TOWN TOPICS

There can be no argument about the fact that the American economy is the strongest and most dynamic, the world has ever seen. Some attribute that high position to our national resources; some to the inherent vigor of our people, some to our large land area. These are important, but they are certainly not the whole story, for if they were, many other nations would be our equal and some would perhaps have shown even greater progress.

There is no doubt at all that this nation's greatness is due mainly to the fact that, under our principle of individual liberty, each of us has been given the opportunity to do his best to retain the fruits of his labors. Under this arrangement, human incentive has been given its widest possible scope.

Much also has been said about the vulgarity of the money motive, but we doubt one could find a cleaner, or more honest basis for rewarding high performance. A desire for power is surely less worthy, and we cannot believe that efforts simply to win the admiration of the crowd are ethically more desirable.

The theory that politics should stop at the water's edge, made as long as, but only as long as, politics also stopped there. When politicians go overseas, and the taxpayer's money is poured out all over the globe, politics should be vigorously concerned with foreign affairs. To argue otherwise, is to say in effect that democratic processes are valid in deciding parochial problems, but should be disregarded when the issues are matters of life and death.

Some would like to have us believe that foreign policy is a mysterious and intricate art, requiring both a special wardrobe and knowledge of incantations called "protocol" by its practitioners. Actually, the foreign policy of every sovereign state, regardless of its place and time, shares certain common characteristics with that of every other state. Special characteristics are determined by factors like that of every other state. Special characteristics are determined by factors like the form of government, the geographical location, or the economic needs of

Council Finds Treasure Low With Many Bills

Olsen Says Many Bills Need Closer Study

The City should have taken out a Christmas Club last year, so that it would not find itself in the same situation as some individuals, who are learning, that there is not sufficient money to meet the heavy demands at this time of the year.

The present state of city finances was brought out when a large quantity of bills was read, Wednesday night and it was revealed the money to pay them is not readily available. The matter was discussed by the Council members, who were all in agreement that little relief for the situation can be expected, until additional funds are available after the first of the year.

Mayor Olsen explained that a part of the difficulty was the result of the fact that the customary Council business meeting was not held Friday night, because a quorum was lacking. "Some of these bills need a lot of explanation and discussion," he declared, and added, "Some of the accounts are in pretty precarious position." He suggested that a report from City Treasurer Kress would be available at the business meeting

William Hansell Unanimously Elected By Firemen

Independence Member Will Take Office On First Of Year

The unanimous election of William Hansell, member of the Independence Engine and Hose Company as Second Assistant Chief of the local fire department took place at the Broadway fire house Monday evening, when the annual department election was staged. There were no other candidates for the post.

At the first of the year, Joseph Carroll of Protection Engine Company, moves up from Second to First Assistant Chief. Thomas Conroy of Enterprise, moves up to department Chief to succeed William Leonard, and Hansell begins his term.

At the conclusion of the election, short speeches were made by Councilman William O'Leary, chairman of the Council fire committee, former Councilman Charles Hess, member of the Protection Engine Company, and former mayor John D. Leonard, who is a member of the Protection Engine Company.

Sunday Test Disclosed Local Civil Defense Woefully Inadequate—Nagle Declares

While Area Director Dr. Mason Gross and other Civil Defense leaders in the Raritan Valley area, have declared satisfaction with the results of the first test of the organization in this section, that took place Sunday afternoon, local Director, Michael Nagle, has expressed great dissatisfaction with the results in South Amboy. Although the alarm was primarily arranged as a test of communications, at the same time Nagle, as did most of the Directors in the area, also planned it as a showing of the strength and efficiency of the local organization.

According to Nagle, no department proved to be anywhere near full strength or manned to a point where even a minimum of safety could be afforded local residents, in the event of a real disaster. He added that a check proved some departments had no representation at all at the test.

"I am not only greatly disappointed at what the Sunday afternoon test disclosed locally, but I am much concerned over what would happen in the event of a disaster, of which this city has suffered several, should take place. Certainly, we are pitifully unprepared and the unnecessary loss of a great number of lives would be the result of our not having a disaster unit manned to full strength and adequately trained."

"I do not believe that there is

a municipality in the country, where the planning for disaster action has been gone into as thoroughly as it has in South Amboy," Nagle added. "A group of the members of the Defense Council has been working day and night for over a year, on the preparation of plans that would most certainly prove of great value should disaster visit us, but Civil Defense, requires more than planning. The most careful plans can be of no avail if we do not have the people trained to carry out such plans. Our only purpose in setting up a Civil Defense organization here, is to provide protection for the citizens at large, but the co-operation we have gotten from them has been little indeed. The people on the Defense Council who have been devoting their time and energies to the problems of defense, have received no pay, and have been motivated entirely by a desire to help their neighbors, but their neighbors apparently have no desire to help themselves."

"We have no desire to misrepresent the situation to the general citizenry of our city, and we do not want them to feel secure in the thought that an efficient organization to afford them protection in the event of disaster is set up, when this is not the truth. It would be my suggestion, that for the protection of the people of this city,

O'Leary Says Powder Car Danger Still Exists

Another Protest Will Be Sent To County Authorities

Despite the fact that the city has urged the Middlesex County Sheriff and Prosecutor to take some steps to eliminate the danger, the Pennsylvania Railroad continues to store freight cars loaded with explosives on its tracks in the vicinity of Erntson. Councilman William O'Leary told the Council Wednesday night.

At a previous meeting, O'Leary brought up this matter, and urged the Sheriff and Prosecutor were urged in a letter to take immediate action. The councilman reported that no reply to these pleas had been received by the City, up until the date of this week's meeting. By a motion he made, the City Clerk is directed to send a second letter to these officials giving them the more recent dates when carloads of explosives have been seen in the yards near Erntson, which are parallel to Bordentown Avenue Turnpike.

O'Leary has pointed out that many people travel over this highway to work in the plants in that vicinity daily, and the presence of these cars presents not only a hazard to a great number of lives, but are a threat to the water supply of the City of Perth Amboy and also to the plants nearby.

The Third Ward Councilman said, "the railroad is getting away with murder," and he declared that only that morning, he had counted 19 cars loaded with explosives, on the yard tracks not more than 50 feet from the highway. He also produced a record of other days on which a similar condition was observed.

Disaster Group Makes Plans To Disband Soon

Will Study Disposition Of Remaining Funds At Next Meeting

With the work for which it was organized, practically completed, the disbanding of the South Amboy Citizens Disaster Committee, formed following the May 19, water front explosion of last year, is being planned.

It has been announced that the group has at present in its treasury, \$16,565.17, and there is but a small amount of expense still to be settled. Before disbanding, the committee will establish a policy for the future of this sum, and the audit of the books of the committee is almost completed.

The next meeting is slated for the week of December 17th, in the Mayor's office at City Hall.

Mrs. Edna Chase Made President Of Hospital Auxiliary

Annual Meeting Held Monday Afternoon

At the annual meeting and election of officers of the Women's Auxiliary of the South Amboy Memorial Hospital, held Monday afternoon in the nurses' home, Mrs. Edna Chase was elected President. Mrs. Fred Kurowsky, Vice-President, Mrs. Frank Point, Recording Secretary, Mrs. W. Bowen Laurence, Treasurer and Mrs. Ralph Ellams Corresponding Secretary.

Elected as Directors for one year terms were: Miss Edna Agan, Mrs. Manuel Applegate, Mrs. Arthur Andrews, Mrs. Edna Chase, Mrs. Lerton Burlew, Mrs. Lillian Briggs, Miss Joan Briggs, Mrs. Otto Douchka, Mrs. Rose Duraki, Mrs. Ralph Ellams, Mrs. Arthur Harris, Mrs. Jennie Heaton, Mrs. Louise James, Mrs. Fred Kurowsky, Mrs. Burke Lamberton Sr., Mrs. Maurice Lucitt, Mrs. W. Bowen Laurence, Mrs. Albert Astarita, Miss Bertha Delbert, Mrs. George Mack, Mrs. R. P. Mason, Mrs. Charles Mitekus, Mrs. John Mullane, Mrs. Alexander Weiser, Miss Katherine Nelhus, Mrs. Esther

State Parkway Discussed At Rotary Session Tuesday

Howard F. Koons Of State Highway Department Was Speaker

A general picture of the situation with regard to the new New Jersey State Parkway, to extend across the eastern section of the state, was given to members of the South Amboy Rotary Club Tuesday noon, when Howard F. Koons, Assistant District Engineer of the State Highway Department, was the speaker.

Recounting the history of the project, Koons declared that the Parkway was authorized by laws passed by the State Legislature in 1948. He said it is expected that the Parkway will solve some of the most serious traffic congestion problems in the northern section of the state, in addition to providing a quicker method of transportation. He declared that Route 26, which has been found to be the heaviest present travelled highway in the nation, accommodates by actual count, 120,000 cars in a 24 hour period, and the new Parkway, when completed, will take a great deal of the traffic

ORDINANCE NO. 498

AN ORDINANCE TO VACATE PART OF BORDENTOWN AVENUE AND A CONTINUATION THEREOF TO THE WATERFRONT.

Be it ordained by the Common Council of the City of South Amboy, New Jersey:

Whereas the land hereinafter described are to be used in connection with the operation of the South Amboy Housing Authority at the foot of Bordentown Avenue and are not needed for other public purposes.

Now, therefore,

Section 1. That the land described as follows be and the same is hereby vacated; provided that at all times hereafter the City and the public shall have an easement of access and egress in, to, across and out of that part of the said lands described as the City Right of Way to the beachfront;

City Right of Way

Beginning at a point in the southerly line of Bordentown Avenue distant easterly three hundred (300) feet from the easterly line of Broadway, thence (1) Southerly and parallel with Broadway two hundred one and nine one hundredths (219.09) feet to the northerly line of Catherine Street, thence (2) easterly along the northerly line of Catherine Street twenty-five (25) feet to a point, thence (3) northerly and parallel with Broadway one hundred and fifty-five one hundredths (155.05) feet to the center line of Block No. 18, thence (4) westerly along the said center line and parallel with Bordentown Avenue five (5) feet to a point, thence (5) northerly and parallel with Broadway one hundred and twenty-four one hundredths (124.04) feet to the southerly line of Bordentown Avenue, thence (6) westerly along the southerly line of Bordentown Avenue twenty (20) feet to the point or place of beginning. Being known as lot No. 18 and the westerly twenty (20) feet of lot No. 44 on the tax map of the City of South Amboy, N. J., containing one tenth (.1) acre.

Bordentown Ave. Vacation

Beginning at a point on the northerly line of Bordentown Avenue and the high water mark on Raritan Bay, thence

(1) Westerly along the northerly line of Bordentown Avenue five hundred forty-two (542) feet more or less to a point distant easterly two hundred twenty-five (225) feet from the easterly line of Broadway, thence (2) Southerly and parallel with Broadway seventy-five and four tenths (75.4) feet to the southerly line of Bordentown Avenue, thence (3) Easterly along the southerly line of Bordentown Avenue five hundred fifteen (515) feet more or less to high water mark on Raritan Bay, thence (4) Northerly along said high water mark to the point or place of beginning, containing ninety-two one hundredths (.92) acres.

Section 2. This ordinance shall take effect upon its passage, approval and publication in the manner prescribed by law.

NOTICE

Notice is hereby given, that at a regular meeting of the Common Council of the City of South Amboy, New Jersey, held on December 5, 1951, the above ordinance was adopted on Second and Third readings and final passage.

Generals "Stonewall" Jackson and Matthew B. Ridgway were baptized at the same font in St. John's Episcopal church, Brooklyn, N. Y.

Cull Sweetpotatoes

All cull sweetpotatoes should be utilized for stock feed. Tests show that cull sweetpotatoes are excellent feed, especially for hogs and dairy cattle.

Drunkard's Match

The Drunkard's Match, introduced in 1932, was treated with chemicals to extinguish itself when the flame reached midpoint of the stick thus protecting careless borivants from burned fingers.

Cannibal

The food of the hamadryad of India, the largest species of Cobra, consists entirely of other snakes.

Auto Thefts On Upswing; Car Keys Are Aid

More Robberies Reported In Fall and Winter

Many motorists are openly inviting thieves to steal their automobiles by leaving keys in their cars' ignition switches, the AAA Automobile Club of Central New Jersey warned in revealing that the Federal Bureau of Investigation files are showing an alarming increase in auto thefts throughout the nation.

The auto club pointed out that many thefts of automobiles result from careless motorists leaving their keys in their cars, an open invitation to the amateur crook to step in and take the cars for a "joy ride." Professional thieves, while they make use of keys left in cars whenever possible, often "jimmy" and start a fully-locked automobile.

The FBI information, gathered by the American Automobile Association's national headquarters, shows that 400 cars are stolen every day and that there is no sign of the number decreasing. In addition to the cars being stolen, articles stolen from cars account for fully one-third of all larcenies in the U. S.

Many thefts from automobiles happen, the FBI revealed, from auto owners leaving their trunks unlocked. White-walled tires kept in the trunk are especially inviting to all thieves.

For some reason or other, auto thievery is seasonal with more thefts reported in Fall and Winter than in other times of the year. The car thief is usually a youth under 25 years who has a previous fingerprint record.

Hot Spot

Into the yawning crater of Mexico's then-active "Popo"—Popocatepetl volcano—the Spaniards under Cortes sent Indian slaves to obtain sulphur for gunpowder.

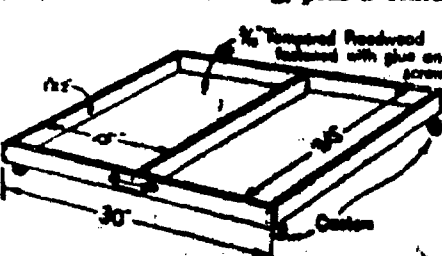

Long Operation

A 150-year-old saw and grist mill at Burrville, New York, is still operating today producing lumber and cider.

Keep Shoes Under Bed on Movable Rack

AN under-the-bed shoe holder on casters is an excellent means of keeping shoes off the floor and at the same time accessible. The average handyman can put the device together in one evening. As a framework, the home craftsman will need four pieces of 1 by 2-inch lumber, each 30 inches long, plus a center support, also of wood, which will serve also as a divider. Nails, screws or corrugated fasteners may be used in making the framework.

To the bottom glue and nail a piece of Masonite tempered hardboard, 3/16" thick. This very smooth, hard panel is scuff-resistant and requires no protection except a penetrating sealer. Of course, the entire shoe holder may be primed and painted.

At one end attach a window or screen brace. Insertion of a center in the framework at each corner completes the job.

LITTLE THINGS about the Stars

TELEVISION - RADIO - HOLLYWOOD

By GEORGE LILLEY

HOLLYWOOD—The delightful and wonderful characters of Walt Disney's get together for what may well be television's most elaborate holiday program, "The Walt Disney Christmas Show"—a special full-hour production narrated by

—Snow White & Dwarfs are coming

Disney Christmas afternoon on the CBS-TV network.

English Miss Kathryn Beaumont is Wendy.

They'll be Mickey Mouse and Donald Duck and Bambi; Thumper and Flower; Br'er Rabbit, Br'er Fox and Br'er Bear; Pluto and Goofy, and, most decidedly, Snow White and the Seven Dwarfs. A novelty highlight of the proceedings will be the performance of the Magic Mirror, whose sorcery summons the Disney creations from their pictures, an impersonation by Hans Conreid, and the introduction of Willoughby, a little hand mirror who seeks to emulate the magic of his uncle. Young Bobby Driscoll is Peter Pan (first male to play the role) and winsome

Too, viewers will be treated to an unusual kaleidoscope, quite a technical and fantastic delight. Snow White will speak to her admirers in the ten languages of her film and in Hindustani, for good measure. As the language is uttered, Snow White or Dopey or Goofy or one of the dwarfs will subtly assume a facial characteristics of the nation involved, undoubtedly to the fascination of kid-viewers and grown-ups alike.

The show is sponsored by a leading manufacturer of surgical dressings and baby products as a public service. There will be no commercial announcements.

Bambi

Many thefts from automobiles happen, the FBI revealed, from auto owners leaving their trunks unlocked. White-walled tires kept in the trunk are especially inviting to all thieves.

Farm Scrap Iron and Steel Will Help Our Defense Effort

"Have you turned your farm scrap into cash? Move it out of the fields now. Take a load to town and sell it on your next trip. It is needed to make steel for the defense program. It is a vital material and must not be allowed to waste away."

Many farmers have responded to that appeal recently, says the Committee on Iron and Steel Scrap, American Iron and Steel Institute. Those farmers have made a little money and gained space in their fields. The scrap is being put to use instead of being abandoned to rust and ruin.

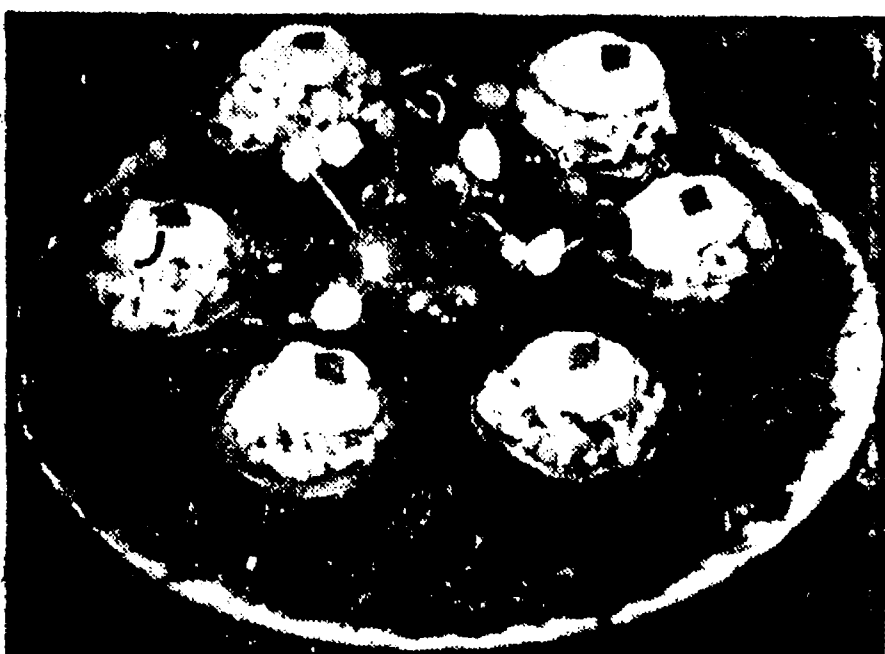

But more farm scrap is needed. Steel output can't be increased without a big supply of scrap. With winter coming on, when scrap is more difficult to find, the situation is truly critical. More scrap must be obtained from farms in order to make more steel.

Old tools, wornout parts of tractors, trucks, cultivators and other implements; broken and discarded pieces of metal and other scrap should be taken to town and sold right away to the local scrap dealer. Every pound of scrap which comes back to steel mills helps to make two pounds of new steel, on the average.

If the scrap is unusually bulky, preventing its easy transportation by the farmer, the scrap dealer can be called or the local farm agent can be asked to work out an arrangement.

"Farms are one of the big sources of scrap," says the Committee. "Never have farmers had a greater stake in the nation's steel output."

Harvest your iron and steel scrap right away. Turn it into cash. Do your part to aid the defense program.

Secrets of Successful Salads!

It takes a good dressing to make a good salad. Millions of women prefer Ann Page Salad Dressing. It's rich with salad oil and egg yolks. Mildly tart—such delicious, distinctive flavor! Ann Page Salad Dressing is sold only at A&P.

TOMATO TREASURES: Remove tops from 6 firm tomatoes; scoop out part of pulp; invert to drain. Combine 1/2 cup each of chopped celery and carrots; 1/2 green pepper, chopped; 2 teps. chopped onion, 1/4 cup Ann Page Salad Dressing. Sprinkle tomatoes with salt and mix. Serve as

salad greens. Top with Ann Page Salad Dressing. Garnish with radishes and stuffed olives. Serves 6.

LOOKING BACK 22 YEARS

ISSUE OF DEC. 13, 1929

St. Mary's Hall is expected to be crowded to capacity tonight to witness what is expected to be one of the most brilliant programs of physical education entertainment ever seen in this city.

Vincent Abbatiello, physical training teacher of the school, has spent a great deal of time preparing the students that are to take part in the drills and entertainment.

A "clean-up" brigade of South Amboy school children has been enlisted by Superintendent of Schools O. O. Barr for the sale of Christmas Seals to the last minute purchasers, who have not been reached by mail sale. Mrs. Howard D. Little announced today. The school children started their sale on December 10th and will work in neighborhoods where seals have not been sent by mail.

Superintendent Barr heartily endorses the sale of Seals. "It is a broad cast upon the waters," said Mr. Barr, "as the League renders invaluable service in the schools." Last year the League supplied us with health posters, a monthly magazine for teachers and examined many of our underweight children.

The Ladies Auxiliary to the Progressive Fire Company are planning for the annual banquet of the organization some time next month. The tentative date set has been changed and at present no date is finally decided upon. But it is understood that all reservations for the banquet must be made on or preferably before the next meeting of the ladies. This meeting is scheduled for January 8th, a Monday, at the firehouse as usual. It will then be decided as to when the banquet is to be held.

The South Amboy Harmony Club will hold its annual Christmas party at the City Hall next Monday evening. The party will start at 7:30 P. M. with a covered dish luncheon, served under the able direction of Mrs. A. M. Cole and Mrs. C. T. Mason.

There will be a Christmas tree containing a gift for everyone and all decorations will be in accord with the Yuletide season.

Following the luncheon there will be a short rehearsal of Christmas chorals and the balance of the evening will be devoted to games appropriate to the season.

Attention has been called to the police department by residents of this city that there has been a man representing himself as a deputy tax collector going around in an effort to collect taxes from local people. Chief of Police Thomas Gleason has issued a warning for local people to ignore this person and to advise him if the man again appears as he will be immediately arrested. Chief Gleason says there is only one tax collector in this city, Mrs. May Bowen, at the City Hall, at which place all taxes are paid.

"The people of South Amboy have been a little bit too broad-minded in the past elections," Prosecutor John E. Toolan told his hearers at the testimonial dinner in honor of Councilman-elect John Walszak at Seacroft last night. "They were weaned

away little by little until the opposite party were able to elect officers through this liberal minded Democracy, but the time has passed and South Amboy will be henceforth where it belongs—back in the Democratic column," he continued.

There were about 50 guests in attendance at the testimonial dinner which was arranged to celebrate the victory of Mr. Walszak in the First Ward here in November.

With the next Sunday being the first day on which the new automobile licenses for 1930 may be used, Motor Vehicle Department agents through the state report that very few car owners are co-operating in avoiding the usual last minute rush for new plates. At the local agency, Commissioner Gallagher advises that applicants for new licenses are few and far between and the preparations already made to insure prompt service have not been needed at all.

New licenses have been issued since November 15th at the local office but under the rulings of the Department they were not to be used until December 15th. To date the local office has issued 235 renewals of driver licenses and but two or three licenses to new drivers.

The election of officers for the year 1930 of St. Cecelia's Club was held last Friday night. Julius Kublajak, retiring president, thanked the members for their cooperation during the year.

The following officers were elected: president, Joseph Skarsynski; vice-president, Helen Lagoda; secretary, Walter Zamorski; treasurer, Helen Dadan; sergeant-at-arms, Sally Jaskowiak.

A motion was made to elect a chairman of all social activities throughout the year. Julius Kublajak was unanimously elected for the post. A committee was appointed from each section of the city to report any sick members in their section.

November Honor Roll For

St. Mary's School
4th Year High—Doris Brennan, Dorothy Dwyer, James Harrigan, Naomi Lang, Rita Lee, Evelyn Masur, Rosemary Miller, Joseph Sereyko, Stanislaus Wilus.

Source: New York State Joint Legislature Committee on Highways, Canals and Revenue, October 1951

A combination truck weighing 20 tons loaded, pays the highway-user fees listed above: license and registration fees, mileage, property, and fuel taxes. The figures are based on an annual mileage of 45,000 miles. By every standard of highway-user taxes, New Jersey ranks 48th receiving less revenue from each tractor-semi-trailer combination than any other state. These figures apply only to vehicles registered in New Jersey. Under a new mileage law, effective last month, New York taxes all heavy trucks—including New Jersey vehicles—on the basis of highway use.

Diet of MILK

A person can't live on a diet of milk alone although milk comes nearer than any other single food to affording all the essentials of a complete diet. It is deficient in iron, copper and manganese, which are needed in small amounts, as well as in Vitamin A and D. A person living on a diet of milk exclusively would develop anemia, and other disorders due to the vitamin deficiency.

Monday evening, members of the First Baptist Church here attended the annual Christmas party of the Matawan Baptist Church Mission Circle. Tonight, the Young Adult Group of the church will meet at the home of Mrs. Ruth Lawrence.

Monday evening, a meeting of the South Amboy Civil Defense Council will take place in two meetings in City Hall.

There will be a meeting of the Parker Council, No. 69, Jr. O.U.A.M. tonight at Christ Church parish house.

The annual meeting and election of officers of the South Amboy Chapter of the American Red Cross will be held at the headquarters of the First Aid and Safety Squad, Thursday night, at 8 P. M.

Tonight, beginning at 7:30, a social will be held in Christ Church parish house by the Young People's Fellowship. Tuesday evening, at 8 P. M. a meeting of the Every Member Canvassers will take place in the Parish House.

Tomorrow night, at White Eagle Hall, the "John Leonard for Mayor Association" will hold a spaghetti supper. John Howard is general chairman of the committee and his assistants are Frank Musolino, and Joseph Quinn of Henry Street.

Monday evening, the Evening Membership Department of the South Amboy Woman's Club will meet at 6:30 P. M. in the Y.M.C.A. when Mrs. Naomi Kusowky will be the chairman.

The annual Christmas toy social of the Children of Mary Sodality of Sacred Heart R. C. Church will take place Sunday evening at 8 o'clock in the parish auditorium. The chairmen are the Misses Mary Wojtaszek and Alice Surovka.

On Wednesday, the annual Christmas party will be held by the Friendship Circle Bible Class of the First Methodist Church.

Tuesday afternoon at 2 P. M. a meeting of the Christ Church Branch of the Women's Auxiliary, will be held at the parish house.

Saturday evening, December 8th the monthly meeting of the Couples Club of the First Presbyterian Church will take place in the manse, when the Christmas theme will be featured.

Thursday evening, a meeting of the Women's Mission Circle of the First Baptist Church will be held in the parsonage, when there will be a special Christmas program. Refreshments will be served by the members of the Guild Girls.

The annual meeting and election of officers of the Woman's Auxiliary of Christ Episcopal Church will be held on Tuesday, afternoon at 2:30, in the Parish House.

President Milton Fowmark of the Bepthore Civic Improvement Association, has announced that a public meeting of the organization will take place Tuesday evening at City Hall, when among the matters to be discussed, will be the expansion of the organization into a taxpayer group covering the en-

tire city. An invitation to the general public to attend has been issued.

A meeting of the Woman's Auxiliary of the Y.M.C.A. is scheduled to take place Monday afternoon, December 17, and on the following day, the Retired Men's Club will stage its annual Christmas Party, beginning at 2 P. M.

A meeting of the Committee of Management of the Y.M.C.A. will take place Monday night, beginning at 7:30 P. M.

M. Joseph Duffy To Direct 1952 March Of Dimes

Annual County Organization Meeting Monday Night

M. Joseph Duffy, of Perth Amboy, will direct the 1952 March of Dimes Campaign in Middlesex County. It was announced today.

Mr. Duffy has been a member of the Middlesex County Chapter of the National Foundation for Infantile Paralysis since the Chapter was organized in 1939, and has been Chapter Chairman since 1943. Mr. Duffy is associated with the General Ceramics and Steatite Corp., Keasbey, and is president of the Perth Amboy Lions Club, a member of the Elks Crippled Children's Committee, chairman of the Perth Amboy Housing Authority, and vice-president of the State Association of Housing Authorities.

The annual organization meeting of the March of Dimes Committee in Middlesex County will be held on Monday evening December 10th, at the Rainbow Inn in North Brunswick Township. All municipalities in Middlesex County will be represented at this meeting and an intensive March of Dimes campaign planned.

TWO WRECK CLAIMS SETTLED

The first claims arising out of the Woodbridge train wreck were settled recently, in the Middlesex County Court, when two Laurence Harbor men, one suing for death of his daughter and the other for personal injuries, won their suits against the Pennsylvania Railroad. The wreck, on February 6, took 85 lives and about 500 other passengers received injuries.

John W. Crammins, of 181 Cleveland Avenue, Laurence Harbor, whose daughter Ruth, 21, met death in the crash, sued for \$125,000. He was awarded \$11,000.

The other award was made to John E. Thun, of 461 Brookside Avenue, Laurence Harbor, who received \$4,000. He sued for \$10,000 for personal injuries.

The engineer of the wrecked train, Joseph H. Fitzsimons, of Point Pleasant, was named co-defendant in both cases.

LUNCHEON AND FASHION SHOW PLANNED BY ALUMNI GROUP

The Middlesex County Chapter of the Georgian Court Alumni Association recently met at the home of Miss Mary Gundrum on Henry Street, when plans were outlined for a spring luncheon and fashion show to take place at Oak Hills Manor.

Local YMCA Praised For Work In Member Drive

Secured Third Largest Number In Recent Member Campaign

With the final ratings tabulated, it was discovered this week, that the local YMCA finished third in the membership campaign recently conducted by all organizations in the Pennsylvania Railroad Association, which embraces 17 individual YMCA units. The goal of the local Association was exceeded in the drive by 122.09%, Davis announced.

This performance brought a letter of commendation from J. W. Oram, Chief of Personnel of the Railroad, who was also chairman of the system campaign. Oram announced the membership in the system was brought to 30,460 members as the result of the drive and the system quota was exceeded by 2,141 members.

JOHN ANDREJEWSKI IS PRESIDENT OF MELROSE FIREMEN

At the recent annual meeting of the Melrose Hose Company, John Andrejewski was named company president. Others selected as officers were: Leroy Coddington, vice president; Frank Gornoka, treasurer; Louis Fielek, financial secretary; Michael Chorpta, recording secretary; Stephen Mroczkowski, sergeant at arms; Frank Kosh and Joseph Pero, patrolmen; Louis Fielek, foreman; Anthony Dudinski, first assistant foreman; Frank Gornoka, second assistant foreman; John Ryniec, trustee for one year; Casimir Kucynski, trustee for two years; Curtis Munn, trustee for three years; Frank Cross, representative to the Firemen's Relief Association, for one year; Joseph Nowicki for two years, and Michael Chorpta for a three year term.

Charity Will Benefit From K of C Dinner

Council 426 Event At Halfway House Thursday Night

To provide food and clothing for needy families of the vicinity at Christmas, Council No. 426, of the Knights of Columbus, will hold a venison dinner Thursday evening at John's Half Way House in Mechanicsville. The affair will start at 8 P. M.

On Saturday evening, December 15, the Third Degree will be conferred on candidates of the Timothy P. Sullivan Memorial Class, at Victorian Hall in Sayreville, and on Thursday, December 20th, a regular meeting of the Council will take place in St. Mary's Guild Hall, following the weekly Prayers for Peace service, which will start at 7:30 P. M.

State Chapter, No. 4, will hold its monthly meeting on Friday evening, December 21, at John's Half Way House. At this meeting, which will begin at 8:30, Christmas gifts will be exchanged among the members.

The first annual Christmas party, under auspices of the Council, is planned for Sunday, December 23, when children of the Council members will be the guests at the Broadway fire house, where the activities will begin at 2 P. M.

HOLIDAY DANCE IS PLANNED BY ST. MARY'S P.T.A.

It was announced this week that the plans are almost completed for a holiday dance, to be held at St. Mary's School hall, under the auspices of the Parent-Teacher Association of the school, on Friday evening, December 28.

Music for dancing will be furnished by Hal Niles and his orchestra.

Straight Line

There are in the United States at least a dozen stretches of railroad track of 50 miles or more without a curve. The longest, 78.98 miles, runs from Wilmington, N.C., northwest to the town of Hamlet.

IN THE SERVICE

The new address of Pvt. Harold L. Cox RA12334816, is, Provisional Company #8 226, c/o Postmaster, San Francisco, Cal.

Serving aboard the attack transport ship USS Cambria with the Sixth Fleet in the Mediterranean, is Norman Anderson, chief boilerman, USN, husband of Mrs. Cecelia Anderson, of 228 John Street.

The Cambria has visited Oran, Naples, Italy, Malta and Sicily, and has conducted training exercises at Sardinia. At present, the crew of Cambria is enjoying a visit on the famous French Riviera.

Edmund A. Vall, seaman apprentice, USN, son of Mr. and Mrs. Thomas J. Vall of 336 David Street, has reported for duty at U. S. Fleet activities, Yokosuka, Japan.

Vall, who entered the Naval service June 29, 1951, received his recruit training at the Naval Training Center, Great Lakes, Ill.

Before entering the Navy, he was graduated from St. Mary's High School.

Undergoing recruit training at the U. S. Naval Training Center, Bainbridge, Md., are two South Amboy seaman recruits, USN, Joseph K. Nebus, son of Mr. and Mrs. Thomas Nebus of Upper Main Street, and Frederick Lounsbury, son of Mr. and Mrs. Frederick Lounsbury, of 304 Wilmont Street.

The initial training includes instruction in such fields as seamanship, fire-fighting, gunnery, signaling and other courses to make the recruit well-versed in every phase of Navy life.

Upon completion of their 11-week training period at the recently re-activated training center, graduates are assigned to duty stations with the Fleet or at Navy shore stations, or are sent to service schools for advanced technical training.

Robert T. Huguenin, seaman apprentice, USN, son of Mr. and Mrs. Theodore R. Huguenin of 330 George Street, serving aboard the escort aircraft carrier USS Mindoro, participated in Atlantic Fleet Exercise 52, the gigantic fleet maneuvers held in Caribbean waters.

In an impressive display of air, land, and sea power, over 100,000 sailors and marines and 250 ships engaged in a "Mock War" with Vieques Island off Puerto Rico, and Onslow Beach, N. C., as their objectives. The maneuvers featured surprise attacks, protection measures, anti-submarine warfare, and amphibious operations.

The task force returned to its home port, Norfolk, Va., in mid-November after four weeks at sea.

CAMP KILMER, N. J.—Colonel Clarence O. Brunner, who has been executive officer here for the past six weeks, has been named deputy post commander by Brigadier General Charles F. Craig, post commander.

Colonel Brunner returned to

this country in August after a year's service in Korea. He served as chief of staff of the 7th Infantry Division there and took part in the amphibious landings at Inchon and Iwon.

A native of Salt Lake City, of the University of Utah. He is of the University of Utah. He is a veteran of 22 years Army service.

Gifts to servicemen who will have to spend Christmas Day on the high seas have been pouring into the American Red Cross Office at Camp Kilmer, N. J.

Each individual gift package contains not more than six items selected from a long list of articles used by soldiers. More than 2,000 gifts have been received from Red Cross Chapters as far away as Virginia, to assure success of the project. They will be placed aboard ships for distribution on Christmas Day.

PFC. Robert C. Moran, son of Mrs. Margaret Moran, was among those reported wounded recently, when a casualty report was issued by the Army.

NEW YORK.—Another extension of a recent Secretary of Defense decision has given potential draftees an opportunity to volunteer for the Marine Corps, it was announced today.

The directive, which authorizes young men to voluntarily enlist even after they have received pre-induction physicals, was previously deadline November 30. The extension now sets the deadline at December 31.

However, it was emphasized by Major Carl W. Hoffman, officer in charge of the Marine Corps Recruiting Headquarters at 346 Broadway that men will not be able to enlist after they have received actual orders for induction.

Marine Corps Headquarters said today that local commanding officers would continue the long-standing practice of granting Holiday leave outside the combat zone insofar as practicable.

Except for training centers, this usually permits local authorities to give a leave period to one-half of their personnel at Christmas and to the other half at New Years.

Training commitments at two recruit centers will permit only the celebration of Christmas and New Years day. Schedules must be maintained to provide replacements for reservists being released from active duty and to continue the regular rotation of personnel from Korea.

Christmas Party And Anniversary Marked By Woman's Club

Tuesday Events Were Staged In Christ Church Parish House

The annual Christmas party was the feature of the meeting of the South Amboy Woman's Club, held Tuesday afternoon in Christ Church parish house, when the 30th anniversary of the club was also marked.

A clothes line of hand made articles was the feature of the Christmas party.

For the Fund for Korea, sponsored by the Club, Mrs. G. F. Disorow, the committee chairman, reported the receipt of donations totaling \$50.

Mrs. Francis N. Naga, chairman of the club art department, announced a meeting of that group will be held at the home of Mrs. O. H. Miller, on Stevens Avenue, Monday afternoon, beginning at 1 P. M.

Announcement of plans for a silver tea, was made by Mrs. R. P. Mason, who revealed the event will take place at her home, Wednesday afternoon, December 12 from 2 to 4 P. M., and members and friends have been invited to be present.

It was announced by Mrs. Howard Irvin, the club president, that the rummage sale held at Perth Amboy recently, under club auspices, netted the sum of \$29.60.

Mrs. Janet Wolfram, of the Public Service Economics Department, showed colored motion pictures, based on the subject, "Ornamental cookies, cakes and candy for the Christmas Holiday." A fruit cake, prize in a grand drawing, was won by Mrs. Harold Mitsenius.

Hostesses for the meeting were: Mrs. R. P. Mason, Mrs. Christy Dufford, Mrs. Charles Mitsenius, and Mrs. Fred Kurowsky.

WESTMINSTER GROUP OF LOCAL CHURCH AT MID-WINTER RALLY

Thirteen members of the Westminster Fellowship sponsored by the First Presbyterian Church of South Amboy journeyed to Cranbury, N. J. last Sunday afternoon, where they joined with 400 other Fellowship members from the area to partake in the annual mid-winter rally. Featured at the rally was the Princeton Seminary choir who conducted a complete service of worship with the key-note address given by Dr. James K. Quay, vice-president of Princeton Theological Seminary.

The Tracy Pumping Plant, which lifts Sacramento River water 200 feet into the Delta-Mendota Canal, is the second largest pumping plant in the world.

Nurse Corps For Civil Defense Being Organized

Functions Discussed Recently With Director Nagle

The establishment of a nurse corps in connection with the local Civil Defense organization is taking place, it has been announced by Director Michael Nagle, who met recently with the members of the group, to explain how such a unit works with the other branches. Nagle said plans will be made at the meeting of the Defense Council Monday night, to have this new unit represented on that body.

Wednesday afternoon, Nagle, with Superintendent of Schools Tustin, conducted an inspection of Sacred Heart Grammar School to learn the defense measures taken there and the plans made for the protection of the children. Nagle reported satisfaction with the results of his inspection and lauded the teaching staff for the spirit of cooperation with the Defense organization that was exhibited.

Gross Declares Sunday Alert Was A General Success

Estimate 4,000 C. D. Personnel Took Part

NEW BRUNSWICK.—The first county-wide test of Middlesex's mutual aid and communications systems for civil defense, "sponsored more smoothly than we dared believe possible," Dr. Mason W. Gross, area director, declared following Sunday afternoon's alert.

Some 15 Middlesex County communities sent 30 pieces of fire-fighting and first aid equipment to the scene of the imaginary "disaster," an explosion in a supposed defense plant at Merdine's Corners in North Brunswick Township. For the purpose of the test the "disaster" had caused an estimated 275 imaginary "casualties."

Dr. Gross reported that "communications were established very quickly and remained in effect throughout the test."

It was estimated that some 4,000 CD personnel were mobilized during the test. This number included 200 doctors, 800 nurses, 600 first aid squad members, 300 miscellaneous hospital personnel, and hundreds of auxiliary policemen, fire fighters and the members of the county emergency radio communications network.

M. F. NAGLE, Local Director

Q.—Wouldn't an atomic bomb be dropped in a reservoir by the enemy?

A.—Only if he was pretty much of a fool, and for several good reasons. It just wouldn't be worth it, for one. The bomb wouldn't cause any physical damage to the city, and so few people would be affected by the resulting radioactive contamination that the effort would be worthless. Less than one per cent of a city's water supply enters people's stomachs; there are several sources of water supply for a big city and any one contaminated could be cut off; and much radioactive contamination in a large body of water is trapped in the silt and mud of the water bottom.

Q.—What about these so-called radiological mists and dusts?

A.—Their use within the next few years is extremely doubtful. As you have already been told, radioactive decay occurs quickly, and that would mean constant replenishment of the "dust" supply. Most difficult problem—how would it be disseminated? By aircraft? Consider the distances between here and the Soviet Union, and then determine the flight path of the bomber over our cities while fighters and anti-aircraft did their best to down it. The project becomes so unfeasible that its use as a weapon against our cities becomes something not to be concerned with.

Q.—How much warning will the red alert give us?

A.—Nobody can answer that question. It may be less than a minute or it may be several hours. The many methods the enemy can employ for an attack, the direction of approach of an attack, and other factors will determine this.

Q.—Will I personally be able to cope with the many fires caused by the atomic explosion?

A.—You can help. Many fires will be beyond your control and will have to be fought by major fire-fighting apparatus. However, small fires can be controlled by the individual with sand, water and regular fire extinguishers. There's no need to run from a small fire and let it destroy a building or your home when a minute's work will stop it.

Q.—What if an enemy plane is shot down before it drops its atomic bomb? Won't it explode when it crashes?

A.—Not necessarily. That question is difficult to answer because so many factors influence the explosion. All I can say is that an atomic bomb is a very precise instrument and must be carefully set before it can be exploded. The answer is, perhaps.

Q.—Weren't most people within a mile of ground zero in Japan killed?

A.—No. The bombing surveys of the atomic bombings of Hiroshima and Nagasaki state that 80 out of every 100 people within one mile of ground-zero lived in Hiroshima, and the ratio was 60 out of every 100 at Nagasaki. And, of course, their flimsy houses afforded nothing like the protection of buildings in our great cities.

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS OF THE FIRST NATIONAL BANK OF SOUTH AMBOY, NEW JERSEY

The annual meeting of the stockholders of the First National Bank of South Amboy, for the election of Directors to serve for the ensuing year, will be held at its banking house in South Amboy, N. J., on Tuesday, January 8th, 1952.

The polls will be open at 2:00 P. M. and will remain open one hour.

L. R. CLAYTON, Cashier

Artificial Members

Amputees are advised by National Patent Council that inventors are constantly at work trying to improve artificial members. Gilbert M. Motis, Burbank, Calif., recently was awarded a patent for an artificial arm with 199 parts that can turn and swing in a movement "combining the motions of supination, flexion, and abduction."

Sandwich Filling

An excellent sandwich filling may be made by combining pieces of turkey or chicken meat with finely-chopped onion, celery, parsley, or green pepper.

Wax Must Be Banished

Before painting, be sure to remove all wax with turpentine, mineral spirits or a product made especially for the purpose.

Mechanical Swatter

Cows operate the controls to get rid of horseflies, with a machine devised at the University of Illinois. Pyrethrin, a combination of piperonyl butoxide and pyrethrins, is the only insecticide which controls the pest, and it is sprayed on the cattle when they step on a treadle in the stall-shaped device. Boasy, the scientists report, has learned to step into the machine voluntarily when the flies become too annoying.

CHEVROLET

More people buy Chevrolets than any other car!

WE'll put it up to you! There must be plenty of good reasons why more people buy Chevrolets than any other car.

Here are some things to think about.

There's the way Chevrolet looks. Nice clean, curved lines—like cars in the high-price field! Chevrolet's Body by Fisher sets the pace among low-priced cars.

There's the way Chevrolet rides and handles. The smoothness and big-car comfort of Uni-

tized Knee-Action. Bigger brakes—biggest in the field—for safer, surer stops. Finest no-shift and standard driving at lowest cost with Powerglide or Synchro-Mesh transmission.

There's the way Chevrolet saves. Chevrolet is the lowest-priced line in the field and the savings go on and on with low operating costs.

There are plenty more reasons why Chevrolet is America's favorite. Come in and let us show them to you.

Chevrolet's time-proved

POWERGLIDE

automatic transmission

Finest no-shift driving at lowest cost. Combination of Powerglide Automatic Transmission and 105-h.p. Engine optionally on De Luxe models at extra cost.

HELL BENT FOR SOCIALISM

One of the old arguments for socialized power development is that in many cases private enterprise is not capable of doing the job, and so the only solution is government development.

That argument is as phony as a three-dollar bill. Given a chance, private enterprise has never failed to produce all the power any region can use. And, today, the Interior Department is fighting tooth and nail against private power development which would be carried out without cost to the taxpayers—and in favor of public projects which would require huge sums of the taxpayers' money.

Two current cases cast a strong white light on the thinking of the public power zealots. In Virginia, a utility company wants to develop power on the Roanoke River. The Federal Power Commission has twice ruled that it should do so, and has issued the necessary licenses. But Interior contends that it has a priority on all basin development, and it has gone into the courts in an attempt to get its way. Virginia businessmen have appealed to Interior to drop the case and let the utility proceed. But Interior, hell bent for more socialism, has turned deaf ears.

In Idaho, another business-managed, taxpaying utility has planned to carry out major power development on the Snake River. And again Interior has leaped into the fray. It has asked Congress for funds to build a dam that would eventually cost the taxpayers more than \$483,660,000. The utility can do the same job for less, and, in addition, it would pay heavy taxes to county, state and federal governments, while Interior's dam would be tax-free as well as tax-subsidized. But little considerations such as these don't bother the public power boys for a minute.

Only one logical deduction can be drawn from such examples. It is that Interior's driving urge is to socialize all power production and distribution as rapidly as possible—rather than to help provide the country with needed power at the lowest possible cost and in the shortest possible time. This is exactly the kind of philosophy which has all but destroyed the economy and stability of England.

WHEN THE PEOPLE KNOW

Even the top political backers of the Administration's compulsory health insurance bill admit that it has no chance of gaining Congressional approval—or even serious consideration—in the near future. And the reason is that once the public was given the facts, sentiment among the rank-and-file of Americans solidified against government-controlled medicine, socialized medicine, or any variant scheme.

The medical fraternity naturally leads in the campaign to tell the nation the facts. Thousands of other groups—including civic organizations, labor unions, veterans' organizations, and so on—voluntarily cooperated. The failure of socialized medicine plans in England and other countries was described by recognized authorities on the subject. The truth about standards of health and medical care in this country was widely publicized. The tremendous achievements of free American medicine, existing and potential, were explained. All concerned frankly said that more progress is needed, and pointed out how free medicine is going about the job of achieving it.

Of necessity, work of this kind must continue—the proponents of compulsory health insurance and kindred ideas never give up. If and when it looks as if they might slip their schemes over on the country, they'll be right in there pitching. But the big point is that when the American people recognized the seeds of socialism, they turn thumbs down. They know that this country was built on freedom—for the individual, for the professions, for labor, and for enterprise.

SWIMMING IN BUTTER

In the view of the president of the American Bankers Association, overspending by government, private organizations and individuals is putting a dangerous strain on

the economy. To use his words, "our huge military and foreign aid programs, coupled with continued nonessential spending by government, business and individuals, create a demand for goods greater than our current capacity to produce."

In this, government is unquestionably the worst offender—if only because it is the biggest. In the fiscal year which begins next July, the Federal government alone will spend a minimum of \$80,000,000,000 and perhaps much more. The minimum figure works out to \$2,050 for every family in the country, as compared with \$365 in 1939.

The apologists for do-everything government say that the budget is necessary in the light of present world conditions and that substantial cuts cannot be made without endangering the security and safety of the country. But the fact remains that the budget is loaded with big appropriations for projects which could either be postponed, abandoned, or undertaken by private enterprise. Analysis after analysis indicates that the budget could be cut perhaps \$10,000,000,000 without affecting our defense or eliminating any activity which is necessary.

The point is, of course, that the spending must be cut—no matter how hard that may be on the bureaucrats and the seekers after Treasury funds—if a runaway inflation and a murderous squeeze of our productive plant is to be avoided. It isn't a case of guns or butter here. But it is a case where we can't have the guns and at the same time swim in the butter. Extravagance and unnecessary spending are crimes against the people now living and the generations not yet born.

RESEARCH IS A TOOL

People who are unacquainted with the working of the coal industry may think that here is one enterprise where research is of small if any importance. After all, they may say, a hunk of coal is just a hunk of coal, and that's the end of the matter.

Actually research is one of coal's biggest and most important tools. And today coal uses that tool in four diverse practical ways: in developing new techniques of putting coal to work; in creating new equipment to burn it with more convenience or greater efficiency; in finding ways of using coal in other forms; in developing a new system of machine mining to reduce costs. On top of that, theoretical studies on the nature and processes of combustion and coal's reaction therein are carried on.

This is all part of coal's competition in the search for existing markets, and in the race to create new markets for the future. Coal well knows that no industry can afford to stand still. It must always go forward. And so constant effort and large sums of money are devoted to making coal a better, cheaper, more efficient and more versatile commodity for consumers of every kind.

This is of direct benefit to the coal industry, and to the hundreds of thousands of highly-paid people it employs. And in the long run, it is of benefit to everyone in the country, from ditch digger to the theoretical scientist. It helps raise our living standards. It opens new avenues of knowledge and achievement. It is a very important instrument of progress.

CAN'T BE DONE

The Defense Production Act contains an amendment, known as the Herlong Amendment, which is all important to American retailing. This provision guarantees a percentage margin approach to price control. In other words, under it the retailer is allowed to add a moderate percentage to his costs to determine the price at which an article may be sold, which is the traditional way of doing business.

Certain price control officials have been bitter in their opposition to the Herlong Amendment. They want to get rid of it and replace it with a system whereby inflexible dollar-and-cents ceilings would be imposed upon all retailers. That means that they wish the power to force retailers to absorb wholesale and other costs which are totally beyond retailing's control.

According to retail experts, the effect of this would be shattering. It would pose the most serious sort of survival problem for the chains and other big stores—and it would undoubtedly force a great many small stores to close. In all probability, the ultimate result would be to make it legally obligatory for retailers to sell commodities at no profit, and perhaps at a loss. For, in our competitive economy, retailing's profit is very small—a penny to four or five pennies on each dollar received in sales, depending on the character of goods involved. There is simply no margin to make possible the absorption of further increases in commodity costs or other expenses.

YOUR GARDEN

Evergreens on your property should supply you with decorative material for the Christmas season.

This is a good period to do corrective pruning. Where the plant is loose and open, it will pay also to shear in June. However, this may not help if the evergreens are of the forest tree type and have grown unrestrained several years.

In pruning in winter, it is necessary to know your plants well so that you will not harm them.

Some evergreens can be cut back into wood several years old and yet make new growths from old wood. Hemlock, Yew, Arborvitae and Cryptomeria are in this class.

You will need to be able to distinguish between Arborvitae (Thuja of the nurseryman) and Japanese Falgocypres or Metinospora. The latter is not likely to produce new shoots from old wood. These two have fern-like sprays of twigs and leaves. If the top, leading shoot is upright, it is Arborvitae; if it bends over naturally, it is Chamaecyparis.

Leaves are very small and close against the twigs. If they appear flattened, almost as if pressed with an iron, the plant is Arborvitae. If on the other hand, little points stick out and the small leaves are arranged around the twigs to make them appear roundish, it is Chamaecyparis.

Juniper and cedar are not likely to start from twigs more than a year or two old. Some forms of Chamaecyparis resemble junipers with long bluish leaves. Juniper leaves are prickly, while Chamaecyparis leaves are soft to the touch.

Q. What is the name of this cut of meat?

A. Pork crown roast.

Q. Where does it come from and how is it identified?

A. Rib sections of two pork loins from which backbone has been removed and which are frenched (meat stripped from ends of rib bones) are formed in shape of a crown.

Q. How is it prepared?

A. By roasting. The crown is roasted with ribs down for 1 hour in a 350°F. oven. At the end of this time, it is turned and filled with stuffing, if desired, then roasting completed. Allow 35 to 40 minutes per pound for roasting.

Duke's State

New York state was named in honor of the Duke of York.

"Was a nervous wreck from agonizing pain until I found Pazo!"

My Mrs. A. W., San Antonio, Texas. Speed amazing relief from migraines of simple piles, with soothing Pazo! Acts to relieve pain, itching instantly—soothe inflamed tissues—lubricates dry, hardened parts—helps prevent cracking, soreness—reduce swelling. You get real comforting help. Don't suffer needless torture from simple piles. Get Pazo for fast, wonderful relief. Ask your doctor about it. Pazo is a form—also tubes with perianal pile pipe for easy application.

GROUND IS BROKEN FOR NEW K of C HOME

An important step toward the realization of the building plans of Council No. 426, of the Knights of Columbus was taken Tuesday afternoon, when ground breaking for the new home took place on the property at the corner of Stevens Avenue and Fourth Street.

The tentative plans call for the erection of a brick building, providing facilities for all ac-

tivities of the Council and also recreation facilities.

The ground was broken by the Rev. James Murphy, of St. Mary's R. C. Church, chaplain of the Council.

In the picture above, from left to right are: front row—John Nolan, financial secretary; Joseph Share, and Francis Powers, members of the building committee; Ignatius Spina, Grand

Knight, Reverend Murphy; Frank Kurawa, trustee; Leon Whimiewski, and Donald W. Reed, Jr., building committee members.

Back row: Joseph Vall, chairman of Catholic Activities; John Stoffe, building committee member; Fred Leslie, Christmas Charity chairman and Joseph Flaga, membership chairman.

TOPICS

(Continued from Page 1)

particular nations. Any person of average intelligence can quickly understand both the universal factors in foreign policy and the special factors affecting the foreign policy of the United States.

The present policy of this country, however, runs counter to this national instinct. It demands the utmost concentration of power in Washington. It demands the concentration of individual wealth and individual lives. It increasingly circumscribes the individual power to substitute regimentation for freedom.

The amazing career of Henry Ford, calls attention to some basic facts. Because of his pioneering work and unparalleled achievements in his field, Ford will rank in history, with Washington, Jefferson and Franklin, as one of the greatest builders of our nation.

America's 48,000,000 motor vehicles in close formation, would go around the world three times if necessary, every man, woman, and child in America could get into these cars and all ride on rubber at the same instant of time.

A nation on wheels—traveling on vehicles undreamed of when time, and they are as free as

Henry Ford and everybody else in this country sixty years old, or over was a child. One of the first cars cost \$8,000 but no one would have it as a gift today.

Here are some big facts that tie in with the argument as to whether communism, socialism or the individual enterprise system is best for America, and the world.

Thirty years ago, Lenin stated that victory for Communism in the United States would come from within. He noted with emphasis that the greatest obstacle in the path of Communism was the number of small businesses existing at the time.

The truth is that Lenin was more prophetic than we should care to admit. We are in danger, from within, of going down the road of Communism.

The American independent business way of life is a pattern whereby all citizens have the right, through ingenuity and ambition, to go into the market place and win a business, and permit fair competition as the guiding factor to control prices and create the necessary employment that is needed for citizens of our nation to have jobs. As a result of this system, our people have achieved the most widespread and fairest sharing in the material benefits of business of any people any

ever were the citizens of any land.

Millions of dollars have been spent, to attempt to educate the American people that monopoly control means greater purchasing power and lower prices for consumers, that it means more of the good things of material life and more assured freedom for everyone.

Instead of seven restaurants in a community the monopolists claim, one restaurant is more efficient and economical. Yet these monopolists do not say how the people who are thrown out of jobs by the change from seven outlets to one, will earn money to patronize the restaurant, or how industries who supply the seven outlets will continue to be able to exist.

TWO SERVICE AWARDS FOR LOCAL DUPONT MEN

Recognition of service records at the Parlin plant of the DuPont Company was made recently, when two local residents, Joseph P. Wyluda and Stanley J. Schultz, were each presented with pins and certificates denoting a quarter century of company service.

CARD OF THANKS

We wish to express our sincere appreciation to all relatives, friends and neighbors for the many acts of kindness, and expressions of sympathy they extended during our bereavement in the death of our beloved wife, mother, grandmother and great grandmother, Mrs. Ella H. Muldoon and we gratefully acknowledge the many floral tributes, spiritual bouquets, and donations of cars. Our special thanks is extended to the Rev. Christopher Nichols, and the bearers, William Rosner, Donald Osterander, Robert Lauritzen, Gerald Nilson, Fred Honatka, and to funeral director, Robert P. Mason.

(signed)

Husband, Edward Muldoon, Sr.; daughter, Effie Morgan; sons, Edward Muldoon, Jr., and Milton Barkalow.

RETAIL STORES WARNED TO WATCH PRICES AND RECORDS

TRENTON, N. J.—With Christmas shopping here, retail stores were warned by OPS over the weekend to make certain that their prices and records are accurate and up-to-date in compliance with retail ceiling charts.

To aid them, OPS is sending more than 2,500 retail stores in the Trenton district which includes Burlington, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, and Somerset Counties, a simplified digest of pricing rules which govern sales and sales records of the medium and large size stores selling apparel, furniture, household wares, sporting goods, appliances, radio and TV sets, as well as toys, games and

Christmas decorations.

The sales of these stores are governed by Ceiling Price Regulation 7, which limits their marginal markup of items to pricing charts they filed and certified with their OPS District Office last May 31.

Each store retained a copy of the chart by which it must price merchandise received and sold subsequently. Each also must preserve its invoices with notations of its selling prices.

Only the small stores without clerical help are exempt from the requirements of CPR 7, but they abide by the general price "freeze" of last January and also must preserve simple records showing they are eligible to operate under the general "freeze."

Elementary School Honor Roll For November Released

The November honor roll for the elementary public school grades, which was released this week, contains the following names of students who secured honor grades during the period under review.

Pre Primary — Janice Christensen, Chester Meiner, Bruce Ware.

Grade 1 — Jeanette Comstock, Cynthia Kurta, Fay Perline, David Frisch, Joseph Katsarec, Edmund Kadoski, Donald Murphy.

Grade 2 — Robert Postach, James Tustin, Paul Weiss, Joan Rosman, Nancy Sullivan.

Grade 3 — Donald Primka, David Robinson, Gary Selover, Edward Sprefford.

Grade 4A — Jimmy Dunham, Baby Hamilton, Danny Harvey, Roger Downing, Carol Adams, Louise Hawes, Monnie Jean Meiner, Mary Snover, Helen Lunkes.

Grade 4 — John Keller, William Lindblad, Robert Mason, George Reick, Joseph Selensky, Richard Whitmore, Kathleen Kriss, Dorothy Wothowick.

Grade 5 — Thomas Adams, Carol Berry, James Brinamen, James Gent, Thomas Harvey, Robert Kominkiewicz, Kenneth Murphy, John Nagy, Joseph Gary Ware.

Grade 6 — John Berry, Michael Charmello, Kenneth Elyes, James Maher, Claire Dexheimer, Harriet Dunham, Catherine Kurts, Mary Robertson.

PRESBYTERIANS WILL FORWARD CLOTHING TO KOREANS

The adult members and friends of the First Presbyterian Church will, soon, forward 500 pounds of used clothing to the Church World Service depot in New Windsor, Md., for subsequent distribution in Korea. The pastor, the Rev. James J. Anilsky has extended thanks to everyone who contributed to the success of this drive.

Individuality

The present tendency in exterior painting is toward unusual color combinations which can lend distinction to the most unpretentious home.

National Anthem

The Star Spangled Banner legally became the national anthem in 1931

SAYREVILLE WANTS ARMY APPROVAL OF OUTFALL SEWER

Army approval has been requested by the Borough of Sayreville, for the maintenance of an outfall sewer in Raritan Bay from the Morgan Sewage Treatment Plant on the north side of the entrance to Chesapeake Creek at Morgan.

The application proposes to continue the maintenance of a 12-inch, cast iron sewer pipe supported on timber bents, spaced on 10-foot centers. The top elevation of the timber bents, is about two feet above high water, and the structure extends approximately 1,100 feet offshore, on the mean high water line.

Criticisms or protests regarding the work, from the standpoint of navigation, should be submitted to the office of the Corps of Engineers, 30 Lafayette Street, New York City, before next Monday.

To Safeguard Ladder

To maintain the flexibility and the strength of a ladder and to prevent its splintering, rub boiled linseed oil into it once a week for several weeks. Each year, thereafter, repeat with one or two coats. If the surface of the ladder is rough, first rub it down with sandpaper. If it's smooth and in good condition, you can apply the oil with a cloth.

Charmello Dinner Held Saturday By South Amboy G.O.P.

Mayor Olsen Predicts
Many Troubles Will
Face New Council

An affair solemn seen here during the past few years, took place Saturday night, when local Republicans, and friends of Charmello, held a testimonial dinner in his honor at Cony's at Rose's corner.

The celebration was opened by a prayer given by Rev. Christopher Nichols, rector of St. Michael's Episcopal Church, who also pronounced the benediction at the close of the affair. The toastmaster, was Francis N. Repe, of this city, prominent in local and county Republican activities.

As the principal speaker, Mayor Thorvald E. Olsen, expressed appreciation of the support given the Republican ticket in the past election, which resulted in Charmello's election, and he described the securing of the veto power by the Republicans as the result of Charmello's victory, as a big Republican gain locally. The Mayor predicted there will be a large number of problems confronting the new Council which takes office on January 1st, among them the erection of a new school, or additions to the present building, better city headquarters facilities, and others, and he pledged that "the Republican party here, will continue its explorations to wipe out graft and corruption in city affairs." He closed his speech with a comment on the importance of the presidential election to take place in 1952.

Continued support of the Republican candidates was urged by Councilman at Large, Robert McGowan.

Others who spoke were Yutes Romeo, president of the South Amboy Republican Club, Roy Freeman, Municipal Chairman, Dr. Nathaniel Frankel, County Chairman, Joseph Sharo, party candidate for First Ward Councilman in the last election, and Murray Miller, chairman of the Republican Speakers Bureau.

Charmello, voiced appreciation for the support accorded his candidacy and, expressed the feeling that the larger than usual vote cast in the election indicated public approval of his candidacy and endorsement of the announced platform of the Republicans locally.

Assisting co-chairmen of the testimonial committee were: Roy Bennett and George Stader, and the assisting committee members were: Mayor Olsen, Councilman at Large, McGowan; Ted Kacmarek, Milton Bloom, William Farrell, Harold Stratton, Roberts Koenig, David Zeh, James Hollywood, Edmund Kadoski, Nellie Komosinski, Hazel Carlisle, Nick Del Parcio, Yutes Romeo, Martin Carroll, Edgar Souly, Roy Freeman, Municipal Chairman and Leslie Batchelor, Municipal Vice-Chairman.

For The Hostess!

Every woman feels flattered when she receives a feminine gift from her guest. And when that gift is practical, too, it is doubly appreciated. So why not take a set of fragrant bath toiletries to your next week-end hostess. She'll remember you kindly for many weeks to come—whenever she has the pleasure of a luxurious bath.

HIGHWAY FOR 1950

(Continued from Page 1)
The plan was first discussed, and preliminary studies made, Koons said, the cost of the bridge has made a great difference in cost of construction and at present the cost of building 9,100th of a mile is \$1,444,000.00. The bridge, he said, will cause 43.5% of the total expense while 56.5% of the cost of the bridge, is incurred in the construction of the stone facing.

Discussing the financing of the project, Koons said, the work must proceed somewhat slowly, because the only funds available, are those received from the Motor Vehicle Department as a portion of the revenue it collects. This, he said, is one of the reasons why it will not be possible to carry the entire project to completion until 1953.

However, the highway will by no means solve all the traffic problems in the sections it covers, declared Koons, who said that according to present indications, even if the work is completed on schedule, there will be sufficient highway facilities available by 1956 only to solve the traffic problems existing in 1950.

In discussing the further projects that will be necessary to solve the traffic problems of the state, it was revealed by Koons, that within a short time, it will probably be necessary to build another bridge across the Raritan, in the vicinity of the present Edison Bridge.

One of the reasons for the heavy traffic in the eastern sections of the state, he declared, is the fact that the highways serve 35% of the manufactures of the nation, which are located within the confines of the state, and he added that 85% of the trucks passing over the highways, are owned by manufacturers located in New Jersey.

The total cost of the Parkway will be \$235,000,000.00 and when it is completed, it will cover an area of 118 miles. It is expected, according to Koons, that the entire project will be completed by January.

Fred Walters, and Donald Reed Jr., were inducted into the club at the meeting, when the induction ceremonies were conducted by Past President John E. Mullane. James Hollywood, local distributor of windows, was voted into the club membership.

It was reported by James Chulili, club program chairman, who is arranging the annual Christmas party of the club for children, that there will be no regular meeting of the club next Tuesday, because of the party, to take place at Oak Hills Manor, that afternoon.

The club voted endorsement of the blood donor program, of the Red Cross and plans to donate the blood bank equipment of the organization to this city will be made.

Visitors were F. Pritchard of South River, Abner Chubbey, Walter J. Malloy, Paul Johnson and Eugene Miller of South Amboy.

Sugar Beets

The sugar-beet industry in New Jersey got its start during the Revolutionary War when sugar-beet roots were cut off, says the National Sugar Beet Association.

Rebirth of Religion

SOME people in Washington are predicting that President Truman's nomination of Gen. Mark Clark to be U.S. ambassador to the state of Vatican City will turn the next election into another religious debate reminiscent of the Al Smith campaign of 1928. However, a number of events in recent weeks indicate there may be a rebirth of religion in this country which would belie a growth of religious bigotry and intolerance.

One was a gathering here of 40,000 members of Jehovah's Witnesses on faith at the American Legion ball park. The following week more than 50,000 Catholics gathered at Washington's monument to recite the Rosary. And the same day, approximately 10,000 Protestants celebrated the second annual Festival of Faith at Uline arena. Also, from other sections of the country, particularly rural areas, come reports of increased church attendance and impressive demonstrations of faith in God. As in the past, the people of Christian nations are turning to religion as a panacea for the world's ills when troubled and confused.

Many of those who express opposition to diplomatic relations between this nation and the Holy See are ignorant of the history of such relations. The President's establishment of diplomatic relations with the Vatican is not new. And despite the protests from some sectors, the President believes he is right and has said he will press for the ratification of General Clark's nomination.

Early Relations

One of the earliest acts of congress of the new-born Republic of the United States was to establish consular relations with the Papal States in 1797. Consular relations were maintained until 1854 when the post of diplomatic representative to the Papal States was raised to the rank of minister. This country then maintained a minister there until 1897, a total of 70 years, until the Pope lost his temporal power. In 1870 the Papal States were incorporated into the Kingdom of Italy.

Our last minister to the Papal States was Rufus King, who resigned January 1, 1893, when congress declined to appropriate further money for maintenance of the legation in Rome.

As a result of a treaty in 1929, a new accord was entered into between the Pope and the Italian government which set up the state of Vatican City. It is over this independent state the Pope has temporal power and to which President Truman nominated a representative. Thirty-seven other nations now maintain diplomatic relations with Vatican City.

Area Is Small

The area of the state is small, only 44.7 acres, with a population of approximately 2,000. It includes St. Peter's church, the Vatican palace and museum which covers more than 12 acres, the Vatican gardens and other buildings. Thirteen buildings in Rome, housing offices and administration of the Holy See have extra-territorial rights. The Secretariat of State represents the Vatican in diplomatic relations with foreign countries.

Neutrality Pledged

Under the 1929 treaty with the Italian government, the Pope is pledged to perpetual neutrality with respect to political disputes between governments and the abstention from international congresses, unless his mediation is specifically requested by both parties to a dispute.

The flag of the state is white and yellow, charged with the crossed keys and triple tiara. The state also has its own postage stamps and telephone system. Police duties are carried out by the Pontifical Armed Corps, which comprise the Noble Guards, the Swiss Guards,

the Pontifical Guard of Honor and the Pontifical Gendarmaria.

Roosevelt Envoy

In 1939 President Roosevelt named Myron Taylor, former president of U. S. Steel, as his personal envoy to the Vatican. He served until his resignation in 1947.

President Truman said in his nomination of General Clark that national security, and the purpose of diplomacy and humanitarianism would be served by having a full-fledged ambassador in the most sensitive listening post in the world in the battle against communism.

Civil Service

Frank E. McKinney, the new Democratic national chairman, went into action the day after he assumed his new post. He recommended a plan to put collectors of Internal Revenue under Civil Service. The plan won President Truman's approval and he will pass it along to congress in January. By putting collectors under Civil Service it is believed, it will lessen graft and increase efficiency of the tax department.

Steel Sources

Railroads are one of the principal sources of scrap iron and steel, having furnished about 12 per cent of the scrap purchased by the steel industry in 1950.

Household Hints

Extra vitamins and minerals may be worked into a sandwich by creaming the butter with shredded watercress, parsley, lettuce, or cabbage.

Long River

The Congo River, with only a few transfers required by waterfalls and rapids, is navigable by river steamer for nearly 4,000 miles.

Wants More Grain

Increased production of feed grains in 1951 is being urged by the U.S. Department of Agriculture.

INVITATION FOR BIDS

Sealed bids will be received for Paving, Drainage, Chain Link Fence and Kindred Work for Hoffman High School, John Street, South Amboy, N. J.

Bids may be mailed to Mrs. Lella L. Neill, secretary to the Board of Education at 234 Second Street, South Amboy, New Jersey or may be delivered in person prior to opening of bids, at the office of the Board of Education, Hoffman High School, where the bids will be publicly opened and read aloud at 8:00 o'clock P. M. Eastern Standard Time on December 17, 1951.

Proposed forms of Contract Documents including Specifications and Drawing may be obtained at the office of the Architect, Murray Lebowitz, 313 State Street, Perth Amboy, New Jersey by depositing \$5.00 for each set of documents so obtained. Deposit will be refunded to each bidder who returns the Specifications and Drawing and other documents in good condition within 10 days after the bid opening. Persons who have obtained documents and who do not submit a bid will lose their deposit.

Certified check or bank draft payable to the Board of Education of the City of South Amboy; U. S. Government Bond, or a satisfactory bid bond executed by the bidder and acceptable sureties in an amount equal to ten per cent of the bid shall be submitted with each bid.

The successful bidder will be required to furnish and pay for satisfactory performance and payment of bond or bonds.

Attention is called to the fact that not less than the minimum salaries and wages prevailing in the locality must be paid on this work.

The Board of Education of the City of South Amboy reserves the right to reject any or all bids or to waive any informalities in the bidding.

No bid shall be withdrawn for a period of fifteen (15) days subsequent to the opening of bids without the consent of the Board of Education of the City of South Amboy.

Secretary

HEART DISEASE AND ALLIED ILLS LEAD COUNTY DEATHS

Heart disease and its allied ailments topped all causes of death in Middlesex County in 1950, it was revealed today in a special report prepared by the State Division of Vital Statistics and Administration and released by the New Jersey Heart Association.

The survey showed 2,371 total deaths in the county, of which 1,068 or 45.9 per cent were due to heart disease and ailments of the circulatory system.

Statewide, 22,897 deaths were attributed to circulatory ailments, which represents 44.8 per cent of 48,837 deaths from all causes.

Warren County's 51.8 per cent was the highest percentage of deaths traced to heart circulatory ailments of any county, exceeded only by 54.1 per cent in state institutions. Mercer County's 41.4 per cent was lowest, except for a percentage of 6.3 in military establishments.

KNOW YOUR GOVERNMENT

GET OUT YOUR TRI-FOCALS

With budget preparations now under way in many counties and municipalities as well as in State Government in New Jersey, the 1962 tax dollar is due for a three-way stretch, or better.

Taxpayers will need at least tri-focals, not only to follow the varying courses taken by their tax dollars, but to avoid pitfalls that lie along the much discussed "easy ways to tax relief" such as the shifting of costs to the next level of government.

"Proposals are made to pass local burdens to the State with an almost utter disregard for the fact that the State has baffling fiscal problems of its own," points out President William S. Weeks of the New Jersey Taxpayers Association. "During the last decade, municipal school district and county expenditures increased approximately 75 per cent. In a little over that time state appropriations have jumped 135 per cent."

Not to be forgotten, he adds, are proposed 1961-62 expenditures of the Federal Government equivalent to a charge of \$418 upon every man, woman and child in the State—or \$1,672 for the family of four.

Concluding that "real tax relief can come only through economy," Colonel Weeks declares:

"Let us not forget that there is but one group of taxpayers, and that is all of us. Attempts to push fiscal burdens up to the State and Federal governments will find the same Mr. John Q. Taxpayer paying the bill; only it will be a bigger bill because the local pressure for economy will have been removed."

In a similar vein is the concluding and often overlooked paragraph of the classic Fifth Report of the State Tax Policy Commission which states:

"The tax outlook is dependent upon so many factors beyond the control of the State that continued prudent management and vigilant resistance to unnecessary public spending remains as the only effective restraints upon taxation."

Keeping Posted

Army personnel throughout the world are assured of getting the latest world news and scores of their favorite major league baseball club by a chain of more than 180 Army newspapers which reach even the most forward combat zones. The publications range in size from the European Stars & Stripes, with a circulation of 120,000, to the mimeographed "The Eagle Forward" issued by one of the regiments of the 25th Infantry Division in Korea.

Speaking of Rapid Growth
Steel capacity has risen in all but nine years since 1900. Another 13 million tons will be added between now and the end of 1962. Companies will spend \$1.2 billion for expansion this year alone.

The SNAPSHOT GUILD

Scenes like this—the children making cookies—add interest to Christmas movies.

Movies at Christmas

THERE is no better time for making movies than the holiday season. Of course, I'm talking about indoor movies in color, so that you can record family doings in all their colorful naturalness.

Christmas, in a large measure, belongs to the children. Their delight in all its festivities promises many of the brightest spots in the family film diary. And you'll never regret it if this year you start a new family tradition—establish a custom of making movies every Christmas and showing those from previous seasons some time during each holiday period. Reviewing past Christmases in the company of those who played the leading roles is bound to be a popular idea.

Continuity isn't much of a problem in a Yuletide film—just shoot things as they happen and the story will form naturally. But be sure you start soon enough. What is the first sign of Christmas at your house? The preparation of shopping lists, addressing of greeting cards, making of fruitcake for giving as well as eating at home—any of these activities would be an appropriate beginning for a Christmas reel.

A movie with an ending as significant as the celebration of Christmas day certainly deserves a good build-up. Do the climax justice by setting the stage for it with an exciting record of all that went into the preparations.

When Christmas Eve finally comes and you've shot that sequence, get everything for the very important Christmas morn filming. Set up your lights before you go to bed. Place them to one side, where they and their connecting cords will be out of the way, yet near enough to flood the tree area with ample illumination so you can step around with the camera to make your shots from any desirable distance.

There's no need to discuss the picture opportunities which abound at that time. You'll be so surrounded with them that you'll wish you could be shooting in all directions at the same time. Your filming will go on now and then throughout the day—and finally when the sleepy young ones go protesting to bed, still clutching the favorite toy—you can write "finis" to your Christmas film.

—John van Guilder

SOUTH AMBOY TRUST COMPANY
South Amboy, New Jersey
MEMBER FEDERAL DEPOSIT INSURANCE CORPORATION

Born five years before the telephone was invented, G. L. Fisher has seen lots of changes in his lifetime. Today he and Mrs. Fisher say the telephone plays a big part in successful operation of their farm at Mendham.

HOW TIMES HAVE CHANGED! Time was (and not so long ago) when telephones in rural areas were few and far between. Now they're in more than 60,000 rural establishments in the state. Nearly 3/4 of all the homes and businesses in rural areas have telephones. And there are fewer parties on most lines than ever before. In the city and on the farm, telephone service is better than ever, and the telephone grows in value every day.

Telephone progress in New Jersey's rural areas is typical of progress throughout the state. And in city and rural areas alike this progress is continuing—as fast as scarce materials are available.

DuPont Acquitted Of Charges In Anti-Trust Suit

Sales Of Finishes
Was Point Involved

The DuPont Company has been acquitted of charges in connection with an Anti-Trust Suit in the Federal Court at Pittsburgh, Pa., involving the sale of Finishes. This announcement was made today by H. L. Friddy, Plant Manager of the Du Pont Finishes Division Plant in Paffin.

"When these charges were filed," said Mr. Friddy, "we had the option of either fighting them in court or taking the easier course and pleading 'Nolo Contendere.' We chose to fight, and the action of the jury justifies our decision."

This is the second occasion in which Du Pont has been tried before a jury on charges of Anti-Trust violation. Each time the result has been full acquittal.

Mr. Friddy stated that the decision of the jury in this case "should help renew confidence that American business conducts itself with full regard for the public interest."

LIBRARY CLUB OF HOFFMAN HIGH PLANS FOR DANCE

Plans have been completed by the Library Club of Hoffman High School, for a juke box dance to take place at Hoffman High School Auditorium Friday evening, December 21, from 7:30 to 11:00.

Chairmen of the committee making the arrangements are: Jojo Zoll, Mary Ann Bwushak and Joan Zoll, records; Pat Boshada and Dot Fress, tickets; Elena Zulin and Joan Beam, publicity; Dot Dudninski, Peggy Souly and Doris Saylor, typing.

Funeral Services Held On Monday For Howard G. Ackerley

On Monday afternoon, funeral services were held here for Howard G. Ackerley, of 106 George Street, when the Rev. Andrew M. Sebben, officiated. The service at 2:00 o'clock at the "Home for Funerals" of the Grandmum Service, 237 Bordentown Avenue, was followed by cremation at the Rosehill Crematory at Linden.

Mr. Ackerley is survived by his widow, Annelia E. Carpenter Ackerley, and a son, J. Morton Ackerley.

Feed Matter

Rice contains more nutritive matter, per given unit, than most foods. It usually is assimilated by the digestive organs in one hour, rather than two or more hours that is the case generally with other foods.

ORDINANCE NO. 497

AN ORDINANCE OF THE CITY OF SOUTH AMBOY TO VACATE A PORTION OF CATHERINE STREET IN THE CITY OF SOUTH AMBOY.

Be it ordained by the Common Council of the City of South Amboy that:

Whereas the City of South Amboy heretofore established the South Amboy Housing Authority in accordance with the pertinent laws of the United States of America, which Housing Authority is in the course of preparing for the construction of a number of housing units for low income families in the City of South Amboy, east of Broadway and on either side of Catherine Street in this city, and

Whereas it is necessary to use that part of Catherine Street hereinafter particularly described and appurtenant to said project, to facilitate, access and to egress from the said housing project, and the full and efficient use thereof, and

Whereas that portion of Catherine Street, while designated as a public street on the city map is, nevertheless, seldom, if ever, used for the ordinary purposes of street and is not particularly needed at this time for any public purpose, but which will serve a great public purpose if vacated:

Section 1. All that portion of Catherine Street bounded on the North by the Southerly line of Block No. 10 in the City of South Amboy; on the South by the Northerly line of Block No. 9 in the City of South Amboy; on the East by Raritan Bay; and on the West by the Easterly line of the Right of Way of the New York and Long Branch Railroad, be vacated.

Section 2. This ordinance shall take effect upon its passage, approval and publication in the manner provided by law

NOTICE

Notice is hereby given, that at a regular meeting of the Common Council of the City of South Amboy, New Jersey, held on December 5, 1961, the above ordinance was adopted on Second and Third readings and final passage.

Issue of December 7, 1961

John J. Milroy Reelected Commander By Coast Guard Unit

Ceremonies At Morgan
Were Attended By Mayor
Olsen and Councilman
McGowan

The election of officers of U. S. Coast Guard Auxiliary, 309 took place recently at the headquarters, in the Robert E. Lee Inn at Morgan, when Commander John J. Milroy was re-elected, with Douglas Powell as Vice Commander, and Robert W. Recher Sr. as Training Officer.

The appointments announced by Commander Milroy were: Marshall Poole, Sr., Operation Officer; Ray Crawford, Commander, Personnel Director; Kenneth Puldermuller, Publicity Director; Kenneth Gibbs, and Finance, Larry Prestaves.

The installation of the officers was under the direction of Captain H. L. Menke of the Jersey Shore Division.

Friday evening, the swearing in of members of the recently organized Flotilla 313 took place, at the Robert E. Lee Inn headquarters. This new Flotilla will be based at Leonardo. Speaking at this meeting were local Mayor Thorvald E. Olsen, Councilman at Large Robert McGowan, and attorney George Kress, naval officer in World War II. Mayor Olsen offered his full cooperation in the work of the Coast Guard Auxiliary and lauded them for their patriotic interest in a most important phase of the national defense. Commander Milroy expressed the appreciation of the organization for the interest and cooperation he demonstrated. The oath was administered to the new Flotilla members by Commander Drew of New York. Present at the ceremony were members of the Flotillas from Red Bank, Newark, Rockaway Inlet and New Brunswick.

Capt. L. Menke was named Commander of the Third Naval District, W. Baker, Vice Captain, C. Wall, Commodore, Drew M. Hacker, Commander.

PUBLIC NOTICE SALE OF PROPERTY

Notice is hereby given that the Common Council of the City of South Amboy, N. J. will sell at public sale to the highest bidder on December 19, 1961, at eight o'clock P. M., at its usual place of business in City Hall, South Amboy, N. J., all the right title and interest of the City in the premises known as Lots 41 and 42, in Block 73, and Lot 65 in Block 36.

Terms: 10% in cash or Certified Check immediately upon acceptance of bid. Balance due when deed has been prepared and ready for delivery. The City reserves the right to reject any and all bids.

By order of the
Common Council,
G. FRANK DESEROW,
City Clerk

EDITORIAL

A SERIOUS SITUATION

One of the most startling statements that has been made in the city in some time is that made by local Civil Defense Director, Michael F. Nagle, following the air raid test Sunday afternoon.

It is disturbing to learn from Nagle, that this city is woefully unprepared for an emergency, and there is little more than a skeleton organization of defense units here.

It would seem that South Amboyans, more than any other persons, should realize, since they have passed through two serious catastrophies, that at the present time, no organization can be more important to a municipality than a well staffed and well trained Civil Defense organization. However, as Nagle points out, plans alone are not sufficient. In fact nothing can be more important than cooperation for such an organization, set up for the protection of the citizenry.

It is noteworthy that during their inspection of local institutions, for the purpose of devising emergency plans, Civil Defense officials have found that the local schools have the best protective set up possible, and they are always willing to elaborate or alter their plans to conform with suggestions that have been made by Nagle and his associates. School people, and particularly teachers, take their jobs seriously and realize that they are entrusted with a great number of lives. There is a noble calling, constantly involving considerable responsibility, and they give plans for emergency performance, their greatest consideration, and for this we should all be thankful.

However, what is true in the schools, is not true elsewhere, and in this connection the situation is ironic in that while parents and others should be happy in the fact that while they are at school, their children are afforded the greatest protection possible, they make no effort themselves to afford similar protection for the children when they leave the classrooms.

Director Nagle has gone to great length to study the formation of the ideal set up for the protection of local residents, and each appointment of a member of the Civil Defense Council has been made only after a thorough study of the aptitude and experience of the person assigned to supervision of any of the multiple Civil Defense departments. These people have worked diligently setting up plans, that would be outstanding in comparison with those made by similar units in other sections of the county, but despite these facts, South Amboy is shockingly unprepared for a disaster, solely because so many people have failed to interest themselves in this important problem.

Look Before You Paint

In your eagerness to begin painting, don't open a new can of paint before you acquaint yourself thoroughly with the directions on the label. Once the can is opened and you stir the contents or pour them into another container, splashes or "runs" of the paint may obscure some of the printed information you need.

Distinctive Treatments

For a long room containing blond wood furniture, the decorator directed that three walls should be painted white and that the fourth wall—the one farthest from the windows—should be coated in a soft red. The same treatment could have been used successfully with one of several other hues — pale blue, spring green or citron yellow.

Honorary Title Honors Long Service Of William P. Nichols

Made Warden Emeritus Of Christ Episcopal Church

William P. Nichols was honored by the appointment as Warden Emeritus, when the December meeting of the Vestry of Christ Church Parish took place Tuesday evening.

The honor is the first ever to have been accorded a member of the parish here during its 99 year history. Mr. Nichols, who

resides on Henry Street, is retired from the service of the Pennsylvania Railroad, having served the company locally as a clerk for a great number of years.

In his long record as a member of the local parish, Mr. Nichols has served as its delegate to the convention for 30 years, he has also been Secretary of the Church School, served 15 years as a member of the Vestry, 25 years as Warden and 24 years as Treasurer of the Parish.

Also at this meeting, the Rev. Weston E. Grimshaw, former curate here, was appointed Priest Associate by the rector, the Rev. Christopher Nichols.

Pupils Presented Program At P.T.A. Session Recently

Holiday Spirit Predominated In Exercises

The holiday spirit was predominate, when the children of the school rendered the program at a meeting of the South Amboy Parent-Teacher Association which took place in the Hoffman High School Auditorium. The program was rendered as follows:

Greetings — Alexander Abbatiello.

An Acrostic — "Happy Thanksgiving" — Ruth Rittenhouse, Lin-Kathleen O'Brien, Michael Alida Dreher, Joseph Kobarec, O'Brien, Michael Albanese, Daniel O'Brien, Christine De Angelo, Donald Murphy, Elizabeth Kennedy, Carl Nemeth, Karen Bouchard, Paul Nagy, Carol Grimes, Margaret Kaboski, Margaret Sorenson, Ronald Smith, Cheryl Davis, Susanne Modell.

Playlet — "Thanksgiving in Tintown" — John Alden, Ann Abbatiello, Ariene Reiner, Janet Nilsen, James Tustin, William Masterson, William Brennan, Paul Weiss, Joan Rosman, Robert Poetsch, Bruce Sten, George Carmichael, James Nemeth, Nancy Sullivan, Virginia Louk.

Recitation — "Thanksgiving Punctin Pie" — Bonnie Jean Meiner, Billy Coward, Danny Harvey, John Jonason, Louise Hawes, Lois Modell, Raymond Brown.

Songs — "Autumn Comes" — "Thanksgiving Day" — Carol Ann Hartmann, Dorothy Wotkowiak, Kathleen Kriss, Virginia Carmichael, Dorothy Rodriguez, Constance Kolb, Ann Louise Brennan, Lois Kurts, John Koerner, Timothy Peterson, Robert Post, Thomas Rittenhouse, George Reick, James Sorenson, Dennis White.

Playlet — "The First Thanksgiving" — Mr. Brewster — David Inman; Mrs. Brewster — Carol Berry; Patience Brewster — Judy Meiner; Thankful Brewster — Joseph Turner; Goodman Brewster — James Brinnamen; Joseph Bradford — Ronald Kurowsky; John Hopkins — James Gominger; William Cabot — Robert Kominiewicz; Perseverance Hopkins — Ruth Disbrow; James Chilton — John Roberts.

Announcer — David House.

Okay, Bossie

Every motorist is familiar with the automatic stop on the filling-station pump when the tank is full. This system has been reversed for Bossy, the cow, Alfred G. Perkins, Grand Island, N.Y., has patented an automatic device that stops a milking-machine when the cow is milked dry, and disengages the suction cups from the cow.

Appeal For Postponement Of Millionth Death

National Safety Council Describes It As Tragic Christmas Present

CHICAGO. — The National Safety Council appealed to the nation today to keep the millionth traffic death from being a tragic Christmas present to some American family.

At the present rate of traffic deaths, the millionth victim is expected to die the third week of December — almost at the height of the Christmas season.

"It is bitterly ironic that the gaiety and festivity of the Christmas season should provide the backdrop for one of the most tragic events in the nation's motor vehicle history," said Ned H.

Deanburn, president of the Council.

"And it must come as a shock to realize that in only 50 years the lives of almost 1,000,000 men, women and children have been squandered in one of the most senseless and deplorable wastes of modern times.

"But even more shocking than the toll itself is the inescapable fact that few Americans feel any real personal concern over this problem. Since the approximate date of the millionth death was announced more than eight months ago, there has been no slow-up in the rate of fatalities.

Teen-Agers Take Court

Teen-age cyclists of Spotswood, N. J., have formed a club to enforce bicycle regulations in the town. A judge and model jury will be selected from its ranks to try violations, issue licenses and impose sentences.

DUPONT FILM MADE SERVICE AWARDS TO LOCAL PEOPLE

Recently, Christian D. Sullivan, of 231 John Street, employed in the Research Laboratory at the Parlin plant of the E. I. du Pont de Nemours & Company completed 15 years of company service, and the event was marked with the presentation to Mr. Sullivan of a service pin and certificate.

Five year service pins were

recently awarded at the plant, and among those to receive them were Shirley M. Gregory of 226 Bordentown Avenue, employed in the Coating Department, and Frances S. Martin, of 376 Conover Street, employed in Plant Control.

Safe Cities

Forty-five cities of 10,000 population or more completed 1950 without a traffic death, the National Safety Council reports. The largest was Brookline, Mass., with a population of 57,000.

Pains, distress of "those days" stopped or amazingly relieved

In 3 out of 4 cases
in doctors' tests!

Here's wonderful news for women and girls who — each month — suffer the tortures of "those days" of functionally-caused menstrual cramps and pain — headaches, backaches, and those "no-good," dragged-out feelings.

It's news about a medicine famous for relieving such suffering!

Here is the exciting news. Lydia E. Pinkham's Vegetable Compound — gave complete or striking relief of such distress in an average of 3 out of 4 of the cases in doctors' tests!

Scientifically Modern Action

Yes! Lydia Pinkham's has been proved to be scientifically modern in action!

This news will not surprise the thousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage you (if you're not taking Lydia Pinkham's) to see if your experience doesn't match theirs... to see if you, too, don't avoid

How Lydia Pinkham's works. It has a "calming" and soothing effect on the uterus... quieting the contractions (see the chart) that so often cause menstrual pain, cramps, other distress.

the nervousness and tension, weakness, irritability — and pain — so often associated with "those days"!

Remember Lydia Pinkham's, too — if you're suffering the "hot flashes" and other functionally-caused distress of "change of life."

Get Lydia Pinkham's Compound or new, improved Tablets with added iron (trial size only 59¢). Start taking Lydia Pinkham's today!

DON'T BE LEFT OUT IN THE COLD... Join the NEW CHRISTMAS CLUB and get a nice check for holiday shopping

**HINTS FOR
HOMEMAKERS**

BE BUDGET-WISE
IN BUYING MEAT

by the
General Electric Consumers Institute

When choice cuts of meat are expensive—as they certainly are now—you will usually find that the less expensive cuts are easy to get.

But many homemakers avoid buying some of these cheaper cuts of meat because they just don't know what to do with them to make them appetizing to the family. To prove that they can be appetizing, as well as kind to your budget, the General Electric Consumers Institute suggests two recipes—one for a glazed smoked shoulder butt and the other for smoked beef tongue cooked in a pressure cooker.

Glazed Smoked Shoulder Butt
Tested in the G-E Consumers Institute

1 smoked pork shoulder butt (2-4 pounds)
3 tablespoons currant jelly

2 teaspoons drained prepared horseradish

Remove wrapping and wipe butt with damp towel. Place butt on rack in shallow baking pan (11 1/4 x 7 1/4 x 1 1/2 inches). Insert meat thermometer in butt so bulb comes in center of butt. Bake in oven 350°F for 35-45 minutes per pound, or until meat thermometer reaches 170°F. Thirty minutes before butt has finished cooking, spread glaze over top. To make glaze, combine currant jelly and horseradish and whip with a fork to break up jelly in small pieces. Makes 4-8 servings.

Smoked Beef Tongue
Tested in the G-E Consumers Institute

1 3-3 1/2 pound smoked beef tongue

Cold water
4 cups water

Cover tongue with cold water and soak 2 hours. Discard water. Place tongue on rack in pressure cooker; add water. Place pressure cooker lid on pressure cooker with pressure control open. Cook on a high heat until steam escapes. Close pressure control. When steam escapes again, switch to a medium heat and cook 1 hour. Allow pressure cooker to cool at room temperature for 5-10 minutes; place pressure cooker in cool water for a few seconds, then open pressure control and remove pressure cooker lid. Skin the tongue, slice and serve. Makes 6-8 servings.

Top Producer

Since the turn of the century, when oil drillers discovered sulphur beneath the Gulf Coast in Texas and Louisiana, America has become the world's major producer of this indispensable mineral. Sulphur, pumped in molten form from great underground salt domes, is over 99 per cent pure as it comes from the wells.

THE GIRL FRIENDS

WHERE CAN I GET A LICENCE?

A HUNTING LICENCE?

NO—THE HUNTING IS OVER—

I WANT A LICENSE TO MARRY THE MAN I CAUGHT!

MAKING HER BIG MOMENT A LITTLE ONE

(Wood Bureau Photos)

HER DREAM MAN makes the season's liveliest party a nightmare for her. She knows how important "the right clothes" are to any man's social success. With every well-dressed man in the room wearing a dinner suit, her Prince Charming is out-of-place in his sports jacket and slacks. Note the contrast (right) when he is well-groomed to highlight her sparkling evening clothes. He is wearing a midnight blue dinner jacket with a shawl collar, a shirt with a pleated front and turned down collar, and a narrow-shaped bow tie.

Keep Milk Cold

Milk should be kept cold from the cow to the table, in addition to being clean and covered at all times.

Color Blindness

Color-blindness is five times as common among boys as girls. But, it is inherited through mothers only.

Fitting Number

The phone number of the Knights of Columbus, New York chapter office, is Columbus 5-1482.

Kris Kringle Suggests:

By BETTY BARCLAY

Yes, good old "Kris Kringle" himself would be proud to present the following delicacies for your consideration. Try them and I'm sure you'll agree wholeheartedly with his suggestions:

Christmas Cookies

- 2 cups sifted cake flour
- 1 teaspoon double-acting baking powder
- 1/2 teaspoon salt
- 1/2 cup butter or other shortening
- 1/2 cup sugar
- 1 egg, unbeaten
- 1 tablespoon milk
- 1 square unsweetened chocolate, melted

Sift flour once, measure, add baking powder and salt, and sift again. Cream shortening; add sugar gradually, and cream together until light and fluffy. Add egg and milk and beat well. Add flour, a small amount at a time, mixing well after each addition. Divide dough in two parts. To one part, add chocolate and blend. If necessary, chill until firm enough to roll.

Roll each half on floured waxed paper into rectangular sheet, 1/4 inch thick. Using a floured star-shaped cutter, cut vanilla dough in star

shapes. Cut chocolate dough in Christmas Tree shapes with floured cutter. Place on ungreased baking sheet and brush with glaze mixture made by mixing 1 beaten egg with 1 cup milk. Decorate with tiny colored candies, coconut and silver dragees. Bake in moderate oven (375° F.) 10 minutes, or until done. Makes about 5 dozen cookies.

Dutch Fruit Cookies

- 2 1/2 cups sifted all-purpose flour
- 1/2 teaspoon salt
- 1/2 teaspoon baking soda
- 1 teaspoon each, ground cloves, cinnamon, allspice, nutmeg
- 1 1/2 teaspoons powdered cardamom seed
- 1 cup butter or margarine
- 1/2 cup sugar
- 1/2 cup dark corn syrup
- 1/2 cup chopped mixed candied fruit
- 1/2 cup chopped, blanched and toasted almonds

Sift together flour, salt, baking soda, cloves, cinnamon, allspice, nutmeg and powdered cardamom. Beat butter until soft and creamy. Add corn syrup and sugar and beat until thoroughly blended. Add sifted dry ingredients, candied fruit and almonds and mix

thoroughly with hands until stiff dough is formed. Shape into rolls about 2 inches in diameter. Wrap in wax paper and chill in refrigerator 2 to 4 hours or until firm enough to slice. Cookie dough may be stored in the refrigerator for several days and baked as needed. Slice about 1/4 inch thick. Place on ungreased cookie sheet. Bake in hot oven (400° F.) 10 minutes. Makes about 3 dozen cookies.

Note: To make powder of cardamom seed, peel off outer covering and roll with rolling pin until powdery. Cardamom gives these cookies a distinctive flavor but may be omitted, if desired.

Crisp Coconut Slices

- 1 1/2 cups sifted cake flour
- 1 teaspoon double-acting baking powder
- 1/2 teaspoon salt
- 1 egg, slightly beaten
- 1/2 teaspoon vanilla
- 1/2 cup sugar
- 1/2 cup butter or other shortening, melted
- 1 1/2 cups shredded coconut

Sift flour once, measure, add baking powder and salt, and sift again. Combine remaining ingredients in order given. Add flour and mix well. Pack tightly in loaf pan, 8 1/2 inches, lined with waxed paper. Cover with waxed paper. Chill overnight, or until firm enough to slice. Remove loaf from pan, cut in half lengthwise, and slice crosswise in 1/4 inch slices. Bake on ungreased baking sheet in hot oven (400° F.) 8 to 10 minutes, or until brown. Makes 6 dozen cookies. Decorate with candied fruit before baking if desired.

Vanilla Rennet Desserts

- 2 cups milk (not canned)
- 1 package vanilla rennet powder

Set out 4 or 5 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels comfortably warm (110° F.) set hot, remove at once from heat. Stir in entire contents of package of rennet powder at one time. Mix until powder is dissolved—not over one minute. Pour at once, while still liquid, into dessert glasses. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time.

If milk gets too hot, cool to comfortably warm before adding powder, or it will not set.

Preventing Fear

Parents should be very careful about expressing fears of snakes or insects before their children. Children should be taught, instead, that very few reptiles or bugs are dangerous. They actually help man by destroying crop pests.

Barn-Red and White

A house painted barn-red, with white shutters and trim, shows up well with a gray roof. A white-painted brick chimney also adds charm.

Heavenly Diamonds

Small diamonds have been found in meteorites.

Came Wardens Report Many Violations Found

Port Amboyan Apprehended By James Gray Is Fined \$23

Game wardens and deputy wardens have reported that one of the points where they have recently discovered a number of violations of game regulations is the portion of Raritan Bay in the vicinity of Conover's Cove, south of the city water works, in Sayreville.

Recently, James Gray, local Deputy Game Warden, arrested John Prekop, of 66 State Street, Port Amboy, whom he charged with violation of game regulations. Brought before Sayreville Police Magistrate, Edward Malinowski, Monday night, Prekop was fined \$20 and \$3 court costs. Gray reported that two juveniles, who were in the boat with Prekop were each given a reprimand.

According to Gray, numerous infractions of the regulations have been detected in this vicinity, such as hunting ducks from a motor boat with the engine running and hunting after the set legal hours.

Smart Women

Most business men say that they like a business woman to wear fragrances, but please, they say, select a light, fresh scent in keeping with the efficiency of the office. Heavy, saucy perfumes are for evening and glamorous parties.

ROCKY MARCIANO WILL BE REFEREE AT ALL-STAR BENEFIT

Tickets for the big all-star wrestling program featuring Rocky Marciano as guest referee at the Newark Armory, Sussex Avenue and Day Street, Tuesday night have been placed on sale.

The Crippled Children Camp Association, aiming to purchase the 32-acre tract for a campsite for crippled children at Warren Township, will share in the receipts of the banner program.

Mat stars who will see action on the gala grappling program include such luminaries as unbeaten Antonino (Argentine) Rocca, the Italian idol, and Chief Don Eagle, the Canadian Indian as well as colorful Gene (Mr. America) Stanley, the favorite of the feminine fans and the bobby-soxers.

SUNDAY TEST UNSATISFACTORY

(Continued from Page 1)

the local organization be disbanded in the near future, unless a greater interest is shown by the people of the city. In such an event, the state authorities would take over, and all local protection machinery would be under their direction. This would certainly be adverse publicity of the most unfavorable kind, but under such a system, our people would at least have a measure of protection, which they are not presently afforded under a system which provides for their own operation of defense preparations.

Bennett Stars As St. Mary's Opens With Alumni

Tuesday night, the basketball team of St. Mary's High School pried the lid off the 1951-52 season with a victory over the Alumni representatives, 60-38. The school team led all the way and Bennett set the scoring pace with nine field goals and four foul throws for a 22 point contribution. For the Alumni, Jerry Connors was the chief scorer with four field goals and two foul goals.

Tonight, the team plays its first away from home game, when they meet Bayley-Hillard at Madison, and the first regular home game will be with New Dorp Tuesday night.

The Score:

St. Mary's (60)		G	F	P
O'Brien	1	1	6	7
Trinley	1	4	1	6
Walsh	1	2	0	4
Bennett	c	9	4	22
McNerny	g	0	2	2
Metzger	g	1	1	3
Hansen	g	3	0	2
Gorcayoa	g	4	2	10
Kupchak	g	0	1	1
		23	16	60

Alumni (38)

Alumni (38)		G	F	P
DiMatteo	1	0	1	1

Alumni 7 9 8 14 — 38

Hoffman High Wins First Season Game From Alumni

Monday night, Hoffman High School basketball team opened their 1951-52 court season with a tussle with the alumni, that was close from start to finish and wound up in a 47-46 score.

Billy Inman, guard on the school team, was top scorer with 16 points, while Koerner, with 10 points, set the scoring pace for the old grads.

Today, the purple and gold quintette will meet Keyport High on the latter's court and their first home game will be played Tuesday, when they meet Sayreville on the John Street court.

CHRISTMAS GIFTS SENT TO INDIANS BY LOCAL CHILDREN

The children of the church school of the First Presbyterian Church, sent three large packages of Christmas gifts this week to the Rev. Robert W. Baldwin, Neah Bay, Washington, for distribution among American Indian children, with whom he is working.

Cover Country

The paint industry is composed, primarily, of a large number of small establishments. In 1947, the latest year for which complete information is available, the Bureau of the Census, U. S. Department of Commerce, reported 1,291 paint, varnish and lacquer manufacturing establishments distributed throughout the United States.

COUNCIL FINDS TREASURY LOW

(Continued from Page 1)

scheduled for next Friday, at which time it would be possible to find out how much money remains in some of the appropriation accounts, and what could be done toward the payment of at least a portion of the accumulated bills.

Councilman O'Leary labeled this as "an excellent" suggestion and general agreement with the plan was expressed by all the Council members. It was the suggestion of Councilman McCarthy, that some method be devised to notify vendors whose bills have not been met, that payment will be held up for a short time.

A communication signed by all the members of the organization, was forwarded to the Council by the members of the Patrons' Benevolent Association, who asked that the city consider a \$150 Christmas bonus for all department members. By motion of Councilman McGowan, chairman of the police committee, the matter was referred to the Mayor and Council as a whole.

Two ordinances, one providing for the vacation of lower Bordentown Avenue, and the other providing for similar action on lower Catherine Street, were passed on second and final readings and received the approving signature of the Mayor.

Mayor Olsen informed the Council recently the State Highway Department at the request of city officials, made a traffic check of the use of the Bordentown Avenue bridge over the railroad, which resulted in the information that 902 vehicles were clocked passing over it during a 24 hour period. The city is endeavoring to have the bridge replaced with a more modern and safer one, because of its importance and the fact

that the new low-rent housing project in the vicinity has resulted in a greatly increased use of the structure.

Through its attorney, George G. Kress, the Board of Education asked permission from the City, to pave 8 1/2 feet of City Hall property for playground use, according to plans for paving of the entire area used by pupils of the John Street school for playground purposes. The permission was granted, after a motion to do so was offered by Councilman Chester Meisner, of the Council buildings and grounds committee.

Bowling Plans For Youth Studied At YMCA Here

Secretary Davis Calls Special Meeting For Tomorrow Afternoon

The General Secretary Ralph Davis, has called a meeting of all local high school boys interested in the formation of a junior bowling league, for 2 o'clock tomorrow afternoon, at the YMCA.

Bowling is enjoying one of its greatest seasons locally this winter, and Davis has declared considerable of the interest in the sport is displayed by boys and girls of high school age, and the YMCA will endeavor to cooperate in every way to acquaint them with the sport and provide facilities for their participation.

One of the plans being discussed generally by older local persons interested in the alley sport and local youth, is the formation of representative teams of the two local high schools, which would participate in regular season schedules as is done in other sports.
