

Landfill Board's Choice For Proposed High School

The Board of Education last evening released schematic drawings prepared by Architect Thomas A. Vail for a new high school that could be built on the landfill at an estimated total cost of \$1,821,000. Accommodating 500 to 600 students in grades 7-12, the building would consist of 29 classrooms, a library, supervised lunchroom, 600-seat auditorium, 1000-seat gymnasium as well as administrative offices and parking facilities for 200 cars.

Closely following the recommendations made by a Citizens Advisory Committee on School Expansion in 1966, the plans for the proposed school must receive final approval from the Mayor and Council at their business meeting on Monday evening.

President Frederic Reese, acting as spokesman for the board, said that their report and architect's drawings were the result of a long study on needed school expansion that also included the possibility of bussing students out of the South Amboy district on a tuition basis and building on the present City Hall site. These were rejected as being both too costly and inadequate for quality education programs of the public school student.

Increased Enrollment

Since 1958 there has been a 35% increase in enrollment in the public schools, and current figures show 594 pupils in the elementary school, 434 in the high school and 21 educable students who are bussed to other districts. A projected enrollment for the next 10 years shows a 31% increase bringing an expected total of over 1900 students. Supt. Eugene Dobrzynski reported that registration for the coming year already includes 111 children for the kindergarten with an additional 15% not yet registered. In the high school, grades 7-12, there will be 485 students, 51 more than now enrolled in these classes.

Costs Compared

Projected costs on bussing 9th through 12th graders into another district for the coming year, provided a neighboring community would be willing or was able to accommodate these students, show that they would be higher than the approved budget for 1968-69. Sending students into another district would involve tuition of \$700. per student, transportation at \$20,000., rental fee of \$30,000. for a total of \$260,000. (The rental fee is a fixed charge common with receiving districts that allows a five percent rental based on the original cost of the building

and subsequent additions.) Added to this cost would be \$350,000. for the kindergarten through 8th grade budget for a total of \$610,000. The approved budget for 1968-69 is \$519,000. which provides for a continuation of the present school situation---split sessions in grades 1-6 and overcrowding in the high school, built in 1918 to accommodate 250 students.

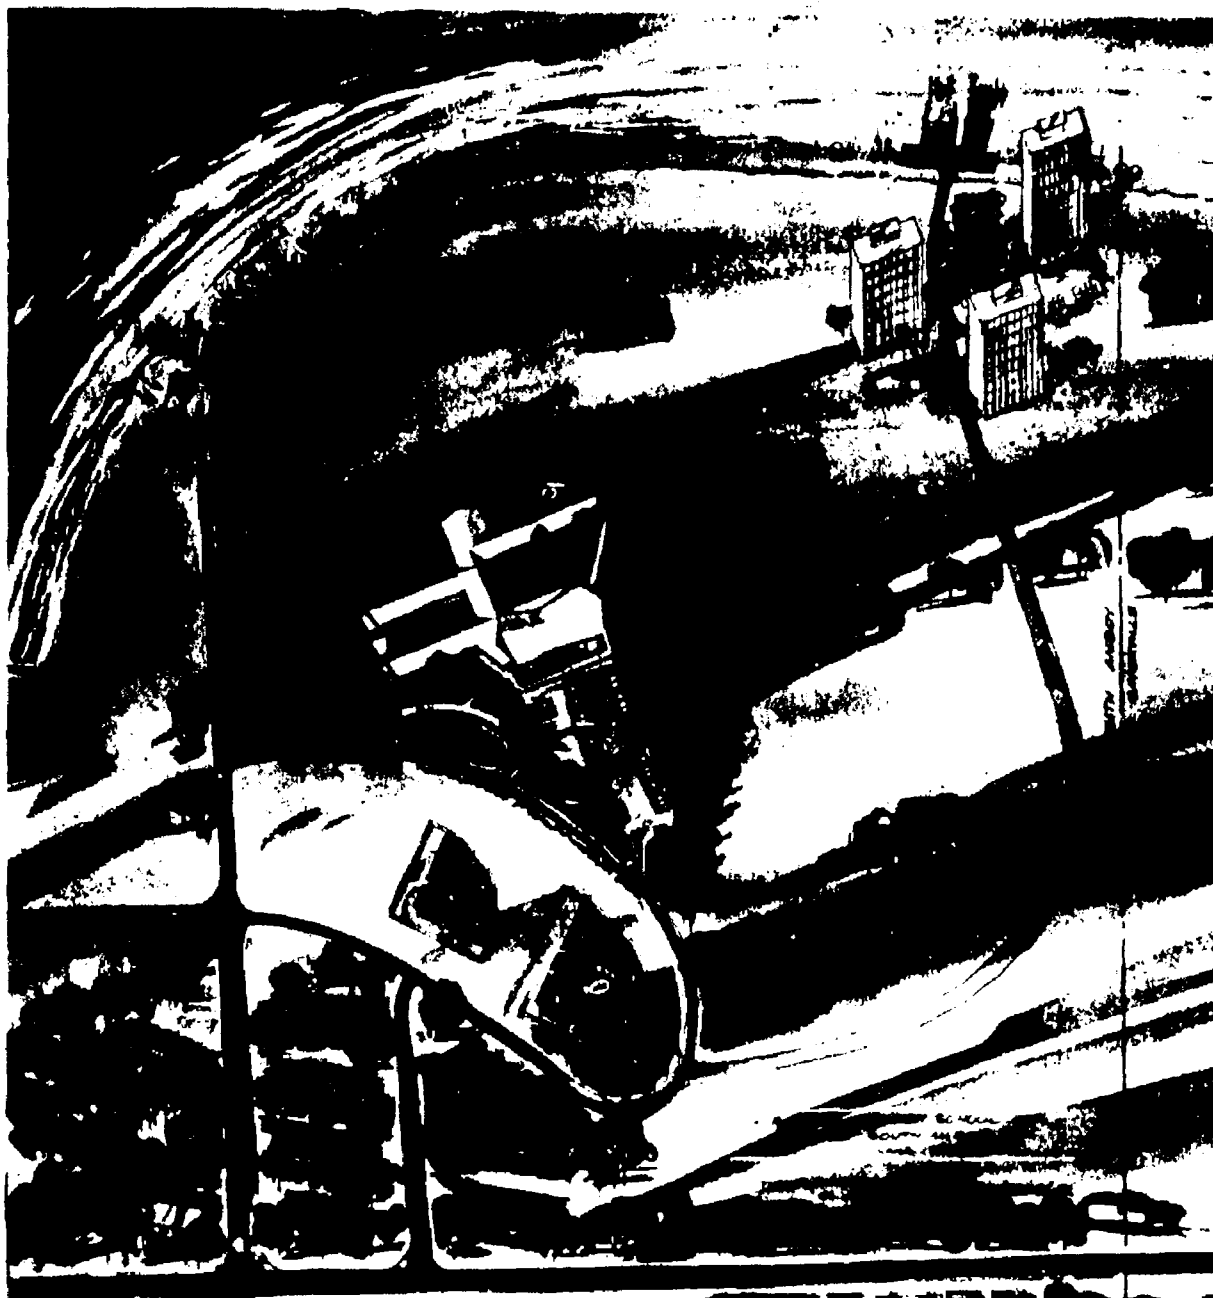

The proposed school for the landfill would utilize 82,000 square feet as compared to 66,000 square ft. that could be built on the present City Hall site. While this latter site has been favored by council members in the past, the board rejected its use as being completely inadequate for current needs or for future expansion. While estimated costs for this site would be \$1,400,000., it would be necessary to build a 3-story building that would run into the sidewalks on George, Stevens, and John Sts. It would also, according to the board, lack needed facilities.

Many Factors Considered

The present public school facilities consist of two joined buildings facing John St. with the high school having 12 classrooms, a science laboratory, manual arts shop, home economics shop, art room, library, and 2 substandard classrooms in the auditorium, where a movable partition that does not sound-proof the rooms has been installed. The elementary school consists of 13 rooms used by 22 classes, forced into split sessions for the past 2 years.

In seeking to alleviate the over-crowding, the board has, in the past few months, investigated the feasibility of putting some elementary school students into classrooms in the Presbyterian Church School and Christ Church Memorial Hall. Both sites were inspected by County Supt. Robert Blunt who insisted that improvements had to be made in lighting and safety features before those classrooms could be considered for approval. The costs for these improvements would be undertaken by the owners but it was felt that they would be reflected in the rental fees to the board.

Other factors considered for a new building rather than using improvised temporary class space was the reaction of parents as indicated in recent letters to the CITIZEN. The letters showed concern not only about children being separated from the main school building but about costs as well. The theme of most letters was that quality education was deteriorating in South Amboy and there was concern of how long Hoffman High

In summation, the board felt that the influences govt school age children; school program offered; family size; and the state law re-

National Lead Holds 'Patriotism USA' Week

As a demonstration of their feelings toward National Unity, the management, union officials and employees of the Titanium Division of National Lead Company at Sayreville are sponsoring their own "Patriotism USA" week from June 10 through 14.

As expressed by the initiators of the program, "What more appropriate week could be chosen to demonstrate feelings toward National Unity than the one encompassing Flag Day, June 14. The flag flown from staff or mast has always represented the USA whether it be on the open seas or at some tiny consulate."

To emphasize their feelings of patriotism and national unity, the employees will participate in a special flag raising ceremony at the local plant during their lunch period on Flag Day. Middlesex County Assemblyman Peter P. Garibaldi is scheduled to address employees on a patriotic theme. A ceremonial honor guard of Sayreville Memorial Post 4699 Veterans of Foreign Wars will participate in the flag raising ceremony.

In cooperation with their company and union officials, the 1850 employees of the Titanium Division at Sayreville are sending letters to Gov. Richard J. Hughes to advise him of their observation of "Patriotism USA" week. In their letters they point out that the actions of patriotic Americans seldom are news and they believe that in these times when so many people are decrying the alleged ills of our society they feel that a program of this type might gladden the hearts of individuals who are trying so hard to serve their state and country.

As part of the program, all employees of the plant will be presented American Flag decals for display on their cars and fifty employees will be the lucky winners of American Flag kits for home use.

A majority of the plant's employees are members of Local 8-3660 Oil, Chemical and Atomic Workers International Union. Members of the Leadburners Union, Local 596 employed at the plant have also endorsed and are participating in the program.

quiring that a school district provide an education to all resident children between the ages of 5 and 20.

The board has unanimously stated that it does not favor the City Hall site for a new high school, and it is hoping that city officials will approve the landfill site on Monday evening or recommend another equal site. They would prefer to use the present City Hall grounds for a playground area and for future

grade school expansion should it be needed. Since the money for expansion must be provided by the Board of School Estimate, which consists of 2 council members, the mayor, and 2 board members, of necessity, approval must be given first by the Mayor and Council for the board's plans to become reality.

"Information" is dead.

Long live "Directory Assistance"

We called this telephone service the wrong name. So many people called for the wrong reasons.

Information Operators spent most of their time looking up numbers in local directories. They've also been called for train schedules, baseball scores and whatnot.

So, we've changed the name of this service. It's now Directory Assistance.

We think this new name is much better. After all, that's what the service is for. To

assist you with numbers *not* in your directory: numbers outside your directory area and new numbers not yet listed.

How do you call Directory Assistance? The same way you called Information before it died.

But whenever you have to call Directory Assistance, it's always helpful to have a pencil and your personal phone list handy so you can jot down the number. Then, you won't lose time when you want to call

the same person again.

If you'd like a handy booklet to keep your personal numbers in, or a directory for other areas you call often, just call your Telephone Business Office. We'll be glad to send them to you.

Directory Assistance: to help us serve you better.

In the column of April 18, there is a spontaneous quote of former Mayor Andrew Kvist, "He was upright, honest, reliable, well-qualified for the office of councilman, and, above all, a man of integrity."

Andy was referring to John J. Connors, father of our present Second Ward Councilman, John F. Connors.

JOHN CONNORS, SR.

John J. Connors, Jr. was born in South Amboy on June 10, 1891 and lived here all his life. He attended St. Mary's High School, where he became an outstanding football player. He was also interested in other sports, but football seemed to be his forte.

When he entered the world of politics, Connors claimed that it was so exciting it would make one of the old Sheridan football games look like a ladies' pink tea party. John Jr. played as right-halfback on that famous Bergen Hill team.

When he left school, Connors entered the employ of the Penn Railroad and eventually became Clerk of the Yardmaster's office. When World War I broke out, he was in the first five percent that left for Fort Dix in September, 1917. Here in Camp Dix, Connors, along with others, helped organize Company H of the 311th Infantry in the 78th Division, later famed as New Jersey's "Lightning Division".

(Dave Kelly is a Brigadier General in the 78th. See column of April 11.)

Entering the service as a private, Connors soon rose to the rank of First Sergeant, and from all reports, he was both efficient and popular, a distinction that few first sergeants ever achieve! When he was discharged from the Army, he received a recommendation for a commission in the Officer's Reserve Corps, and became a Second Lieutenant.

Connors saw active service overseas from May, 1918 to the signing of the Armistice. While overseas, he was gassed in action, and was attended by Captain John Francis Weber, South Amboy's esteemed physician.

Connors was always interested in politics and when he ran for Councilman

of the Third Ward, he was given a splendid majority. When he took his seat on January 1, 1923 he was made chairman of the Police Committee, Fire Committee, and Poor Committee, as well as being recognized with appointments to other important committees.

John Connors, Sr., the father of John, Jr. (obviously) and the grandfather of our councilman, John F., was born in Ireland, November 21, 1862, and came to this country when he was sixteen years of age.

Settling in South Amboy, he worked in the section gang for about one year under the supervision of Thomas Bowe. He then became a trimmer at the local coal docks, a position he held for twenty-five long years. He was considered a conscientious worker and the shipper, R. F. Cahill, leaned heavily on Connors, knowing that he could well trust him in the carrying out of the work at the piers.

When South Amboy was still a borough, Mr. Connors was made borough marshal for two years,

1905 and 1906. He also became a director of the Star Building and Loan Association during this period.

Connors joined the fire department in 1891, and after serving in the various offices of this organization, he was elected to the position of chief, in 1907. It was in this capacity that he became affectionally known as "Chief".

Sometime around 1914, he was made Street Commissioner of the City of South Amboy and from all accounts of his terms of office, the city was fortunate in having a man of his calibre filling this important position.

John, Sr. married the former Catherine McGonigle and the couple had seven children; Mary, Margaret, Catherine, Julia, Stephen, Edward and John, Jr. Of the above, only Julia is living, her father died in the late '40's and her mother around 1914.

JOHN F. CONNORS

The third generation of the Connors family in America is our own John "Red" Connors. Not being a contemporary of Red's, and not wishing to use the direct approach on him, I made the foolish mistake of asking his wife, Agnes, and Ed, O'Leary for basic data on our friend, John F. Between the two of them, and they're two of a kind, I was able to gather some information that is, to the best of my knowledge, accurate, although not very complete.

Red, according to Agnes and Ed, was born (on this, they were very definite) somewhere around 1927, or 1928, they think, and has one sister, Clare.

Red, graduated from St. Mary's High School and went on to Seton Hall where he received a degree in Business Administration. A World War II veteran, Red served in the Navy, and, due to a "foul tip", he was drafted in the Army, after his discharge from the Navy. It took a couple of months to clear this up and now he is the proud possessor of two discharges.

Married to the former Agnes Panek, a Perth Amboy girl, the couple reside on David St. and have three children, Agnes, John and Michael.

John is retiring from politics this year to devote more time to his family and position. He is an executive for the Hess Oil Co. It is hoped that South Amboy will again, in the near future, be able to have him serve his town as he has in the past four years.

'PROFILE OF THE MONTH'

Questions such as, "Hey, sarge, my assignment come in?" and "How come I didn't make that other stripe?" are only a fraction of the daily barrage fielded by MSgt. Henry C. James, NCOIC, military personnel, and Tainan's, "Profile of the Month."

Sergeant James, a 35-year-old native of South Amboy, and often referred to as "Jesse," came to Tainan from Denver, Colo. He spent two years there with the USAF Personnel Records Center where he was NCOIC of procurement and recall branch.

Aside from his present assignment and consecutive tours in France and Germany, 1952-56, James has spent most of his 18 years service associated with the Air Force Reserve Program.

Prior to the Denver assignment, he was with the Third Air Force Reserve Region, at Dobbins AFB, Ga., from 1958-1965, where he was NCOIC, personnel branch.

Before Dobbins, he spent a year with the 2491st Air Reserve Training Wing at Grenier AFB, N.H., preceded by a six-month stint at the Trenton, N.J., Air Reserve Center.

A golf and bowling enthusiast, Sergeant James is married to the former Arlette Peverini of Cannes, France, who is accompanying him on the Tainan Tour, along with their two children, Vicki, 13 and Scott, 1.

Sgt. James is the son of Mr. and Mrs. H. Carmen James of 272 First St., South Amboy.

This year, as a member of the Westwind crew, he helped set a new record for the earliest penetration of the icepack surrounding McMurdo Station.

SAFE BOATING TIPS

Attention week-end skipper! June 30th through July 6th has been proclaimed National Safe Boating Week. So take this tip from the National Safe Boating Committee: Be careful with gasoline when refueling. Don't smoke, and keep the fuel line nozzle touching the filter duct to avoid sparks. Another important point to keep in mind is to make sure that the fuel tank and engine compartments are well ventilated. Remember: Safety first--it's the golden rule of boating.

RECREATION NEWS

Manager Dan Lewis of the Carleton League has announced that the team will practice on Saturday, June 15 at 1 p.m. at the Babe Ruth Field.

AN APPEAL TO PARENTS

It is the general consensus of opinion that the majority of the parents whose sons participate in the Little League Baseball program are not very much interested in the activities that their boys are part of, as the attendance at these games are usually very poor.

Is it such an effort to take part in your son's activities that you can't spend an hour, usually once a week with him? Also, the Little League refreshment stand is in dire need of voluntary women workers. The monies made at this stand is strictly for the benefit of the Little Leaguers. So, girls, if you can spare one hour a month (usually no more than that) please contact Mrs. Shirley O'Connor at 721-8935.

Thank You

I am most grateful to the voters of the Third Ward for the support they gave my candidacy in the June 4 Primary Election.
