COUNCIL ADOPTS DAYLIGHT SAVING

At Mayor Gordon's Suggestion Action is Taken—Augusta Street Residents Petition for Walks and Curbs—\$200 Voted to G. A. R. for Memorial Day Exercises.

Those present at the meeting of the common council held in the City Hall last Tuesday night were: Councilmen Delaney, Hackett, Kress, Sney and Stanton; City Clerk Coakley, City Solicitor F. P. Coan, City Treasurer Sullivan, Street Commissioner Braney.

Complaint was received from John Perrine regarding a Public Service trolley car, who stated that on March 13th he boarded a car at the Central Railroad station and was informed by the conductor that this trolley did not go further than the corner of Stevens and Bordentown avenues. The trolley did not go any further, and as there was no snow or other trouble, the complainant stated that he did not see why it didn't go to the city line. The number of the car was 1901 and the conductor 6751. On motion of Councilman Delaney the communication was received and a copy ordered sent to the Public Service Railway Company.

Mayor F. H. Gordon, in a communication to the council, stated that on account of the confusion of having two different times he recommended the adoption of the new time, and that same be recognized in all the city departments, in order to promote harmony. On motion of Councilman Kress the communication was received and filed. Councilman Hackett stated that some action should be taken on the mayor's recommendation, but was informed by Councilman Delaney that a resolution covering this communication would be taken up later.

Water Commissioner J. J. Braney gave the council a list of materials that were needed for the water department. On motion of Councilman Kress, the committee was empowered to purchase the material required. A petition signed by property owners on Augusta street between Stevens and Pine avenues, requesting the council to take action and have this street curbed and walks laid, was read by the city clerk, the specifications of same to be decided at a further meeting of the council when the property owners would be present. On motion of Councilman Delaney the matter was referred to the entire council together with the city solicitor and city engineer.

The following bills having been found correct were ordered paid by motion of Councilman Delaney:

Kaufman	\$31 20
J. Quinlan	36 80
Edward Wright	5 00
W. J. Nagle	25 00
Perth Amboy Evening News	7 35
Monmouth Lighting Co.	13 40
A. T. McMichael	20 00
Water Dept. account Labor ..	325 50
So. Amboy Printing Co.	18 00
E. A. Reid	51 87
Frank Neer	12 10
Charles Timmons	20 00
New York Telephone Co.	3 20
Walter Smith	10 00
Labor, account garbage	127 60
Labor, account streets	132 03

Resolution presented by Councilman Delaney, renewing general account note of \$1,000 due April 7th, for one month at the rate of five per cent. per annum, was adopted by motion of Councilman Kress.

Resolution offered by Councilman Delaney, renewing general account note of \$6,000, due April 9th, for the period of one month at the rate of five per cent. per annum, was also adopted by motion of Councilman Kress.

A communication in the form of a resolution was read by the city clerk, from the South Amboy Chamber of Commerce, stating that they were not in favor of the suggestion of Colonel Gilmore to the city solicitor, of having a single track on the western side of Pine avenue to Portia street, and at that point place their "Y" instead of running to the city line. The Chamber of Commerce will stand by the council in not permitting this to be done. The communication which was signed by President D. C. Chase and Secretary

(Continued on Page Four.)

MISS GIBBONS A STUDENT AT THE RED CROSS INSTITUTE

Miss Winifred Gibbons of this city is a student at the Red Cross Home Service Institute which is being conducted at the New Jersey State College of Agriculture, New Brunswick, N. J.

The purpose of the Institute is to train workers in order to be able to supply the great demand for capable, trained leadership for the extension of Home Service work. The Red Cross through its Peace Time program will extend its activities along Social and Health lines to any existing organization. South Amboy is fortunate in having a representative at this Institute.

FAREWELL ENTERTAINMENT

On Monday, April 12th, there will be a farewell Community Sunday School Entertainment given by Mr. Edgar Nodine, the Sunday School Superintendent at Morgan. The general public will be invited to attend and enjoy the evening with the Kiddies.

On the departure of Mr. Nodine for his new post of duty at New York, the Sunday School work will be continued by Mr. A. H. Van Dusen, who has been interested in this work for some time.

KERR MAY GET

REVENUE COLLECTOR JOB

The name of former Mayor A. T. Kerr is prominently mentioned in connection with the appointment of a Deputy Internal Revenue collector to fill the vacancy caused by appointment agent for central district. It Brunswick as Prohibition Enforcement of James H. Curran of New Jersey is stated Mr. Kerr has been recommended for the position and will be appointed by Collector Duffy within the next few days.

E. L. EDWARDS DEMOCRATIC CLUB A LIVE ORGANIZATION

The Edward L. Edwards' Democratic Club held its regular meeting Thursday evening in Welsh's Hall. This was without doubt the largest and most enthusiastic meeting of the club since its organization several weeks ago. Thirty new members were received in the club.

The chairman of the various committees that were appointed at the last regular meeting all made very excellent reports which show that they are striving to make this club one of the most active organizations in the city.

The report of the Entertainment Committee was most enthusiastically received. It is evident that this Committee intends to put to shame those who say "This town is dead, there is never anything doing." So start the ball rolling. The committee reported tentative plans for a grand ball to be held the latter part of this month, which promises to be the greatest social event of the season. It is expected that Gov. Edwards and many other prominent State and County officials will be present. The committee expects to have all plans worked out definitely within a few days so that the next issue of the Citizen will contain a complete report of their plans.

The group of unsightly sheds and board fence adjoining the City Hall on the George street side are being removed, thereby adding greatly to the beauty of the city property. These sheds were principally used for the water department, but now headquarters are being placed on Felts street, next to the home for the poor.

There is considerable sand on the sidewalk in front of the High School building, which does not add to the beauty of the surroundings. A group of high school boys, who have some civic pride, with the use of a few shovels could remove this sand in a short time. Why not get busy?

The third section of Bay View Manor has been shown on the market, and the lots are now offered for sale through Charles L. Steuwerwald Inc. The Wesco Realty Company is desirous that the people of South Amboy and vicinity have the first choice in the selection of these lots. This property is the best located along the road, is high and dry, and commands a beautiful view of the surrounding bay and river. On seventh avenue will be found an advertisement of the opening of the section of Bay View Manor is made.

Kindly mention Citizen when patronizing advertisers.

City Government Favors Daylight Saving Time.

At the meeting of the Common Council on Tuesday night the following resolution offered by Councilman Kress was unanimously adopted:

Whereas, Confusion has resulted because of the acceptance of different standards of time in this community and in other communities adjacent to us and with which we do business; and Whereas, The public and citizens of this city generally have asked that this body declare itself on the question; therefore be it and it hereby is

Resolved, That from and after the approval of this resolution by the Mayor that all city departments, bodies, offices and employes be governed by and conform to "Daylight Saving" time, and that all public clocks and time pieces be set ahead of Standard time one hour and so remain until such time as a change therein shall be necessary to conform to the further resolution of this body, or a law of the State of New Jersey, or of the United States

FIRE DESTROYS KANE HOME

House at Bay View Manor Burned to Ground in Early Evening Blaze

—Partly Covered by Insurance

—Origin Not Determined—Sayreville Firemen Respond.

About 7 o'clock on Wednesday night, an alarm was sounded from box 32, and on arrival, the firemen found the fire in the house owned by Charles Kane, which was recently built by him, at Bay View Manor, which is outside of the city line in Sayreville township.

The origin of the fire is a mystery. Mrs. Kane had put the children to bed, and returning to the kitchen found it a mass of flames. The range had been in use all winter and Mr. Kane does not think the fire started from this source. Neighbors cared for the three children. Mr. Kane was at work on the railroad at the time of the fire.

The tall dry grass and trees had been burning around this section for some hours before, and many people were on the scene endeavoring to extinguish these flames when Mrs. Kane rushed from her home screaming for help.

The firemen found it impossible to save the building, which was stuccoed on the outside but built of light, burnable material on the inside. The heat of the fire made it very difficult for the fire ladders to get close to the building, but nevertheless by playing the water on this building and the small shed, outside, which were completely destroyed later, prevented the danger of spreading to the other buildings nearby. Fire departments from Sayreville, and the Morgan General Ordnance Depot, as well as the companies from this city were on the scene and were working hard to save the adjoining homes and preventing the flames from spreading.

The place is said to have been partly covered by insurance, and damages will probably amount to about four or five thousand dollars. Bay View Manor, as is well known, is in Sayreville Township, and this is the section that South Amboy is desirous of annexing and making a part of the city. Sayreville although controlling this section of land is four miles away, and South Amboy being closer is depended upon to have the fire department respond when fires in this section break out. In this case, the fire department connected their hose to their hydrant inside of the city line, and ran the hose to the scene of the fire. South Amboy is willing to take over this piece of land and can ably give protection to the people who have made their homes in this section and are helping to build it up.

Interment Made on Co.

Interment was made in the Monmouth Cemetery, South Amboy, of the body of Mrs. Chas. Huff of this city, who died at the home of her sister in New Brunswick on February 6. The body has been in the vault at South River since February 9, 1920.

Mrs. Huff was formerly Miss Bertha Holton. She is survived by a husband and two sisters, Mrs. Ross Hendrickson of South River and Mrs. Harry DeLay of New Brunswick.

CHAMBER OF COMMERCE

A special meeting of the Directors of the Chamber of Commerce was held last Monday night at their headquarters in the Trust Company building. The purpose of the meeting was to take some action to protest against the non-stopping of the Pennsylvania train due in this city 6:06 p. m., as petitioned by the North Jersey League of Shore Municipalities. As well as all the members of the Board of Directors of the Chamber of Commerce attending the hearing before the Public Utilities Commission at Newark on April 1st, the following resolution was adopted by motion of William S. Dey:

Whereas, Information has reached the Board of Directors of the Chamber of Commerce of South Amboy, that the North Jersey League of Shore Municipalities has petitioned the Public Utilities Commission to cause the non-stopping at South Amboy, of Penn. R. R. train that leaves Pennsylvania Station, New York, at 5:12 p. m.; therefore be it

Resolved, by the Board of Directors of the Chamber of Commerce of South Amboy, that the said Public Utilities Commission is strongly urged to allow and direct the above mentioned train to continue its stop at South Amboy, for the reason that it is the only train leaving uptown New York, that does stop at South Amboy, and is patronized by numerous passenger fare paying, commuters and the general traveling public, doing business in the upper New York business section, this particular one being the through to South Amboy train. Notwithstanding there is a train from Penn. Station leaving a few minutes later, making all the stops, but not landing her passengers in South Amboy proper, but at what is known as South Amboy Junction, far to one side and remote from the center of residential section, and as the summer schedule of trains will soon be added to give the Shore Municipalities adequate train facilities but with no additional train accommodations for the city of South Amboy.

We do hereby, strongly urge your Honorable Body to grant this petition, and the numerous signed other petitions which it is noted will soon reach you, praying for no change on your part as to the stopping of this particular train at South Amboy.

This resolution will be presented by the president and secretary of the Chamber at the hearing. A petition has also been drawn up and will be circulated for signatures, and this also will be presented, which will in itself act as a strong protest against the discontinuing of this train. It was brought out at the meeting that this train is practically the only train that affords this city efficient service. It is not only a very fast train but is the train coming from up-town New York at this time of the day. It is a train that affords accommodations to near-by communities, who will also be without the service of this train should the Board of Public Utilities rule against the stopping of it here.

A communication was read from President D. C. Chase, stating that the project of deepening the channel from the Great Bed Light to the bridge was argued before the United States engineers, and it appears very likely that this improvement will be made which will make the channel 400 feet wide and thirty feet deep. A resolution was presented, as drawn up by the secretary urging the mayor and common council to take steps to have the clocks in this city as far as possible moved ahead one hour to comply with the time adopted by the Metropolis of New

York City as well as other near-by cities who have also adopted it. The resolution was adopted by motion of Mr. Dey and prepared for its presentation to the council.

On motion of Mr. Gundrum, the secretary was instructed to prepare a resolution protesting against the Public Service Railway company taking up their tracks which run to the city line and making their terminus at Portia street. This action has been suggested by the trolley company, but will be strongly protested in the resolution which will be presented to the council.

Those present at the meeting: President D. C. Chase, Secretary, William Mills, Directors Gundrum, Dey, Reed and Mason.

NODINE GOES TO ARMY AND NAVY VICTORY AT NEW YORK

Mr. Edgar Nodine of Morgan has been selected as the new General Secretary of the Army and Navy "Victory" Y. M. C. A. at Battery Park, New York.

Mr. Nodine came to this city while the ruins of the T. A. Gillespie Shell Loading Corporation were still in flame, and under very difficult circumstances organized the "Victory" Y. M. C. A. for many months following. When Mr. Nodine arrived he was unacquainted, but within a short time was in a position to command the co-operation of the leading citizens of the city. He was one of the most popular men in the vast record breaking organization at Morgan, and "Big Ed," as the boys called him, was always the life of any group. Since the closing of the Morgan "Y" he has been in charge of the Welfare Work at the Morgan Post that has been conducted under the auspices of the Morgan Welfare Association.

Mr. Nodine expects to take up his new duties on or about May 1st. Mrs. Nodine and the children, who have made their home at Morgan for some time past, will return to their former home in New York State.

Mr. Nodine's many friends do not like to see him leave, but are glad of his appointment to the very desirable position.

BAUER-KAUFMAN.

A very pretty wedding took place at Delmonico's 5th Avenue and 44th Street, New York City last Sunday night at 6 o'clock, when Miss Bertha Kaufman, daughter of Mr. and Mrs. Max Kaufman of this city, was united in marriage to Mr. Justin Bauer of Brooklyn, by Rev. J. H. Paymer of Brooklyn.

The bride, who is one of the most popular young women, was dressed in a beautiful gown of white satin and beaded georgette, with a veil of real lace, and carried a shower bouquet of white sweet peas and lilies of the valley. Mrs. Bauer is widely known in this community for her untiring efforts in Red Cross work and has been prominent in every undertaking of this charitable organization. She was also connected very closely with the social life of the city, being chairman of many of the social events that have been put through successfully financially and socially.

Mrs. L. Goldberg, a sister of the bride, acted as the Matron of Honor, and Mr. Arthur Bauer, a brother of the groom was best man.

The bridesmaids in attendance were: Misses Sadie Kreiselshelmer of New York City, and Bernice Kaufman of Atlanta, Ga. The ushers for the splendid occasion were Messrs. Sidney Kaufman, a brother of the bride, and Morris Bauer.

After the wedding ceremony an elaborate dinner was served at Delmonico's to the guests present, after which a reception was tendered at 8:30 o'clock to the cousins of the bride and groom. Dancing and a most enjoyable time was had in every manner, by everyone present.

The happy couple after the festivities were over, left for an extensive tour through the South, and upon their return will make their home in Brooklyn. Every good wish to the married pair is the wish of their many friends and relatives.

Dr. Shapiro, the dentist of 112 South Broadway, desires the Citizen to state that he will furnish service to indigent children confined to citable homes free of charge. This is a very liberal offer on the part of Dr. Shapiro, and one that should be appreciated. The children of Christ Church Home in this city would be eligible to the offer.

SCULLY NOT IN CONGRESS RACE

Announces Will Not Be A Candidate This Fall—Does Not Want to "Hog" the Job—Has Represented Third District for Past 10 Years.

All the uncertainty and doubt as to whether Congressman Thomas J. Scully would be a candidate for reelection is now set at rest by an announcement by the Congressman to the people of the Third Congressional District that he is not in the race, but is ready to step aside and allow someone else to enjoy the honors. Mr. Scully's announcement to the people is as follows:

To the People of the Third Congressional District: I beg to announce that I am not a candidate to succeed myself as a member of Congress. I am now, always have been, and always will be a believer in rotation in public office, and I therefore willingly step aside to give the "other fellow" an opportunity to become a member of the largest legislative body in the world, namely, the House of Representatives of the United States.

I am now rounding out my tenth (10) year as your Congressman, and for me to run again it would appear as if I wanted to "hog" the job.

My great pride and pleasure connected with official position have been derived from your continued confidence and support. My next great pleasure has come from meeting so many of you in former years when there was some vacation between the sessions of Congress. I always enjoyed your hospitality and the interchange of ideas, thereby familiarizing myself with your conditions and desires and receiving many valuable suggestions.

Protracted sessions of Congress of late destroyed that opportunity. Unfortunately, the more active and useful a member of Congress becomes the more he is withdrawn from contact and acquaintance with his constituents. He is liable to appear neglectful of them, when in fact he is most faithful to their interests.

The opportunity which your partiality has given me has enabled me to participate in the most important legislation and events which have occurred in the history of our glorious country.

You have honored me beyond my deserts. I have appreciated the honor and been faithful to my trust to the best of my ability.

In retiring from Congress, I do so without one pang or tinge of resentment, but with a heart swelling with gratitude for the unparalleled generosity and distinction with which you have honored me. I am very happy in the thought that I can look back to ten years honest service, with my democracy unquestioned and my honor untarnished grateful to a loyal constituency.

Faithfully and gratefully yours,

THOMAS J. SCULLY.

Since Mr. Scully entered into politics when but a young man his rise has been rapid. He has always been a prominent figure in the ranks of his party. For ten years he has been a member of the Democratic County Committee, and for like number of years a member of the City Executive Committee. He served three years as a member of the Board of Education, and two years as Mayor with great satisfaction to his constituents and honor to himself.

Mr. Scully was an alternate delegate to the Bryan convention, and Presidential elector on the Bryan ticket; a District delegate to the Wilson convention at Baltimore, and a delegate-at-large to the Wilson convention at St. Louis; and chairman of finance committee of State of New Jersey in Wilson's first campaign. He was chairman of the delegation that tendered Shadow Lawn at Long Branch to President Wilson; State committeeman for six years; campaign manager for the late Senator Hughes who defeated Jim Smith; and will have been a member of Congress for ten years when his term expires next March.

TIMELY TIPS FOR GARDENERS.

Why Manure?

That little "two by four" home garden of yours must be made to produce to its maximum this year if you are to combat the sky-high prices of things to eat. No slackers among the plants! But this means that there must be no lack of available food, for plants need nourishment.

Organic matter in the soil is necessary for best results. It acts as a sponge, absorbing the moisture during wet weather and holding it until drought comes on when it will give up its moisture to the roots of the plants as they need it. This soil moisture is also necessary to dissolve the plant foods in the soil so that they may be easily taken up by the root hairs.

Some Kinks in Successful Manuring.

Straw horse manure is preferred to all others. Cow and hog manure are classed as "cool" manures, although the plant food is not as readily available as in horse manure, it will give very good results. Hen and sheep manure are dubbed "hot" manures, and should be applied very cautiously, especially on the root or fruit crops. When fresh manure is used, it should be plowed under to a depth of six to eight inches and entirely covered with ground. When well rotted, half of it should be plowed under, and the other half broadcasted and raked into the surface.

Commercial Fertilizers.

If you want the best all around fertilizer, get what is generally known as either the 4-8-4 or the 5-5-5; that is, the fertilizer contains 4 per cent. of ammonia, 8 per cent. Phosphoric acid and 4 per cent. of potash. In all fertilizers, the nitrogen is first, the phosphoric acid second, and potash the third number.

The average application of commercial fertilizer is one pound to every 25 square feet of garden surface ground. The other half may be applied under the row or hill as the case may be.

Nitrate of soda or sulphate of ammonia are used to give a larger leaf growth. These are nitrogen fertilizers and are readily available, but should be used only on those vegetables which produce edible leaves, such as lettuce, endive, parsley, etc. Small applications of about one teaspoonful scattered around each plant of tomatoes, cabbage, eggplants, etc., or side dressed on celery, will give a better growth in stalk and better colored leaves.

Where Lime Comes In.

Lime should never be used in direct contact because it has a tendency to liberate the nitrogen in the manure quickly and thus weaken the results. Practically all garden soils need lime, however, and would be benefited by its use, but the right time to apply it is after the manure has been plowed under. Broadcast one pound of hydrated lime to every 25 square feet of garden surface and rake it into the surface soil.

Issued by the State College of Agriculture, March 26, 1920.

THE METHOD.

What kind of a school is your son attending?
Very fashionable; one of these institutions where you develop the mind without using it.

GLOOMY ASSUMPTION.

She—Are you for peace at any price?
He—Isn't any thing. Even if you were willing to bargain on that basis, sooner or later you'd get into a row about the price.

Worth makes the man and want of it makes him worthless.

Here Is Picture Churches Have Chosen As That of the Typical American Girl

SEEKING a poster which correctly presented the typical American daughter in her present day attitude to the Church, the art directors of the Interchurch World Movement chose the painting of Denman Fink.

This serene, calm-eyed, wholesome young woman was selected as the type of the daughters of America being reared under the influence of the Christian Church. Mr. Fink's painting shows her here pausing as though waiting for her parents to join in restoring the complete membership attendance of this place of worship, one of the objectives of the Interchurch World Movement in which the evangel-

ical group of Protestant Churches has joined.
The poster has been prepared for distribution throughout the entire

country for stimulating interest everywhere in extending the influence and ideals of the Church to men's daughters throughout the whole world.

BUDGET OF \$336,777,572 FOR 1920 ANNOUNCED BY INTERCHURCH MOVEMENT

The American Denominations, Co-operating in Program for World-Wide Extension, Seek Fund to Be Raised in United Simultaneous Campaign From April 25 to May 2.

Participating in a program for world-wide extension of religious effort, 30 American denominations have announced their budget for 1920, in which they seek a fund of \$336,777,572. Of this sum \$175,448,349 is to be paid in this year. Announcement of the financial program is made through the Interchurch World Movement. The raising of the money will be undertaken in a united simultaneous campaign from April 25-May 2. Of the \$336,777,572 to be raised \$220,000,000 will be expended in America.

Coincident with the announcement of the budget Dr. S. Earl Taylor, general secretary of the Interchurch World Movement, issued this statement:

"In presenting the budget the Interchurch World Movement asks nothing for itself. All of the expenses incurred will be paid by the co-operating agencies, and the Interchurch World Movement is merely the servant of all."

"The budget represents an earnest attempt on the part of thoughtful Christian men and women to make a study of the world's needs as viewed from the standpoint of the co-operating churches and to lay these needs upon the minds and hearts and the consciences of the people of America, thus placing the responsibility where it belongs—upon the shoulders of the individuals who make up that element of our Republic who believe that the security of our democratic foundations has been because they have rested upon the Christian home, the open Bible, the free school and the free church."

The purposes for which the money is to be expended are: Foreign Missions, \$107,661,488; Home Missions, \$109,940,037; American Education, \$78,837,431; American Religious Education, \$5,931,025; American Hospitals and Homes, \$5,116,465; American Ministerial Pensions and Relief, \$20,510,290; miscellaneous, \$8,770,927.

The miscellaneous item of the budget covers expenditures for war relief, temperance, enlistment campaign, etc.

The 30 denominations and the extent to which they participate in the financial campaign follow:

Advent Christian Church, \$35,000; Northern Baptist Convention, \$130,533,000; National Baptist Convention, \$10,250,000; General Baptists, \$272,600; Church of the Brethren, \$3,210,508; Brethren Church, \$200,000; Christian Church, \$727,003; Congregational Churches, \$10,508,470; Disciples of Christ, \$12,501,138; Evangelical Association, \$1,394,200; United Evangelical Church, \$305,988; Society of Friends in America, \$4,532,081; Society of Friends in California, \$40,000; Holiness Church, \$50,000; Evangelical Synod of North America, Lutheran, \$1,846,821; General Conference of Methodists, \$82,000; Methodist Episcopal Church, \$34,485,737; Methodist Protestant Church, \$1,745,860; Free Methodist Church of North America, \$6,234,986; African Methodist Episcopal Zion Church, \$212,000; Colored Methodist Episcopal Church, \$250,000; Reformed Zion Union Apostolic Church, \$17,263; Pres-

byterian Church in the U. S. A., \$44,870,000; Presbyterian Church in the United States (South), \$7,895,445; Associate Reformed Presbyterian Synod, \$392,204; Reformed Presbyterian Church of North America, \$500,472; United Presbyterian Church, \$31,977,467; Reformed Church in America, \$2,180,091; Reformed Church in the United States, \$16,916,085; Church of the United Brethren in Christ, \$6,548,062.

In addition to the 30 denominations which take direct, active part in the co-operative religious effort, the following additional organizations have endorsed the program of the Interchurch World Movement, but do not this year participate in the financial campaign:

The Foreign Christian Missionary Society (Disciples), the Christian Woman's Board of Missions (Disciples), the Association for the Promotion of Christian Unity (Disciples), the Board of Missions, Methodist Episcopal Church (South); the Freedman's Board, United Presbyterian; the Woman's Missionary Association, United Brethren in Christ; the Society of the United Brethren for Propagating the Gospel Among the Heathen, Moravian Church.

Of the sum of \$34,485,737 opposite the name of the Methodist Episcopal Church it is stated that \$21,000,000 already has been subscribed in the Centenary Campaign.

In announcing the details of the financial program Lyman L. Pierce, director general of the united simultaneous campaign, said:

"The 30 denominational campaigns will be conducted simultaneously from April 25 to May 2, each following its own denominational channels and having full freedom of action. In addition, the campaign will be a united campaign as well."

"It is proposed in every community throughout America to call on that great, friendly constituency which is not directly allied with the church as members to take its share in the raising of funds. To this end in every community there will be a United Simultaneous Financial Campaign Committee. This committee will organize a great Citizens' Division, to stand side by side with the denominational divisions in providing the financial objective of each community."

"The raising of the \$336,777,000 will be equitably and justly distributed among the states. Each state will make quotas on the same fair basis to each county. The county will make quotas to the communities, and the communities will raise the funds through an organization made up of a number of divisions. Each local church will maintain its identity and be a unit in its denominational division."

After explaining that the Foreign Survey of the Interchurch World Movement is designed to disclose the unfinished task of the church in foreign fields Mr. Pierce says:

"There is now in progress throughout America a Home Survey, which in-

cludes an exhaustive study of the problems of the city. Some of these have been completed and are available as demonstration of the thoroughness and system with which these co-operating denominations have sought to face the problems which the Church must meet in the American cities if they are to be met.

"In approximately 70 per cent of the counties throughout America the Rural Survey is under way. Some counties have been completed and can be used as typical of the exhaustive nature of this study of rural problems. It is shown as a result of these studies that, while there are not too many churches, as has been often stated, there may possibly be a better distribution of these churches and of the ministers, who are the great influences back of the Church. This matter of distribution is being referred back to the denominations for a policy to be determined by them."

CHURCHES TO NEED 100,000 WORKERS

This Is Estimate of Force Required by Interchurch World Movement Program.

9,000 NEW MISSIONARIES TO GO TO FOREIGN FIELDS

Burden of Preparation Rests Chiefly on Denominational Schools and Colleges.

More than 100,000 workers will be needed during the next five years in the world campaign planned by America's Protestant churches affiliated with the Interchurch World Movement. More than 9,000 new missionaries are to be recruited for the foreign fields alone, and thousands of other workers, lay and clerical, are to be secured for churches in the affiliated organizations of this country. Where are they all to come from?

It used to be the notion that the only essential equipment needed by a person who proposed to devote his life to the church was a "call." On the other hand, the modern mission worker knows that, while devotion to duty is an absolutely indispensable requisite, it must be supplemented by highly specialized training. As much executive equipment is required, it is commented, to direct a congregation as to direct a business, for the successful clergyman must know modern life in all its many sided phases quite as well as Biblical history. The missionary nowadays must often teach agriculture, carpentry, hygiene or sanitation to pave the way to the gospel.

Most of the church workers of today are trained in church schools and colleges, the Interchurch survey shows. A preliminary survey of education in the United States made by the Interchurch has brought out the fact that 90 per cent of the ministers and missionaries in service have received their education in institutions under the control of the church. To these institutions the church must look, it is believed, for most of its future workers.

Part of the fund that is to be collected by the Interchurch World Movement will be apportioned among the denominational schools and colleges supported by the churches which are taking part in the campaign.

Comfort and Economy

Health and comfort are in the balance when you select a heating plant. Guide your judgment by the uniform satisfaction of thousands who have Square Pot Furnaces and Boilers.

The Boynton is not the cheapest, but it shows the lowest cost per year. It's built to last and to save coal without sacrificing heat.

You can maintain an even fire at any desired speed. Ashes will not accumulate and cinders pass out freely. If an obstinate clinker causes trouble, there's an inbuilt clinker bar to smash it.

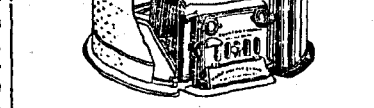

The square firepot is most important and is found only in the Boynton. Ask your dealer to demonstrate. We will send particulars on request.

AMERICAN LEGION NOTES.
After Tuesday night's meeting there was an enjoyable social hour, during which the Entertainment Of- ficer and his assistants served hot coffee and home-made crullers, right from the kitchen of Mrs. J. K. Stults, the Commander of the Wo- man's Auxiliary to the Post. The boys pronounced the crullers "Jim- dandies" and greatly appreciated this latest courtesy of Mrs. Stults.

During the social time the Legion- aires were entertained with banjo and piano numbers by Messrs. Oslin and Olsen. These boys are real "jazzers" and livened up the even- ing with their fine instrumental and vocal selections. Solo numbers were rendered by Jimmie Cantion, Jim Holton, John Crozier, and Howard Reese. Frank Monaghan and Hobart Johnson tickled the ivories of the Post piano, while "Bill" Pierson and Arthur Scully entertained with dan- cing. The Post quartette, consisting of Bill Pierson, Harris Covell, Jimmie Cantion and Howard Reese, made its first appearance and scored a big hit with the Post members.

John Crozier has been made chair- man of the lighting committee, which is shortly to install electric lights in the Post rooms.

J. F. Kennedy, of South River, one of the Vice-Chairmen of the Mid- dlesex County American Legion, was present and gave a snappy talk. He received a big hand from the boys, and during the social hour was called upon to sing. His rendition of "I Love You Just the Same, Sweet Adeline" made a big hit.

The Finance Officer's report shows that good progress is being made. The boys are working hard, and are getting the affairs of the Post on a business basis. All the furniture has been paid for, and funds are now being raised to carry forward the improvements that will make the Legion headquarters modern and cozy.

Brindell & Fielder are now at work papering the rooms of the Post headquarters. The staircases and floors are to be varnished and oiled, and will make a fine appearance.

The Post is indebted to Elias Mas- son & Son for the paper for the rooms. This paper has been given to the boys, and makes a big "lift" at a time when the Post is burdened with much expense. The Legion- aires greatly appreciate this cour- tesy.

A meeting of the Trustees will be held next Tuesday evening, fifteen minutes prior to the regular meet- ing.

**COUNCIL ADOPTS
DAYLIGHT SAVING**

(Continued from Page One)
William Mills, was ordered received and filed by motion of Councilman Delaney.

The Chamber of Commerce pre- sented a resolution to the council, urging the mayor and council to take some action in adjusting the clocks of the city to conform to the time adopted by New York and some of the municipalities of New Jersey. Resolution was signed by the pres- ident and secretary. Councilman Kress moved that it be received and filed.

Councilman Kress offered a res- olution providing for the advance- ment of the clocks of the city one hour, to comply with the many re- quests received from the citizens of this city. This resolution went into effect after its passage, and the clocks as far as is possible will re- main one hour ahead to conform with the time adopted by other lo- calities, until a resolution is adopted to set them back to the standard time. The resolution was adopted by motion of Councilman Delaney.

An ordinance appointing the mem- bers of the Board of Health, to con- sist of the following: Thomas A. Lovely, P. J. Monaghan, S. J. Wit- kowski, Dr. S. T. Kinney, and John S. Tomaszewski, was presented by Councilman Kress. By motion of Councilman Delaney, the ordinance was laid over under the rules.

A resolution was presented by Councilman Delaney, authorizing the payment of \$1,200 to the Free Public Library, this being their annual ap- propriation from the council. On motion of Councilman Kress, the res- olution was adopted.

By resolution of Councilman De- laney, the sum of \$200 was appor- tioned to the surviving members of the G. A. R. of this city, to help defray their expenses in carrying out their Decoration Day services. The resolution was adopted by motion of Councilman Kress.

Report of Joseph E. Bailey, over- seer of the poor, showed outside aid given \$61.00, and the cost of main- taining the home for the month of March \$151.80. This report was re- ceived and filed by motion of Council- man Kress.

Report of city treasurer, showing a balance on hand of \$24,479.16, was ordered received and filed by motion of Councilman Delaney.

City clerk stated that he had re- ceived the deed from the Wessco Realty company for the ground pur- chased by the city for the new water works. On motion of Council- man Kress, it was ordered received and placed on file.

CITY OF SOUTH AMBOY, N. J.

Bonds.
Sealed proposals will be received by the undersigned, at the City Hall, in the City of South Amboy, N. J., up to Tuesday, April 13th, 1920, at 12 o'clock noon, standard time, for the purchase of the follow- ing described bonds of said city, the amount stated being the maxi- mum amount of bonds which may be sold at this time, and the amount of money which it is desired to raise:

\$100,000 Water Bonds, dated Au- gust 1st, 1919, of the denomination of \$1,000, maturing in numerical order, four bonds on August 1st, 1943, and six bonds on August 1st of each of the years 1944 to 1959, both inclusive, with interest at five per centum (5%) per annum, payable semi-annually, February 1st and August 1st. Both principal and in- terest are payable at the First Na- tional Bank, South Amboy, N. J., or at the South Amboy Trust Company, South Amboy, N. J., at the holder's option. Said bonds are in coupon form with the privilege of registra- tion as to principal and interest, or as to principal only. The bonds have been prepared under the supervision of the United States Mortgage and Trust Company, New York City, which has certified as to the genui- ness of the signatures of the city officials, and of the seal impressed on said bonds. The approving opinion of Messrs. Caldwell and Masslich, New York City, as to the legality of the bonds and their issue, will be furnished to the purchaser or pur- chasers without charge. Said \$100,- 000 of bonds (being part of, and the final installment of an authorized issue of \$225,000) will, unless all bids therefor be rejected, be sold to the bidder or bidders complying with the terms of sale and offering to pay not less than \$100,000, and to take therefor the least amount of bonds offered for sale, commencing with the first maturity and stated in a multiple of \$1000.

If two or more bidders offer to take the same amount of bonds then such bonds will be sold to the bidder or bidders offering to pay there- for the highest additional price. In addition to the price bid, the bidder or bidders must pay accrued in- terest from the date of the bonds to the date of delivery. The right is reserved to reject any and all bids, and any bid not complying with the provisions of this advertisement, or containing any condition other than the approving opinion of Messrs. Caldwell and Masslich, will be re- jected.

All bidders are required to deposit with the undersigned a certified check payable to the order of Tim- othy F. Sullivan, City Treasurer, for two per centum of the amount of bonds bid for, drawn upon an incorporated bank or trust company, to be held by the City of South Amboy, N. J., as security for the payment of the bonds.

failure of the bidder to comply with the terms of his, her or its bid.
All bids and the certified check ac- companying them must be enclosed in a sealed envelope, addressed to Timothy F. Sullivan, City Treasurer, South Amboy, N. J., and marked

Water Bonds.
The bonds are executed and will be ready for delivery on Saturday, April 17th, 1920.
Dated April 1st, 1920.
TIMOTHY F. SULLIVAN,
City Treasurer.

SERVICE

As We See It!

The South Amboy Trust Company realizes that its own well-being and growth depends on the extent of its usefulness to a business or an individual. It does not merely "accept" de- posits but solicits them, however small.

The spirit of Service is strong here—as strong as our determination to render to our depositors every courtesy that is consistent with good banking principles. The effort to please the customer never lags. Always there is courtesy and intelligent attention.

How may we apply our service to your in- dividual problems?

We invite you to put us to the test.

Methodist Episcopal Sunday School.

The Easter Service by the Sunday School will be given on Easter Sunday night, beginning at 7:30.

The orchestra will assist with the music and add very much to it. On Sunday last there were six different instruments used and not only the children but older ones as well enjoyed the music.

Any desiring to send Memorial Flowers to the church on Easter may do so, and at the close of the evening service make such disposition of the flowers as they wish. This plan was followed last year and there were a number of flowers sent by the members and friends of the church in memory of their loved

ODDS AND ENDS

The pupils of the Eighth grade cooking class will hold a home-made bakery in the High School building on Saturday afternoon, commencing at 2 o'clock, daylight-saving time.

Miss Shaughnessy's dancing class will hold a reception at the High School Auditorium on Friday, May 7, at which they hope to have all their friends present. Tickets, admitting lady and gentleman, \$1.10.

Thomas Burden and Edward Dewan have formed a partnership under the firm name of Burden & Dewan, and will carry on a real estate and insurance business with office at 213 First street. They already have a list of properties for sale.

A. H. Bergen, agent, has sold this week the C. S. Applegate property on Prospect street to Mr. Lars J. Carlson, of Westfield. After some improvements are made to the property, Mr. Carlson will move to this city. Mr. Bergen has also sold property on Bordentown avenue and Catherine street belonging to Estate of Peter Slover, to Joseph Smith.

IT'S TIME TO

CHANGE

SATURDAY, APRIL 3, 1920.

INTERCHURCH CONFERENCE

To be Held in Second Reformed Church, New Brunswick, April 7.

Laymen and pastors of Middlesex County will attend the Interchurch County Conference at New Brunswick, April 7, at the Second Reformed Church. At this Conference all the various phases of the program of the Interchurch World Movement will be discussed and special speakers will explain the authorized standard plan of raising New Jersey's share of the Nation-wide budget of \$338,777,572 to be subscribed April 25 to May 2.

Detailed arrangements for the Conference will be in charge of the County Convener, Rev. Paul Hayne, of New Brunswick, assisted by local committees.

The Middlesex County Conference is one of the twenty-one Interchurch County Conferences to convene in New Jersey between April 6 and April 20.

Similar conferences, all of which will be in the nature of continuation training schools, will convene in three thousand counties of the United States in the same period.

The tentative program for the New Brunswick Conference as arranged by the national leaders will open with a devotional period and statement of the co-operative nature of its service of, by and for the co-operating communities. There will be followed by an official presentation of a detailed outline of the plan for the State Financial Ingathering. For several hours during the one day session of the Conference, denominational groups will meet to consider the plans for the Financial Campaign as they relate to the denominations involved.

After the denominational rallies, the results of the foreign and home surveys made by the Interchurch World Movement will be presented by charts and stereopticon views. This will be followed by the presentation of the evangelistic campaign to be conducted between Easter Sunday and Pentecost. Then will follow a composite address covering the plans of the Movement to develop the spiritual resources of the churches; to enlist men and women for whole time service propagating the Gospel; to promote the program of missionary education.

During the supper hour a conference of members of the Christian Endeavor Societies, Epworth League, Baptist Young People's Unions and Bible classes will be held to enlist them to serve effective units in the financial ingathering.

Addresses outlining plans for the work of the women's and laymen's organizations will be other features of the Conference. A lecture showing some of the results of the surveys not covered in the presentation of the home and foreign surveys will close the program.

Securing attendance at the County Conference will be entirely in the hands of the denominational leaders in the County, except the community United Campaign Director whose attendance will be secured by the County United Campaign Director.

The leaders of any denomination may themselves determine whether their delegation at any County Conference shall represent the county or the denominational territorial unit.

Flotsam and Jetsam.
These are the names given in English law to goods lost at sea. Flotsam is defined as "where the goods continue swimming on the surface of the waves," and the term jetsam is applied to goods which are cast into the sea and which sink or remain under water.

PRESBYTERIAN PARAGRAPHS

On Sabbath morning next we will observe our Easter Communion service, the subject for our thought being: "Christ, Our Passover." The subject for the evening service, 7.30 p. m., (Regular Standard Time—no change in our clocks) will be: "Temporal and Spiritual Resurrection."

Tuesday, at 3 o'clock in the afternoon, the Ladies' Aid Society will meet at the home of Mrs. Willard Ingraham, No. 115 South Stevens avenue.

Wednesday, the County Conference under the Interchurch World Movement will be held in the Second Reformed Church of New Brunswick, N. J., with morning, afternoon and evening sessions.

Extra copies of the Pastor's second Easter message may be secured after either the morning or evening services, upon the Literature Table in the vestibule of the church.

To the general reader who may read these paragraphs from time to time, this church and its pastor extends to you Easter greetings. May your heart be open wide to the truth of a risen Savior, and may you rise with Him into newness of life and hope. And our hope is that this Easter-tide will bring to you individually the gladness that is in the world through the crucified, but risen Savior.

THE FIRST METHODIST EPISCOPAL CHURCH NOTES

Easter Sunday will be observed in the First Methodist Episcopal church with appropriate services.

The first service will be the Easter prayer meeting at 6.30, led by the pastor.

Class meeting at 9.30, led Mr. L. E. Tice.

Preaching by the pastor at 10.30; subject, "The Triumph Over the Grave." At this service the Choir will render two beautiful Easter anthems.

The regular session of the Sunday school will be held at 2.30 in the afternoon.

A special service will be held in evening beginning at 7.30. This will be an Easter program given by the members of the Sunday school, entitled, "Alleluia," by Roy E. Nolte.

The regular services will be held during the week. Tuesday evening, 7.45, Epworth League devotional meeting, topic: "The Power of an Endless Life." Leader Mr. Harry Tice.

Wednesday afternoon, Junior League at 3.45.

Wednesday evening, Service of Praise and Prayer, at 7.45.

Friday evening, Choir rehearsal at 7.30.

The members and friends of the church are invited to bring plants and flowers to the church on Sunday in memory of a departed loved one. The same to be disposed of as the owner desires after the services.

First Quarterly Conference.

The first quarterly conference will be held in the church on Monday evening, April 12th, at 7.30. Rev. J. D. Bills, district superintendent, presiding. All the official members of the church are urged to be present.

The Committee on church records and the Auditing committee will report at this meeting. The Committee on church records consists of the following persons: William Emmons, Richard C. Stephenson and Elias S. Mason. Auditing Committee: Robert P. Mason, Jr., George Mortenson and Albert M. Cole.

Let us forget Easter Prayer meeting, Easter morning, 6.30 o'clock. Let us gather to meditate on the Resurrection of our Lord and Saviour in the quiet of the early morning.

Philadelphia Bank Distinctive.

There is only one national bank in the United States which does not have "National" as a part of its name. It is the Bank of North America, in Philadelphia. A special act of congress is required to permit a national bank to operate as such without indicating the fact that it is a national bank in its name.

Beginning of Great Institution.

On the 10th of January, in 1870, the Standard Oil company was incorporated at Cleveland under the laws of Ohio. John D. Rockefeller was elected president. The other incorporators were Henry Flagler, Samuel Andrews, Stephen Harkness and William Rockefeller. The company was capitalized at \$1,000,000.

Stenographers Long Employed.

It is not generally known that stenography as a profession was followed as long ago as the days of the Roman empire. Poets, who are sometimes ridiculed nowadays for having private stenographers, had them in the fourth century of our era.

ALL'S FAIR

By R. RAY BAKER

(© 1920, by McClure Newspaper Syndicate.)

Here's a story about a nurse who didn't marry a patient. Graduated from Sanburn Memorial hospital in the big city, with an engraved, beribboned diploma, and an R. N. after her name, Suse Hopewell accepted a position as superintendent of Bellevue hospital in the small city of Rushington, and there she met David Kling.

David had never been sick a day in his life, except with the mumps and measles when he was a youngster. Nevertheless, when he saw Suse Hopewell, David decided that he needed a nurse, not because Suse was a nurse, but because Suse was Suse, and her being a nurse was just incidental.

David was proprietor of a jewelry-photograph-sewing machine-camera store, and he first saw Suse when she entered the place on business. The business was the purchase of a sewing machine badly needed at the hospital.

Now David was a very ingenious young man, albeit somewhat reserved and backward when it came to the business of wooing. The moment he saw Suse step into the store the little engine that operated on his left side began to work queerly. As he walked toward the prospective customer he was afraid its bumping would frighten her. However, she seemed quite composed and he came to the conclusion that perhaps she had not noticed the unusual sound.

In stories all nurses are pretty, and this one is no exception in that re-

"I Need a Sewing Machine."

gard. Suse had big eyes that usually appeared gray, but at times seemed shaded with deep blue. She was neither slender, short, tall nor chunky. Her hair was light brown, and while it could not be called luxuriant, there was enough of it, without paid-for additions, to be done up in a business-like, nevertheless attractive, coiffure.

"I need a sewing machine," Suse said, and David stopped staring and suddenly remembered what she was there for.

Once out of his daze, he tried to cover the fact that he had been in one by rapid monologue, which was rather inane, but served to make up for the time he had consumed in staring at Suse.

Suse selected a machine and paid for it, requesting that it be sent to the hospital, and after she left David drifted into a waking dream. Suse certainly got a bargain when she bought that machine, for a young man's heart was thrown in without extra charge.

The apparent hopelessness of his dream brought David out of it.

"I'm a gonner," he half groaned. "But what's the use? I don't know her and there's no chance of getting acquainted unless I get sick, and then the store would go to ruin, and who wants to marry a bankrupt man? Besides, I might as well admit that I haven't enough nerve to go after her."

However, as has been said, David was an ingenious young man, and it was not long before his brain got to work on a scheme which had for its object the forming of Suse Hopewell's acquaintance, and, some distance in the future, the marrying of her.

Two sewing machines were to be delivered on the same trip, and a short time before the driver of the silver called for them David might have been seen busy with a screwdriver about the mechanism of the one ordered by the superintendent of Bellevue hospital. He might have been seen thus engaged, but he took pains to make sure that he was not.

He watched the machines leave on the truck and with a queer glitter in his eyes began straightening up the phonograph record racks.

There were no developments that day, but the next afternoon David received a call from Bellevue hospital.

"The new machine I bought of you doesn't work," said a sweetly familiar voice on the wire. "I need it right now, so please send some one in a hurry to 22 it."

Some one went in a hurry. David sent himself.

Suse ushered him into the presence of the obstinate machine, and he produced a screwdriver from his tool bag to remedy the trouble, of which he was the cause.

"You won't need that," smiled Suse. "It's something about the belt that's wrong."

With surprise David noted that her statement was true. Something was wrong with the belt, and the bobbin, which he intended should have become balky, worked smoothly.

As he busied himself repairing the belt, David managed to entice Suse into conversation, and when he left he felt that he had made some progress, although he was still mystified. The mystery was solved when he got back and learned that a man had been sent out to Joseph Freedman's home to repair a new machine.

"The delivery man got them mixed," David decided; but he was just as well pleased, for the broken belt had served its purpose as effectively as the bobbin might have done.

Thus did David Kling and Suse Hopewell get acquainted, and, encouraged by his progress of the first day, David summoned enough courage to invite Suse to attend the theater with him.

Suse seemed to welcome his attentions, and soon he was calling on her with considerable regularity. Three months after the purchase of the sewing machine that had served to guide their destinies, they became engaged.

"Isn't it wonderful," he observed one night, "what little things serve to bring a man and woman together?"

"Yes," she agreed. "I once heard of a man who met his fate just because a strong wind blew a hat from a young lady's head, and he ran after it for her."

"That case is no stranger than ours," said David. "Just a little sewing machine did the business. Do you know that I fell in love with you the day you came into my store to buy the machine? And do you know that I deliberately damaged a sewing machine so that I might get acquainted with you?"

"You damaged my machine?" she inquired, evidently perplexed.

"Well, no, I didn't. I damaged another one by mistake—fixed the bobbin so it wouldn't work. As it happened, my strategy proved unnecessary, thanks to the accidental breaking of the belt on your machine."

Suse smiled. There was a queer, rather mischievous twinkle in her eyes.

"Yes, it was strange," she admitted. "I suppose you figured all was fair in love. Well, now I'll make a confession of my own. I fell in love with you the day I stepped into your store."

"I never suspected it," he exclaimed. "I didn't intend that you should," she said. "But my heart was bumping so hard when you advanced to wait on me that I feared you would hear it."

"I also believed that all was fair in love," she went on after a brief pause. "In fact, I deliberately broke that belt—so I could have you fix it."

QUEER METHODS OF FISHING

In Palestine They Do Not Use Nets and Would Laugh at a Hook and Line.

The modern Palestine dweller tells us that he would now look in vain for boats "launching out into the deep," and working nets all night in the Sea of Galilee. Not that the fish have disappeared; they are to be caught there in millions, as also in the Jordan and Jabbock; but the Arabs, less accustomed to systematic work than the Jews of old, follow easier plans—the simplest of which is throwing poisoned bits of meal cake into the water, and then wading in to make a collection, a custom of which no other nation is like to rob them.

Another way of doing the work is by pelting the fish with stones, which can be done very profitably when the schools of yellow musht congregate. Some of the Bedouins, probably taking example by travelers, fire charges of small shot among them, and so get a bag; so thick are these schools that it is even said that a revolver bullet has been known to kill three fish.

Hook and line may be found very occasionally, but, as a rule, when the practices above are not resorted to, the fishing is done by small dip nets or large hand nets; in the former case the fishermen, standing on the banks, lower a kind of bird net which can be closed by the pulling of a rope, from racks or wooden platforms, and hauled up at intervals of an hour or so. Where the hand net is in use—it is a kind of cross between a butterfly and shrimp net—the fisherman wades in up to his waist with a bag on his shoulder, and is content to catch the fish one or two at a time. The fish of the Syrian waters are of many different species, but few are peculiar to the country.—Exchange.

Phenomenon Caused Alarm.

It is recorded in the Gentlemen's Magazine that on January 3, 1753, at four o'clock in the afternoon, at Tunn, in Ireland, an unusual light, far above that of the brightest day, struck all the beholders with amazement. It then faded away by invisible degrees; but at seven, from west to east, a "sun of streamers" appeared across the sky, undulating like the waters of a rippling stream. A general feeling of alarm was excited by this phenomenon. The streamers gradually became dissolved, and flushed away to the north, attended by a shock which all felt, but which did no damage. The affair seems to have been an example of Aurora Borealis, only singular in its being bright enough to tell upon the daylight.

SATURDAY, APRIL 10, 1920.

TIMELY TIPS FOR GARDENERS.

Spading Time Has Arrived.

Garden plans completed, seeds purchased, manure and fertilizer on hand, the ambitious home gardener joyfully sheds his coat at the end of a stuffy day in the office, "grabs" the spading fork, and rejoices that the real work can now begin. A word about spading—it should be as deep as the regular spade, and the ground should be turned over completely so as to cover the strawy manure. Probably the plantings will not be made at once, in case of tomatoes, eggplants and peppers, not for a month, but spade the whole garden just the same. Rake it every five days, or as soon as possible after each rain so as to conserve moisture, and incidentally by following this practice, you will eliminate over fifty per cent. of the weeds which would naturally grow in your garden.

Spinach.

As this crop likes a loose soil in which to grow, spinach seed should be sown just as soon as the garden soil has been turned. It grows very fast, and is one of the first green crops from your garden. Good poultry or sheep manure applied under the row, a handful being used to every 5 or 6 feet of row space, will give good results, and nitrogen fertilizer is necessary to insure quick growth. Allow 15 to 18 inches between rows with the plants an inch apart in the row. Thicker plantings may be necessary, depending upon the germination qualities of the seed. As soon as the spinach breaks through the ground, cultivate and keep the surface ground broken up at least until the spinach is about half grown.

Onions.

Both the onion seed and sets should be planted as soon as possible. In growing onions from seed, use a top dressing of nitrate of soda, or sheep or poultry manure which will give the plants the necessary good start, and will mature a larger bulb in the fall. These seeds are generally sown in rows 12 to 15 inches apart in the garden, and thinned out to stand not closer than one inch in the row. In the planting of sets the fertilizer should be placed under the row and thoroughly mixed with the soil. Sets are placed one to two inches apart in rows fifteen inches apart.

Peas.

As it must mature before the heat of summer, this popular vegetable, especially the earlier varieties such as the Alaska or smooth type, should be planted now. The planting distance will depend entirely on the type planted, small dwarf types being planted in rows apart, and an average type in the row. For peas allow four feet between rows, or something like that for the climbing type. Issued by the State College of Agriculture, April 3, 1920.

JERSEY SEPARATES HAVE

SPLENDID RECORD

The best traveling quintet of Brooklyn is the Jersey Separates. Out of 54 travelling games played this season they have won 42 and lost 12. In their out of town games which numbered 24 only two were lost, Greenville Catholic Club defeating them 50-46, and Stamford, Conn. team over whom they held a victory. No one club has been able to defeat the Separates twice. Some of the clubs the Separates hold victories over are McDowell Lye., Cathedral Club, Q. B. L. twice, St. Vincent, Lady of Sorrows, East New York A. A., Stamford, New Canaan twice, Monroe, Middletown, Sayville, Patchogue. The team which carried the Separates through these games consisted of Banks, Williams, People, Byers, Hirtin, Clyde and Miller. The Separates expect to end their season about the first of May and have their books open to all home clubs wishing a good attraction. Address Joe Byers, 2436 Hughes street, Brooklyn, N. Y., or phone Prospect 6600 between 9 a. m. and 5 p. m. or Evergreen 754 any evening.

Speaking of Automobile Tires.

When Horace Greeley said "Go West Young Man," he little dreamed that the pioneers in the second largest industry in the United States would trek into the far East and the South to gather materials for some 20,000,000 small car tires that today are carrying the various makes of light cars over every road that men travel in pursuit of business and pleasure.

"Yet it is a fact," declares George R. Delaney of the local Goodyear Service Station, "that the Pneumatic tire was made possible by men who went east for rubber and South for cotton fabric. The ingenuity of man has since wrought wonders in the cultivation of these two essentials in tire production.

"The Goodyear Tire & Rubber Co., of Akron, has its own plantation of 18,000 acres in Sumatra where it grows thousands of tons of cultivated crude rubber every year. On its 20,000 acre plantation in Arizona it produces a high grade of long staple cotton which is woven into fabric at its cotton mills in Good-year, Conn.

"At Akron the fabric is unwound from bolts in the form of a constantly moving large sheet which is passed through a calendaring machine where it is impregnated with rubber. The rubber fabric is then cut to tire size and sent on to the tire builder. Here the making of the tire is started by building up layer on layer over the core upon which the tires are constructed. The treads are latter applied, the tire is then vulcanized, and with a few finishing touches is ready for market.

"Scores of inspections are made on each tire during this process of construction so that the car owner will be assured of the maximum mileage service."

UNITED CIGAR STORES

To All My Old Friends and All the New Ones That This Announcement Will Bring Me

I have taken advantage of the Agency Plan of the United Cigar Stores Co., which in every essential respect makes my store a UNITED CIGAR STORE.

This plan has proved immensely successful wherever introduced, because it passes on to smokers in smaller places all the advantages enjoyed by the smokers of the large cities in which the United Cigar Stores Co. operates 1,000 stores.

Under the plan I own the store as before and my name remains over the door, but my arrangement gives me all the benefits of buying and selling that any United Cigar Store enjoys.

All the famous brands at United Cigar Stores prices.

United Coupons or Certificates with all purchases.

My Store Will Open as a United Cigar Store Saturday, April 10

To celebrate the Occasion the following SPECIAL INDUCEMENTS are offered:

1	FREE, Double Certificates with all purchases.
2	FREE, Ten whole Certificates with cigarette purchases amounting to \$1.00 or over.
3	FREE, A Tobacco Pouch (Genuine Buckskin) with all purchases of pipes.
4	FREE, A Durham Duplex (Demonstrator) Razor with purchase amounting to 25c or over.
5	FREE, A Glass Ash Tray with purchases amounting to 50c or over.
6	FREE Nickel Plated Pocket Pen with purchases of 25c or over.

"QUACK" Pills Won't Stop THIS Backache

But a Western Electric WASHER and WRINGER Will

It is no longer necessary for you to waste your time and strength, pin and clothes on an old-fashioned rub board. That's the wonderful and harmless way to wash. For it makes wash day one of wear and tear on both you and your clothes. The modern, convenient way to wash is to let electricity do the hard work. With the Western Electric Washer and Wringer all you have to do is put your clothes in the wooden cylinder, which, by revolving, works like a hand, and not only wrings out the moisture, but also cleans and brightens your clothes. While the clothes are washing you can be doing your other household work.

You don't even have to turn the wringer. It is controlled by electricity, and you can stop it at any time. You'll find this washer will save you the backache and about a week's worth of electricity will do the average wash. Come and see it, we know it will interest you.
