

Now and Then

The New Jersey Taxpayers Association recently reported that for every dollar of federal aid the state gets, the N. J. taxpayer pays \$2.40, claimed to be the highest to date. This figure was released with regard to the year 1956. In 1955 the figure was reported to be \$2.36 for every dollar.

By virtue of an ordinance recently passed by the Board of Public Works the local Planning Board of South Amboy is now officially in existence. Although it had been in existence for over a year by virtue of an ordinance drawn up by the City Council, its official existence now stands, as the city charter provides that the board be created by the Board of Public Works, and operate under that board.

To further the purpose of the Board, a public hearing on the zoning ordinance will be held in the near future before it is turned over to the Board of Public Works for approval and passage.

Speaking of the Planning Board and its arduous task, the greater part of the board's investigative work is almost behind them, and much of the success realized by the body goes to its past chairman, James J. Harrigan, who directed the groundwork.

Richard Dowling, present chairman, cited the great work of Harrigan at one of the board's meetings, and expressed the grateful feelings of the board for his work.

Despite the hassle over the county's choice for the Assembly posts it appears to be certain that former Mayor William O'Leary will be a candidate for the nomination.

James J. Dwyer, former So. Amboy and Democratic councilman in Milltown for the past three years, has announced that he will not be a candidate for re-election due to the pressure of his job, and his desire to take further advanced courses in transportation.

A reversal of an occurrence that Hack Szesko used to kid a certain fellow named "Mickey" about, is now plaguing him. It seems as though Hack was out enjoying an evening of fun with the boys, when his "doll" outside was tooting the horn for him to come out.

One of the worst wreck's in American railroad history took place six years ago this month. In fact, it was just six years this past Feb. 6th, when the Pennsylvania Railroad commuter train, "The Broker," was bound from Jersey City to Bay Head Junction, jam-packed with passengers returning home from New York.

When the train reached a temporary trestle at 5:43 p. m. in Woodbridge, the steam locomotive and the first eight coaches of the train derailed. Four cars plunged down a steep embankment, with the remaining cars buckling but remaining upright.

The derailment caused the death of 85 persons, and injuries to more than 300 others. The impact of the accident found its way right into our own city of South Amboy, with death and injuries included.

A horrible tragedy, which saw many stories unfolded by those who were passengers on the ill-fated train.

Democrats Back Kurtz; O'Leary a "Dark Horse"

South Amboy Democratic Chairman Fred Leslie said today it will be up to the Middlesex County democratic organization to determine whether Assemblyman William Kurtz seeks re-election.

Leslie said former Mayor William O'Leary had an outside chance for the Assembly nomination if Middlesex democratic leaders decide to bypass Kurtz. Leslie said the alternate choice of O'Leary would help insure that one Assembly post in South Amboy.

"There's lots of sentiment for O'Leary, but they (South Amboy democratic leaders) will put aside that sentiment until they see what happens to Kurtz."

The county democratic organization has partially chosen a Selection Committee to pick a nominee sometime before March 7, Leslie said. March 7 is the deadline for candidates to file their intentions to run for public office.

Leslie said County democratic leaders usually abide by the Selection Committee's recommendations. Leslie will be one of the selectors.

Leslie said South Amboy would be "in trouble" if the county democratic organization turned its back on both Kurtz and O'Leary. This would lead to loss of an Assembly position the City acquired eight years ago, Leslie added.

City democrats met last week and backed Kurtz' re-nomination, but O'Leary was endorsed as No. 2 choice. O'Leary has been, successfully, ward councilman, Council president and Mayor. He was defeated in a re-election bid last November by Republican candidate Joseph Charmello.

"It took us many years of hard fighting to gain the recognition the Democrats in South Amboy finally got when Kurtz was approved as an Assembly candidate," Leslie said.

"We don't want this representation in the Assembly to leave South Amboy for if it does, we'll probably never get it back," he added.

County democratic officials were reported considering a top-to-bottom change in the primary election ticket.

O'Leary said these reports prompted him to seek the Assembly nomination, but that he planned to abide by party wishes. "I am strictly an organization man," O'Leary added.

Kurtz, meantime, said O'Leary's decision would not affect his proposed re-nomination. Leslie supported Kurtz' statement and reported he had petitioned County Democratic Chairman Thomas H. Lee to nominate O'Leary if Kurtz fails to receive endorsement.

Charmello Testimonial Next Saturday Eve

A testimonial dinner in honor of Mayor Joseph Charmello will be held next Saturday, March 2nd, at Coby's Restaurant.

Guest speakers will include Senator Wayne DuMont, Dr. Arthur Frankel, and Charles Morris, Jr. Joseph Colucci and Michael Truchan, co-chairmen reported good progress in the final arrangements. A large number of local, county and state political dignitaries are expected to attend.

Speakers Listed for Citizen's Club Banquet

Assistant Prosecutor Edwin Kolodziej and Freeholder Gro. Ottowski will be guest speakers at the Charter Dinner-Dance which will be held on Saturday evening at Burdak's Hall in So. Amboy.

As reported by Frank Paczkowski, Jr. and John Jankowski, co-chairmen of the affair, the advance sale of tickets indicates a record turn-out.

Mr. Eugene Dobrzynski will be toastmaster.

SIXTH STREET PLAYGROUND NAMED "JAMES M. HARRIGAN PLAYGROUND"

By virtue of a resolution unanimously adopted at Tuesday's council meeting by the Mayor and council, the playground located on Sixth Street will be known as the "James M. Harrigan Playground."

The resolution, which was originated by Councilman Ervin House, chairman of the Recreation Commission, saw the Mayor and every member of the council voice their gratefulness to the late Mr. Harrigan, who devoted his life to the youth of the city.

House, in speaking of the resolution, stated that he knew Mr. Harrington fairly well, and was aware of the great work he had done for the youth of the city, but thought it fitting to have Councilman James VanDerveer endorse the resolution, as he had worked with Harrigan while Chairman of the Recreation Commission.

Mayor Charmello spoke of Harrigan not only as a public servant, but as a neighbor, who had dedicated his life to many youth activities such as the Boy Scouts and recreation work, and will be sorely missed by the people of the city. He further added that the naming of the playground in his honor is a fitting tribute to his memory.

Tuesday's session wasn't a lengthy one, but ample business was transacted during the course of the meeting.

Among the highlights of the communications received at the meeting was one addressed to the Mayor, informing that a S-D Citation would be awarded to the city for their perfect record during the holiday safe-driving campaign. The letter was from the N. J. Association of Insurance Agents, and informed the council that their record of no fatalities during the recent holiday campaign entitled the city to an award which would be presented during the month of March.

A request was received from Benjamin Damron to open a second-hand car used parts lot at Stevens Avenue and the Bergen Hill section of the Hole-in-the-Wall. The council moved to turn over the request to the Board of Health, as an ordinance adopted in 1937 prescribed this procedure for such requests.

The State Highway Department approved an allotment to the city in the amount of \$5,000, the State's share from 1957 municipal aid funds for the extension of Raritan Street.

The council granted permission for the Cities Service Oil Company to erect a 4,000 gallon underground tank at Main Street and Washington Avenue for storage purposes.

A request from the local Knights of Columbus for acquisition of 100 feet of property adjoining their clubhouse was held in abeyance until the area was levelled off and graded, and the council decided on what they had planned to do with the property in question.

A short discussion was held with regard to a check which Mayor Charmello refused to sign, made payable to Middlesex Concrete and Excavating Company. The check was in payment of \$237.10 which was over and above the contract price for work in relation to street improvements.

Charmello asked who authorized the work to be done, being that it was over and above the contract price. Councilman Janowski informed the Mayor that various unforeseen work arises from such jobs, and he was of the opinion that it was legal to accept such charges over and above the contract price, provided they are approved by the city engineer.

Council President Wisniewski voiced the same opinion, and informed the Mayor that it was within the right of the council to accept such charges provided they were approved by the city engineer. Charmello responded that he never was in favor of an allowance over the original contract price. He believed that if a job was contracted for so much money, it would be imperative that every effort be made to keep the job within that amount, and the contractor should live up to his contract.

Wisniewski then asked if the Mayor was installing his policy of not signing checks as of this date. To this Charmello replied,

"I am obligated to sign the check if the council approved of the issue, but I am entitled to question the payment of such a check."

The council approved on first reading three ordinances. One was entitled an ordinance permitting raffles and bingos to be held on Sundays.

Another ordinance concerned taxicabs and auto livery operations. The purpose of this ordinance was for proper regulations concerning their operations within the city and for revenue purposes. Among the requirements to be made law is the obtaining of a license costing \$25.00 per year for each cab, and \$15.00 for each auto livery. Any auto or motor car, commonly called coach, funeral coach or wedding coach engaged in carrying passenger for hire come under the heading of auto livery.

With regard to taxicabs, if no taximeter is used, a fifty-cent fare will be charged for delivery to any place within city limits during the hours of 8 a. m. to midnight, and seventy-five cents from midnight to 6 a. m. Fifty cents will be charged for each additional mile outside the city limits during the 24-hour period.

Other regulations include a fee of 25 cents for each trunk per person, and a \$2 per hour fee for waiting period. A maximum of \$4.00 per hour is allowed regardless the number of passengers. The ordinance authorizes only one taxicab license for each 1400 residents, but never more than a total of 30 licenses. Other stipulations in the ordinance include taxicab license fees, regulations concerning same, and necessary insurance coverage.

The third ordinance passed on first reading was to amend an ordinance regulating the sale and transportation of alcoholic beverages which was approved in 1934. Sections of the original ordinance will be revised to allow the sale of alcoholic beverages until 3 a. m. on weekdays, and 4 a. m. on New Year's Day; and no license will be granted within a distance of 750 feet to another existing retail consumption license.

With regard to the latter ordinance, Mayor Charmello asked that the tavern owners in the city have representation at the council meeting when the public hearing is held on Tuesday, March 5th, as it is a primary concern of theirs.

Councilman VanDerveer asked that the council do everything in their power to make sure that the streets being torn up by the telephone company be put into the condition they were in prior to being torn up for installation of telephone cables. He mentioned that people were suffering hardships due to the streets being torn up, and wanted to be assured that the condition would be corrected when the work is completed.

This brought up the question of performance bonds which the council had thrashed out at a previous meeting concerning contractors doing work in the city. When it was learned that utility companies do not post such bonds, but guarantee that city streets and property will be repaired and put in their normal condition, the matter was held over, and every effort would be made to see to it that the guarantee was carried out.

VanDerveer also reminded citizens that this coming Sunday was Heart Sunday, and asked that everyone do their part to help this worthy cause.

Mayor Charmello's closing remarks included his request for the council to consider Thomas Street along with Fifth and David Streets when the time comes for improvements to those streets. A petition was received at the meeting, signed by 11 residents of Thomas St., asking that some action be taken with regard to curbing and black top. The mul condition existing causes unhealthy condition, as children playing in that vicinity are constantly coming home to parents covered with mud and dirt.

HEART-Y THOUGHTS

Although there are in the United States an estimated ten million people who suffer from diseases of the heart and circulation, thanks to research and improvements in medical and surgical techniques their plight is by no means as hapless and as hopeless as it once was. Now rheumatic fever—even in recurrent attacks—need not be the forerunner of a rheumatic heart. Now surgical procedures can be used to overcome congenital or acquired defects of the heart itself or of its greater vessels. Now, thanks to improved knowledge and advanced therapy, about seventy percent of those who have heart attacks survive them and lead useful active lives thereafter. Even hypertension and developing arteriosclerosis are proving amenable to the findings of research scientists and the efforts of clinical investigators.

All in all this year during heart month we have reason to take heart. Research is certainly proving to be a profitable investment. It pays off in the best of all returns—longer and fuller life.

On Sunday, Feb. 24, James Vanderveer and his Heart Fund Campaign Committee will canvass the town—please be generous.

A HEART-TOUCHING VERSE

Mark Twain adapted this verse, by an Australian poet, for the stone marking the grave of his daughter, Olivia Susan Clemens, who died August 18, 1896, aged 24 years:

Warm summer sun, shine kindly here;
Warm southern wind, blow softly here;
Green sod above, be light, be light—
Good-night, dear heart, good-night, good-night.

WASHINGTON'S BIRTHDAY

Once again America pays homage to George Washington. In past years family celebrations included cherry pies, cherry tarts and little candy-filled hatchets. That type of festivity has largely gone the way of the celluloid collar, and nowadays Washington's Birthday is observed by other activities, including use of the family car on the overcrowded highways.

Attorney General Richman has urged caution for those expecting to be out on the roads of the Garden State. He emphasized that because the holiday is on Friday it will mean a three-day observance for most folks and increased hazards. Winter traffic perils include slippery pavements and reduced visibility.

"Many week-end pleasure trips start out gaily enough but often end in a tragic accident because of a split second of carelessness," Mr. Richman warned.

He pointed out that at Washington's Birthday time it's good for all American to remember that in traffic we are mutually dependent on each other for "Life, Liberty and the pursuit of happiness."

Let's all do our part on Washington's Birthday—and at all times—to show our worthiness as Americans on the highway. Let us obey ALL the regulations, ever mindful that American liberty is based on respect for the rights of others.

MILE-SQUARE TALK

Here's a good starter: The Institute for Safer Living recommends the following instructions be posted on every automobile instrument panel: "Apply brain before starting motor." Yes, a very good thought.

Do you think your water bill is high—you should look over Stanley Boyes or Johnny Zientek's shoulder when they receive their water bill. In comparison with the average water bill in town, the S. Boyes Rug Cleaning Co. uses in one working day an amount equal to a three-month supply for a household.

The other day when we commented on the cold weather to Rev. George B. Ogden, he said: "This is mild..." and to prove his statement he was wearing a light sweater and was hatless. Rev. Ogden told us he was well-seasoned to cold weather as he hails from Connecticut where ice reached a depth of 30 inches.

The Penny Sale which the Ladies Auxiliary of the South Amboy First Aid Squad have scheduled for Feb. 27 brought our attention to what it takes to conduct a Penny Sale—You can call them eager-beavers or benevolent souls but the work involved is practically capital punishment—we found out that takes about 50,000 pieces of paper 1 inch square which are numbered by hand and inserted into envelopes in groups of 100—plus rounding up prizes, etc., etc. — otherwise there's nothing to it.

The N. J. State Fed. of Umpires held their tenth anniversary banquet at the Wagon Wheel Inn recently. The South Amboy ump who participated are: Phillip Arnella, Wm. Colucci, Ben Kolodziejewski, Joe Kuran, Al Pavlich, Jim Todd, Chester Wortley, and John Zdaniewicz.

It was a wise So. Amboyman who said: "When you throw mud at somebody you're the one that's losing ground."

We got quite a scare when we heard over the radio that a Max Weiss was shot by a hold-up man for refusing to turn over \$1100. No, it wasn't South Amboy's Max Weiss — he's so busy, a hold-up man couldn't catch up with him.

A 35-point drop is anticipated in Sayreville's tax rate.

Middlesex County will receive \$110,175 from the grant of \$2 1/2 million from state motor vehicle taxes. The grant is used to finance road and bridge projects in the county. (The estimated cost of replacing the Deep Cut Bridge is a conservative \$350,000 — fortunately the PRR has to pick up the tab or that \$110,175 state grant would look smaller than ever.)

Mr. George Tooker is a patient at the Roosevelt Hospital.

We received word that Pete Frasse of Sayre Woods Ford did well in the Daytona Beach, Fla. stock car races last week — of course he drove a new Ford, representing the Ford Motor Company.

The Heart Fund Campaign display on the city hall lawn is worthy of mention—especially to Councilman Vanderveer, chairman; Joe Kudelka, engineer on the project; and Art Jensen, who applied the final touch with the brush.

Appearing on TV turned out to be quite an experience for Adam Rzepka, John Jankowski and Lawrence Polowczyk—and treat for us looking on. It's good to see local faces for a change.

The Cloverleaf String Band's show scheduled for March 4 and 5 is reported to be making good progress. Talent galore!

Your Garden This Week

By Your Rutgers Garden Reporter

What's a good native plant to grow at our place at the shore? This is a typical question as some of you begin thinking ahead to providing natural shade around the beach bungalow or doing some inexpensive landscaping.

The answer is that only a few native plants will grow close to the ocean. Donald B. Lacey, extension specialist in home grounds, and Raymond P. Korbobo, ornamental horticulture specialist, suggest bayberry, red cedar, sassafras, beach plum and wild cherry.

Silver poplar also is good, but it isn't native and you can't buy it from a nursery. But it suckers readily, they agree, and you probably can get suckers from friends who have silver poplars.

Japanese black pine and American holly also can be grown fairly close to the ocean—say, 100 yards or more back.

Any other plant material must be protected from ocean winds. The west side of your beach home offers protection, or you can put up a wooden or glass wall on the

ocean side.

You can expect shade trees to be less than half their normal size along the shore. Notice how their size increases, block, by block, inland from the ocean. The list of varieties that can be grown also increases with distance from the breakers.

Some tender care can do a lot of good if you hope for success with your shore gardening. Dig holes large enough to accommodate roots and fill in the holes with good topsoil when you plant. Keep plants watered in dry weather and mulch them all year. Apply a complete fertilizer at one or two pounds per 100 square feet every year.

TAKE OVER
 Youth is going to tackle the things tomorrow that old age failed to accomplish today.

Jog Appetites With Fruit

This is the time of year when meals are apt to become "lame" from lack of variety. It's no secret that flavorless, unexciting food leads to sluggish appetites. Serve them a little variety.

FIRST COURSE—Fruit cocktail, chilled pop fruit and orange sections dressed up with a couple of drops of fruit-flavored syrup.

SALAD MEAL—Tangy purple plums around a peach half filled with cream cheese and nuts on crisp lettuce. Serve hearty chowder type soup with this salad.

MEAT GARNISH—Bake spiced fruits to serve with meat, poultry or fish meals.

DESSERT—Garnish fruits as they come from the can or jar, alone or in combination, in cobblers, or in pie.

Jubilee Cherry Pie

1 cup sugar
 3 tablespoons cornstarch
 1/2 teaspoon salt
 1 cup juice drained from canned cherries

1/4 teaspoon red food coloring (optional)
 3 cups drained water pack red tart pitted cherries
 2 tablespoons butter, or margarine

Pasty

Mix sugar, cornstarch and salt in a saucepan. Add juice and coloring; stir until smooth. Cook until thickened and clear, stirring. Remove from heat; add cherries and butter. Pour into an unbaked 9-inch pastry lined pie pan. Cover with top crust, lattice, or cut-outs. Bake in a hot oven (425 degrees) about 40 minutes. One 9-inch pie.

The SPORTS WHIRL

With Johnny Phillips, Joe Viggiano and Jim Smelas leading the attack, St. Mary's Eagles averaged an early season loss to Red Bank Catholic by trouncing them 83 to 42 last week in a game played at St. Mary's Recreation Center in Perth Amboy.

Phillips threw in 17 points to lead the attack, while Viggiano contributed 12, and Smelas 10. Coach McCarthy's charges jumped out to a 23-5 lead after the first period of play, and were never in trouble from then on.

Red Bank outscored the locals in the second period, but the Eagles held a 30-19 edge at the half. The remainder of the game saw St. Mary's outplaying the opponents from all angles, and Coach McCarthy put his reserves into action, winding up with a 21 point advantage at game's end.

Hoffman's eagles fell to defeat at the hands of Sayreville last week by a 51-36 score. It was Sayreville's 15 victory against two defeats.

High scoring Ron Kuran led the borough combine with 21 points, while his teammates Ted and Fred Salomon dominated the backboard play and enabled the Bombers to control the game from beginning to end.

Sayreville hit a hot scoring streak midway in the first period, and wound up with an 18-6 lead, then managed to hold its own the rest of the way.

Bob Bloodgood, with 12 points, was the top scorer for the Governors, while Ed Skiko had 8.

Here and there in sports:—Hoffman's bowling team dropped two games to Middletown High last week in the Northern Division of the Shore Conference bowling circuit. By virtue of their defeat, the Governors wound up in second place. . . . Manny Applegate, veteran knicker, has been out of action for several months due to knee trouble, and it has been heard that an operation is necessary. . . . Bill Neugebauer, Peterson's sparkling, received a valentine from his co-workers at Sun Oil Co. on Valentine's Day. Ask him to show it to you. . . . Joe Russell of Ben & Ray's team in the Friday Night League, added his second 700 set to his list of achievements last week. Joe sparked his team to two victories over Frank's Radio and TC, league leaders. It was a 706 set for Joe.

INTERVIEWS . . .

IRVIN HOUSE

South Amboy's Councilman Irvin House, the recently appointed member of the City Council, is a hobbyist whose chief avocation may be attributed to his liking to meet people, and his desire to know them intimately.

House's education was garnered in the city's P. U. B. I. C. Schools, in Rutgers University, and at various side-studies whenever the opportunity presented itself. His interest in ham-radio does not extend to the scientific and mechanical impediments so much as it does in finding that he can communicate with other devotees in distant places, and derive pleasure in learning about them.

His background of experience down through the years has been spent in knowing the

people via a bakery route; by his unselfish efforts in behalf of the city's residents shown through his volunteer work with the South Amboy First Aid and Safety Squad, and his Boy Scout work.

Councilman House possesses an astounding grasp of what is known as "Polite Knowledge of the World" which in any form of expression may be considered more than a blessing. Being able to understand and see problems clearly requires foresight.

His affiliation for the past five years has been with the National Lead Company in the Sayreville Plant, and his work is possibly so pleasurable to him as anything else he undertakes.

One of his side-lighting happens to be boasting "The Pleasant Little City," by means of his radio facilities. By a strange coincidence, a newspaper dated June 16, 1933, bears out the prospects of a lad named Irvin House, who while attending school was selected on Boys' Day, to act as Street Commissioner for that one day. His recommendations at the time, have oddly enough come to pass as a realization.

Councilman House is married to the former Frances Bloodgood, and the happy family includes three sons. The oldest is in service.

Somewhere in the make-up of this Councilman who is a chess player, a coin collector, and a human with a splendid sense of humor, there is more than just an appreciation for folks, which reflects quite plainly that the people also like him.

FBI Arrests Morgan Man on Land Hiding Charge

The FBI disclosed the arrest of Rudolph H. Toth, 55, 3 Dorset Ave., Morgan, on a charge of concealing property from a bankrupt estate. Toth, who was arrested at his home, also was accused of making false statements in connection with bankruptcy proceedings in U. S. District Court, Trenton.

Newark FBI bureau chief Bernard C. Brown said Toth allegedly concealed assets of the bankrupt firm he owned, E. H. Toth Engineering.

Toth was arraigned in New Brunswick later Monday before U. S. Commissioner William F. McCloskey. The suspect was freed in \$1,000 bail pending federal grand jury action.

Brown did not say if a value had been placed on the allegedly concealed assets. The FBI official said the company was owned by Toth with a business address in Hopelawn and the business consisted of air conditioning, refrigeration and electrical work.

More than 100 boys and girls from Morgan and the surrounding areas of Sayreville were in attendance as the semi-monthly dances in the Jesse Selover school auditorium sponsored by the Morgan and Bayview Manor Improvement Association were resumed Friday night. Popular music was supplied by recordings.

Highlight of the evening was a musical presentation by the Roger Johnson Trio, comprised of Johnson, Milford Wiggins and Darryl James, all of whom play the guitar.
