queen Anne, but beards flourished in Elizabeth's day and again during the second half of the long reign of Victoria.

Grain Used as Weight

Grain, the unit of weight, is supposed to be the average weight of a seed or grain of well-ripened wheat.

She's Working
for YOU

• Mrs. Sondra Vivian is on the Telephone Company payroll—but she works for you. She's a Service Representative at Fair Lawn—one of your representatives in our business office.

• In Bergen County's Fair Lawn area, Service Representatives like Mrs. Vivian have helped arrange for over 8969 new telephones since 1945—an increase from 4615 to 13,584. Fair Lawn has tripled in size since 1940 and throughout the State, the demand for telephones has doubled.

• Our \$250,000,000 construction program has added 625,000 telephones since 1945. More are being added every day—an estimated 95,000 this year—as fast as the supply of materials permits. Every telephone added increases the value of your service. You can call more people... more people can call you.

Did you know that while the cost of living has gone up about 85% since 1940, the average cost of telephone service in New Jersey has risen only 22%? Your phone is a bigger bargain than ever!

MOTHER'S DAY PICNIC

Pack a basket of flowers for Mother's Day, suggests the young lady. The idea is to use a picnic hamper basket. Then the flowers may be placed in a vase and the basket filled with food for a spring picnic. The smaller basket is for the daughter of the house, so everyone will be happy. The colorful arrangement was designed by Alyn Wayne of the Florists' Telegraph Delivery Ass'n. It contains gladioli, lilac, roses and carnations in a shellburst of spring color. (ANS Features)

Atomic Age Course At Rutgers

The mysteries of this microwave absorption doo-hickey—a very high frequency radio apparatus—are explained to a trio of liberal arts students taking the special Rutgers University physics course for non-science majors. Left to right, are Dr. Richard T. Weldner, assistant professor of physics, who teaches the special class; John H. Zimmerman of New Brunswick, a business administration major; Wolfred (cq) L. Margolis of Plainfield, a philosophy major; and William G. Wieggers of Woodbridge, a mathematics major.

Midget Watermelon
New Hampshire growers of the Midget Watermelon may find a new out-of-state market in Boston during 1961.

Wood Used by Noah
Noah's Ark was made from "gopher wood," said to be akin to a resinous wood-like cedar of cypress or the Assyrian reed.

Plant Peas on New Land

One of the difficulties that we have run into in growing peas is the fact that a root disease known as "foot rot" attacks them, and soon becomes established in the soil. This means that you should plant peas on new land each year, land that hasn't grown any peas for some time.

EDWARD A. KOPPER DISTRICT DIRECTOR FOR PRICE STABILIZATION

TRENTON, N. J. — Joseph E. McLean, director of the Trenton District of the Office of Price Stabilization, announced today the appointment of Edward A. Kopper as district enforcement director and Herman C. Thompson as district price executive.

The OPS district includes the seven Central New Jersey counties of Mercer, Monmouth, Ocean, Burlington, Middlesex, Somerset and Hunterdon. Mr. Thompson's duty will be that of heading the division which administers the agency's price controls at all business levels. Mr. Kopper's function is to enforce these orders through a staff of enforcement attorneys and investigators.

A Woodbridge attorney, Mr. Kopper, who is 43, was graduated from Rutgers University and the New Jersey Law School. He was admitted to the bar in 1934 and practiced law until 1943 when he entered the army. He is a native of Perth Amboy.

NATIONAL LEAD MAKES REPORT ON FIRST QUARTER

NEW YORK.—Net income of National Lead Company for the first quarter of 1951 amounted to \$6,149,814, as compared with \$4,751,286 a year ago. This was equal after preferred dividends to \$1.25 per share on the common stock against \$1.30 per share in the first quarter of 1950. Sales increased to \$104,989,884 for the first quarter of 1951 from \$92,189,412 for the like period of 1950.

Earnings before provisions for federal income taxes rose to \$14,816,826 from \$9,768,076.

Now that spring has been sprung upon us, the famous "Millionaire's Club" of the Fourth Ward, has come to life again. Some of the members recently chartered a fishing boat out of Brielle Yacht Basin, and they declare their catch of mackerel was as heavy on the return trip, the boat grounded on a sand bar, and the captain informed one of the "Millionaires" whose poundage goes considerably over the 250 mark, that a decision would have to be made quickly, and either the 250 plus pounder would have to swim ashore, or the entire catch would have to be heaved overboard.

Being a born fisherman, and wanting to come home with proof that he was, the heavy boy just jumped overboard. He caused a small tidal wave when he hit the water, but the fish were all brought home.

That Monday night special meeting of the Board of Education was indeed an interesting affair in many respects. For instance it was nice to sit there and see the teachers, who often deal out such punishment, having to stay in after school themselves.

One thing was certain, that with the teachers at the meeting from seven till 10:30 P. M. there were no papers corrected at home by them that night.

However, one thing was demonstrated, teachers in the school don't spend half the night roaming about town or taking part in wild parties. When it came nine o'clock, they began yawning, and kept "it up" until the meeting closed, and there was every indication that they were being kept up later than

their normal bedtime.

It was noted that one of the teachers was amusing herself during the meeting drawing sketches of her boss. They were real good sketches too.

When the question of "plan books" came up, it seemed quite evident that the Board had the idea some teachers were not keeping them. While the Board don't approve of betting on the races, it was quite evident that they want all the teachers to be "bookmakers."

It was noted during the meeting, that one of the teachers has a pair of unusually beautiful hands. Probably few people have ever noticed it, but one could travel half way around the world and never see a pair so beautiful.

Don't get the idea there will not be some more startling information disclosed with regard to the firing of General MacArthur. Next Thursday or Friday, look for some sensational news in which MacArthur will figure.

Newspapers in New York City and Washington, if they are on their toes, may be able to hint at it next Wednesday.

When one of the red headed man about town, known for his ability to pick the wrong horse for the wrong race, walked into one of the thiristatoriums in the Second Ward Sunday afternoon, he found it strangely deserted and in answer to his inquiry was told the reason was that all the regular patrons were having a party at "the grove."

The statement "the grove" brought to his mind a place outside of town, often used for this purpose, and he started for there immediately. When he arrived, however, he found no one there, but tired from the expenditure of energy required to get there, he sat down in an old rocking chair he found, and promptly fell off to sleep. When he awoke, he was almost frozen stiff, for it was five o'clock in the morning, and he had slept in the chair from the previous mid-afternoon.

Later he found the party had been held in "the grove" at the local Water Works park.

If you see a little man wearing a brown hat, and holding a pipe in his mouth in a manner that seems as if he was trying to bite

it in two, put him down as a man who has a multitude of problems because of an over careful wife.

After she had nagged about it a long time, he finally adopted a system by which there would always be almost a full tank of gasoline in the car and they could get out of town, in the event of another explosion, or an atomic bombing.

Then one night about a week ago, she discovered the car tank was only half filled, and insisted that he get a tin can of several

gallons capacity, so that at all times the gas in the can plus that in the car, would equal a full car tank or more, and they could always travel far at a moment notice.

Then she began worrying about the fire hazard from the can of gasoline she made him carry in the car, and they transferred the can from the back of the car to their home. It wasn't long after that when she began to worry about the gasoline setting fire to the house, so now the extra gas is in a can in the back of the car again.

The expression "June and January" is generally interpreted to apply only to matters of romance, but there is no romance in local politics, and if contemplated action is carried through, then it will be a June and January case as far as new cops are concerned—hired in January and fired in June.

It's a wonder some of these politicians in town don't die from having a three cornered back, they get pushed into tight corners so often.

For instance, now they've got one of the councilmen backed tight into a corner, and if he don't do as the political dictators have ordered, they plan to break up a local Damon and Pythias combine of long standing, and fire the councilman's boy friend from a city job he holds.

Freedom of speech seems to mean nothing to certain people concerned with local politics. At a meeting held recently one man got up and told the members of the party assembled that he had worked against the party at the last election, because he didn't get a break from the party with which he was long affili-

ated, and when he got through talking, another member of the party threatened to slap his face, if he ever said anything like that again.

It's not entirely because the section is on a hill that it's hard to see the reason for some things that go on up in the Fourth Ward.

For instance, we have been scratching our head recently while trying to figure out what's back of the fact that a man who is the candidate of one party in that ward, is so friendly with a committeewoman of the opposite party, also of that ward.

CANCER SOCIETY MAKES ACTIVITY REPORT FOR SIX MONTH PERIOD

NEWARK.—A total of 731,031 dressings for 1936 cancer patients along with 16,694 comfort items, were made during a six month period ending March 1 by 841 dressing units operating under the various county chapters of the American Cancer Society.

In reporting the activities of the volunteer service workers, Dr. Joseph I. Bohannon, of Newark, chairman of the state service committee, stated that during the same period there was an increase of 2,418 volunteers and 193 dressing units. In addition nine chapters in the state operating loan closets supplied 436 patients while 337 patients were given transportation to and from clinics and their homes by 11 chapters.

REDEDICATION OF BAPTIST PARSONAGE ON WEDNESDAY

A rededication service and house warming party, in the parsonage of the First Baptist Church, recently recouped after repairs as the result of the explosion, were completed, will take place Wednesday night.

A special dedication service will begin at 7 o'clock.

The entire community has been extended an invitation to attend, by the Rev. and Mrs. Blackley.

North Dakota's Trees
Nearly 60 million trees have been planted in North Dakota the past 15 years

ROTARY HEARS TURNPIKE TALK

(Continued from Page 1)
ing state financed highways, and the elimination of the necessity of spending more state funds for maintenance highways. Koss said a survey conducted in 1946 revealed it would be necessary to spend \$600 million additional to remove traffic congestion conditions then existing.

Discussing the rapidly increasing congestion of existing highways, Koss declared that traffic on State Highway, Route 1, has increased 40% in the last two and one half years, and it is the prediction of traffic experts that by 1970, the present load will be doubled.

he described the Turnpike as the "last word in highway safety construction," and said that because of the huge amounts of money involved, it would take the state from 10 to 12 years to raise money necessary to finance such construction.

To illustrate the giganticness of the work, the speaker declared already 74 major contracts, and 35 minor contracts, have been awarded with more still to be given out. Five of the major bridges of the Turnpike are already completed, and 80 miles of the construction has progressed to the point where paving can be started.

At intervals along the Turnpike, service stations, restaurants and parking areas will be constructed, with one of the largest of such areas at Woodbridge. It will be possible to travel the length of the Turnpike, only making two stops, one at the toll station, at the entrance, and another at the exit. There will be no red lights on the entire 118-mile road, and it is claimed the full distance can be traveled in one-half the time required to cover the same distance on the nearest public highway. To permit entrance and exit to the Turnpike, there will be clover leaf installations at frequent points along the route.

It is expected the Turnpike will be put into full operation by November 15th of this year.

Visiting the session were: Matthew Maliszewski, and Charles Hausertman of the South River Club, Nate Goldberg and Walter J. Reilly of the Perth Amboy club, Guy Weaver of the Woodbridge club, and Charles M. Petersen, John E. McWilliam, John B. Clevenger of the Perth Amboy club, and Norman B. Wild, who was the guest of Joseph Sharo.

ACTIVITY IN PREPARATION FOR MONMOUTH SEASON

Activity at Monmouth Park is accelerating, with the June 16 opening of the northern New Jersey race course now less than five weeks away. General Manager Edward J. Brennan has returned from Louisville and the Kentucky Derby to open his offices, and Racing Secretary John Turner, Jr. is another arrival from Maryland. Turner's first important job is to arouse interest in the pretentious stakes schedule, aggregating \$200,000 in added money, for which entries are to close on June 1.

The publicity offices, under Horace Wade, have also been opened at the track. Affiliated with the press department this season will be Chris Wood, Jr., Tommy Engelman and Tom Lynch.

Let Water on Farms

SHERIFF'S SALE
SUPERIOR COURT OF NEW JERSEY — Middlesex County Court. VIKING HOLDINGS, INC.; assigned by ROBERT R. CERRIS 1/4 C & B FOOD MARKET, Plainfield, and MARTIN H. GREVENSEN and ELIZABETH GREVENSEN, Defendants, Writ of Execution for the sale of premises dated March 27, 1951.

By virtue of the above stated Writ, to me directed and delivered, I will expose to sale at public vendue on

WEDNESDAY, THE TWENTY-THIRD DAY OF MAY A. D. NINETEEN FIFTY ONE

at the hour of two o'clock by the then prevailing (Standard or Daylight Saving Time), in the afternoon of the said day, at the Sheriff's Office in the City of New Brunswick, N. J.

All the right, title and interest of defendants, Martin H. Grevesen and Elizabeth Grevesen of in and to all the following described premises:

All those certain tracts or parcels of land and premises, hereinafter particularly described, situate, lying and being in the City of Perth Amboy in the County of Middlesex and State of New Jersey.

FIRST TRACT: Being known and designated as Lot Number Five (5) in Block Ten (10) on a certain map entitled "Map of lands of the Stanford Heights Land Co. at Perth Amboy, N. J.", made by C. C. Hommann, Surveyor, May, 1906, and more particularly described as follows:

BEGINNING at a point on the southerly side of New Brunswick Avenue, distant seventy-five feet from the south-easterly corner of Convery Place and New Brunswick Avenue; thence running (1) southerly one hundred (100) feet, parallel with Convery Place, to Lot Ten (10); thence running (2) easterly twenty-five (25) feet, parallel with New Brunswick Avenue; thence (3) running northerly one hundred feet parallel with Convery Place; thence (4) westerly twenty-five (25) feet parallel with New Brunswick Avenue to the

point or place of Beginning. Bounded on the north by New Brunswick Avenue; on the east by Lot Number Four (4) on said map; on the south by Lot Number Ten (10), and on the west by Lot Number Six (6).

SECOND TRACT: Being known and designated as Lot Number Six (6), on "Map of Lands of Stanford Heights Land Co. of Perth Amboy, N. J., C. C. Hommann, Surveyor."

BEGINNING at a point distant fifty (50) feet easterly from the southeasterly corner of Convery Place and New Brunswick Avenue; thence southerly parallel with Convery Place one hundred (100) feet; thence easterly parallel with New Brunswick Avenue twenty-five (25) feet; thence northerly parallel with Convery Place one hundred (100) feet; thence westerly and along and parallel with New Brunswick Avenue twenty-five feet to the point or place of beginning.

BEGINNING bounded on the north by New Brunswick Avenue; on the east by Lot Number Five (5) on said map; on the south by Lot Number Ten (10) and on the west by Lot Number Seven (7).

Premises known as 500-501 New Brunswick Avenue, Perth Amboy, N. J.

The approximate amount of the judgment to be satisfied by said sale is the sum of Seven Hundred Thirty Dollars (\$730.00) together with the costs of this sale.

Together with all and singular the rights, privileges, hereditaments and appurtenances thereunto belonging or in anywise appertaining.

Truman Advocates Tax Boost To Cost County \$18,261,471

Would Add \$69 To Federal Tax Of Every Person

President Truman's recent request for at least \$10,000,000,000 in additional taxes to balance the federal budget will cost the taxpayers of Middlesex County \$18,261,471 if adopted, the New Jersey Citizens Committee for the Hoover Report estimated today.

The proposed hike would add

\$69 to the federal tax bill of every person, according to Donald V. Lowe of Ridgfield, chairman of the Citizens Committee. For the average family of four persons, he said, that would mean an addition of nearly \$280 per year to the tax bill.

In toto, the ten-billion dollar tax boost sought by the president means an increase of about \$330,000,000 in additional federal levies to be paid by New Jersey taxpayers, Mr. Lowe said. While a substantial percentage of this burden would be borne by business through corporation taxes, in the final analysis the individual would have to pay it both through increased personal income taxes and higher prices imposed by manufacturers so they

could meet their bigger tax bills in turn, he explained.

"The only weapon which New Jersey individuals have against this new bite," Mr. Lowe said, "is protesting to their legislators in Washington. We must remember that, whatever new schemes the administration proposes, they still must be approved by Congress before they can go into effect. If we all let our congressmen know how we feel about heavier taxes to support the government's spending program, we can maintain a check rein."

No Ration Cards

Monmouth Oaks Prize Money Is Upped At Monmouth Park

Stakes For Incoming
Season Will Be
Retained Intact

MONMOUTH PARK, Oceanport, N. J.—The Monmouth Park Jockey Club will retain intact its entire stakes schedule for the coming summer racing season, according to announcement made today by General Manager Edward J. Brennan. A total of 15 rich events are to be presented, aggregating \$300,000 in added money. This sum is \$5,000 above that of a year ago, the Monmouth Oaks having been increased from \$10,000 to \$15,000. Fashioned for three-year-old fillies at a mile and a sixteenth, the race has so increased in prestige and importance in recent seasons as to warrant its higher purse value.

The stakes schedule is headed, as usual, by the \$25,000 Monmouth Handicap for three-year-olds and upwards and the \$25,000 Choice Stakes for three-year-olds, richest stakes of the meeting. Both are over a demanding mile and a quarter run. The Regret Handicap at six furlongs, the Molly Pitcher at a mile and a sixteenth and the Monmouth Oaks are all designed for the fillies and mares, giving them ample opportunities to show their wares. Two-year-old fillies also go postwards in the Oaks Stakes, one of the trio of juvenile fixtures. The others are the New Jersey Futurity for Jersey foals and the well named Sapling Stakes, one of the East's most attractive two-year-old events.

The Salvator Mile, honoring the one-time great thoroughbred who set a mile speed mark along the straightaway course at old Monmouth Park, will again raise the curtain on the meeting next Saturday, June 16. It is one of several preps for the July 28 renewal of the rich Monmouth Handicap. From the Salvator Mile the distances step up in gradual stages to the Long Branch Handicap at a mile and a sixteenth, the Omnibus at a mile and one eighth and finally the full mile and a quarter of the Monmouth. Winners of this important race since the revival of the sports along the northern New Jersey shore include such noted horses as Lucky Draw, Grand View, Tide Rips, Three Kings and Greek Ship. The 1961 field is expected to draw another elite band to maintain the race's vigor and quality.

Nominations to the 15 stakes close Friday, June 1, and stake drawings are already being distributed among horsemen from coast to coast.

Jersey Central P&L Employee Dies Of Heart Attack

John Beck, 50 years of age, of 55 Cranford Terrace, Cranford, N. J., employed by the Burns and Roe Construction Company, has died the erection of the new addition to the local plant of the Jersey Central Power and Light Company here, was stricken with a heart attack, while at work Wednesday afternoon at 4:15.

The First Aid and Safety Squad was called, but the man was dead when they reached the scene.

Funeral services and burial will be held for the deceased at the home of his wife, Mrs. Beck, 55 Cranford Terrace, Cranford, N. J., at 10:30 a.m. Saturday.

Night Racing At Wall Stadium Starts Tomorrow

First Sportsman Event
Set For May 16

Tomorrow night, May 12, Wall Stadium will inaugurate its first under-the-lights event which will be a modified stock car show.

On hand for the night opener will be two-time winner of the afternoon races, Parker Bohn, of Freehold, who will be driving the famed Lange No. 58 which has made him a fan favorite at the Belmar oval. Parker, who has proven in the few races of 1961 that the No. 52 has plenty of smoke, has bested such stand-outs as Jim Delaney, Wally Campbell, and Mickey Rorer, and now claims to have driving at the 30 degree high-banked oval down to a science.

Other speed jockeys in the modified division, who will give Bohn plenty of competition include Bill Pfister, Easton town, driving the Walkwright No. 99; Jim Delaney, Hope, N. J., in the Rosenberg No. 33; Mickey Rorer, Quakertown, Pa., in the 17; Pete Frazer, Rahway, in the Quakertown No. 124; Charlie Muscatelli, Belmar, N. J., in the 306; Tommy Clarke, Red Bank, in the 70; flip artist, Al Pomponio, Lakewood, N. J., in the 0; and Bill Chevalier, Sayreville, N. J., in No. 61.

On Wednesday night, May 16, the first sportsman stock car race will be enacted. This will feature such stars of the speedway as Gordon Oldford, Westfield, N. J.; Frank Holzhauer, Lakewood, N. J.; Pappy Hough, Paterson, N. J.; Bob Brown, Paterson, N. J.; Jerry Moressee, Newark, N. J.; Bob Reid, Newark, N. J.; and Ed Rooney, Morristown, N. J.

All events are under the sanction of NASCAR and will feature seven race cards. The cars will go to the starting line promptly at 8:30 P. M.

In the most terrific main event of afternoon racing Sunday, Parker Bohn of Freehold, driving the famous Lange No. 52 came through for his third win in a row before a crowd of approximately 3,000 enthusiastic fans.

Bohn who just missed clearing house by one place in the heat started out in twelfth position in the twenty-two car starting field. By the end of the second lap Tommy Clarke, Red Bank, driving the No. 70 was leading the pack with Bohn running second. Clarke, whose car was running to perfection, held the lead through until the twenty fourth lap when he blew a hose, spun out and Bohn took over. A couple of laps later, in the 27th, the race had to be red flagged because Tommy could not get his car off the track.

ST. MARY'S HANDS SHUTOUT TO VISITORS FROM OVER THE RIVER

On Veterans Field Tuesday afternoon, St. Mary's High hung a 1-0 shutout on the representatives of St. Mary's High School of Perth Amboy.

Barnett and Stevenski were responsible for the two hits garnered by the Eagles and Bialer, visiting right fielder, led his team with the stick, coming across with two of the six hits they secured off the delivery of Richardson.

Consider is a true maple of the South Amboy family as sugar maple.

FOUR MORE GAMES ON SCHEDULE OF HOFFMAN HIGH

But four more games remain on the schedule of the Hoffman High School baseball team for the coming season. This afternoon the Governors will meet the Mat-swan High School representatives, at Matawan. Tuesday afternoon the Purple and Gold will meet Leonardo in a home game, and on Friday of next week, Lakewood High at Lakewood.

The season will close with the second game with St. Mary's at Veterans Field, Monday afternoon, May 21.

Monday afternoon at Veterans Field, the locals handed an 11-6 defeat to Freehold High School.

The first inning was a veritable slug-fest for the Governors, who piled up 10 runs.

Bill Bouchard, was the star of the game, permitting but nine scattered hits while he slugged out three safeties, including two home runs and a double.

Tuesday afternoon, the Purple and Gold squad added another victory when they knocked out a 4-3 victory over Manasquan High, on the shore school's diamond.

On the wrong end a 3-0 score going into the final stanza, the Governors punched over four runs, to turn the tide and annex the game.

Ask Fishermen Not To Follow Hatchery Trucks

Director Says They
Create Odious Condition

TRENTON. — Dr. A. Heaton Underhill, Director of the Division of Fish and Game, Department of Conservation and Economic Development, today appealed to licensed fishermen of New Jersey not to follow trucks from the Hackettstown Hatchery to the trout streams in order to secure full creels.

"With the coming of the trout season, New Jersey is once again faced with one of the odious conditions that apparently is part of our unique system of put and take trout fishing," declared Dr. Underhill.

"There are unfortunately a small percentage of license holders who are so anxious to have a full creel they follow the hatchery trucks to the streams and fish for the newly released trout before they become acclimated to the stream conditions and learn that everything thrown in the water is not to be eaten.

"While it is true that the stocking of legal size trout can only be economically justified if a large percentage of these fish are ultimately harvested by the sportsman, it is certainly a deplorable situation and one completely contrary to the basic tenets of sportsmanship when a small percentage of fishermen who are free to fish anytime in the week harvest a sizable percentage of all trout stocked.

"The true trout fisherman and especially those free to fish on Saturday and Sunday find less than their fair share of the fish in the streams because of the activities of the truck followers and those who are on the phoning list of streamside taverns."

Storing Jams
All jams and jellies should be stored in your refrigerator after the containers are opened to keep them soft and firm and to prevent spoilage.

Save Outer Leaves
When you buy lettuce, don't throw away any more of the green outer leaves than you can help, for these contain much more food value than do the whiter inner ones.

Washing Crystal
Wash crystal in warm, light suds of mild soap or detergent to add to its beauty. Avoid plunging crystal from hot to cold, or from cold to hot water.
