

TO FARMERS.

ns, Agriculturist, under which the Unit-ent is to participate and establishment of rural agents has been fact. Under this minister the fund thus added at least a like amount, it to the counties. Agents are authorized and added to this fund and some are also contributing their ward the support of such rural bureaus. The Valley Railroad is being participate in the establishment of these agents and through this agent to assist them in every possible in their work. The has been well worked out. tion as a whole is committed policy, the success of which will depend entirely upon the farmers themselves. The large percentage of our farmers feel the necessity of a bureau of this kind and are co-operating with it and many excellent men have been put in the field as county agents. It must not be expected that these young men have at their fingers end all the theory and practice of agriculture, but they do have a broad general training in science and a considerable knowledge of the practical side of farming. They have the advantage over most farmers in that they are constantly observing the agriculture of a wide area, can spread information as to the policy adopted by the most successful farmers, and where they find unusual conditions, they can call upon the services of the necessary experts in our experiment stations and colleges to work with them in the solution of these problems.

As I see the future of this work, the greatest value which these agents will serve in various counties will be in the formation and promotion of associations through which the farmers of the locality may work as a unit instead of as individuals and thus solve the great problems of storage, markets, farm credits, etc. Try as we may, these problems cannot be solved outside of local farmers organizations. No person, however high in governmental control, can dictate a policy which will be effective. The solution must come from within, and I believe it can be done through these agents. There is no law of nature or of the land by which a farmer can be forced to become an efficient member of such an organization. He must see the need of it. For two or three years the one word which has been most often spoken in farmers meetings is that of co-operation. It is time for constructive policies, particularly in reference to marketing. That is up to the farmers themselves and I believe can be worked out successfully through the establishment of these agencies.

As with everything now, the system is not yet perfect, but you will find little fault with it, and I urge farmers generally to get together and support these county agents and help in a constructive way to solve these problems.

Time to Call a Halt.

When the busy man gets to the point where he can't sit down for an hour and do nothing, it's time for him to take a vacation.—New Orleans Picayune.

None So Blind As He Who Will Not See

By MOSS.

BLIND mistakes are pitiful, but usually preventable. Take the bichloride of mercury poisoning cases which the papers have been full of recently. The sight of a person facing sure death within a week and arranging his earthly affairs calmly and coolly arouses one's pity. At the same time one naturally thinks that the victim should have known better. Blind mistakes in buying are also pitiful and also usually preventable. Blind buying leads to DISSATISFACTION and WASTE. Blind buying increases your COST OF LIVING. You can't plan to have your goods cheap and get the best. Don't rely on the man in business for a cheap price. Buy wisely and you will get the best.

NEW JERSEY NEWS CONDENSED.

Items of Interest From all Parts of the State as Gleaned from Our Exchanges Briefly Paragraphed.

Canal Work Begun.

Under the new act of the last Legislature the work of surveying a canal from the head of Barnegat Bay to Manasquan River, by the upper, or Beaver Dam route, has begun. It is in charge of Commissioner of Inland Waterways William A. Maupay of Atlantic City. Some years ago a route was surveyed by the State just back of the beach hills and through a chain of lakes, which show where Barnegat Bay once extended to Manasquan River. For this canal \$25,000 was appropriated in 1913, as a beginning, but the wording of the law was such that after it was decided to use the upper route it was concluded the appropriation was not available. The upper route goes from Beaver Dam stream, west of Point Pleasant, two miles across a sandy neck of land to the island in the Manasquan several miles back from its mouth. It is believed that this will keep the Manasquan Inlet open. It was feared that the entrance of the canal near the inlet would close that waterway. The land traversed by the new route is of little value, while that required for the right of way on the beach front was held at a high figure, and, besides, it required many bridges, including a railroad bridge. This route calls for only one bridge.

Car Hits Pole at Keyport.

Edward W. Snyder, an ice cream manufacturer of Keyport, ran his automobile truck into a telegraph pole Saturday evening about 6 o'clock at the easterly end of the Matawan Creek drawbridge while returning from South Amboy. Mr. Snyder was accompanied by his father, Zachary Snyder, Sr., but neither was injured. The machine was badly damaged. The road is a narrow one at that point, being elevated above the meadows, and the men had a narrow escape from being thrown down the embankment.

Completing Channel at Belmar.

A new and permanent channel from Shark River to sea, permitting the entry of light draft vessels, motor boats and other smaller sea-going craft, is being completed at Belmar. The improvement will cost \$100,000. The channel has been shifted north and reinforced by concrete piling and the basin has been deepened. This is the only harbor between Barnegat and Sandy Hook and the improvement, it is expected, will give a new impetus to yachting. A real estate development has been started on reclaimed ground along the river bank.

In Prison For Another's Crime.

The Court of Pardons will have an unusual case under consideration at its next session in that of Leonardo Cipriano, who was committed to prison from Middlesex County, June 27, 1908, under the name of Michael Filoseta, to serve twelve years for sending black hand letters through the mails. Cipriano says that the Michael Filoseta who committed the crime was his boss in South River, and that the latter died in the Philadelphia Hospital for the Insane April 28, 1910. His story is substantiated by a certificate from the hospital authorities as to Filoseta's death.

Machine Hurts Child at Camden.

While crossing the street near his home at Camden Sunday afternoon, Jacob Forman, five years old, of 568 Division street, was struck by an automobile and probably suffered a fracture of the skull. He was taken to the Cooper Hospital, where it was said there was hope for recovery. Peter Jackson of Pitman called at police headquarters later and said he was the owner of the machine. He said the boy walked in front of the car. He was held on his own recognizance.

Advocates Inherent System.

Rev. Dr. J. W. Marshall, district superintendent, advocated the retention of the inherent system in an address Monday at the New Brunswick district preachers' meeting, Ocean Grove. Following the meeting the preachers were given a dinner at the St. Cloud Hotel, where addresses were made by Rev. Dr. Charles M. Boswell of Philadelphia and Rev. Leon E. Willman of Ashbury Park.

Ex-Freholder Miller Dead.

Former Freeholder Frederick W. Miller passed away in his 81st year at 340 Delaware street on Monday morning. He was a resident of several

years. In his death the city loses one of its prominent citizens. The Fourth Ward, in which he resided all his life, honored him by electing him as a member of the Board of Freeholders. For several years Mr. Miller had not been enjoying the best of health. He was engaged in the butcher business until about a year ago, when he retired on account of ill-health. His death is keenly felt by his many friends. His acts of charity will long be remembered.

Robbers' Loot Found in Barn.

Secret service men Monday night broke into the barn of Samuel Wardell, near Red Bank, and following the directions given them by three men arrested Saturday in Brooklyn, and charged with robbing the Oceanport Postoffice, found beneath a pile of hay, a bottle of nitro-glycerine, a kit of safe-cracking tools, a stick of dynamite, stamps worth \$700 and a box of pennies. The three men under arrest were picked up in a resort in Brooklyn a few hours after the robbery. They are Jack Conway, who is said to have confessed; John Rockford and Harry Nathan. Rockford and Nathan, it is said, were overheard in their cells discussing the jobs they have done. The officers say they expect to clear up the robberies at the Eatontown and Maywood postoffices.

Toms River Cashier Gets Prison Term.

Pleading guilty to embezzlement and to making false returns to the State Banking Commission, William F. Simmons, former treasurer of the Ocean County Trust Company, of Toms River, was sentenced by Chief Justice Gummere late Monday afternoon to serve a term of not less than two and not more than seven years in the State prison at Trenton on each indictment, the sentences to run concurrently.

Find Woodbridge Stableman Dead.

Known only as "Joe," a man who helped in the stables at the home of Joseph Lefkowitz of 258 Perth Amboy avenue, Woodbridge, was found dead in the cow barn Monday. When Lizzy Kish, a maid in the house, went to the barn she found him lying dead with an empty whisky bottle beside him. Dr. I. T. Spencer pronounced the man dead and sent for Coroner James J. Flynn, who viewed the body and gave it in charge of an undertaker, who will try to find the man's relatives. "Joe" was a tramp and nearly starving when he came to the Lefkowitz house last winter.

Oil Burns When Pipe Line Breaks.

Thousands of gallons of oil were destroyed by fire at South Plainfield Monday afternoon, following a break in the tidewater line of the Standard Oil Company. A big gang of workmen was sent to the scene, and by digging ditches prevented the blaze from spreading to any nearby buildings. Later in the afternoon the fire burned itself out, after the break in the line was fixed.

Entertainment at Union Valley.

The entertainment given on Friday evening of last week at the Union Valley Methodist Church, by Miss Eleanor Mason, an elocutionist from South Amboy, was well attended and thoroughly enjoyed by all present, each number being received with hearty applause. A soloist from Jersey City and the choir rendered several selections which added to the evening's pleasure.

Past Councilors to Meet at Cranbury.

The Past Councilors' Association of Middlesex County J. O. U. A. M. will hold its regular monthly meeting at Cranbury Wednesday evening, May 6. This will be known as the legislative meeting and a good speaker will be present to tell what the J. O. U. A. M. is doing along legislative lines. The association will be the guest of Cranbury Council, who, by the way, have the finest meeting room of any of the councils in Middlesex county. The banner, which is held by Charles L. Walters Council, will again be contested for, and the Milltown Council will have to go some to hold it, as the members of Friendship Council, of New Market, say they are going to win it this month.

Big Ocean Grove Registry.

When the several boards completed the registry of voters in Ocean Grove for the borough referendum next Tuesday 28 new names had been added to the list. This gives a total of

registration of 619. More interest was manifested at the late Presidential election. Every voter was found, and reluctant ones were taken to the polls in automobiles, both factions having machines at their disposal. Surface indications are that a majority of those who were registered favor the campmeeting association. The same conditions as governed the general election last fall will obtain at the special election. It is regarded as certain that more than one voter will be challenged. While each side claims to have enough votes to insure a victory it is generally conceded that the result will be close. The boroughites say they will have a majority of about seventy. The association supporters give no figures.

Acquits Man of Murder Charge.

After deliberating fifty minutes, the jury at the trial in New Brunswick, of Elmer Blas, charged with the murder of "Patsy" Sementa, returned a verdict Tuesday afternoon of not guilty. Blas admitted shooting Sementa, but declared he did so in self-defense, the man having annoyed him several days before visiting his home, where the shooting occurred. He had nearly forty witnesses to support his contention.

TAUGHT BY THE SWALLOWS.

How a Railway Tunnel Was Built Through a Sand Bank.

A colony of bank swallows taught a young but observing engineer how to build a tunnel that his more learned superiors had refused to undertake. North of Burlington, Vt., lies a broad sand plain high above the level of Lake Champlain, through which the Central railroad was to be carried by a tunnel. The sand, destitute of moisture, would not cohere, but crumbled away as soon as an excavation was made. After several costly trials the engineers decided that the tunnel was impracticable.

A young man in the engineer's office said he could tunnel the sand bank at a small cost. He said he could build the tunnel for so many dollars a running foot, but that he couldn't expect the railway people to act upon his opinion when so many American and European engineers had declared the project impracticable.

The managers, however, gave him a contract to build fifty feet of the tunnel. On the face of the sand bank he marked the line of an arch larger than the proposed tunnel and on this line drove sharpened timbers into the bank. Then he removed six feet of the sand and drove in another arch of twelve foot timbers, removing six feet more of sand. This process he repeated until he had space enough to begin the masonry. As fast as the masonry was completed the space above it was filled, leaving the timbers in place.

He pierced the bank with the cheapest tunnel ever built, which now stands as firm as on the day it was finished.

He was asked whether there was any suggestion of the structure adopted by him to be found in the books on engineering.

"No," he said. "It came to me in this way: I was driving by the place where the attempts were made and saw that a colony of swallows had made their homes in the bank. It occurred to me that these little engineers had disproved the assertion that the sand had no cohesion. As every swallow's home is a self-sustaining tunnel without masonry, I thought that by extending their method I could construct a larger tunnel. The bank swallow is the inventor; I am simply his imitator."—Boston Post.

AN ORDINANCE.

A SUPPLEMENT TO AN ORDINANCE of the City of South Amboy prescribing and defining the duties of the officers of said city, fixing their compensation, appointing certain of them and fixing their term of office. Be it ordained by the Common Council of the City of South Amboy:

Section 1. It shall be the duty of the City Engineer to take care of all the engineering work of the city; to lay out all new streets, and to run the lines of old streets and alter said lines of old streets when directed so to do by the Common Council. He shall prepare, keep, renew and have custody of the city map or maps. He shall determine the grade of any street when it shall become necessary so to do on any street or streets where a question shall arise as to what is the established grade on said street or streets, and shall establish a new grade for any street or streets when directed so to do by the Common Council.

Section 2. He shall receive as compensation for the above work or for such other work as it becomes necessary to do in performance of his duties as City Engineer such sum of money as may be determined by the Common Council.

hold office until the first day of January 1917.

Section 4. And be it further ordained that this ordinance shall take effect immediately upon its approval by the Mayor, and its publication for the period prescribed by law in the South Amboy Citizen.

Passed, April 28th, 1914.

Approved, April 28th, 1914.

WM. H. DEY, Mayor.

Attest: Richard M. Mack, City Clerk.

NOTICE.

NOTICE IS HEREBY GIVEN, THAT the Common Council of the City of South Amboy will consider the report of the Commissioners of Assessment for the laying of sidewalks and curbing of Augusta Street between Stevens Avenue and Roswell Street, at a regular meeting of the Council to be held at the City Hall on May 12, 1914, at the hour of 8 o'clock p. m. All owners of property affected by said improvement should present their objections to adoption and confirmation of said report on or before said date.

RICHARD M. MACK, City Clerk

Michael A. McCarthy,
Undertaker and Embalmer.

Mrs. Harry A. Schofield, of Camden, spent Sunday and Monday with her parents Mr. and Mrs. W. H. Bloodgood, of George street.

VOICE OF THE PEOPLE.

Editor of Citizen:

In The Daily Home News of New Brunswick, issue of Wednesday, April 29th, among the notes in the South Amboy news column I find one note that interests me, and for the information of those who are interested and for anyone who may desire the truth, which I am sure is best for all of us, I desire to have the following note published in the columns of the Citizen as printed by The Daily Home News:

"South Amboy, April 29.—The City Council held a regular meeting last night in the City Hall. All the members were present. A communication was read from F. A. Deacon, secretary of the Y. M. C. A., calling attention to a petition from the W. C. T. U. read at the meeting of the Council two weeks ago. The communication was not acted upon further than to be ordered to be placed on file. The communication carried with it the statement that if no recognition was paid to it before 8 p. m. tonight the matter would be taken up by others who would enforce the requests made in it."

An error has been made either intentionally or otherwise as my communication to the Mayor and members of Common Council copy of which is printed in another column of this issue of the Citizen, which you will note reads in part as follows:

I respectfully urge you as a body to acquaint yourself with the contents of communication of even date, directed to the Mayor, in which is embodied a request made on the Mayor and Common Council of the City of South Amboy, N. J.

The communication named in the article above, was received and signed for by City Clerk, Mr. Mack, and delivered to the Mayor Mr. Dey. No action taken by the Mayor or members of Common Council, but instead a blind is seemingly put up to cover request made, and that blind is mentioned in The Home News article. Following is the communication sent to the Mayor, Mr. Dey, (that should have been acted upon)

Mr. William H. Dey, Mayor, City of South Amboy, N. J.

Please note the following:

for your attention and same given opportunity for proper action. To the Mayor and Common Council City of South Amboy, N. J.: Kindly furnish me, the undersigned, with copy of, or give me the proper and necessary time and opportunity to copy the names of signers to the applications for liquor licenses and the name of each applicant signed for, showing distinctly the signers of each application. This request includes all liquor licenses acted upon by Common Council of the City of South Amboy, N. J., Tuesday evening, April 14th, 1914.

F. A. DEACON, Interested Citizen, of the City of South Amboy, N. J. This last communication, was placed in the hands of the Western Union Telegraph Company, and delivery made by them, through a messenger. F. A. DEACON.

CHRIST CHURCH CHRONICLES

The Annual Diocesan Convention of the Diocese of New Jersey will convene next Tuesday and Wednesday in Christ Church, Trenton. It will be a very important convention, by reason of the fact that a successor is to be chosen at that time to succeed the late Bishop Scarborough. The lay delegates from Christ Church Parish, South Amboy, are Messrs. Nichols, Gordon and Mack; the provisional delegates are: Messrs. Courvoisier, Berrien and Wilson.

Miss Mary Hillmann, who was one of the delegates from our Parish to the Diocesan Sunday School Convention which met in St. Michael's Church, Trenton, on last Saturday, was honored by being elected one of the Vice-Presidents of the Diocesan Sunday School Association. She reports a large attendance and an interesting and profitable session.

The Vestry of Christ Church Parish held its regular quarterly meeting at the Rectory on Monday night. There was a full attendance, all of the 12 members being present. The new members are Mr. E. McKenna and Mr. Charles P. Rose. The officers and committees remain the same as last year. Mr. Joseph Wilson, as Treasurer, and Mr. Clarence R. Stults, as Secretary, were elected to succeed themselves.

The Girl's Friendly Society held its semi-annual party in the Parish House on last Monday evening. About 100 boys and girls were present to enjoy the occasion, each girl being permitted to invite one boy friend as a guest. Delicious refreshments were served at the conclusion of the festivities by Mesdames Nichols, Emilussen, Muirheid, Miller, Reid, Stults, and Misses Campbell and Diebert. The Girl's Friendly is truly one of the "liveliest" organizations in the entire Parish, and we congratulate the Directress, Mrs. W. P. Nichols, and her able corps of assistants, upon the splendid record of service achieved. This society meets weekly, and always with a large attendance. Its membership includes girls from all religious bodies in the community, a considerable percentage of the members being non-Episcopalians.

The Rector had an interesting visit at the two Chapels on last Sunday. At the early Communion service (9.30) there was a good attendance at Doane Memorial Chapel, despite the inclement weather. In the afternoon the Rector made a short address before the Sunday School at this Chapel, and was much pleased to note the progress made under the enthusiastic leadership of the Superintendent, Mr. Robert Noble. The new course of lessons recently instituted have awakened deeper interest. From Doane Memorial Chapel the Rector proceeded to the Chapel of the Good Shepherd, where, assisted by the Lay Reader, Mr. Ambrose Gordon, he read Evensong, and preached to a good congregation. In the absence of the Rector from the Parish Church, Mr. C. R. Stults, with characteristic willingness and zeal, superintended the Sunday School and taught the Rector's class of young men, and, as if to break "the speed limit," substituted for another teacher for a few minutes, until the arrival of the tardy teacher, and all this in addition to attending the other services of the Church and discharging his strenuous duties as Master of the Choristers.

The regular Monthly Council of the Parish Schools will be held at the Rectory on next Friday evening. All of the officers and teachers of the three Sunday Schools of the Parish are invited, requested, and urged to be present, as important business is to be transacted. For one thing, the matter of the annual Sunday School excursion will be taken up, as the time is now near at hand for the yearly outing, and the various committees on arrangements and solicitation will be appointed. Friends and patrons of the schools are also invited to attend a meeting, and make suggestions after plans regarding the

ODDS AND ENDS

J. M. Willett is making improvements to his pavilion at Morgan Beach, preparatory to opening for the summer season.
Dr. W. P. Moss is having a new deck placed on his power launch Echo, and is otherwise sprucing her up for the coming season.
John Thoms is getting his power launch, formerly known as the Effie, in fine shape, and she will present a greatly improved appearance when launched.
The Rev. Edward Eaton Lowans, of Orange, will preach in the Baptist Church on Sunday, May 3, morning and evening.
Mothers' Day—Sunday, May 10th—will be observed in the Methodist Episcopal Church. The decorating of the church will be done by the Ushers' Union.
Gabe Hardy, of Broadway, has been transferred to the car inspectors' force at Old Bridge.
The local baseball pools have started operations.
George Gamble, of Mechanicsville, has his motorcycle in running shape, and is prepared for summer seashore jaunts.
The Rev. Chapman S. Lewis, rector of Christ Church, speaking before the Sphinx Club of New York at a dinner recently declared, "Advertising has become such a necessity and the people have come to consult the advertisements so fully before buying that the churches even must use it, if they would dispose of their wares."
Charles Dzilekan of this city was fined \$10 by Judge W. G. DeMeza in the city court at Plainfield on Tuesday on a charge of violating the State automobile law. Three weeks ago several autolists were arrested, among them being Dzilekan.
Forty people went from this city on the Jersey Central excursion to Washington, D. C., last Saturday night. Had the weather been promising, the number would probably have reached a hundred.
The gatemen on the New York & Long Branch Railroad now have to be on duty from 6 a. m. until 10 p. m. Surely this makes a very long and tiresome day for the men.
"Diddle" Maxfield has purchased a new Ford automobile and is sailing around town in style these days.
Two local ice dealers, George E. Applegate and Michael Scully, have had the water of the ponds from which they cut their ice examined by the state health authorities this week. The water met and passed the requirements and permits have been granted to these two dealers to sell ice in this city during the coming summer.
Now that the Board of Trade has finished boosting South Amboy it looks as if that bill-board on the corner of John street and Broadway will be allowed to become an eyesore, which condition it is rapidly approaching.
New gutter-leads were placed on the factory that is situated on the corner of John street and Broadway this week.
Last Saturday morning a small building on George street, owned by H. M. Duggan, was partly destroyed by fire. The firemen arrived quickly and did excellent work.
Clarence Thomas was struck by the hook and ladder truck while returning from the fire last Saturday, and received a fractured leg.
Norton Wheeler is building a bungalow on Rowell street, near John.
The fire hydrants and alarm boxes have received a coat of red paint. Where the boxes are suspended on poles, a distinguishing mark of white and red paint has been added.
Sig. Emilsson's saloon is now shut tight, awaiting a decision of the court in an injunction obtained against locating it in a new place.
An alarm was sounded from box 22 of the Pennsylvania Railroad fire alarm system last Thursday afternoon.

Broadway and David street became a Benedict last Sunday night. Reporters were unable to verify the rumor and even Mr. Goldberg himself was very reticent on the subject when approached—said that he wanted to keep it quiet. William didn't deny the assertion, but only looked rather sheepish and embarrassed. Many of his friends think he was only "kidding," but he started it himself, so you can draw your own conclusions.

Charles S. Sprague has moved into his new barber shop on Broadway.

"What delicious bread." "Yes, it was made from Imperial Flour." That's what they all say. Sold only by Brown Bros. ***

SHERIDANS TO PLAY SOUTH RIVER A. C.

On Sunday, May 3, the Sheridan A. C., of South Amboy, will open their season at South River, against the South River A. C. The fans in South River are going to make a big day of this as this is the first game of the season they are securing one of the strongest lineups they have ever produced yet. The Sheridans also have a very strong lineup, consisting of Jay Connell, of the South Amboy Athletics, and with Casey in the box they mean to bring home the bacon.

The lineup will be, as follows: Connors, 3b; Callahan, 2b; Connell, ss; Maniker, cf; Hensberger, rf; Hardy, 1f; Dooling, 1b; Magee, c; Casey, p; Quinlan, rf.

"THE WRONG WAY,"

Next week at the Auditorium Theatre, Perth Amboy, the stock company will present "The Wrong Way" by Owen Davis, author of "What Happened to Mary," and "The Family Cupboard." "The Wrong Way" is a new play which was lately seen at the Academy of Music, New York, and will be presented at the Crescent Theatre, Brooklyn, next week. It is a powerful, modern play, dealing in a straight-forward fashion with the relations between the working girl and her employer. It contains a good, wholesome lesson and one that will not soon be forgotten by those who see the play. A fine production of the play is being prepared by the Auditorium players and the piece should prove a gratifying success.

THE SENSE OF SIGHT

being the most important of the five senses is, nevertheless, often neglected; and while science has done much for its preservation, it depends upon the individual to take advantage of what scientific research has given. Like all impairments of the human system, it is easier to prevent than to cure. So have your eyes examined by a competent optician and know the truth. We give free consultations to all.

SAMUEL KINSTLINGER,

Jeweler and Optician
