## TOWN TOPICS

Our era could actually be called the age of research. The scientist and the laboratory loom ever larger in the growth and development of American enterprises.

Industrial research has several primary objections. One is to discover new and valuable products and services. Another is to better existing products and services, and a third is to find ways to cut the cost of supplying products and services, which, of course, means savings to the consumer.

A recent report from the Association of American Railroads offers an excellent example of the fruits of research. This organization finds that 55 specific projects it undertook on behalf of the railroad industry have resulted in savings of \$1,000,000,000 or more, the association, and individual railroads and railway equipment manufacturers, are carrying on many research projects which are not included in these figures.

Anyone can see the importance of such economies in the light of the railroad's efforts to meet rising labor and material costs, with the least possible increase in rates and fares. And, as a spokesman said, "perhaps even more important are the new peaks in railroad safety and operating efficiency which research has made possible."

Marley L. Lutz, an authority on taxation, recently made this important contribution to current discussions of revision of our tax system "there has been some disposition to repeat the age-old but fallacious argument that what is needed is more consumption rather than more investment. This is the issue of a static versus a dynamic economy. The key to future economic advance and to the maintenance of employment, production, and income, is capital formation."

A sound and constructive tax policy must do everything within reason, to encourage people to invest their savings in productive, employing enterprise, both large and small. And that means, in turn, that the people who take the risks involved, must see an opportunity to earn a fair return on their investment.

at it again, and are arguing Our boys in Congress are

## Hoffman High Gave Diplomas To 24 Graduates

Professor Richard Reager  
Was Commencement  
Speaker

A class of 24 students was graduated from Hoffman High School on Tuesday night, when the commencement orator was Professor Richard Reager, head of the public speaking department at Rutgers University.

The graduates were:

Kenneth W. Padore, Jr., Joan M. Beam, Elizabeth Jane Beaurgard, William S. Keller, Carole Joy Kurts, Marlene Kay Kurts, W. Roger Lamberton, Nancy Ann Macdonald, Betty Lou Meisner, and Robert E. Miller in the college course.

Marion DeGraw Chapman, Carl Margaret Dennis, Anne Katherine Dill, Jane Elizabeth Dill, Robert W. Hess, Raymond A. Meszaros and Raymond S. Tomaszewski in the Commercial Course.

Allan Brown, Mary Arlene Dill, Theodore A. Plucinaki, Ferdinand S. Rose, Elizabeth Marie Scully, Donald J. Solita, and Gary L. Stratten in the General Course.

Those awarded prizes were: Highest General Average in the College Course, donated by the class of 1949, W. Roger Lamberton, Highest General Average in the Commercial Course, Miss Edna C. Chase, Raymond A. Meszaros; English, Charles Safran, W. Roger Lamberton, Mathematics, First National Bank, W. Roger Lamberton, Speech, Louis Zall, W. Roger Lamberton, Languages, South Amboy Lion's Club, Joan M.

**SEVEN FOOT FISH  
CAUGHT WITHOUT  
LINES NETS OR BAIT**

It's pretty hard to convince anyone about a fish story, especially if it's as incredible, but true, as that employees of the local power plant of the Jersey Central Power and Light Company have been telling, but they have photographic proof to back up the story, and many people saw the fish.

Water used in the cooling processes for the big generators at the plant is drawn into the pipes by a powerful pressure system, and the variety of articles that are introduced into the pipes is amazing.

Tuesday morning, workmen discovered a huge fish had been sucked into the system from the Bay. They captured it and it was identified as a sturgeon, seven foot long and weighing 100 pounds.

Many of the employees of the plant were enjoying sturgeon steak the next day.

Monaghan is offering 20 and 30 gallon glass lined tanks, at special prices. Guaranteed for ten years.

## St. Mary's High Had Graduation Here Sunday

Class Of 83 Was  
Presented With Diplomas

A total of 83 diplomas was presented to the graduating class of St. Mary's High School on Sunday afternoon at St. Mary's Church, when an overflow crowd attended the ceremonies.

The commencement speaker was the Very Reverend Msgr. James A. Hogan, Chancellor of the diocese of Trenton.

The class was presented by the Reverend Brian O'Reilly, and the diplomas were conferred by the Reverend Msgr. Francis J. Sullivan, pastor of St. Mary's, who also presented the awards.

Gold medals for highest scholastic averages, which were the gifts of the Parent-Teacher group of the school, went to Theresa P. Wojciechowski, classical course, Mary Lou Hoover, academic course, and Dolores M. Surman, commercial course.

The diocesan religion contest prize, the gift of the Most Reverend George W. Ahr, bishop of the Trenton Diocese, was awarded to John Henry Pearson, and the prizes for outstanding scholarship and character, the gift of the California Oil Company, went to Joyce W. Gawlik and Joseph W. Mickiewicz.

## Officials Declare Air Raid Test Was Successful

Mayor Olsen Praises  
Defense Workers And  
General Public

Local officials expressed satisfaction over the results of the test air raid drill, conducted Monday morning.

Mayor Olsen, who was on hand, rode about the city in a police patrol car, and at the conclusion of the test declared, "Unquestionably, the test was a success here, and the results were a great credit to the Civil Defense Council, which made the plans and supervised the test, and also to our people not connected with the organization, who gave their cooperation by obeying the instructions laid down by the various Defense units."

Local Defense Director, Michael F. Nagle, also expressed satisfaction. He described the results as "very satisfactory." He said the public co-operation generally was good, and at local schools, the tests moved along smoothly. He singled out for

## Mayor Olsen Paid Glowing Tribute to Harold Hoffman at Council Meeting Last Night

There have been many touching eulogies delivered on the floor of the Council chamber, but none of them was as tender as that of Mayor Olsen last night, as he spoke of the passing of former Governor Harold Hoffman.

"The revelations that came out of Trenton on Monday were more shocking than the news of his death, if such a thing is possible," said Olsen, referring to charges that the former Governor allegedly embezzled \$300,000 from the South Amboy Trust Company.

Declaring that "the whole story is almost unbelievable," the Mayor added, "this is a sad commentary on our political system, and shows the dangers of a poor man entering politics today. 'It is indeed a regrettable situation.'"

"His friends cannot forget the many fine things that he did," during his lifetime," said the mayor. "He might easily have extricated himself from his desperate plight, by trading on his office while he was Governor." Olsen said that Hoffman had been accused by some, of betraying his friends and declared that one of the former Governor's faults, was his over-indulgence to friends.

Council President O'Leary, in praising Hoffman, said he had heard many impressive comments over Hoffman's death. He called attention to the fact that the disclosures had not changed the high regard with which the people of South Amboy always held him and he added, "our people are still loyal to a lovable guy".

Councilman James VanDerveer also had words of praise for Hoffman and said that among the comments he had heard was one from a staunch Democrat, who had pleaded with him say-

ing "Whatever you do Jim, don't let them say anything bad about him". The fact that the Mayor and the entire Council were among those who attended the funeral a rather unusual circumstance, was recalled by Councilman Wianiewski, who said this fact was a potent indication of the regard in which the former Governor was held here, and Councilman Jankowski said, "the people of South Amboy still think he was tops".

At the beginning of the meeting, all present stood in a one minute silent tribute to Hoffman's memory.

In the early stages of the session, the Mayor, Councilman Charnello, and Councilman O'Leary and Wianiewski engaged in a discussion of action which should be taken with regard to a garbage truck. It started when Charnello objected to the payment of all the bills submitted, because some of them were not covered by receipt slips. He also declared that his constituents were making protests over the high maintenance bills for the garbage truck. Olsen and O'Leary disagreed on the steps that should be taken and for a time debated the matter vigorously. No definite action resulted from the discussion.

All liquor license applications that were on hand, were approved during the session.

The Department of Conservation and Economical Development of the state informed the Council in a letter, that contracts for veterans housing units, which were formerly arranged to terminate on August 31, might be extended one year. It was agreed that the matter will be discussed at the next business meeting, to determine the city's position.

When a letter was received from the Independence Engine and Hose Company, notifying that Councilman O'Leary and Louis Good had been placed on the exempt list, Councilman VanDerveer praised O'Leary for his activity in behalf of the fire department and said his

## K of C CARNIVAL WILL CLOSE SUNDAY

Sunday night, the carnival which has been conducted on the grounds of their home on Fourth Street, by the members of Council No. 426 of the Knights of Columbus, will come to a close.

The affair opened Monday night, under the direction of John Everett and Eugene Morris, the co-chairmen of the committee, and it will be continued every night until Sunday.

In addition to the features for adults, there is also a variety of amusements for the children.

# LOOKING BACK 20 YEARS

ISSUE JUNE 15, 1934

A compilation of the records hung up by the South Amboy High School baseball team during the past season when they were undefeated indicates that they piled up a total of 92 runs or almost three times as many as they permitted their opponents.

Individual batting honors go to Lagoda who was at bat 39 times and made 18 hits for a total season average of .470. Hoffman and Pavich each share the home run honors with two apiece. Lagoda led the triplesack hitters with four and Lagoda also grabbed off the honors for two base hits, earning seven. Eckert and Frank Morgan have perfect fielding averages.

"Toots" Praasnal pitched 47 scoreless innings out of 71, walked seven batters, hit three and struck out 74. Conroy pitched seventeen innings, 14 of which were scoreless.

On Tuesday night, June 19, the Grammar School Exercises of St. Mary's School will take place. Certificates will be awarded to 67 Eighth Grade Students. In connection with this event, the pupils of the other seven grades will present Hansel and Gretel.

Grammar School Graduates are as follows: Walter Donald Barklow, John Michael Barrett, Margaret Mary Bloodgood, John Tobias Brophy, Joseph Robert Bulman, Ruth Madonna Campion, Eileen Mary Coakley, Kathryn Ann Coakley, Agnes Bernadette Coan, Joseph John Colucci, Pasqualino Rocco Colucci, Helen Maureen Coman, Helen Margaret Connors, Anna Louise Cooney, Joseph Leo Crowe, Hugh Thomas Day, Anthony William DeFilippo, John Francis Defort, Mary Elizabeth Dolan, Robert Charles Dorrian, Bernard James Dowling, Francis Anthony James Fawcett, Mary Lucille Foley, Claire Josephine Geant, James Henry Gordon.

Mary Margaret Grimley, Eugene Francis Hayden, Charles George Hess, Arthur Edward Hoffman, Daniel Joseph Hollywood, Irene Eleanor Theresa

Jaeger, Jean Ann Jerome, Edward Joseph Keating, Marie Ellen Kennedy, Robert Richard Kerwin, Lillian Anna Killen, Edmund Henry Kowalewski, Edmund Stanislaus Leashak, John Joseph Lyons, Joseph John Mallik, John Henry Joseph Mallon, Veronica Teresa Marcey, Joseph Thomas McCarthy, Robert Joseph McGowan, Francis Michael Nagh, Edward Jerome O'Connor, William Edward O'Leary, Samuel Richard Quattrochi, Mary Margaret Quinlan, Elizabeth Catherine Roberts.

Julia Jean Roberts, William Bernard Ryan, Edna Mary Scally, Dorothy Jane Schussler, Joseph Aloysius Souly, Angelo Michael Senape, Francis Peter Shull's, Charles Frederick Steuber, Anna Rita Cecelia Stolte, Michael Andrew Stolte, Richard Donald Stratton, Joseph Francis Sutliff, Margaret Gertrude Tabasko, Margaret Catherine Tarallo, Dorothy Patricia Thompson, Eileen Patricia Travinsky, John Stephen Triggs.

Excavation and the preliminary ground work has been started on the newly planned modernly equipped garage and service station to be erected on upper Main street by Jackin and Cross, well known local garagemen. Just how long it will be before the work is completed is of course problematical, but they state they expect to have the plant operating before the close of the busy summer season.

The garage will be situated near the Raritan River Railroad underpass, and the architectural scheme is expected to be strikingly different from the usual type of garage. In fact to the extent that instead of being the usual "eyesore" it will in all respects be modern, neatly built and even an artistic addition to the buildings in the immediate vicinity.

At a meeting of the Committeemen and women of the Republican Party, held in the headquarters on Monday evening, Thomas Gleason, Jr., was elected Municipal Chairman to succeed William S. Dey. The election of Gleason makes him the recognized leader of the party in this city.

Gleason has taken an active interest in the affairs of the party for some time and several times has been a candidate for office on the Republican ticket.

Two South Amboy men were among those who receive diplomas at the 168th Commencement of Rutgers University held Saturday.

Frederick Welden, son of Mr. and Mrs. Robert Weldon, 262 John St., was graduated with a degree of bachelor of arts. Mr. Welden was honor student of the South Amboy High School, Class of 1930. While a student at the local school, he also received four prizes for his work and a four year scholarship at Rutgers.

At Rutgers, he was one of the outstanding students active in all phases of life at the college. During his junior year he was named "best soldier" in the R. O. T. C. He is also a member of the Phi Beta Kappa.

Max Weiss, son of Mr. and Mrs. Samuel Weiss of Portia street received the degree of bachelor of science at the exercises.

Mr. Weiss graduated from Lakewood High School with the class of 1929, being an honor student and member of a national honor society as well as

the winner of a prize essay contest on the Single Tax.

Next fall Mr. Weiss will take an executive position in the factory of the Perfect Vest Company on Broadway, owned by his father.

Sixteen errors, fourteen hits, twenty runs, and eight or nine base on balls featured a baseball classic in the Twilight League that ran on for an hour and twenty minutes Wednesday

night. J. Clark of the Protections was credited with winning the game for his team, despite his pitching being frequently so wild that he made more than enough pitches to make up at least a pair of regulation nine inning games. Jankowski, of the Tigers, was charged with losing the game although he pitched only three and a third innings and allowed only five hits while in the box. His team mates had run up a total of nine errors.

everyone costly, and the score stood at 8 to 4 when the left-hander walked off the mound.

Final nominations of officers of the South Amboy Lions Club took place when the club met Wednesday night at Blodgett's on the Cheesequake road.

George A. Kress, for the past two years president of the club, was unanimously chosen for another term. Other officers nomi-

## CHURCH NEWS

**CHRIST EPISCOPAL CHURCH**  
Founded 1852  
South Amboy, N. J.

Rev. Christopher Nichols, Rector  
Harold Semonett, Superintendent  
Clinton Hoyer, Choirmaster

A Nursery for your child, a  
Parking Lot for your car and  
Salvation for your Soul!

South Amboy - Services for  
Sunday and activities for next  
week were listed today by the  
Reverend Christopher Nichols,  
rector of Christ Church.

The celebration of the Holy  
Eucharist will take place Sun-  
day at 8 A. M., followed by the  
Sunday School worship service  
at 9:30 a. m. and Sunday School  
classes at 10 a. m. At 11 a. m.  
Morning Prayer will be sung by  
the Senior Choir with the ser-  
mon by the rector. The Nursery  
in the parish hall be in charge  
of members of St. Mary's Guild  
of the Woman's Auxiliary.

A Card Party will be held in  
the parish hall Monday at 8  
P. M. sponsored by the members  
of St. Martha's Guild for the  
benefit of the kitchen fund; Mrs.  
George Barney, Sr., will be the  
chairman.

Tuesday evening at 8 p. m.  
the members of St. Hilda's Altar  
Guild of the Woman's Auxiliary  
will meet at the home of the  
directress, Miss Sophie Hillmann.

On Wednesday at 10 a. m.  
there will be a celebration of the  
Holy Eucharist with special in-  
tentions for a lasting peace and  
those in our armed services.

The boys' and girls' choir will  
rehearse in the parish hall at  
8:30 p. m. on Thursday, followed  
by a senior choir rehearsal at  
8 p. m.

meeting.

Friday 8 P. M. Choir rehearsal.

### BIGGEST OMELET TO BE COOKED AT VINELAND FESTIVAL

TRENTON—The biggest ome-  
let in history will be cooked at  
the South Jersey and Vineland  
Poultry and Egg Festival, to be  
held at Vineland June 19 ac-  
cording to State officials.

Governor Robert B. Meyner  
will crown the 1954 "Poultry  
Queen," in a ceremony high-  
lighting the agricultural festival  
sponsored by Vineland civic or-  
ganizations and South Jersey  
Associations.

More than 50,000 visitors are  
expected to attend the Festival,  
which will feature: the giant  
10,000-egg omelet, which will be  
fried on "the world's largest  
frying pan," having a circumfer-  
ence of 40 feet; a man-of-war  
chicken barbecue; a business-  
men's chicken-plucking contest;  
and selection of the best-cost-  
ume youngster as "Miss Baby  
Chick of 1954."

### INVITATIONS ARE DISTRIBUTED FOR TENNIS TOURNAMENT

More than 250 invitations have  
gone out to individuals and or-  
ganizations announcing the an-  
nual Wildwood American Legion  
Memorial Tennis Tournaments  
which are held each year in the  
City of Wildwood during the  
vacation months.

According to Dave Ingersoll,  
Chairman of the Legion's Tennis  
Committee the Tournaments will  
get underway on Tuesday, July  
6th when the Boy's Singles and  
Doubles Tournaments will be  
held for that week.

During the week of July 12th  
the famous Men's Singles and  
Doubles championship play will  
start. This will be followed by  
the Women's tournament during  
the week of July 19th while the  
mixed doubles will also be played  
during the week of July 19th.  
Girl's Singles and Doubles will  
be held during the week of July  
26 as will the men's "Duffers"  
Tournament.

### JOINT MEETING OF CANCER GROUPS AT PRINCETON

NEWARK—Members of the  
Advisory Committee will meet  
with the State Public Education  
Committee of the American  
Cancer Society, New Jersey Div-  
ision, at Princeton Inn, Prince-  
ton, on Thursday, June 17. Dr.  
Vincent P. Butler, of Jersey City,  
chairman of the committee,  
will preside.

Educational activities of the  
New Jersey Division will be dis-  
cussed and plans made for an  
aggressive campaign that will  
reach all parts of the state. The  
increase in cancer deaths is the  
incentive for the committee to  
set up programs that will alert  
all to the dangers of cancer.

## Shore Communities Laying Plans For Summer Events

Two Agents To  
Highlight Atlantic City  
Season

TRENTON—More than 85  
shore resort communities and  
dozens of inland centers in the  
Garden State are planning  
summer-long schedules of spec-  
tator and participant events. It  
is announced by officials of the  
New Jersey Department of Con-  
servation and Economic Develop-  
ment.

Key attraction for visiting  
sportsmen in New Jersey this  
Tuesday (June 16) is the open-  
ing of the season on black and  
Owego bass. The season extends  
to November 30.

Two highlights of Atlantic  
City's Centennial Year activities  
will be the Miss New Jersey  
Pageant, set for July 31 and the  
Miss America Pageant, Septem-  
ber 7-11.

Other colorful events which  
will augment recreational activ-  
ities include: a beauty contest  
and water show at Lake Mo-  
hawk, July 25; Old Timers Day,  
Aug. 1, as part of the 50th  
Birthday Party at Long Branch;  
the 44th Annual Baby Parade at  
Wildwood, Aug. 5; a marine pa-  
rade fireworks display, Aug. 7, at  
Cape May; a Diamond Jubilee  
Baby Parade, Aug. 12 at Ocean  
City, to spotlight that center's  
75th Birthday; a Big Sea Day  
Parade and Pageant, Aug. 14,  
at Point Pleasant and a Water  
Carnival at Dover July 30; and  
the National Sweepstakes motor-  
boat regatta, September 11, at  
Red Bank.

These and other events of in-  
terest to vacationers are listed  
in the booklet, "New Jersey  
Activities," available free of  
charge from the State Promotion  
Section of the N. J. Department  
of Conservation and Economic  
Development, 520 East State  
Street, Trenton, N. J.

### GEORGE GUNDRUM IS FAITHFUL NAVIGATOR OF K of C ASSEMBLY

At a recent election held in  
this city, George Gundrum was  
elected Faithful Navigator of  
South Amboy Assembly of the  
Fourth Degree of the Knights  
of Columbus.

Others named officers were:  
Frederick Lealle, Faithful Cap-  
tain; John Stolke, Faithful Ad-  
miral; James Ryan, Faithful  
Pilot; Joseph Sharo, Faithful  
Inner Sentinel; Joseph Flaga,  
Faithful Outer Sentinel; Frank  
Kurawa, Faithful Purser, and  
Francis X. Powers, Faithful  
Comptroller.

## Holy Name Held Father - Son Event On Sunday

Summer Youth Program  
Will Be Sponsored

On Sunday, a Father and Son  
night was held by the Holy  
Name Society of Sacred Heart  
Church in connection with the  
monthly meeting. The principal  
speaker, the Rev. Ladislav Ur-  
banik, pastor of the parish,  
complimented the members on  
their efforts in providing re-  
creation facilities for the youth  
of the parish, and the Reverend  
Melvin Stanczewski, his assist-  
ant, discussed the Boy Scout  
movement in the parish as well  
as the parish carnival to held  
in July. For this committee, the  
following have been appointed,  
Thaddeus Raczkowski, Alexan-  
der Pietraszka, John Szatkowski,  
Leon Kaboski, and Frank Pac-  
zkowski Sr.

The Society will sponsor a  
summer youth program at the  
parish baseball diamond, to  
commence in a short time. John  
Baranowski will be the instruc-  
tor. He also has tickets for a  
trip to Yankee Stadium for the  
Sunday, July 18 doubleheader  
between the Yankees and the  
Detroit Tigers.

It was announced by Frank  
Paczowski, Jr., retreat chair-  
man that reservations may still  
be made for the annual retreat  
to be made to the San Francisco  
Retreat House at West End on  
the weekend of June 26-27.

After the business session,  
there was a program of enter-  
tainment.

### FRANCIS W. KINEARY GETS MASTER'S DEGREE AT RUTGERS U.

Recently, Francis Walter Kin-  
eary, formerly of this city, was  
awarded a Master's Degree in  
Business Administration at Rut-  
gers University.

Mr. Kineary is at present  
employed at the Air Force Trans-  
portation Control Depot in  
Newark, as Comptroller. Mrs.  
Kineary is the former Jean  
Jerome, of this city, and they  
reside with their three children  
at Little Silver, N. J.

### See For One

A steady diet of liver and kidneys  
may make the family cat purr, but  
it's risky from a health standpoint.  
A bulletin from veterinary medical  
authorities cautions that cats raised  
on these two items alone may form  
such strong taste habits that they  
will refuse other foods needed for  
good nutritional health. Liver and  
kidneys are excellent for cats, the  
bulletin explains, but should not be  
overfed to the exclusion of fish, lean  
meat, milk, and a limited amount  
of cereal.

## NEW ONE-YEAR CONTRACT SIGNED AT PHOTO-PRODUCTS

PARLIN—Representatives of  
management of the Photo Pro-  
ducts Department Parlin Plant  
of E. I. du Pont de Nemours &  
Co. (Inc.) and the International  
Chemical Workers Union, A. F.  
of L. Local 527 have completed  
negotiations on a new one-year  
Contract. Agreement was reach-  
ed on June 8, after a series of  
17 negotiation meetings.

At an open meeting of Local  
527 held Wednesday, June 9, the  
members voted by an overwhelm-  
ing majority to accept the new  
Contract.

Significant among the major  
changes to the already liberal  
Contract, which expires June 12,  
are (1) a seven-cent-per-hour  
across-the-board increase nego-  
tiated April 5; (2) a two-rate  
system with automatic increase  
to top rate, to replace the pre-  
sent three-rate system, and (3)  
substantial improvements in the  
Seniority system.

Plant Manager F. B. Sackett,  
assisted by H. L. Graham and  
A. J. Morrison represented the  
Du Pont Company. E. O'Hare,  
President of Local 527, headed  
the Union Committee which in-  
cluded J. Dietrich, W. Whitlock,  
J. Budnick, E. Wierszowski, H.  
Dieker, J. Haddock, C. Borsach,  
and Misses M. Coakley and L.  
Gencski. Mr. J. Banks, Inter-  
national Organizer, acted as  
advisor to the Union group.

### Sugared Jelly

When jelly has sugared, make it  
into syrup this way: heat it to  
melt the sugar crystals, and then  
strain. Then add a small quantity  
of water and reheat. Use as a  
fruit syrup with pancakes and  
waffles.

### Eggs

Eggs are important for proteins,  
iron, vitamin A, and riboflavin. The  
yolk has more all-round food value  
than the white.

### Paint Before Puttying

Putty should not be used to fill  
cracks and nail holes until after  
the first, or priming, coat of paint  
has been applied. Otherwise the  
wood will absorb the oil and dry the  
putty, causing it to crumble and fall  
out.

## Letters Were Awarded At Hoffman High

At the assembly held Monday morning at Hoffman High School, letters were awarded to the following.

Varsity Basketball: Ray Tomaszewski, Garry Stratton, Fred Rose, William Lake, Frank Grimsley, Steve Malkiewicz, Ray Maszaros, Roger Lamberton, Dave Switzer, James English, Frank Kitchen.

Baseball, Steve Malkiewicz, Irwin House, Raymond Maszaros, William Lake, Roger Lamberton, James English, Raymond Tomaszewski, Frank Kitchen, Garry Stratton and Frank Grimsley.

Varsity Cheerleaders, (3 years) Betty Lou Meinzer, Carol Joy Kurtz, Ruth Larkin, Connie Septon, Lucille, Braun.

One year, Marlene Lopez, Joan Badore and Susanne Yanotka.

Two years, Janet Nietopp, Carol Meinzer, Carol Hatfield, Elaine Nemeth, Adelaide Galuska and Joan Woods.

Betty Lou Meinzer and Carol Joy Kurtz, cheerleaders who have graduated, were also given megaphone pins and sweaters.

## DEFINITE RESULTS ARE OBTAINED IN CANCER FIGHT

NEWARK — Research has found the easy road to the solution of the cancer problem but during the past 12 months, definite, if unspectacular, results were obtained in the American Cancer Society's five-million dollar nation-wide research program, according to the report of the national society to the New Jersey Division, of which Leo W. Ehrlich, of Paterson is president.

Scientists moved in four general directions, in their research efforts, the report reveals, and traveled down countless avenues of exploration. The many years of fundamental research began to disclose valuable findings that are leading researchers nearer to solving the riddle of cancer's causes. Simultaneously they made advances in surgical treatment of cancer; the vast possibilities of radiation cures of cancer came into focus; and the great dream of a chemical cure of the disease grew brighter with a better ordered and less experimental approach to this goal.

### Bacon Drippings

Bacon drippings can be used for pan frying, as a fat in brown sauces, and as a shortening in making cornbread. Bacon fat can also be substituted for butter when combined with canned vegetables such as green beans and carrots.

## Pickeral Fishing Reported To Be Good On Lakes Of State

### Anglers Also Did Well On Pan Species

TRENTON—Pickeral fishing during the first two weeks of the open water season has been good on most of the north Jersey lakes checked by the Division of Fish and Game, Department of Conservation and Economic Development.

Hundreds of anglers contacted by division personnel appear to be quite satisfied with the fishing, it was announced. Anglers, in addition to taking a large number of pickeral, have also done well on the pan species. Bullheads, sunfishes and perch were caught quite frequently.

Some of the best pickeral fishing on opening day occurred at Lackawanna Lake. One party of three anglers caught twenty-six fish. A party of two kept eighteen. Fishing has also been good on Big Swartwood and Cranberry Lakes. The State Division of Fish and Game has tagged both pickeral and largemouth bass in Cranberry Lake and the returns on these are proving of interest and furnishing valuable information.

The largest pickeral checked by division personnel to date was a 26 1/2 inch pickeral taken from Big Swartwood Lake. Another of equal size was taken from Lake Hopatcong.

Fishing on Lake Hopatcong has been quite productive for pickeral and pan species, as well as the trout which have been stocked experimentally as a joint project between the Knee Deep Fishing and Hunting Club and the Division of Fish and Game. Tag returns from these trout have been high, which would indicate good trout fishing. Several limit catches of trout have been seen at this lake. Lake Hopatcong has been yielding the greatest variety of fish.

Richard Gross, Junior Fisheries Biologist with the Division of Fish and Game, who is in charge of the spring census, reports that at least five pickeral over twenty-four inches have been taken from Lake Hopatcong to date, and that a large percentage of the catch has been between eighteen and twenty-four inches. The percent of sublegal fish has, however, increased on this lake over previous years.

Many of the better South Jersey lakes are continuing to produce good pickeral catches and the Tuckahoe Impoundments, in the Tuckahoe Shooting Ground, appear to be developing into excellent fishing waters as indicated by the increasingly better pickeral fishing that has been experienced so far this year.

### Perch Protection

Porch floors are subjected to excessive wear and all kinds of weather. Special exterior floor paints are manufactured to give the greatest amount of service possible. Cement porch floors, if they haven't been painted before, should first be primed with a special cement primer, then finished with rapid-drying cement floor paint.

### Withstands Heat

Paint made from fish oil is often used as a smoke stack coating. It does not become brittle as rapidly as paints that dry to a harder film.

## 'Dean Of Commuters' To Be Honored By Jersey Central Lines

### Edward Tayler Recently Rounded Out 65 Years Of Riding

Today Jersey Central Lines will honor its "Dean of Commuters"—the man who has completed more consecutive years of daily Jersey Central travel than any other present commuter.

He is Edward Tayler, 79, of Westfield, N. J., who last month rounded out 65 years of daily train riding, and at the same time observed the 65th anniversary of his employ by the New York export-import firm of Smith, Kirkpatrick & Co., Inc., of which he is Vice Chairman of the Board of Directors.

Mr. Tayler and members of his family, representing 4 generations, and a few business associates will be escorted to New York aboard Jersey Central President E. T. Moore's private business car on the head end of Train 902, which leaves Westfield at 8:04 a. m., DST. Breakfast will be served enroute to Mr. Tayler and his party, and newspapermen will have an opportunity to interview the railroad's "No. 1 Commuter."

Mr. Tayler, who will be 80 on December 28, started commuting May 16, 1899, the day he began his first job as a 14-year-old office boy with a predecessor firm of Smith, Kirkpatrick. For 24 years he commuted from Jersey City, first from West Side Ave., later from Jackson Ave. He has been commuting from Westfield since 1913.

## HEART FUND REACHES LARGEST SUM IN HISTORY

The 1964 New Jersey Heart Fund has reached \$263,101, the largest amount ever raised by the New Jersey Heart Association, C. W. Floyd Coffin of Englewood, general chairman of the annual appeal, announced today.

The figure represented a gain of more than 40 per cent over

the \$264,496 raised last year throughout the state. The annual appeal is carried on starting in February, to finance the New Jersey Heart Association's year-round program of professional and lay education, operation of 47 heart clinics in various hospitals throughout the state, and a share of a national research program to develop new ways of treating cardiovascular diseases.

## Editorial

### JUDGEMENT

Now that the schools have been closed on the completion of another term, pupils and teachers are freed from the school rooms temporarily.

Many of the teachers at this time of the year, when they bid farewell to their pupils, experience a feeling of sadness at the parting, and wonder whether or not their efforts to equip their pupils for the battle of life have been as successful as they tried to make them.

There is no way of knowing how productive the efforts of the teachers have been, and sometimes, although they may be discouraged, they have been more successful than would appear at first glance.

Many of the lessons taught sink deeper than teachers sometimes think. For instance, about a quarter of a century ago, a teacher in the local public school, had as one of her subjects history, and when her classes came to the point where the career of Benedict Arnold, Revolutionary War figure was discussed, she spent considerable time in teaching a moral lesson. She would explain that while Benedict Arnold had been labelled a traitor, there was much more to his military record and the fact that before he committed the act that brought about his capture, he had made a brilliant military record and that part of his history, as well as the other should be taken into consideration and given just as much thought.

Too often, people are prone to discuss and stress only the one side of a person's life. The career of the average person is marked by a far greater number of commendable acts than otherwise, and these commendable acts, are too often forgotten and the stress is put on those less commendable.

It is not for us, insignificant living mortals, to make the final decision on the true worth of a man, nor to pass final judgement. That is given to a higher Authority.

Each of us is a combination of saint and sinner, and often the good we do far outbalances the evil and often the mistakes that are made are the result of honest ambition.

THE HOME OF THAT GOOD BLUE RIBBON BREAD

## VETERANS ADMINISTRATION Information Service

Q—My husband, a World War II veteran, died recently. Would I be eligible for VA death pension if my yearly income falls below the \$2,700 limit? I have a young child.

A—You should be eligible only if your husband had a service-connected disability at the time of his death. His disability, however, need not have been the cause of his death.

Q—I am a disabled Korean veteran, and I'm planning to take on-the-job training under Public Law 16. Will VA furnish me with supplies I need to pur-

sue my training?

A—Yes, within limits. The kind, quality and amount of supplies will be limited to those commonly required to be owned personally by non-veterans taking the same training. If your disability warrants it, you may be issued special equipment to help you do your job.

Q—I am a Korean veteran who was totally disabled in service. I intend to apply for the special GI permanent plan insurance available to disabled Korean veterans. Would it be possible to have my premiums waived because of my total disability?

A—Yes. You should apply for a waiver of premiums at the same time you apply for your insurance. But be sure to pay the required premium with your

application, and be sure to continue to pay premiums until VA tells you your waiver has been granted. If it is granted, you will get a refund of premiums paid under waiver.

Q—If I get a GI business loan, will I have to operate the business myself? Or could I turn it over to someone else to run?

A—You will be required to devote your personal labor or supervision to the business, either on a full-time or part-time basis.

### Soft Water Better

Fabrics washed with soap in soft water can last one third longer than those washed in hard water.

### Frame Walls

The five elements of a residence frame wall are windows, doors, fire locks, diagonal braces and studs.

## Can you love another's child?

Do you know and love a child? . . . A child in America—where there is blessed food in abundance? Where no child need ever make the choice—starve or steal?

Then share your love a little. Tonight, in that child's name, make a promise to another.

For every child we know and love and feed—somewhere, another child is aching, painfully hungry. In Greece, Korea, India. In the 22 countries CARE serves.

You cannot reach to offer the bread of life to each one, yourself. But you can help. And, now, you can give help that goes on helping.

Send something to the Care Self-Help Program. Send \$1, or \$2. Or \$10, or \$15. Whatever you can. \$10 buys tools—the terribly needed shovels and rakes and hoes (so many were lost in war, or left behind in flight). \$17 sends a plow to Greece (and a man can feed five with its help, where one could barely eat from his labor before). Write CARE, New York, or visit your Railway Express Office.

# New engine power! New operating economy!

## New Chevrolet Trucks... do more work per day . . . more work per dollar!

You save hours on the road. Thanks to new high-compression engine power, you can maintain faster schedules without driving at higher maximum road speeds. Increased acceleration and hill-climbing ability cut your time per trip.

You save extra trips. That's because of extra load space. New pickup bodies are deeper, new stake and platform bodies wider and longer. Also, they're set lower to the ground to make loading and unloading faster and easier.

You save time on deliveries. With new truck Hydra-Matic transmission, you can forget about clutching and shifting—for good! This proved, economical automatic transmission is optional at extra cost on ½-, ¾- and 1-ton models.

You save on operating costs. The "Thrifmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep, too. New Chevrolet trucks are built stronger to last longer. For example, there are heavier axle shafts in two-ton models, bigger clutches in light- and heavy-duty models, stronger frames in all models.

And your savings start the day you buy. In fact, they start with the low price you pay—and they never stop as long as you own a Chevrolet truck. Chevrolet, you know, is America's lowest-priced line of trucks.

Come in and see all the wonderful new things you get in America's number one truck. We'll be glad to give you all the money-saving facts.

## LOOKING BACK 20 YEARS AGO

Continued from Page 2  
nated were Vice President, Maxwell Mayer, Secretary Treasurer, Howard M. Leary; Tall Twister, John Cross; Lion Tamer, Ferd Tedesco; Assistant Lion Tamer and Tall Twister, Lawrence Kenny, Rufus Blodgett and Andrew N. Kivist were nominated members of the Board of Directors for a two year term and Joseph Waga, E. R. Brown Chris Nicholas, Alex Silver and Frank Segrave were nominated for a one year term.

For their work in increasing

membership of the club, three members, Rufus Blodgett, Ferd Tedesco and George Kress were presented with gold keys, the reward of Lions International for their activity. The presentation in behalf of the International Association was made by Vice President Maxwell Mayer. A letter commending the local club members for their work was also received from Roderick Bedaux, President of Lions International.

Three members, John J. Cross, Joseph Waga and Joseph Kress will serve as local club representative to take place tomorrow in Atlantic City.

## June Is Dairy Month

**MILK COSTS YOU LESS:** Above, Miss Reggie Dombeck steps on a "ladder of milk" to present the history of more milk for your money. In 1953, the average industrial worker's pay for an hour bought 7½ qts. of home-delivered milk. In 1930, an hour's pay purchased only 5.2 qts. In 1929 — only 3.9 qts.

This year, milk is even cheaper. Daniel M. Dent, national chairman for June Dairy Month, says: "Milk and milk products are tops for taste, health, and economy."

## BANK AUTO LOANS

Cut the cost of buying that car by financing it through this bank. You will like our low rates and prompt service taking care of all the details for you.

Phone, or come in, for full information.

## AND THERE'S A STYLE FOR EVERY HOME

## Floors of Oak Are Always in Style

More than ever before, decorators and home-makers are planning their rooms around the decorative appeal of attractive floors. Oak floors in particular are widely utilized in this treatment because of their rich natural beauty of grain pattern and coloring, their ease of upkeep and lifetime durability. Long favored for most rooms, oak is available in three general types or styles. The strip style (upper photo) leads the popularity parade.

Economical in cost, it also is highly versatile from a styling viewpoint. Because it is "at home" in dwellings of any price class and blends well with any kind of furnishings, it is the widest used of all hardwood flooring species and types. Unit-blocks (lower left) are well adapted to rooms where a note of formality is desired. It is a modern form of conventional parquet. Plank flooring (lower right) is especially appropriate for colonial and ranch style homes.

### Printing Almanacs

The first printed almanac was a German one, published in Vienna in 1457. The Almanach de Gotha, published at Gotha, Germany, has been printed annually since 1763.

### Non-Skid Rugs

Make scatter rugs skid-resistant. This may be done by fastening rubber jar rings, pieces of inner tube, or strips of adhesive tape to the underside.

### Queer Taste

Mrs. Sarah A. Swope of Lancaster, Pa., celebrating her 100th birthday, nibbled her daily ice-cream cone and explained: "I really don't like ice cream. I just eat it for the cone."

## Thomas English Is Graduated From U Of Pennsylvania

Received Bachelor Of  
Arts Degree Yesterday

The University of Pennsylvania graduated a class of nearly 2,300 at its 196th Commencement, held at 10:16 A. M. yesterday in the Municipal Auditorium near the campus in Philadelphia. Students from 39 states, the District of Columbia, four American territories and possessions and 26 foreign countries were among those receiving degrees in course, diplomas or certificates. Seven honorary degrees were also conferred.

Judge Charles E. Wyzanski, Jr., of the U. S. District Court for Massachusetts, president of the Board of Overseers of Harvard University, delivered the principal address.

Dr. Grayson L. Kirk, president of Columbia University spoke briefly on Columbia's bicentennial theme, "Man's Right to Knowledge and the Free Use Thereof."

Each of the two speakers received the honorary degree of doctor of laws. All degrees were conferred by Dr. Gaylord P. Harnwell, president of the University of Pennsylvania.

Among the graduates was Thomas A. English, of 311 David Street, this city.

**"LOOK!"**  
WINDOW SHADES

So What!  
There once was a king of Egypt named So. He is mentioned only in 3 Kings 17:4, and identification of So is difficult because of the confused state of things in Egypt at the time.

## Building Code Is Available From State Department

Prepared To Aid  
Statute For Uniform  
Regulations

TRENTON—Commissioner Charles R. Erdman, Jr., announced today that the State Department of Conservation and Economic Development is distributing Parts A and B of a State Standard Building Code together with a Manual to every municipal clerk in the State. The two parts of the uniform State Building Code, including General Provisions, Definitions, Structural, Fire and General Safety Requirements, were prepared by the State Standard Building Code Committee and adopted in keeping with the statute providing for the preparation of a uniform building code.

Department officials pointed out that additional portions of the Code dealing with electrical and certain mechanical provisions are being drafted by special committees and are to be processed at a later date.

State statutes provide that any municipality in the State may voluntarily adopt the code by a so-called reference ordinance. The code continues to grant certain discretionary powers to the local building official under the principle of home rule and local responsibility. A State Board of Standards is to be established to continuously modernize features of the code consistent with new devices, materials and methods of construction.

Albert R. Post, Chief of the State Bureau of Planning and Commerce, stated "the purpose of promulgating a State Standard Building Code is to strive for up-to-date uniform administration and construction standards with the State". Post as Code Co-ordinator, emphasized that the code would save the municipalities thousands of dollars since its adoption by reference would be in lieu of preparation and publishing costs. He called attention to a comprehensive index for ready use as an innovation of the New Jersey Code.

The State official indicated that a wide demand for the code implied that it would be adopted in many municipalities of the State.

## PAUL B. SUMPTER MADE ASSISTANT CHIEF BY JERSEY CENTRAL P & L

Paul B. Sumpter, former electrical engineer for the Electric Bond and Share Company, New York, has been appointed assistant chief engineer for Jersey Central Power & Light Company, Charles A. Dougherty, chief engineer for the local utility, announced.

Mr. Sumpter will be responsible for the technical supervision and operation of all substations. Mr. Dougherty stated. He will also make technical studies for advance planning on new facilities and for additions to existing generation, transmission and substation installations.

Light from Amber  
Thales in 600 B.C. observed that amber when rubbed attracted light substances; and this observation followed out has led to the present science of electricity.

## Ladies Night Event For Rotary On Tuesday

Rotary Award Winners  
Were Guests Of Club  
Tuesday

Because of the Ladies Night celebration to be staged at the Ohl-am Chateau at Mountain View Tuesday evening, the regular luncheon meeting of the South Amboy Rotary Club will not be held, it was announced by President Tustia at the meeting on Tuesday of this week.

Reporting on arrangements for the affair, Donald Reed, the club program chairman, announced that dinner will be served at 8 and music will be furnished by George Ruddy and his orchestra, while Ernie Christofferson will be in charge of the entertainment. There will be dancing until 1:30.

On Tuesday, William Keller of Hoffman High and Ned Faircloth of St. Mary's High, the winners of the Rotary awards for the local high schools were the club guests and each was presented with cash award. Also among the guests was John Gleason, the son of Police Chief John Gleason, a cadet at the West Point Military Academy.

Other visitors were; E. Wither Clauson of Plainfield, Benjamin Falk, Philip Costello, S. Gusewica, William McGough, Eugene Mullen Tony Eckert and Emmett E. Nixon of the Perth Amboy Club, and William Morrison of the New Brunswick club.

## RIDERS FROM SEVEN STATES EXPECTED AT HORSE SHOW

Riders from seven states are expected to compete for prizes at the New Brunswick Horse Show July 10-11 in Johnson Park. Prize lists have been sent to 750 exhibitors.

Expected to vie for the 62 classes in 10 divisions are exhibitors from Pennsylvania, Maryland, Delaware, Connecticut, Massachusetts, New York and New Jersey.

A brand new ring has been constructed for this year's show. Additional cedars have been added to the brush jump, and a renovated paddock awaits this year's entries.

Pony rides will be available for children who attend the two day show. T. C. Bennett of Spotswood will operate the pony ride.

## JUBILEE REGATTA TO BE HELD AT CARLSTADT

TRENTON—The 26th Anniversary Silver Jubilee Regatta, scheduled to be held on the Hackensack River, Carlstadt, N. J., on June 20, will furnish spectator entertainment for vacationers in the northeast section of the Garden State, it is announced by officials of the New Jersey Department of Conservation and Economic Development.

Sponsored by the New Jersey Outboard Association, and sanctioned by the American Power Boat Association, the regatta is expected to attract capacity numbers of boating enthusiasts.

Most Useful Meals  
Breakfast and lunch are the most useful meals, as foods eaten early in the day are digested and absorbed largely during the most active hours when the body really needs them.

## Progressive Fire Co. To Conduct Truck Fund Drive

Dates Set For  
Envelope Distribution

Chester Jankowski, president of the Progressive Fire Company has announced that on June 24th and 26th firemen will deliver contribution envelopes to the people of the Fourth Ward in a drive to help defray costs of their newly purchased emergency truck.

On Monday and Tuesday, June 24th and 26th the envelopes will be picked up between 6 and 9 o'clock in the evening. The emergency truck was purchased by the Progressive Fire Company out of their own funds without cost or burden on the City or the taxpayers of South Amboy. This emergency apparatus costing upwards of \$4,000.00 will be registered and on call with the Civilian Defense authorities in event of an enemy attack or any other catastrophe. Mr. Jankowski expressed confidence that the people of the Fourth Ward will answer this call for aid generously as they always have in past endeavors of the Progressive Fire Company.

## CHEST X-RAY PROGRAM HERE IS SET UP

The Middlesex County Tuberculosis and Health League with the local Board of Health cooperating, will hold a chest x-ray program at the headquarters of the South Amboy First Aid and Safety Squad, on June 26th, from 2 to 5 P. M. and from 6 to 8 P. M.

The results will be confidential, and only the person and family doctor will know them.

Patrick Vona, of the Board of Health, who arranged for the test, urges that all food handlers take advantage of this opportunity to have chest x-rays taken.

## RUTGERS WILL COOPERATE WITH TRAINING PROGRAM

NEW BRUNSWICK—Rutgers University will join forces with the State Department of Health to provide the first experimental course in a training program for homemaker service, it was announced here today.

The course grows out of the New Jersey Prevention of Chronic Illness Act of April 1952, which provided that as part of the total program of preventing, caring for, and rehabilitating the chronic ill, the development of homemaker services would be stimulated throughout the State. The new training program provided by Rutgers will serve to develop a corps of homemakers in local communities.

The course, as developed by the State University and the Division of Chronic Illness Control of the State Department of Health, provides training in homemaking activities, nutrition, and menu planning. It will give orientation in interpersonal relationships and help to develop a sensitive understanding of the problems of the family group.

## FELLOWSHIP PICNIC HELD ON SATURDAY AT JOHNSON'S PARK

When the first annual picnic was held Saturday at Johnson's Park, more than 425 children and adults attended the event sponsored by the Child Evangelism Fellowship of Middlesex County.

Those on hand, represented 18 municipalities in the County, members of 31 Good News Clubs, organized by the Fellowship.

There were various games for the children and the music was provided by the Reverend William Blackely, former pastor of the local First Baptist Church. The invocation was offered by the Reverend Wilbur N. Pike, pastor of the First Methodist Church of this city.

To Panish Pancho  
Gen. Pershing entered Mexico to panish Villa in the year 1916.

## IN SERVICE

John H. Taylor, aviation ordnanceman third class, USN, son of Mr. and Mrs. Hubert M. Taylor of 1 Dodd pl., South Amboy, N. J., and husband of the former Miss Phyllis M. Butler of Somerville, Mass., is aboard the support aircraft carrier USS Layte, participating in a major anti submarine development exercise.

The training began on April 28 and involves over 50 air, surface, and submarine units Bermuda and the Bahamas. Designated ASTEVEX 1-54, the operation was planned and scheduled by the Operational Development Force, U. S. Atlantic Fleet, under the command of Rear Admiral Harold D. Baker, USN, to explore the tactical application of specific new developments in anti submarine warfare. The exercise covers the various phases of convoy protection and detection of submarines by Hunter-Killer Groups.

**7TH DIV., KOREA**—Army Pvt. Richard W. Coleman, son of Mr. and Mrs. William Coleman, 442 Harding Rd., Laurens, S. C., recently arrived in Korea for duty with the 7th Infantry Division.

Men of the "Hour Glass" division are undergoing intensive training to maintain the peak combat efficiency displayed by the unit from Pusan to the Yalu river.

Coleman, assigned as a radio operator, entered the Army in July 1953 and was last stationed at Fort Monmouth, N. J.

**NEW YORK, N. Y.**—Major Lawrence F. Snoddy, Jr., USMC, just back from Korea, recently

assumed the duty as Officer in Charge of the Marine Corps Recruiting Station, 346 Broadway, New York City. He relieved Lt. Col Carl W. Hoffman, USMC who is slated for duty overseas.

Major Snoddy served in Korea with the 1st Marine Division from April, 1953 to April, 1954. He was awarded the Legion of Merit with Combat V for outstanding meritorious service.

Major Snoddy is also a veteran of World War II having served with the 3rd and 4th Marine Divisions. His tour with the 4th Marine Division took him through campaigns at Roi-Namur, Saipan, Tinian and Iwo Jima. He wears the Purple Heart with Gold Star for being twice wounded at Iwo Jima.

The Major, born in Charlottesville, Va., was graduated from the University of Virginia, receiving the Degree of Bachelor of Science in Commerce in 1942. He received a Master of Arts Degree from Northwestern University, Evanston, Ill., in 1950 after studying Personnel Administration and Training there as a Marine.

Major Snoddy is married and has two children. He lives with his family at 118 Magnolia Avenue, Tenafly, New Jersey.

Major Snoddy is the son of Mr. and Mrs. Lawrence F. Snoddy of 673 Evergreen Avenue, Charlottesville, Va.

Thomas R. Zadlock, F.A.U.S. N., son of Mrs. Agnes Zadlock of 122 Henry Street, recently completed his boot training at Bainbridge, Md. and is now serving aboard the USS Columbus. His present address is: Thomas R. Zadlock, F.A.U.S. N., Columbus, C. A. 74, P. O. New York, N. Y.

## What's The Use?

A housewife on Arthur Godfrey's program gave this recipe for iced tea: "First you make hot tea, then you pour it on ice to make it cold. Next you put in sugar to make it sweet, then you put in lemon to make it sour."

## Bath Damage

Annual loss from moth damage in the United States runs somewhere between 25 and 100 million dollars, and the national bill for the war against moths amounts to about 20 million dollars every year.

## MAYOR OLSEN LAUDS HOFFMAN

(Continued from Page 1) long term as a city firemen had resulted in making it possible for O'Leary to lend valuable assistance to the Council in fire department matters.

Mr and Mrs Walter Peterson of 236 Second Street, appeared before the Council and declared they had been refused fire insurance on their home because of its proximity to a building on Broadway near Main Street, owned by Mrs Lillian Briggs, that was seriously damaged during the 1950 explosion and has been labelled a fire trap. Mayor Olsen, and Councilman O'Leary and VanDerveer assured them that the matter is being given attention and they promised results within a short time, since plans for its demolition are now under way.

Councilman Jankowski reported that a number of people had protested to him that local attorney Francis Reps, retained by the Board of Education as their attorney had allegedly visited people in the vicinity of the John Street, school telling them that they might either have to sell their homes or move out, to give the Board of Education the land they need for a proposed addition to the school. It was agreed that this matter will be taken up when the Board of School Estimate holds a meeting tomorrow night.

## TOPICS

(Continued from Page 1) over when school will be out on Capitol Hill. Majority leader, William F. Knowland, still thinks they can close up shop by July 31st. Minority Leader Lyndon B. Johnson, says it will be August 15th, at the latest.

We sort of hope Senator Johnson is right. We suspect that the sooner they knock off, the more it will cost us, in appropriations that are rushed through. But then, we don't have to go out and get elected this fall.

Boats are wonderful things, but we would never have envied the ancient Cheops that 150 foot, six deck, perfumed funeral yacht Egyptologists found moored next to his official pyramid. Nor do we think it could have transported his soul to the next world, as intended. In crossing the Styx, there are no first, second or third class passengers. It's just a case of sink or swim.

Defense Secretary Charles E. Wilson attended the inauguration of Chain Kai-shek for another term as president of Nationalist China, and later dined with the Generalissimo in Taipei.

Half the world away, Britain's Prime Minister Anthony Eden supped in Geneva with Russia's Prime Minister Molotov. And, with the caviar, the conversation with "whither Asia". At the Geneva dinner table, the discussion was to revolve around an immediate truce in Indo-China. Molotov's willingness to even talk about it, was hailed as the one and only Russian concession of the Alpine talkathon.

Apparently, since the world's statesmen have been disabused of that old idea that the pen is mightier than the sword, they are talking to the knife and fork.

We learn from a study on revision of the UN charter released by Chairman Alexander Willet of the Senate Foreign Relations Committee, that the question comes up automatically in 1955, and the US will urge a review conference. While Russia can veto all amendments, Francis O. Wilcox, staff expert, still thinks the review is a good idea. He also admits that we would probably object to a revision that would empower the UN to use our soldiers without our consent. Maybe it would be simpler to merely object to the UN—and stop paying for it.

## MASTER OF ARTS DEGREE CONFERED ON MRS. E. M. FAIRFIELD

Among those who were graduated from New York University at commencement exercises held recently, was Mrs. Ethel Mundy Fairfield, of Seaside Park, N. J. and formerly of this city, who received a Master of Arts Degree, from the School of Education.

Mrs. Fairfield is the daughter of Mrs. Oscar M. Mundy, of Bordentown Avenue, and was an honor graduate in the Hoffman High School class of 1941. She received the degree of Bachelor of Arts from the Montclair State Teacher's College, and spent three years as a teacher in the Metuchen High School.

### A Few Suggestions About Wedding Pictures

"FIRST BITE," a Sylvania "Folks are Fun" prizewinner, shows one of the "must" pictures at any wedding. The photo was taken at 1/100 sec. at f 16 with a Press 25 flashbulb.

IF someone in your family is going to be married in June, now's the time for you to start thinking about taking pictures of the wedding.

Taking wedding pictures is one of the most exciting and most rewarding events. The bride and groom are always so happy to receive the photos that you get an extra thrill out of making the pictures.

But, there are one or two suggestions about wedding pictures that you should keep in mind.

First, never offer to take one picture. There's so much that happens at a wedding that you invariably must do a series. How many is up to you, but some professional wedding photographers

take as many as 100 pictures at one wedding!

Second, plan the pictures you want beforehand; you'll be able to organize your shooting better.

And third, make sure your flash camera is in good operating condition. Check it carefully and test it thoroughly before you get to the wedding. For if you miss any shot because of faulty camera operation, you'll never again be able to get it again. Have fresh batteries in your flash attachment. If you think the wedding may be so crowded that you'll get jostled, use SF type flashbulbs, which give you a quick action-stopping light.—Dick Martenson, Sylvania Photo Editor.

### Asbestos Siding Aids Transformation

## HOW TO MAKE AN OLD HOUSE LOOK NEW

Just to test the practicality of their remodeling counsel, the editors of a home maintenance magazine decided recently to conduct an on-the-job demonstration of house re-siding. They selected a dilapidated farm dwelling (inset, upper left) the exterior of which was so bad that it couldn't keep out rain and snow. The foundation and framing was sound and plumb, however, so all that it needed to make it weather-tight was a new exterior covering. Asbestos-cement

siding shingles were chosen for the job, with the results shown in the larger picture above. For only slightly more than a good paint job, the house has been made safe against the elements, given a fresh, handsome appearance and restored to usefulness. It also has gained fire protection from its asbestos covering. The only structural change was the addition of a porch. While white was used here, asbestos siding also comes in many beautiful new colors.

## Will you invite a hungry child to dinner tonight?

If she stood at your door tonight . . . or looked in through your window . . . you'd lead her in. You'd heap her plate, and hide your tears.

But she's half a world away. Nevertheless you can, gently and kindly, share your dinner.

For it's easy to send overseas a CARE package to the needy. If you have no friends overseas who need help, why not help a stranger? Just \$10 buys the food of the country, for whatever country you choose. Soon, you'll get news of exactly where it went.

With CARE, you always know whom you're helping, and how. Many persons have made lasting ties overseas with strangers they first helped through CARE. Write CARE, New York, or visit your Railway Express Office.

## THE EMPHASIS IS ON SALESMANSHIP

At intervals leaders in the field of retail trade hold conventions and meetings, in which they discuss matters of common interest and exchange ideas.

It's highly significant that at recent gatherings of this nature, the strongest kind of emphasis has been placed on the need for better salesmanship. This includes advertising, displays, and other promotion. It further includes improvement in the general caliber of salespeople—the men and women who represent the store to the prospective consumer, and whose abilities and attitudes and knowledge may mean the difference between a good record and a bad one in any retail enterprise.

What we have here is more proof of how intensely competitive all retail business has become—and how the consumer and his desires dominates present-day thinking in retail circles. There was a period, during and after the war, when it was possible to sell practically anything, even if shoddy and over-priced, and when real salesmanship wasn't needed. That era has gone with the wind—and the successful retailers of the present are those who offer their wares most attractively, and who give the best value and service for the money.

Wise retailers know that this is good for the long-run welfare of their industry. And its benefits to the consumer are too obvious to need describing.

## NOT IN THE PUBLIC INTEREST

It is widely felt that the new omnibus-type tax bill passed by the House and now before the Senate is, in many respects, a praiseworthy step in the right direction. However, the measure is a long and complex one, and it contains certain changes in tax law and procedure which leading experts feel would impose a serious and unnecessary burden on business.

One of these involves a step-up in corporate tax payments. All corporations with an income tax liability in excess of \$50,000 would be required to prepay their tax in part. Without going into the technicalities, the result would be that the corporations affected would have to pay the equivalent of 110 per cent of their normal tax liability in each of five years beginning in 1955. To all intents and purposes, that is as if the present corporate tax rate of 52 per cent, which is certainly extremely heavy, was raised to 57.2 per cent.

This would be very different for certain important types of business, such as retailing, where the year's profit or loss depends on fourth quarter results. Taxes would have to be paid on profits not earned at the time of payment. Thus, working capital would be reduced when it was most needed.

Major business organizations, such as the American Retail Federation, the National Retail Dry Goods Association, the Chamber of Commerce and others, have vigorously protested this proposal. The country wants and needs maximum business activity and anything inimical to that is certainly not in the public interest.

## MEAT SUPPLY INCREASING

In many parts of the world, especially those where totalitarian systems exist, meat is a rare luxury so far as the masses of the people are concerned. The price is invariably sky high and the quality is frequently very poor.

It's another story entirely in this country, with our free competitive economy. This year, if weather expectations hold, our total meat production will be some 25,000,000,000 pounds, 160,000,000 pounds over last year's figure, and second in history only to the 25,200,000,000 pound record achieved in 1944. This works out to a per capita supply of 151 pounds.

So far as price is concerned, meat now is actually cheaper than in most past periods—if we measure the price with the barometer of consumer income and purchasing power. In other words, the average industrial worker can

buy more meat with the pay he gets for an hour's labor than used to be the case. This simply means that increases in wages have outrun increases in meat prices.

As the years roll by, this country will need steadily rising meat production, for two reasons. One is our booming population. The other is that, according to the dieticians, meat has an extremely beneficial effect on physical and mental vigor. The way to assure an abundant supply is to maintain the free market system.

## SOCIALISTS NEVER GIVE UP

The socialists, and those who follow the socialist line in whole or in part, may suffer set-backs—but they never give up. They keep right on working, with undiminished zeal, to bring about an era in which the government will own and boss and run just about everything.

Next November, if the sponsors of an initiative petition are able to get enough signatures, the voters of Idaho will be called upon to pass on a measure whose obvious purpose is the total socialization of electric power and communications systems in the state. The petition, incidentally, runs to some 6,000 words, and it is an extraordinary voter indeed who will read and understand it.

Of the Idaho matter the Oregon Voter said: "This is one of the most drastic and far-reaching socialization moves ever proposed in the USA. Signatures are being obtained largely through the indefensible claim that through operation of the act the signer can assure himself a saving of 40 per cent both on power bills and telephone bills. Naturally, it says nothing of the big tax losses which would fall back upon the taxpayers."

Even that isn't all. The language of the act is so broad, the Voter points out, that it could be construed as authorizing the state to enter "the telegraph, radio and television fields as well—perhaps even into the news press and newspaper fields."

Many people sincerely feel that in the last year or two a real brake has been applied to the socialist drive, and that our worries in this regard are pretty well over. This Idaho situation shows how mistaken and how dangerous that point of view is. And it shows further that, today as in the past, eternal vigilance is the price of liberty.

## WHERE OUR STRENGTH LIES

Granville Hicks is a writer who, out of idealistic motives, became a convert to Communism and was for a time editor of The New Masses. Eventually bitter disenchantment set in and he is now strongly anti-Communist.

In a book describing his experiences, Mr. Hicks says of the United States: "We are strong because we have come reasonably close to doing what Russia, in spite of all its promises, has failed to do. We have made industrialism serve the interest of all—or almost all—the people. This is the country in which the revolution of our times is most advanced. If we use our strength wisely, we can win the war, cold or hot."

## COAL, POWER AND THE FUTURE

Quite naturally and properly, there is a vast amount of discussion over harnessing nuclear energy for peacetime work, particularly as a producer of electric power. A danger is that this may make many people believe that such developments are just around the corner, and that other energy sources are becoming obsolete.

Some important clarifying light has been thrown on the matter by the president of a major power company which is intensively investigating the use of a nuclear furnace in the thermal generation of electricity. Early in his address he pointed to the tremendous mechanical progress within the electric industry as it is now constituted, brought about in large measure by the cooperation of the coal industry. He observed, "Coal has consistently been used as the source of energy for the major part of the electricity generated in this country, and continues to be increasingly important in this respect."

Later on he said, "Because of the scientific and engineering problems involved, and without regard to the economic factors, atomic power probably cannot become substantially important in the matter of total power supply within the next ten to twenty years. The expansion of our present conventional fuel burning facilities must continue — It is my thought that the need for coal for power generation will continue at well above its present level for many years."

In sum, coal, far from being near-obsolete as an energy source, becomes a bigger factor all the time.

Cause of Glaze: The gloss of paint is due to a layer of oil on the surface. Auto Producer: Michigan leads the world in production of automobiles.

## KNOW YOUR GOVERNMENT

## FEDERAL PERSONNEL REDUCTION HERE

The Federal Government had 52,229 employees working in New Jersey at the end of 1953. The total represented an overall decline of nearly four per cent from June to December, last.

Numerically there was a drop of 2,126 Federal employees within the State between June 30 and December 31, according to a report issued recently by the U. S. Civil Service Commission. This showed the bulk of decreases occurred in the Department of Defense. On the other hand, an increase of 383 employees was reported for the Veterans Administration within New Jersey.

The June-to-December decline in Federal employment within the State was computed by the New Jersey Taxpayers Association at 3.9%. This was in contrast to the 1.9% decline recorded for the full fiscal year which ended on June 30, last. During the preceding (1951-52) fiscal year, there was an increase of 4.2%. Employment reached a total of 55,404 on June 30, 1952.

## Capt. Daniel Dunn Is Named To Post Of Safety Director

Former Resident Is  
Retired Officer Of State  
Police

Appointment of Daniel J. Dunn, formerly of the city retired Captain of New Jersey State Police, as director of the Traffic Safety Division of the New Jersey State Safety Council was announced today by Richard V.

Daniel J. Dunn  
Mulligan, President of the Council.

Starting in his new post with the Council on July 1, Dunn's duties will include all phases of traffic safety and facilitation. He will work through school administrators, civic, service, religious, fraternal, business, industrial, labor and similar organizations to enlist support and participation in traffic safety programs and to increase public understanding and public acceptance of the needs, the problems and the methods used in traffic accident prevention.

He served 32 years with the State Police. Appointed a Trooper in 1931, he rose through the ranks, and was promoted to Captaincy in 1941 and made Region Commander with headquarters in Morristown. In that post for 12 years until his retirement late last year, he was in charge of 20 sub-stations of the State Police and responsible for traffic safety and law enforcement in the areas of the 13 northern counties in the state where State Police patrol.

Dunn has a statewide reputation as a traffic expert and a long background of experience in that field. In 1929 he was as-

signed to establish the State Police Traffic Bureau, today considered one of the most efficient organizations of its kind in the country. He has taken special traffic courses in Rutgers, the University of Michigan and the University of Tennessee.

Dunn sees a need today for better trained drivers, adequate highways, stringent vehicle inspections, periodic examination of drivers and greater interest and participation on the part of the public in traffic accident prevention.

For more than 26 years Dunn and his wife, the former Eleanor Bonner of New Brunswick, made their home in Franklin Township, Somerset County and for the past two years have resided at 103 Glenwood Road, Cranford. They have a daughter, Mrs. William Hall of Collingswood.

## KEEN COMPETITION AT OLD BRIDGE TRACK

Shaking off the bad luck that has plagued him here, the old master from White Plains, N. Y., Ray Brown a sentimental favorite, blasted his way through a 26 car field for his first feature win of the year.

Brown, in winning last Friday's event, had to do it the hard way as the bugs were all out of the cars and the boys were running hot. Al Pomponio of Lakewood and Charlie Birdsell of Point Pleasant chased the upper state chauffeur down to the last lap, giving it all they had in a feature that had fans on their feet from start to finish.

With Friday night's card expected to lure some of the East's top stars a new feature winner will claim the victory flag, unless the books change and repeaters return.

Friday night's action is slated to go off at 8:30 under the lights.

### Egg Weight

A hen's egg weighs an average of two ounces and measures 2.27 inches by 1.72 inches.

## City Gets Two Plaques For Safety Record

Police Department  
Lauded For Record

The record of no automobile accident deaths in this city for a number of years, of which Chief John T. Gleason, and the other members of the department are so proud has been officially recognized with the presentation of two plaques by automobile associations, working with police departments of the nation to cut down the highway death toll.

The plaques were recently received by Mayor Olsen and Gleason in behalf of the city.

One of the them is from the National Safety Council, and the other from the Automobile Association of New Jersey.

Accompanying the plaque from the Automobile Association of New Jersey was a letter of commendation from William Green, President of the Association, who told the Chief, "It is gratifying for us to be able to present you with this plaque, which signifies that your town has been fortunate not to have had any deaths due to automobile accidents, for the year 1953.

You and your force are to be highly commended for the constant good work and efforts you have expended in behalf of the citizens of your town, in the field of traffic safety.

We sincerely hope that you will continue this excellent work, to the end that the tremendous toll of lives lost, and people injured by traffic accidents, can be substantially reduced."

## Summer Schools For Labor Groups Planned For Rutgers

C. I. O. Classes On  
June 20th To Open Series

NEW BRUNSWICK— The Rutgers summer schools for New Jersey labor groups will get under way here June 20 with the New Jersey CIO School for electrical and rubber workers. All meetings of this school and successive ones during the summer will convene on the New Jersey College for Women campus.

This year's New Jersey CIO School, which runs from June 20 through June 26, has been designed for delegates from local CIO unions throughout New Jersey Co-operating in the conduct of this school are the National CIO Education Department, the New Jersey State CIO Council and the labor Program of the Rutgers Institute of Management and Labor Relations.

The New Jersey CIO School will be followed on July 11 by the Fifth Annual Summer School for the United Steelworkers of America-CIO. This group of delegates representing New Jersey Districts 7 and 9 will convene Sunday, July 11 through Friday, July 16.

Following the steelworkers, the Annual Summer Workshop in Education Methods and Techniques for labor education workers throughout the country will meet at Rutgers from July 17 through July 31. This workshop will bring together local union officers, foreign trade unionists

in workers' education. Students will take part in seminars in economics, government, and workers' education projects. This workshop is conducted by an independent advisory committee drawn from AFL, CIO, and independent unions, former students and local workers' education leaders.

The Twenty-fourth Annual Rutgers AFL Labor Institute, featuring state, national, and world labor issues will meet at Rutgers August 2 through August 4. This annual labor school for State AFL leaders is sponsored by the New Jersey State Federation of Labor and the State University's Institute of Management and Labor Relations.

Delegates attending the labor summer schools will participate in daily classes in labor history, national labor legislation, international relations, and timely state and national issues, such as the impact of atomic energy and problems of world trade. Workshops are scheduled for them in typical union problems, with dinner meetings planned each evening at which the delegates will hear leading labor and political leaders on such questions as the nation's economy, guaranteed wage, and world affairs.

### Flavor and Moisture

Left-over lamb should be stored in a covered container in the refrigerator to preserve its flavor and moisture.

### STORY TELLER

Lovely Madeleine Carroll is the hostess actress for Mutual's "Story Time" drama aired Mondays through Fridays. The broadcasts are serialized adaptations of popular romantic adventure novels.

## St. Mary's Grammar School Graduates 92

Certificates And Awards  
Presented By Magr.  
Sullivan

There were 92 members in the graduating class of St. Mary's Grammar School, who received diplomas on Monday evening, when the ceremonies took place in the church.

The Right Reverend Magr. Francis J. Sullivan presented the certificates and awards, and delivered the principal address. He told the graduates they were on the threshold of more important studies in the Catholic viewpoint and admonished their parents to expend every reasonable effort to continue their education under Catholic auspices.

Prizes were awarded to Gertrude Colucci for excellence in religion, presented by the Parent Teacher Association for highest scholastic averages, the gift of the Knights of Columbus to Gerald Seaman and Patricia Ellison, and the American Legion award to John Mullane.

## DOG CLINIC DATES ARE SET

Patrick Vona of the Board of Health, has announced that arrangements have been completed for a local dog clinic to be held here on Tuesday, June 22. The stations will be located at the Mechanicsville Fire House on Raritan Street, from 6 to 8 P. M. and Wednesday, June 23 at the headquarters of the Protection Engine Company, from 8 to 9 P. M. Dr. L. B. Kormblatt of Metuchen will be in charge.

All residents are urged to take advantage of this free protection against rabies for their pets. The Board of Health has called attention to the fact that dog bite cases are on the increase and even licensed dogs will not be permitted to run at large, and all of them must be leashed.

## WE ARE AT YOUR SERVICE TO HELP YOU HONOR DAD ON FATHER'S DAY

- 1 — A certified check in the amount of 5% is to be submitted with the bid.
- 2 — Bids shall be submitted not later than 8:00 P.M. on Wed. June 23rd, 1964 at the office of Supt. of Schools in the Hoffman High School in the City of South Amboy.
- 3 — Examination of the Building may be arranged by contacting the Supt. of Schools, James F. Tustin at the Supt. office in the Hoffman High School.
- 4 — The Board of Education reserves the right to reject any and all of the bids.

Signed The Board of Education

## Motorists Still Take Chances At Railroad Crossings

### Many Deaths As Result Of Disregarding Warnings

Red lights flash and bells sound their warning that a train is approaching—but many motorists still take chances and drive across the tracks in a race with death.

So, accidents on railroad grade crossings still take an annual death and injury toll despite the modern warning equipment and never-ending attempts to educate drivers as to the dangers of such unthinking practices, declares Edward P. Curran, Safety Director of Keystone Automobile Club.

"Many grade crossing accidents happen," he said, "because drivers apparently are not aware—or forget—that it is always dangerous to drive across the tracks while red signals are flashing ever after the train has passed. Normally, this type of signal stops flashing when the last car of the train has cleared the crossing. But, if it continues to flash after a train has passed that is a certain indication that another train is approaching."

"Impatient and foolhardy motorists often approach a railroad crossing when the red lights and bells are warning that a train is approaching, calculate the train's distance away, and speed across the tracks. If calculations are correct and the car's engine and gears perform perfectly, the driver gets away with it. If anything at all goes wrong, there's a bad accident. Sometimes the driver of a car at the head of a long line waiting at the crossing is goaded into taking a chance by impatient horn-blowers behind. In other cases, some drivers just don't appear to see or hear the warning."

"Ignoring or 'jumping' the railroad crossing warning is extremely foolhardy and dangerous. The sensible driver waits until everything is 'all clear' in all directions."

### FORMER SERGEANT WAS PURCHASER OF MILLIONTH BOND

A former Air Force sergeant, whose 17 years of employment with Public Service Electric and Gas Company was temporarily interrupted by a two-year hitch in World War II, was the purchaser of a \$50 Government Savings Bond recently, the one-millionth bond bought by an employee under the company's payroll savings plan. The occasion was marked by a representation ceremony in the office of Lyle McDonald, Chairman of the Board of Directors, with Donald C. Luce, President, looking on.

Robert Krewson, a storeroom bookkeeper at the Elizabeth Commercial office, was presented a United States Treasury Department Citation by Mr. McDonald, commending him for his participation in the company's program. Mr. Krewson said he was a firm advocate of the company's payroll savings plan, having been a participant since it started in 1941, and remarked that it was "one sure way" of putting some money aside for the proverbial "rainy day."

## Funeral Rites Here Today For Mrs. A. Spangenberg

Mrs. Anna Marie Spangenberg, of 22 East Green Street, Woodbridge, a former local resident, died at the South Amboy Memorial Hospital on Monday.

She was born in Denmark, and was the widow of the late Thomas Spangenberg.

She was a member of the First Presbyterian Church of this city, and is survived by two sisters, Mrs. Elizabeth W. Hanson, with whom she made her home, and Mrs. Sena Schmidt, of Flemington, and three nephews and a niece.

A funeral will be held this afternoon at 2 o'clock, from the Mason Funeral Home, 241 Bordentown Avenue, with the Reverend James Anilowski, former pastor of the Presbyterian Church here and now of Paterson, officiating. Interment will be in Christ Church Cemetery.

## Funeral Rites For Edgar Lucas Held Monday

Edgar M. (Benny) Lucas, of 128 Harbor Way, Laurence Harbor, died at his home suddenly Friday afternoon.

He was born at Kylertown, Pa., and was employed by the Richmond Radiator Company in Raritan Township, as a kiln operator.

He served one year in the United States Army and is survived by his wife, Edith (Edwards) Lucas, two sons, Edgar F. of Fords, John with the U. S. Air Force, stationed at the Yuma, Arizona Air Force base, and a stepson, Walter Stahlehl, of Cliffwood; two daughters, Margaret Lucas of Perth Amboy and Mary Stahlehl, of Cliffwood, two grandchildren and three brothers, James of Julian, Pennsylvania, Frank of Philadelphia and Oscar of New York, and a sister, Mrs. Bertha Barkman of Chicago.

A funeral was held Monday afternoon at 2 P. M. from the Mason Funeral Home 241 Bordentown Avenue, when the Reverend Hillman T. Williams of the Calvary Methodist Church of Keyport officiated. Interment was in Christ Church Cemetery, this city.

The bearers were: Julius Batha, Michael Radd, John Kearston, Earl Marse, Victor Breiten and Brian Christman.

Think, save a life today.

## James J. Dwyer Sr. Was Pensioned From The P.R.R.

James J. Dwyer, Sr., of 313 Augusta Street, retired from the service of the Pennsylvania Railroad, where he was for many years employed in the Shipping Agent's office, died on Thursday.

He was the husband of the late Anna A. Sutliff Dwyer, and is survived by a daughter, Mrs. Dorothy Powers, two sons, John E. and James J. Jr., and two sisters, the Misses Dorothy and Gertrude Dwyer.

A funeral was held Monday morning at 9:30 from the residence and at 10 o'clock at St. Mary's R. C. Church, where a solemn high mass of requiem was celebrated. Interment was in St. Mary's Cemetery.

The celebrant of the funeral mass was the Reverend Joseph Sutliff, with the Reverend George Everitt, the deacon, and the Reverend Edward Nester, the sub-leacon. The Right Reverend Francis Sullivan and the Reverend John Grimes were in the sanctuary.

Mr. Dwyer was a member of Council No. 426 of the Knights of Columbus of this city, the Holy Name Society of St. Mary's Parish, the Pennsylvania Railroad Holy Name Society, The Exempt Firemen's Association, Brotherhood of Railway Clerks. He was a former member of the Enterprise Hook and Ladder Company.

The bearers were: John Purcell, Joseph A. Smith, Frank Stanton, John Novak, William Crozier, and William Delaney.

### Highly Sensitive

Scientists have invented a pressure gauge so sensitive that it can detect one air molecule out of every 10 billion originally present in a vacuum system. It is 200 times more sensitive than any previously made.

## Last Rites For Mrs. A. A. Henry Tomorrow Afternoon

Mrs. Augusta A. Henry (nee Crammer) of Shelton Cove, Dover Township, Ocean County, and a former resident of Morgan, died Tuesday afternoon at Paul Kimble Hospital at Lakewood.

She was the wife of the late George K. Henry, and was born in Lebanon, N. J. She was a member of the Lebanon Methodist Church, and a former member of the Spotswood Woman's Club.

She is survived by a son Lloyd K. of Morgan, a daughter Mrs. Jeanne Peterson of South River, and two grandchildren.

A funeral will be held tomorrow afternoon at 2 P. M. from the Mason Funeral Home, 241 Bordentown Avenue, with the Reverend Wilbur N. Pike of the First Methodist Church officiating. Interment will be in the Union Cemetery, at Lebanon, N. J.

### Was George Stagg?

George Washington, visiting Barbados in 1781 on his only trip abroad, commented that the island's rum was of excellent quality but "extravagantly dear"—at two shillings a gallon! Under Washington as first President, two shillings were equivalent to the equivalent sum of 46 cents in United States coin.

### Island Group

The territory of Hawaii consists of 39 islands.

SPRIGHTLY STAR

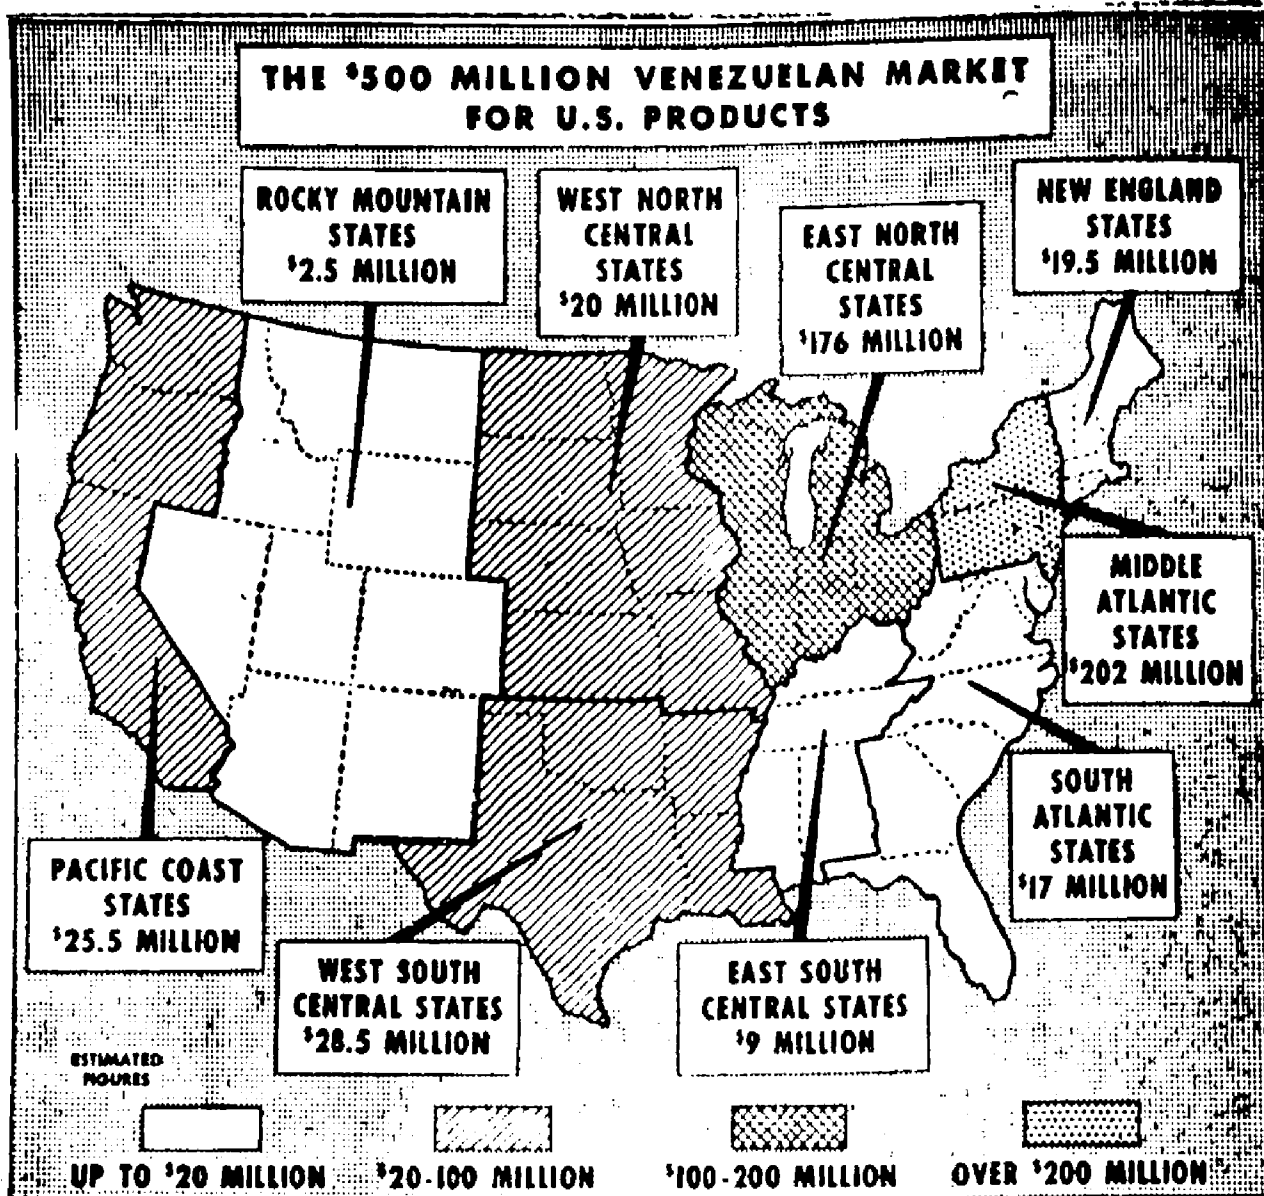

Full of the "joie de vivre" is vivacious Jonnie Paris as she frolics in the country far, far away from the hustle 'n bustle of the city's busy radio studios. Her infectious manner is no small help to Jonnie when she smotes on Mutual's "Counter-Spy" dramas.

Travel Dress

Women who like the classic smartness of a sheath dress can find them now made especially for travel. Silk tweed is the material, trim are the collars and cuffs, gray is a good color, and a black organdie bow at the neckline adds smartness.

Wax Window Sills

The finish of newly painted window sills is likely to be ruined by weather exposure and occasional showers. If you will rub wax on them as soon as they are thoroughly dried, it will keep them in perfect condition.

VENEZUELA—South America's biggest customer for U.S. goods—annually buys more than \$500 million worth of products from United States factories and farms. Another \$350 million of services (such as banking, insurance, etc.) are also provided to Venezuela by U.S. firms. A new independent study shows that exports to Venezuela come from hundreds of cities and towns throughout the U.S. The above map indicates the shares which different regions have in this expanding export market. Figures are estimated on the basis of the study, directed by Econometrics Specialists, Inc., which took in a 36 per cent sample of total export to Venezuela. American ships play a vital part in this trade, said the American Merchant Marine Institute.

## GROWING BETTER CROPS

### Making the Most of Fertilizers

American fertilizer practices have come a long way since the Indians taught the Massachusetts Bay colonists how to better corn yields by fertilizing hills with alewives, in 1621.

Today, a more profitable use of fertilizers is not only an inseparable part of overall good farm management but also essential to the high yields which help lower production costs and improve the spread between those costs and net profits.

For most commercial growers of vegetables and fruits, more profitable fertilizer practices fall into four main categories: knowing what the soil lacks for the specific crop; applying the right fertilizer at the right time; proper placement, and, through experience and consultation with county agent, cannery fieldman and other specialists, knowing how much additional fertilizer would give maximum profitable yield—not necessarily highest yield obtainable.

#### Adequate Supplies

This year growers will find fertilizer supplies adequate. Overall nitrogen, phosphate and potash stocks are expected to be sufficient in most sections, according to Dr. Willard H. Garman, agronomist of the American Plant Food Council, though he notes that shortages of specific materials have already occurred and may again in certain areas. Biggest single problem of the fertilizer industry, seasonal distribution, would be solved, Garman says, by more farmers taking delivery in the fall and winter.

A 10-15 per cent increase in fertilizer supplies over 1953 is forecast by R. L. Cook of Michigan State College department of soil science. However, if present trend of increased use continues, Cook feels that supply will barely meet demand.

Indicative of greater usage is the record of the Ohio Top Ten Tomato Club as summarized by E. C. Wittmeyer, Extension horticulturist, Ohio State University. Among the combination of practices which have boosted average yields of these growers to 16.62 tons per acre in 1953—about 30 per cent above state average—he cites an increase in average fer-

(U.S.D.A. Photo)

Good fertilizer practice begins with soil testing.

tizer application per grower from about 600 pounds in 1948 to slightly over 800 pounds an acre in 1953 of equivalent analysis.

On crops contracted to canners, growers have stabilized prices into which to figure fertilizer costs, as well as a sure market. Though the gamble is thus lessened, high yields—which generally mean higher quality—are vital to the grower's net profit.

#### Placement Extremely Important

Fertilizer placement is extremely important for best yields of canning crops, Dr. K. C. Berger of the University of Wisconsin points out. "With usual rates of fertilization only small amounts of fertilizer are used. These amounts are generally insufficient for maximum profit yields, and it is estimated that in Wisconsin farmers should use five to six times as much fertilizer as they now do for most profitable yields under current price levels."

## YOUR GARDEN

By CHARLES H. CONNORS

Narcissus is one plant that brings up each year a number of questions. Among the most common are: When shall I cut off the leaves? Why do they make all leaves and no flowers?

The reply to the first question is the same for all spring flowering bulbs. Allow leaves to remain until they begin to turn yellow. By that time they cease to function in food manufacture. Flower buds are formed during the period after bloom and food is stored in the bulb for next year.

There may be many reasons why narcissus bulbs produce leaves but no flowers. One may be the removal of leaves before they are ripe. Another common cause is remaining too long in one place. Bulbs normally increase in number, and when the divisions become many and crowded, they fail to produce flower buds.

The process of division is speeded up by supplying too much nitrogen in fertilizer, so go easy with stimulants.

When the narcissus reach this condition, the remedy is to dig them. Separate the bulbs and plant them, each by itself.

The time to dig, of course, is after the foliage begins to ripen. You can then locate them better than after you cut the leaves, or allow them to dry up.

After digging the bulbs, work over the soil in which they are to go, incorporating some well rotted manure, compost or leaf mold. You can dry the bulbs in a shaded, airy place and store them for fall planting. However, narcissus as a group, form roots early, so it is just as well to plant them immediately.

If your soil is well drained, you can plant the bulbs 8 inches deep. In this position they are not so likely to multiply rapidly. On the other hand, the leaves and flower stems may be a little shorter.

### SURVEY WILL ANSWER QUESTIONS ON MARRIAGE

Special questions on marriage will be asked in the June Current Population Survey, according to John B. Lovett, Supervisor of the New York District Office of the U. S. Bureau of the Census.

Persons currently married or separated will be asked the year in which the current marriage took place while those widowed or divorced will be asked the year of their last marriage. Persons married since 1947 will be asked additional questions on number, of times married, state of residence and highest grade of school completed.

The inquiries on marriage are in addition to the regular questions on employment and unemployment which are asked each month in the Current Population Survey which provides official national figures on these important items.

## BUCOLIC MISS

Los Angeles

Week-ending on her suburban farm is a favorite form of relaxation for charming Bunny Shaw. "It puts me in a proper frame of mind for my radio acting assignments," says the actress. She is featured on Mutual's "Squad Room" crime dramas.

Some of the world's greatest paintings have been gradually fading through the years because the colors were mixed with egg yolk. A notable example is the famous "Last Supper" of Leonardo da Vinci, who liked to experiment with the durability of paints.

## Junior League To Start Schedule Next Week

Sponsored by the Recreation Commission, the Junior Baseball League, composed of boys from 13 to 16, will begin action next week at the Sacred Heart field. All games will start at 10 a. m. and the schedule is being prepared.

The members of the teams are: Yankees—Paul Kurta, Joe Check, Paul Viggiano, Andrew Piscatelli, John Standowski, William Ignat, Charles Nonesmaher, John McCabe, Robert Ored, Paul Postach, John Laske, Ray Cavanaugh, John Spina, Jack Murray, Fred Lukie and Mike Brennan.

Dodgers—John Berry, Richard Dowling, George Quirk, Steve Flanagan, George Gominger, Richard Bakos, Charles Beauregard, George Selover, Robert Bloodgood, Paul Ust, Mike Charnello, Fred Decker, and William Reutch.

Cardinals—Ray Stader, Edward Volk, John Phillips, Joseph Phillips, John Graber, Thomas Pristavak, Robert Seagrave, Charles Conroy, Ned Moran, Donald Kohler and Thomas Ryan.

Saved Hearts—Jerry Cross, Stanley Dobrynaki, Robert Cross, John McCloud, Ronnie Ciacalewski, Edward Pietrasaki, Robert Boyes, Edward Condieraci, Frank Kurzawa, James Walczak, Robert Zera, John Kosak, Pat Vona, Art Jaskowiak and Ernest Sinford.

Other boys interested in the league may contact John Norek.

Think, save a life today.

## LIONS AND WEISS ON TONIGHT'S CARD FOR LITTLE LEAGUE

Tonight in the "Little League" the contenders will be the Lions Club and Weiss, and tomorrow night, Protection will meet the P. B. A.

Monday night, the P. B. A. is scheduled to meet the Rotary Club and the Tuesday night contenders will be the K of C and the First Aid, with Weiss meeting Briggs on Wednesday.

In recent games, the Lions downed the K of C, 10-0, the Enterprise won a 9-3 decision over Briggs Chevrolet, the P. B. A. won a 6-2 decision over Hollywood Sales, the First Aid nosed out the Rotary 6-5 and the K of C won 6-4 over Weiss Clothes.

## BRENNAN PREDICTS BIGGEST SEASON FOR MONMOUTH PARK

OCEANPORT—Monmouth Park should have its most successful racing season in history during the 50-day meeting opening Saturday and running through August 9.

That is the observation of General Manager Edward J. Brennan who is beginning his 36th season as a racing official and his ninth at Monmouth.

"The many physical improvements we have made to the Monmouth plant, both for the public and horsemen, and our richest stakes schedule of all time should aid us tremendously," said Brennan. "Racing in general is having a banner year with increases in mutual play at 16 of the 21 tracks where meetings have been completed."

Nickname  
Submarines are also called pigboats.

## Fish Kill In Raritan Bay Shows Clean Up Need

Search For Cause Is  
Being Continued

TRENTON—The recent fish kill in Raritan Bay has dramatically emphasized the need for concerted effort to speed up present plans to eliminate the discharge of domestic and industrial wastes in this area, the State Division of Fish and Game, Department of Conservation and Economic Development, said today.

Law enforcement officers and fisheries biologists of the New Jersey Division of Fish and Game are continuing to search for the specific cause or causes of the severe mortality of food and game species, but to date, neither they nor cooperating agencies in New Jersey and New York have been able to determine the cause.

The problem has been complicated by the heavy mortality of menhaden which occurs annually at this time. Not only is there a possible correlation between this annual kill and the current loss of game species, but also the presence of dead menhaden makes it difficult to locate or measure the kill of other species. Scientists are still seeking to isolate the cause of this menhaden mortality.

Current investigations indicate a heavy discharge of domestic and industrial wastes into the Raritan River and Bay. This is not a new condition. It is probable that these effluents adversely affect marine life, but it would be difficult to charge any one polluter with sole responsibility. Further, since this condition has existed for years without a serious kill, it is probable that certain natural factors involving tides, winds, temperature changes and even the menhaden kill have combined with pollution to cause the condition which developed in late May.

The magnitude of the waste disposal problem in a heavily populated and industrialized area calls for planning and action on both a state and interstate level. In order to save and develop the tremendous recreational and food producing potential of Raritan Bay, all agencies of the State of New Jersey concerned with clean waters are stepping up their efforts to see that current plans for pollution abatement are expedited. With the installation of the Raritan Valley trunk sewers and treatment plants, it is hoped that pollution will be reduced to an extent that will no longer endanger marine life.

## SPECIAL BUS SERVICE TO MONMOUTH PARK

Special bus service, direct to Monmouth Park race track at Oceanport, has been scheduled by Public Service Coordinated Transport.

Buses leave the Pine Street side of the Newark Terminal Building from 10:30 a. m. to 12 noon, every race day. There will also be service available out of Elizabeth and Rahway, the former from Broad and Jersey Streets at 11:30 a. m. and the Rahway trip from Irving and Cherry Streets, at 11:45 a. m.

## Game Farms Carrying Their Full Pheasant Compliment

Day Old Chicks Are Going  
To Youthful Cooperators

TRENTON—Brooder facilities at both the Rockport and Forked River Game farms are carrying their full complement of pheasants, the State Division of Fish and Game, Department of Conservation and Economic Development, announced today.

Because the capacity of the game farms is now filled, distribution of day-old pheasant chicks to youthful cooperators, including Four-H, Future Farmers of America, Junior Sportsmen's organizations, Boy Scouts and Vo-Ag students, started on June 2. On that day 3,800 day-old pheasant chicks were distributed from the Forked River Game Farm to 15 young sportsmen throughout the State.

This was followed on June 4 by the distribution of approximately 6,000 pheasant chicks from the Rockport State Game Farm at Hackettstown to 19 others.

Distribution plans call for allocation of 5,000 pheasant chicks from the Forked River Game Farm on June 9 and approximately 6,000 on June 11. It is contemplated that 28,025 pheasant chicks will be distributed to conservation-minded boys and girls by June 18.

This activity is an integral part of the youth program sponsored by the State Division of Fish and Game where youths interested in conservation activities have an opportunity to participate actively by raising the birds. Last year youthful enthusiasts in New Jersey reared 29,454 birds to a satisfactory liberation age. Birds thus reared were distributed on the open lands of the State to supplant natural reproduction and make a greater number of pheasants available for the sportsmen of New Jersey.

## Douglas Fir Bark

The bark of the Douglas fir as it grows in the West Coast region is being utilized in the manufacture of granulated cork, a plastic filler, an absorbent for explosives, a magnesium floor ingredient, an active ingredient in phenolic adhesives, a soil conditioner and will soon be used in the manufacture of a wax similar to bees wax.

## Tom Elliott Set New Track Record At Wall

Turns In A 7:06.80 Tour  
To Win Feature

BELMAR—Tom Elliott of Bloomfield rolled to a new track record for 25-lap features at Wall Stadium Saturday, by winning the stock car feature in 7:06.80.

In the co-feature, the Midget 25-lap race of the combination program, Steve McGrath of New Canaan, Conn., raced to victory in 6:25.62—three seconds off the record time for midgets.

The victory was Elliott's second of the season as he easily defeated Tom Clark of Red Bank. The feature event was restarted twice as accidents in the early laps caused the red lights to flash. As a result of the mishaps, Bill Pfister of Eatontown, Bill McCarthy of Red Bank, Johnny Zeke of Levittown, Pa., Bill Chevalier of Sayreville and Jack Choquette of Lakewood, Fla., all top-notch contenders, were started in the rear of the 20-car field.

Elliott took over first place in the main event on the fifth lap of the third restart by passing Clark, who had gained the lead on the third lap from Bill Bentley of Lawrence Harbor.

He was hard-pressed by Clark for about ten laps, before pulling out to an easy win. Richie Hall of Toms River ran a steady race to third place, while McCarthy was fourth and Choquette fifth.

Charlie Dwyer was top sportsman driver finishing sixth in the feature stock event, while Sam Mahach was seventh and Zeke eighth.

In the midget race, it was a tight battle throughout between the winner and Fred Meeker of Fairfield, Conn. Bill Compton of Sellersville, Pa., an early leader, finished third and Bert Brooks of Newington, Conn., fourth.

McGrath had won his heat race, while other preliminaries went to Brooks, Vern Lard of North Bergen and Charlie Miller of Allentown, Pa.

Winners of preliminary stock car events were McCarthy, Clark and Len Brown of Hope.

## In Hospital Longer

A physician at Svendsborg, Denmark, reported that hospitalized fat people stay there an average of five days longer per visit than hospitalized normal-weight or thin people.

## ONCE A YEAR

THE BIG DAY FOR DAD ROLLS AROUND

when

## FATHER'S DAY

arrives, and he's king for a day.

Naturally you'll want to give him a present he will appreciate and that will be useful, and naturally, you'll get it at Bob's.
