South Amboy, N. J., Friday, July 2, 1926

Price Four Cents.

ELEVEN THOUSAND DOLLARS MORE NEEDED FOR HIGH SCHOOL REPAIRS

Board of Education To Ask That Funds Be Added To The \$51,000 Appropriation Already Authorized—Lambertson & Reese Get General Contract For \$35,860.

The concern of Lambertson & Reese were the low bidders for the general construction work of repairing the High School building and a contract was awarded by the Board of Education at a special meeting held Tuesday night. The contract figures were \$35,860 which would make the total cost of completing the contracts already awarded by the Board of Education amount to nearly sixty one thousand dollars. The Board of School Estimate has granted but fifty one thousand dollars for the work and a bond issue for that amount has been authorized by the Common Council.

The bid of Ferdinand Tedesco as submitted to the Board of Education on the revised specifications was but eighty-three dollars higher than that of the successful bidder, his total bid being \$35,943. In submitting their revised bids the two bidders reduced their figures as follows: Lambertson & Reese, \$2,660; Tedesco, \$2,975. The Board of School Estimate is to be called together in the near future to consider what action may be taken on the additional funds that will be required to finish the contracts already authorized by the Board of Education.

Originally the building cost about a hundred and twenty thousand dollars and repairs authorized now are to cost about half as much. At present the Board has awarded contracts as follows: heating, \$13,850; plumbing, \$1,944; electrical work, \$2,032; general construction, \$35,860. The architects fee will be about \$4,300.

BUSINESS MEN

PLAN OUTING

Final Arrangements To Be Made At Next Meeting, July 12th.

The local Business Men's Association is to have an outing in the near future and plans for it are to be considered at the next meeting of the organization which is to be held on July 12th, a week from next Monday evening. That meeting is to be in the form of a smoker and refreshments and smokes will be tendered to all attending. At the outing to be discussed it is planned to give over an entire afternoon to the enjoyment of sports and a general get-together and faterward to enjoy a real old fashioned shore dinner.

The meeting held last Monday night was well attended and a satisfactory degree of enthusiasm was evinced. The committee on the new station reported progress and is arranging another meeting with railroad officials to that end. It has been decided that when they finish with the new station project the business men are to take up the matter of a white way along Broadway.

All citizens and residents of the city are invited to attend the future meetings of the Business Men's Association. The by-laws have now been changed so as to admit all local people instead of the membership being limited strictly to those in business here. It is expected that the change will result in a rapid increase in membership. If you are interested in South Amboy's future progress and development, join the association. No need to wait to be asked. Particulars may be secured from the secretary, Mr. Fred Kurowsky, at the local offices of Reinhardt & Kurowsky, or any member of the organization.

BUILDING LOAN ELECTS

The directors of the Investors and Owners Building and Loan Association of this city were elected at the sixth annual meeting of that body on Wednesday evening. Officers and auditors of the Association will be named by the directors at the next regular meeting of that body.

Those elected on Wednesday evening were Donald W. Reed, Max Kaufman, Irving L. Reese, Howard D. Littell, John Cozzens, Michael P. Nagle, Albert Jerome, Robert P. Mason, Patrick F. Kenah, Harvey Emmons, Charles Steuermann, Oscar Mundy, Harold G. Hoffman, Dr. J. F. Weber, George Mortenson, Fred Lear and Richard Neiltopp.

Schoolmates Entertained Here

Miss Louise Barr of Stevens avenue, has been entertaining a few of her school mates from Fairfax Hall, Waynesboro, Virginia recently. Miss Evelyn Crocker, of Stratford, Conn., Miss Doris Parsons, of New York City; Miss Muriel Horner, Ashbury Park and Miss Betty Stout, of Princeton, were among the guests.

Ten 42 foot restricted lots on Whitehead tract. On terms to suit. Inquire T. F. Sullivan, 265 David street.

INSURANCE MAN TENDERED DINNER

W. H. Barry, of Metropolitan Company, Honored By Local Agents.

Mr. W. H. Barry, local manager for the Metropolitan Life Insurance Company, was honored on Wednesday evening by the South Amboy agents of that company with a dinner at one the Perth Amboy hotels. Mr. Adolph Steiner, of Church st., a leading agent for the Metropolitan company in this district, acted as toastmaster and welcomed Mr. Barry in an official way to this locality.

Mr. Barry has been with the Metropolitan Company for a number of years and has been schooled in the company's school for agents. He has been a leading light among agents throughout the company and has risen to a responsible position with the company. At the present time Mr. Barry has established his residence at Red Bank but it is expected that he will make his home locally before long.

Mr. Steiner in his opening address welcomed Mr. Barry to this district in behalf of the agents and policy holders. He explained the favorable conditions that present themselves to strangers to this vicinity. Later Mr. Barry assured Mr. Steiner and the agents present that he would assist them and work in harmony with the policy holders. "South Amboy is a real Metropolitan City," said Mr. Barry during the course of his remarks. Mr. Barry claimed that the growth of the business the first six months of this year was phenomenal and he urged that the good work continue.

George Scully, a former South Amboy, addressed the gathering at the close of Mr. Barry's remarks and prophesied a greater year than ever beginning on July 1st. Mr. Scully pointed out a course of action needed in order to keep getting business. He extended a cordial welcome to Mr. Barry and promised the new superintendent his personal hearty support.

The agents were told at the dinner that more business was written up in the first half of 1926 than in the whole year of 1925.

Among the agents present at the reception were, Steiner, Watson, Weinstein, Rosenstein, Strek, Quatrochi, Kloc, Worski, Malick, Schiff, Scully, Barry and Wilson.

MISS ALPINE

IS FAIR BRIDE

Weds New York Lawyer Last Sunday.

The marriage of Miss Celia Alpine, formerly of this city, and Henry A. Spiegelman, B. A., L. L. D. was performed last Sunday, June 27th, at the Temple Shari Zedak, 93rd street and Broadway, New York City.

The short informal ceremony was followed by a luncheon at the Hotel Cecil. The ceremony and luncheon was attended by the immediate relatives of the bride and groom.

The bride is the daughter of Mr. and Mrs. Morris Alpine of Bordentown avenue and attended the local high school. Later she graduated from the New York Conservatory of Music and has since given piano instruction in that city.

The groom is a New York attorney and an alumnus of Columbia University. The bride was tastefully attired in a big princess frock trimmed with Spanish lace. She wore a large tan Milan hat and shoes and stockings to match. She carried a bouquet of tea roses.

They left immediately after the luncheon for an extended honeymoon trip through Canada, the Great Lakes and vicinity. Upon their return they will make their home in Flatbush, N. Y.

ANNIVERSARY SERVICES AT LOCAL CHURCH

The seventy-third anniversary of the First Methodist Episcopal Church was observed last Sunday.

Rev. C. S. Miller, a former pastor, preached an inspiring sermon in the morning, calling attention to the great accomplishments of the church in general during the last half century and expressing his confidence that the achievements of the past would be exceeded by those of the next fifty years. During the pastorate of Rev. Miller here the people became very much attached to him and they are always delighted when he pays them a visit.

Judge J. Warren Davis of Trenton preached an interesting sermon at the evening service, his subject being the desire to live a decent, respectable life and afterward to go to Heaven.

Judge Davis was formerly a Baptist preacher and still finds time in his busy career to conduct a Bible Class of about 500 men each Sunday at the Central Baptist Church, Trenton. He is a warm friend to Rev. D. E. Clair of the local church, and also of Rev. Miller, his friendship dating back some twenty years.

See T. F. Sullivan 265 David St. for restricted lots on Whitehead tract.

New, well built modern home, 4 bedrooms, all improvements, porcelain basement tub; choice of heating systems, heat located Portia st., price low. Apply S. T. Bastedo, 424 Portia st., Tel. 268-R.

PROF. O. M. BOYCE LAID TO REST

Saturday At Christ Church Cemetery—Dies After Lingering Illness.

Funeral services for Professor Orville M. Boyce, a former resident of this city, who died after a lingering illness at Easton, Md., on Thursday, June 24th, were held from Christ Church, that place, at four o'clock last Friday afternoon. The body was then brought to this city, where burial services were held at four o'clock on Saturday afternoon, the Rev. Charles E. Kennedy, rector of Christ Church Parish here, officiating. Interment followed in Christ Church cemetery. The funeral services here were held from the home of Mrs. A. H. Furman, of John street.

Professor Boyce was thirty-seven years old and was born in Hartford, Conn. From 1918 to 1921 he was principal of the local high school and was regarded as a very efficient educator. After leaving in search of a wider field of opportunity he was for the past three years principal of the Easton High School and there was classed as the best educator that school ever had.

While in this city Mr. Boyce made many friends and was one of the leaders in the formation of the local High School Alumni Association and took an active interest in the affairs of the association after its formation. He had recently been appointed professor of the Cantonville (Md.) High School and was to have taken up his duties there next school term.

The deceased is survived by his father, Orville Boyce; one sister, Mrs. Ralph Beecher, both of West Pawlet, Vt., and a daughter, Jean, of this city.

SACRED HEART CARNIVAL MONDAY

On Grounds Adjoining Parish—Will Continue Entire Week.

The annual carnival to be held on the grounds adjoining the Sacred Heart Church promises to be a big success. John Tomaszewski is the general chairman of this year's enterprise, and together with his committee is stressing every effort to make the affair a big success.

The carnival will open Monday night and continue until Saturday night. A dance orchestra will feature each evening's entertainment and the usual attractive prizes will be offered to the public. Refreshment stands of all kinds will also be found on the grounds when the carnival gets under way.

A general invitation has been extended to the people of South Amboy to attend this affair.

HAROLD HOFFMAN ROTARY PRESIDENT

Charles K. Champlain to Speak at Luncheon Tuesday.

At Tuesday's luncheon of the South Amboy Rotary Club Harold Hoffman will assume office as president of the Club for 1926-1927. There will be a special program presented, featuring as the speaker Charles K. Champlain, the famous stock actor. Champlain heads the largest organization of stock players in the country. Starting out as a sign painter in Red Bank, he entered the theatrical business and by his splendid ability in this line has made himself most successful, today being rated as one of the wealthiest men in his line.

Last Tuesday Dr. D. C. Clair, of this city, gave a delightful talk to the members, his address being both humorous and inspiring.

MANY SAIL ON ROCKAWAY BEACH EXCURSION TODAY

The first excursion to Rockaway Beach from this city proved to be a huge success. The excursion left this city this morning shortly after nine o'clock with South Amboy's quota subscribed magnificently. Many parents took their children to enjoy the pleasant sail with the members of Christ Church who sponsored the undertaking. The Iron Steamboat Company's steamer "Sirius" was chartered for the occasion.

The return of the excursionists is looked for this evening shortly after dark.

CELEBRATE THE FOURTH AHEAD OF TIME

So annoying was the pre-celebration of the Fourth of July in the Maxville section of the city that the police were asked to step in and announce to some of the youths that the anniversary of the signing of the Declaration of Independence was four days off. Officer Maliszewski took a stroll to that section and the trouble was quieted much to the relief of those who live in the vicinity of the noise.

Miss Margaret Kerwin, of Fourth street, has arranged to take up a summer course at Rutgers Business College.

Residential lots on Whitehead tract. Bordentown Avenue. Terms to suit. Inquire T. F. Sullivan, 265 David St.

FOR SALE: Double house, lot and a half of ground, garage at 407 David street, Price \$2,200. Apply Wm. J. O'Toole, 341 Second st.

FIFTH ANNUAL BANQUET OF ALUMNI ASSOCIATION IS ENJOYABLE EVENT

Held At Hotel Pines, As Usual, Wednesday Evening—S. N. James Elected President To Succeed Mrs. R. P. Mason—Graduates Presented With Gifts.

60TH WEDDING ANNIVERSARY

Celebrated By Mr. and Mrs. Edward Bloodgood, Sr., Monday Evening.

The sixtieth wedding anniversary of the marriage of Mr. and Mrs. Edward Bloodgood, Sr., was quietly observed at their home at Morgan Heights last Monday evening when a few relatives and close friends dropped in to spend the evening. The couple had been in receipt of numerous cards of congratulations, gifts and floral bouquets attesting to the esteem in which they are held by a wide circle of friends. The grand old couple were all smiles of joy as they sat amidst the four generations of their family which were represented at the gathering. Despite the fact that no special arrangements had been made before hand for the affair the evening proved to be one that will dwell long in the memories of those who were in attendance.

Mr. and Mrs. Bloodgood were married in the Methodist Parsonage at Totenville by the Rev. Thos. Walters at eight o'clock on the twenty-first of June, 1866. The wedding party which included Miss Charlotte A. Bloodgood and Mr. George Slover both now deceased, traveled to Totenville from here in a sailboat handled by the groom. Both the bride and groom had spent most of their lives up to that time as residents of South Amboy and after their marriage they made their home here until about three years ago when they moved to Morgan Heights. Mrs. Bloodgood has now reached the ripe age of seventy-seven years while her spouse has seen eighty-one years of life. Both continue in fairly good health and are quite active in and about their home and maintain an active interest in the affairs of the city in which they had lived for so many, many years.

STEALS CONTENTS OF CASH REGISTER

Lunch Wagon Employee Makes Hasty Exit From City.

Edward Miller, believed to have been a resident of New York City, and for a time employed at the lunch car on the corner of Stevens avenue and John street, made a hasty exit from this city on Tuesday evening, according to Proprietor James Welsh who notified the police that besides Miller's leaving the contents of a cash drawer were missing too. He was described as being about six feet tall, wearing a dark suit and a blue polka dot tie.

Just how much money was in the cash drawer at the time the police did not learn. Miller was on the night shift in the car and was alone. A search about the city for the whereabouts of Miller has been made with no results.

K. OF C. NOTES

The regular meeting of the South Amboy Council, K. of C., will be held in their rooms on David street, next Wednesday evening. At this time Charles Eppinger and his committee will render a much looked for report on the dinner program for Seacroft on July 15th.

Other matters of importance will be discussed and preparations for the staging of debates among members made for the near future. Two officers of the Council will take sides in the first verbal encounter, a date for which has not yet been announced.

LOCAL CONTRACTOR TO BUILD AT CHEESECAKE

Two local firms, Lambertson & Reese and Ferdinand Tedesco, were the low bidders for the new addition to the school house at Cheesecake recently. It is understood that the contract for the work is to be awarded to Mr. Tedesco, his bid being about sixty dollars lower than that of the other local firm. The total bid was in the neighborhood of nine thousand dollars.

Master Thomas Howley, son of Health Inspector and Mrs. N. J. Howley, is very ill at his home on David street.

\$11,500

A Bargain at \$11,500
BOYNTON BROS & CO.
200 Jefferson St.,
Perth Amboy

Hotel Pines, Metuchen, presented a delightful scene last Wednesday night upon the occasion of the Fifth Annual Banquet of the South Amboy High School Alumni Association. Two hundred and forty persons were served and upon all sides the comment was heard that the affair was the most successful ever held by the Association.

The tables had been tastefully decorated with sprays of apple blossoms and ferns, while pink rose mint cups and pink rose horns, supplied as favors, added to the color scheme. At a large oval table the eighteen members of the Class of 1926 were seated. In the center of this table, banked with ferns, was a large Jack Horner pie, bearing favors for the members, in the shape of a huge pink rose.

The ladies were given paper "sun-bonnets" in varied hues, while the gentlemen wore miniature hats that added to the merriment and gaiety of the occasion.

At 8 o'clock dinner was served. Mine Host Herr had arranged a splendid menu that found favor with the diners.

Celery	Olives	Radishes
Soft Shell Crab	Fruit Cocktail	Chicken Okra
Westphalia Ham	Tartar Sauce	Julienne Potatoes
Potatoes Risette	Chicken Eugene	
New Peas		
Hearts of Lettuce, Russian Dressing		
Ice Cream	Cake	Demi Tasse

MISS TENENBAUM ENTERTAINS

Members Of Graduating Class Of 1926.

Last Sunday Miss Sylvia Tenenbaum, daughter of Mr. and Mrs. Ben Tenenbaum and one of the graduates of the local High School this year, was hostess at a party held at her home on Broadway at which about thirty young people were entertained. The affair continued to furnish fun for not only the young folks but their elder companions throughout the afternoon and evening during which a wide variety of parlor pastimes were indulged in amidst much merriment. Piano recitals by the hostess and some of the guests were very much appreciated. Dainty refreshments were served and the affair broke up at a seasonable hour, the departing ones pausing to wish their hostess the best of luck in her chosen field of life's endeavors, where ever it may call her.

TRAMP AROUSED FROM DEEP SLUMBERS

Police Officer Edward O'Leary disturbed abruptly the slumbers of a "gent of the world", as he peacefully dreamed of many things in a vacant house on lower John street Wednesday evening. A neighbor notified the police station that a tramp was sleeping in the house and that people in the vicinity were afraid that he would set the place on fire. O'Leary was detailed to investigate and found the wanderer peacefully tucked between several newspapers and snoring in no gentle manner.

The man was escorted to the City Hall, where he was given a night's lodging, and refused to sign the ledger of guests. He was given a warning yesterday by Chief of Police Gleason.

ANOTHER GARAGE ENTERED

While a neighbor looked on the garage of James Lenahan, of Main street, was entered on Wednesday night about ten o'clock. Two young men believed to be local youths the police believe to be responsible for the deed. The neighbor who had watched the strange actions of the pair, noticed that they entered the garage of Mr. Lenahan and immediately notified him.

When Mr. Lenahan appeared on the scene the youths took to their heels up the alley between Main and Second streets, thence through one of the yards. Officer O'Leary had been sent for but when he arrived there was no trace of the culprits.

A short time ago the garage of Norton Wheeler on Main street was entered and a spare tire and wheel besides a battery was taken.

Work in the local P. R. R. yards is very slack at this time.

FRIDAY, JULY 2, 1926

MECHANICSVILLE

Mrs. John Holton, of Ridgeway avenue, and a party of friends spent Sunday at Coney Island.

Albert Jerome, of Ridgeway avenue, motored with friends to Asbury Park over the week end.

Thomas Dohaney, of Conover street, entertained friends from Brooklyn, N. Y. at his home on Monday.

A number of the residents of Raritan street were Point Pleasant visitors over the week end.

The upper end of Raritan street was given minor repairs during the fore part of the week.

One of the most active members of the Flies Baseball committee is Patrick Cleary of Wilmot street. "Pat" is under the impression that the Flies will make a strong bid for the county honors this season.

Miss Mary McCarthy of upper Raritan street is now enjoying her annual vacation from her studies at Riders College, Trenton.

Mr. and Mrs. James Cleary of Wilmot street have returned from their stay at the Eucharistic Congress at Chicago, Ill.

Mrs. Ernest Speaker of Wilmot street was an Old Bridge visitor the fore part of this week.

The members of the Mechanicsville Hose Company are anxiously awaiting the arrival of their new truck.

It is understood that ground will be broken within the next several weeks for a number of new homes in this section of the city. The Kurtz home on lower Raritan street is about ready for occupancy at this time.

The firemen of the Mechanicsville district are very much enthused over the prospects of their candidate for the office of Queen of Old Home Week celebration. The local laddies are of the opinion that the other companies will have to step along to beat their candidate. Miss Kathryn Wilz, of Raritan street, has been selected as the candidate for the local company.

The Johnson family of lower Raritan street have moved to Parlin.

Thomas Dohaney of Conover street was among the many from this city at the Elks parade at Asbury Park last Friday.

James Stolte of Conover street was a Brooklyn visitor last Sunday.

ODDS AND ENDS

Miss Lois Hayes, of Yardville, former resident of Church street, visited with friends here on Tuesday.

Francis Segrave, of Stevens avenue, motored with friends to Troy, N. Y. on Saturday.

Mr. and Mrs. William S. Dey, of Main street, are entertaining friends from Philadelphia, Pa. this week.

Miss Sophie Kuc, of Feltus street, motored with a party of friends to Coney Island last Sunday.

Mr. and Mrs. Joseph French, of Fourth street, were New Brunswick visitors last Sunday.

Mrs. Antoinette Gordon, of Scranton, Pa., is spending the summer vacation with her parents, Mr. and Mrs. A. T. Kerr, of Church street.

The business establishment of South and Peterson at the corner of Broadway and David street is receiving a new coat of paint.

Francis P. Hennessey, of the local post office is now enjoying his annual leave of absence from his duties.

Mr. and Mrs. John Brophy, of David street, have returned after attending the Eucharistic Congress at Chicago. Mr. Brophy is enjoying his vacation from duties at the local offices of the Pennsylvania Railroad.

John Lyons, of First street, was among the many from this city who attended the Eucharistic Congress at Chicago, Ill.

J. Lorton Burlew, of John street, is enjoying his annual leave of absence from duties at the local post office.

Earle Thompson, of Long Branch, an employee of the Pennsylvania Railroad Company here is enjoying his annual leave of absence.

Miss Fannie Miller, of Hoboken, is enjoying the week end with friends on Pine avenue.

Fred Wardell, of First street, was one of the speakers at the Nut Social Club banquet at the Hotel Remington, Perth Amboy, on Monday evening.

According to an announcement made by Charles Eppinger, chairman of the first annual banquet of the Knights of Columbus to be held at Sacoast, July 15th, high class entertainment will be presented.

It is expected that the Firemen's Parade which will feature the closing of Old Home Week here will outclass anything of like nature ever attempted in the state. Invitations have already been accepted by a number of fire companies from surrounding points to be on hand at that time.

Miss Fannie Verbiest, of Hoboken, is enjoying the week end with Mr. and Mrs. William J. O'Toole, on Second street.

Mr. and Mrs. J. Sergel, of David street, were among those from this city who attended the Eucharistic Congress at Chicago, Ill.

Eat Less and Live Longer, Says Lawyer

By W. W. O'BRIEN

(Noted Criminal Lawyer of Chicago.)

Business and professional men working under high nervous pressure do not

live as long as men whose pursuits keep them out of doors and active. Examine the records of longevity and you will find that on the average the longest-lived men are soldiers, sailors and farmers, all avocations which tend to keep a man at his physical best.

Man, in general, rolls down the hill of life fastest when his figure is rotund. "Leanness and longevity" is a good axiom for business men to remember. If office workers would eat a little less, they would add years to their lives.

Overfeeding is as dangerous to adults as underfeeding is to children. Foods difficult to digest, or which overstimulate, should be avoided by persons whose work does not require any particular amount of physical exercise. Yet thousands of business men eat as much as or more than men who do manual labor. And, inevitably, nature rebels and sickness results.

Many of the country's foremost executives eat but two meals a day, breakfast and dinner in the evening. They seek to keep the organs of the body from becoming clogged. Thousands of other business men confine themselves at noontime to custards, puddings, soups and other sustaining dishes made with milk, or evaporated milk, which is milk in its most sterile form, from which 60 per cent of the water has been removed by evaporation. Such a diet is light and readily assimilated.

There is no more necessary lesson to be learned by the brain worker than how to keep well and healthy by proper attention to food habits.

Eating Greater Cause of Death Than Drinking

Drink is the second greatest cause of disease and death. Food comes first, then drink. Excluding alcoholic beverages, there are dozens of drinks on the market today whose effect is detrimental, particularly to children.

Milk is the best drink for children. Not only is it drink, but food as well—the most nearly perfect food known to man.

Milk is an all-the-year-round drink and for this reason the children often rebel against drinking it. This condition, however, may be overcome by the introduction of the mixed drink. Milk or diluted evaporated milk may be mixed with eggs or used in fruit juices or in some other way which will disguise the fact that the drink contains milk. In the hot summer months when the child naturally drinks more than in cooler weather, it is wise to vary the ways of serving milk, so as not to create a distaste for this important food.

In connection with mixed drinks, the following formulas for milk beverages may aid mothers in serving something new:

Iced Cocoa
1 tbsp. cocoa 1 1/2 cups evaporated milk
2 tbsp. sugar diluted with
1/2 cup hot water
Few grains salt 1 1/2 cups water
1/4 tsp. vanilla

Scald the diluted milk in a double boiler. Mix cocoa, sugar, salt and add the hot water. Cook over a low flame from 10 to 15 minutes, stirring occasionally to prevent burning. Add to the cocoa the scalded milk; return to the double boiler and continue cooking for 10 minutes. Add vanilla, chill before serving. Pour into tall glasses which contain a few small cubes of ice. Serve plain or top with whipped cream sprinkled with cinnamon. Serves four.

Egg-Nog.
1 egg diluted with
Few grains salt 2-3 cup ice water
1 tbsp. sugar 2 tbsp. berry or
Few grains nutmeg cherry juice or
2-3 cup cold 2 tbsp. non-alcoholic
evaporated milk holic cherry

Separate white from yolk of egg. Add salt to white and beat until stiff. Beat yolk until thick and lemon colored and add the fruit juices, nutmeg and sugar. Combine diluted milk with yolk mixture. Pour into a tall glass and put the egg white on top. Sprinkle top with chopped nuts and serve at once. Serves one.

Orange-Nog.
1/4 cup orange juice 1-2 cup evaporated
Few grains salt milk diluted
2-3 tsp. sugar with

Add sugar and salt to orange juice and pour slowly into the diluted milk, stirring to mix thoroughly. Chill before serving. One-half tsp. lemon improves this drink for many. Serves one.

"Tramp" Cows Cost Farmers More Than Billion a Year

Huge Drain on Agriculture Can Be Offset By Better Methods, Says Institute Founder

By L. J. BROSEMER

Two groups of farms represent an average business investment of \$23,000 per farm. One group showed a yearly labor income of \$1,423. The other group cleared only \$95 labor income for twelve months' hard work.

J. E. Larrowe

What all of us with money invested in land, animals and crops want in goodly measure, year after year, is "labor income," because labor income represents the amount of earnings left for one year's work after all expenses and interest at 5% on our investment have been taken into account. If we can't make money, why farm at all?

Quite a big difference between \$1,423 and \$95 as the result of a whole year's work! At least that is how it struck me, listening to James E. Larrowe outline the three factors which are keeping down profits in America's greatest industry. These are the waste, not the cost, of feed, the low production per animal, and the waste of time because of poor management.

Or, looking at the same picture from

a slightly different angle, it is costing our farmers \$1,200,000,000 a year in feed, labor and overhead expense to keep the 12,000,000 tramp cows that produce less than the U. S. average milk production per cow. And none of these tremendous losses will be stopped until American farms are put on a business basis.

That is the opinion of James E. Larrowe, a successful business man whose clearly defined ideas on farming are the result of facts, proven on his noted Larro Research Farm and coupled with government and state field data covering thousands of eastern and southern farms.

We talked together in his office, visited his research farms, questioned the nutrition experts, former college professors, fact and detail hunters in his recently organized Larrowe Institute of Animal Economics, and I was amazed to learn how closely interwoven the businesses of milk, egg and meat production were with the general business structure of the nation, and the large part they play in our national economic life.

I wanted to get into the data, reports and charts used by the Institute workers, so I started at the beginning with a simple question. "Suppose," I asked, "a farmer is making a living milking cows, producing a few eggs, feeding a few hogs and growing crops to feed his stock. He feels his cows ought to make more profit. What can he do that will increase his profits—without increase his costs right away, not next year?"

The answer I received certainly hit the nail on the head.

Answer: "You are depending on cows for a living. Milk at low cost is what you want. Very well. It takes good cows, good hay and a good grain ration to make money. You can't buy better cows, unless you have the money. You can't breed a new generation of better cows from the ones you have. That takes years. But you can, in four cases, out of five, improve or change your grain ration, feed each

cow as an individual according to her production and start making more money within a week," all of which was merely another way of stressing greater efficiency.

We had not gone very far into the subject of animal efficiency before I found myself facing facts obtained from official sources presented in two neatly arranged tables for single comparisons. The new data in these

Average Factors	Group 1	Group 2
Labor income.....	\$1,423	\$95
Capital investment.....	\$25,654	\$23,550
Acres in farm.....	108	137
Crop acres in farm.....	86	100
Number of men.....	1.8	1.6
Number of cows.....	11.5	8.9
Number of cows per man.....	6.4	5.5
Units of livestock.....	14.8	12.5
Hours of productive work.....	2,110	2,720
Crop acres per man.....	48	62
Hours of productive work per man.....	178	170
Per cent total crop and stock receipts from livestock.....	67	60
Efficiency of Production.....		
Value of land per acre.....	\$202	\$149
Value of cows per head.....	96	110
Crop index (average is 100%).....	122%	89%

Pounds of butterfat per cow	249	207
Economy and Efficiency of Feeding.....		
Feed per unit livestock.....	103	119
Receipts per \$100 fed.....	178	101
Receipts per \$100 fed dairy cattle.....	225	118

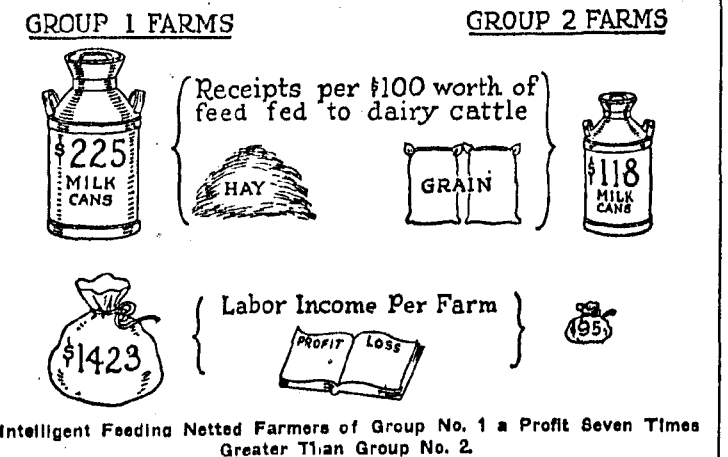

A study of the two columns of figures shows that there was only a small difference in the average capital invested in the two groups of farms. More intensive farming was practiced by the farmers in Group 1—they had more livestock and more cows per farmer, per acre and per man. Their enterprises made possible more hours of productive work per farm.

A further study of the figures shows that the farms in Group 1 produced more efficiently than did those in Group 2. The Group 1 farms produced larger crop yields—122% against 89%, basing 100% as an average. Group 1 farms produced more butterfat per cow—249 pounds per cow as against 207 pounds. Or, to put it in terms of milk, approximately 7,114 pounds per cow as against 5,014 pounds.

That brings us to the points of the lesson worth nailing down. These points are as follows:

(1) The intelligent, efficient feeding—good roughage plus a milk-making grain ration—practiced on Group 1 farms, returned \$225 for every \$100 worth of feed fed dairy cattle. (2) On the other farms only about half as much, or to be exact, only \$118 was returned out of every \$100 worth of feed. (3) On one group of farms the crops of 86 acres plus purchased concentrates show a yearly labor income of \$1,423—primarily because more intelligent feeding resulted in receipts of \$225 from over \$100 worth of roughage, farm-grown grains and purchased concentrates. (4) The other group cleared only \$95 labor income for 12 months' hard work, and had receipts of only \$118 from every \$100 worth of feed.

Little wonder the Larrowe Institute of Animal Economics was founded to study the economics of efficient pro-

duction from dairy cows, fowls and hogs for this nation of milk, egg and pork eaters. We farmers need it. We waste land, we waste man-power, we waste hay, fertility and machinery. But our most appalling waste is our wastage of grain through improper feeding and through our failure to use proven, tested, milk-making rations, egg-producing mashers, and economical pork-making feeds.

duction from dairy cows, fowls and hogs for this nation of milk, egg and pork eaters. We farmers need it. We waste land, we waste man-power, we waste hay, fertility and machinery. But our most appalling waste is our wastage of grain through improper feeding and through our failure to use proven, tested, milk-making rations, egg-producing mashers, and economical pork-making feeds.

Dangerous to Keep

Buy iodine in small quantities because as it ages the alcohol evaporates and the tincture becomes concentrated, thereby greatly increasing the strength.

FRIDAY, JULY 2, 1926

"THE BIG PARADE" CONTINUES TODAY AND TOMORROW

An interesting feature of the marvellous reception of "The Big Parade" in New York, Chicago and Philadelphia is the unanimity of opinion from all reviewers that "The Big Parade" is 100 percent. Generally in each big town there is on severe critic whose comments the press agents carefully put in cold storage whilst they repeat only the encomiums of the more complacent. But in the case of "The Big Parade" the whole sheaf of reviews can be laid on the dramatic editor's desk. So far there has been no Zeno nor Diogenes to damn it. Perhaps one of the causes of this astonishing unanimity is that both Laurence Stallings author and King Vidor worked with heart and main to present the truth of the Big Show, as the doughboys called the Big Parade of the A. E. F. to the front. Anyhow, the burden of all the reviewers' comment is that they attained essential truth and irradiated it with romance and humor. John Gilbert stars in the picture with Renee Adoree as the featured player. An orchestra of twenty symphony musicians is carried on tour. The exclusive presentation in this vicinity will continue at the Dittmas Theatre, Perth Amboy, today and tomorrow.

ROTATION MEANS FOOD

The rotation of crops is nearly as effective in increasing soil productivity as is the use of farm manures and complete fertilizers, as based on experimental yields of wheat, corn, and oats, taken collectively. When rotation and the use of fertilizers are practiced together the one practice adds to the benefits of the other, and increased yields are greater than from either practice alone.

THE TATTOO TRACER

A simple tattoo instrument has been devised for marking hogs as they leave the farm for the market so that they can be identified after slaughter. Such identification makes it possible to trace diseased animals to the farm where the infection originated. A tattoo mark properly applied resists all attempts to remove it. Such marks are valuable in establishing ownership of hogs in co-operative shipments as well as in combating disease.

WEEDS AND INSECTS**WORK TOGETHER**

Weeds in and around the garden harbor both insects and disease, particularly if the weeds are related to the cultivated plants. Plant lice, red spiders, and other insects invade the garden from neighboring weed borders. Cabbage pests live on wild mustard, shepherd's purse, and related weeds. Destroy the weeds. Just as soon as any crop is gathered spade up the ground, bury the old remains deeply, and plant something else.

WATER BREAKS THE BACK

Somebody has figured out that a woman living on a certain farm in Maryland walks 440 miles a year—as far as from Chicago to Omaha—in her daily journeys between her kitchen door and the farm pump. Ignoring the question of expended energy which might be put to more profitable use, it is figured that the time this woman spends in her 440-mile annual pilgrimage between her hypothetical Chicago and her imaginary Omaha is easily worth \$50—and for \$50 a simple but efficient water supply system could be installed in this farm home. And \$50 a year for several years would put in something elaborate in the way of farm water systems.

The first steps toward such labor-saving systems are pictured in a new U. S. Department of Agriculture film, "Turn on the Water", which has been made through the cooperation of the rural engineering specialists of the Bureau of Public Roads. The film aims to give a general idea of the need and the problems involved, and to point the interested farmer to more detailed sources of information.

The need of such an effort is indicated by the department's statement that for every American farm possessing a modern system of water supply there are ten still using the old back-breaking methods.

STICKS TO POST TO GIVE FIRE WARNING

Sticking to her post at the switchboard until the flames almost surrounded the telephone office, Mrs. J. L. Young, telephone operator at Amite, La., recently refused to quit her duties until she had sounded alarms all through the city and called for help. As it was, she barely escaped through the flames. Meanwhile, the volunteer firemen battled heroically, heedless of personal danger, and finally succeeded in halting the blaze after a number of commercial houses in the business section, including the telephone exchange, had either been totally wrecked or extensively damaged.

FAMOUS ARTIST INSTRUCTS

William de Leftwich Dodge, famous mural artist, in his studio at the Sesqui-Centennial International Exposition grounds in Philadelphia, where the 150th anniversary of signing the Declaration of Independence will be celebrated from June, to December, of this year, giving instructions to a group of young artists who are creating the "Rainbow City." Mr. Dodge is the color expert for the exposition, and every bit of color work done must be approved by him.

GREAT SESQUI STADIUM OPENED AT PHILADELPHIA

Photo by ARRO Service Corporation.

The giant arena in the centre of the Sesqui-Centennial International Exposition site in Philadelphia was built in approximately 300 working days. It was completed and in use a month before the opening of the big exposition which celebrates the 150th anniversary of the signing of the Declaration of Independence. This photograph, made from the air, shows nearly 3,000 boys on the playing field, massed there for the dedicatory exercises on May 1 which formally opened the structure. In the stands are seated 10,000 persons watching the program. A group of 10,000 persons is a large crowd but they are only a "drop in the bucket" in the big Philadelphia stadium. The boys paraded onto the field to the accompaniment of fourteen bands and there went through their drills and athletic exercises for the benefit of city officials and parents.

THE SUNKEN GRAVE

Nothing can be sadder than a grave that is no longer a mound. The inevitable has come to pass—the weight of the sodden earth has crushed in the last protection. It helps nothing to close the imagination to what happens then! Yet there is not the slightest necessity for this old-fashioned, barbarous, unsanitary method of burial. The Norwalk Vault—at little cost—will protect absolutely and forever. Moulded granite and steel, waterproof and airtight, it is sealed by hand in your presence and becomes one solid piece of masonry that literally "Lasts through the Ages." The best undertakers insist on its use. They make the Norwalk Vault the foundation of every first-class funeral.

WRANGLE OVER
PROPOSED PAVING

Some Residents Of Augusta St. Want
Improvements; Others Object.

The paving of Augusta street from curb to curb with concrete between Broadway and Stevens avenue came up before the Common Council in the form of two petitions at the meeting Tuesday evening. The signers of one petition favored the improvement without any assistance from the city, while the other opposed it. Both petitions were endorsed by apparently about the same number of individuals and the council therefore decided to refer the petitions to the street committee and the engineering tabulation to determine the foot frontages represented by the respective endorers.

When the petition in favor of the improvement was originally circulated it was thought by several of the property owners who signed the petition that the city through general taxation would finance a portion of the cost of the paving. When it was later learned that the council had no such intention several of those who had favored the paving decided to oppose it on account of the entire cost resting with those whose property fronted on the street in question.

The council received bids for curbing and paving the sidewalks of John street, the bids being submitted by Lambertson & Reese and by the United Construction & Supply Company. The bid of the former was \$2,438.50 and that of the latter \$2,454.70, the difference being only \$16.20. A contract for the work was later awarded to Lambertson & Reese.

Bids for putting in curbing and sidewalk on Second street were also submitted by the same two concerns. The United Construction people were the low bidders on the job, their bid totalling \$1,473.40 as compared to the other bid of \$1,512.60, the difference being \$39.20.

The council acted to reject the application of a bus line concern for a franchise to make a stop here. The line is proposed to be operated from Freehold to Perth Amboy via Old Bridge, Spotswood, South River and Sayreville, the application stated.

Councilman Downs, according to his remarks, seemed inclined to favor granting the franchise because it would furnish a convenient means of reaching the Old Bridge, Spotswood and lower Sayreville territory for local residents or residents of that section desiring to come here. Councilman Mullane and Connors thought that the service now being rendered by the local bus lines, including the Public Service, was quite satisfactory and sufficiently adequate.

The Independence Engine Company through its secretary, John Conlogue, advised that William J. Lyons had been elected to membership in place of James Horton, resigned; also that Walter Barkalow had been selected as janitor vice Willard Alcott who had resigned from that position. Frank Gregory had been added to the list of truck drivers and Charles Stockton had been appointed chief driver vice Willard Alcott, resigned. The action of the company was confirmed on motion offered by Councilman Mullane.

Lots 28 and 29 of Block 16, sold by the city for unpaid taxes amounting to \$275.97 several years ago, had been redeemed by the owner and the mayor and city clerk were authorized to execute the necessary documents to cover the return of title to the owner, according to a resolution presented by Councilman Downs and adopted by the body.

In the absence of City Clerk Disbrow, who was reported ill, former city clerk Peter J. Conkley acted as secretary of the meeting.

TRAFFIC CONGESTION
IN PERTH AMBOY

The traffic congestion in this city has been remedied to a great extent since the opening of the Victory Bridge, yet there are still a number of the ups in the line along Stevens avenue. This is perhaps due to the way the traffic is being handled on the Perth Amboy end of the structure, where considerable delays are necessary because of cross traffic.

Many motorists are inclined to believe that before long Perth Amboy officials will have to begin work on underground passages for the traffic in order to relieve this condition. The officials of the cross river city are coming in for their share of criticism because of the delays, which no doubt could be remedied by a little study of the problem.

MADISON TOWNSHIP

The Brunswick Gardens Social and Civic Club will celebrate its eighth anniversary with a big carnival at the club house on Marlboro road near Old Bridge Friday and Saturday evenings.

Admission will be free to all and first class dance music will be furnished by Hoffman's Paramount Orchestra from 9 p. m., to 1 a. m., Daylight Saving Time, on both evenings. A cordial welcome will be extended to all and old members and friends are especially invited.

Mr. and Mrs. Frank Bendy, Mrs. Abbie Crossman and daughter Olive, and Mr. and Mrs. John Paulsen visited Mr. and Mrs. James Burlew on Monday night.

Mrs. Harvey Boyce and son Myron, of Old Bridge, spent a few days with her parents, Mr. and Mrs. Francis Harble, Sr., at Cheesapeake.

Mrs. Douglas Hunt, of South River and Mrs. Josephine Quackenboss, of New Brunswick, visited Mrs. Margaret Palmer, of Runyon, recently.

Miss Lillian Mason, of New Brunswick, spent a few days visiting friends at Runyon recently.

Mrs. Karl Rehfs, of Runyon, was a Philadelphia visitor on Saturday.

Mrs. Leon Bevington and daughter Marjorie, of Trenton, Mrs. G. Russell, of Perth Amboy and Mrs. Fred Whitehead, of South Amboy, visited Mr. and Mrs. William Campbell, of Runyon recently.

Mr. Louis and John Rehfs and sister Rose, of Runyon, spent Sunday in New York.

Mrs. James Ellingham, of Runyon was among the many spectators who witnessed the dedication of the Victory Bridge last Thursday.

Miss Helen Campbell, of Runyon, is spending the summer with Mrs. Arthur Campbell, of New Brunswick.

Mrs. William Campbell, of Runyon, has returned to her home after a week vacation with relatives in New Brunswick.

Mrs. Ross Hillyer, of Old Bridge, visited Mrs. James Ellingham on Tuesday.

CAMP COWAW NOW OPEN

The 1926 season of Camp Cowaw, Boy Scouts of America, was officially opened last Monday under the auspices of the Perth Amboy District Council. Scout Executive Lunn went to camp the preceding Wednesday and joined the Camp Staff in their work of setting up the tents and finishing the general arrangements for the opening day. The camp staff includes: Mr. Leroy C. Colsey of Columbia University as Camp Director; Scout Executive Julian H. Salomon of the Rockland County Council and Scout Executive Herbert W. Lunn of the Perth Amboy District Council as Assistant Camp Directors; Charles Dennis, member of Troop 6 Perth Amboy, is in charge of all water activities; Joseph Smith, a leader in Troop 12 Plainfield, is serving as a Scoutmaster instructor; Scout Edwin Lawton of Troop 6 Perth Amboy is serving as headquarters clerk and bugler; the chef is James S. Benjamin of the Gardner School, New York, and his assistant, Daniel Smith. With this fine staff of leaders and experienced cooks, every boy who goes to Camp Cowaw this year will be sure of having a very beneficial season.

The Camp Staff had a conference Saturday evening under the direction of Dr. Fritz Abegg, Chairman of the Camp Committee, and made plans for general activities. The camp is set up to take care of 50 scouts a week and applications are being received at the headquarters of the Perth Amboy District Council from a large number of scouts and troops so that this season promises to be the best in the history of local Scouting. The camp will run for four two-week periods and closes August 23rd. All scouts in the district who intend to go to Camp Cowaw this season should file their application as soon as possible so as to be sure of desired accommodation. Application blanks may be had by calling at Scout Headquarters, Room 323, Ragitan Building, Perth Amboy. On account of limited accommodations the policy will be "first come first served."

NOTABLES ENDORSE
V. F. W. HOME PLANS

Vice President Charles G. Dawes Secretary of State Frank Kellogg, Secretary of Navy Curtis D. Wilbur and Secretary of Labor James J. Davis have expressed their sustained interest in and commendation of the National Home plans of the Veterans of Foreign Wars in letters to the V. F. W. headquarters in New York.

"There is no greater work, and no more productive work, than that expended in caring for little children educating them and giving them a home," said Secretary Davis. "It is a work with far-reaching results and often beyond our fondest expectations it is a work that not only adds to the sum total of happiness in the world, but also enriches the world by enriching the lives of the children who benefit by it. In the words of John Massfield, 'He who gives a child a home builds palaces in Kingdom Come.'"

"It is work worthy of the commendation and support of everyone, and I want to congratulate the Veterans of Foreign Wars for their interest in the children of America. The boys and girls of today will be the men and women of tomorrow, and if we neglect them now our country will pay the price in the future."

We Pay 4 Per Cent on Savings

FRIDAY, JULY 2, 1926

Looking Back 25 Years

Issue of July 6th, 1901
Keyport has 478 taps on its water system.

The Matawan Journal entered the thirty-third year of its existence on July 4th.

C. I. Bergen has purchased from Henry Bell a lot adjoining his property on Second street.

Next Thursday the Council No. 6, K. of P. will celebrate its 11th anniversary at K. of P. Hall. A grand time is expected.

With the thermometer the fore part of the week at 104 degrees in the composing room of the Citizen, it was almost impossible for our force to work.

Samuel Freeman has removed his clam depot to the foot of John street.

St. Mary's Alumni

Notwithstanding the intense heat of the past week, St. Mary's Hall was the scene of a merry gathering on Friday evening. The occasion was the annual reception tendered by the Alumni Association of St. Mary's School to its friends and the graduates of the past year, and though the first event of its kind was, nevertheless, a delightful affair. The altitude of the hall gave opportunity to the slightest gust of air to put forth its best efforts for the dancers' welfare, and it is safe to say that there was no cooler place in the borough than the scene of the Alumni dance.

It was about 9:45 when Kerr's Orchestra played the first selection, and from then until 2 A. M., the young graduates and their friends enjoyed themselves as only care free and happy young folks can. Those of the graduates who were present were Jeremiah F. O'Connor and John A. Coan, '94; Harry J. McDonnell, '95; Elizabeth O'Connor, Nellie Sullivan and Julia Rea, '96; Margaret Casey, Genevieve Scully, Susie E. Mullen, Frank Coan, Patrick Grimley and Michael Carroll, '97; Edward Burke and Cecelia Carey, '99; Sarah Manion and Veronica Brophy, 1901.

The Fourth in town was practically begun on Wednesday and the noise of blank cartridges and firecrackers could be heard from early until late in the evening, greatly disturbing the sleep of nervous people. And throughout the day and evening of the Fourth the nerve racking noise of the firecracker and the delight of the small boy could be heard. Hundreds of visitors came to town, and the trolley did a rushing business. After the light shower in the morning, a southerly breeze sprang up, making the day delightfully cool and brought relief from the heat. The people sought pleasure at Stevensdale Oval and at Swan Hill, and a few patronized the excursion of the steamer New Brunswick to Concy Island.

Terrific Heat

During the past week the heat has been terrific, and not within the recollection of the oldest inhabitant has the thermometer been so high for days in succession. People stayed up until late in the evening, and when they did lie down to rest it was impossible for them to sleep. It seemed that comfort could not be obtained anywhere. Many cases of heat prostration were reported by the physicians and one death resulted, that of Charles L. Steere, at the Rippowam House. Men employed in the car repair shops, ship yards and dock repair gang were compelled to stop work on Tuesday, the thermometer running up to 103 degrees in the shade. The works of the International Smokeless Powder and Dynamite Company at Parlin closed down on Tuesday, as the great heat made it unsafe to handle the ingredients used there.

Never before has there been so many people in bathing on our shore front as during the past week. From the residence of John Scully to that of H. C. Perrine Sr., hundreds of people could be seen every evening trying to keep cool by a plunge into the salt water. It was a remarkable and pleasant sight to see how the little children enjoyed the water, and their playful antics in splashing and romping.

Old Mr. Carter Helped by Simple Mixture

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. Peterson's Pharmacy, 132 N. Broadway. Adv.

World's Smallest Church

The world's smallest church is the unique war memorial—the Temple of the Brave—erected at Hedge End, South Hants, England, in memory of Hants sailors and soldiers who fell in war.

River Changed Course

The Hoang river in China burst its banks in 1861 and changed its course so as to flow into the Gulf of Pechel-lee. Within two years its mouth had shifted 260 miles from its original position.

In the Kitchen with 6 Famous Cooks

EASY MEALS FOR HOT WEATHER

(Editor's Note: This is one article in an unusual cooking series contributed to this paper by six famous cooks.)

Where is the woman who enjoys cooking hearty meals in hot weather? We doubt if such a woman exists. She may cook big meals because

some members of her family who toil hard demand them, but certainly not because she herself derives any real pleasure from hot weather cooking.

With a little planning and forethought, however, many of the discomforts of cooking in hot weather can be avoided. For instance, as Miss Rosa Michaelis, New Orleans domestic science specialist, points out, an oil stove is much easier to work with than a coal or wood range.

"It is much more convenient," she says. "It needs no flues," and hence may be taken to the coolest part of the house easily, as it is not very heavy.

Just a Little Planning
"The woman who gets her kitchen work done early in the morning, and most of her food prepared," continues Miss Michaelis, "is the coolest cook. She just needs to do a little simple planning."

"The fewer roasts and baked dishes in the summer, the cooler the kitchen. I recommend uncooked desserts mostly, too. Fruits are all one needs during the hot weather."

In the summer time Miss Michaelis does as much of her cooking as possible on the top of the stove, using only as many burners as are absolutely necessary.

"If a woman feels she has to bake," Miss Michaelis says, "she should not use her oven every day in the week during hot weather, but bake enough to last several days or a week."

A dinner which Miss Michaelis recommends as particularly easy to prepare in hot weather is all cooked in one pot. It conserves utensils, time and fuel.

A Dinner in One Kettle

To prepare it, take a soup pot filled with enough water to cover three pounds of brisket. Season with salt. After the soup has boiled for an hour, lower the flame and let it simmer for half an hour. Add one bunch of carrots, a bunch of turnips and a pound of potatoes, and cook for another half hour.

When ready, take out carrots. Dice and sprinkle with chopped parsley. Take out turnips and mash with butter, adding a teaspoon of sugar if desired.

Serve potatoes mashed. Take out meat and fry with onions, or serve with a tomato sauce.

Add a Salad and Dessert

Now with a salad, dessert, and beverage, one has a complete meal, including soup, and all cooked on one flame!

For salad, Miss Michaelis suggests pears halved, on lettuce leaves, covered with French dressing. Fruit makes a good dessert to accompany this easy meal.

Another Easy Meal

Mrs. Sarah Tyson Rorer, the famous Philadelphia cooking expert, gives the menu for a simple meal which takes but an hour to prepare. It's a vegetable dinner. Mrs. Rorer gives proportions for serving four.

Fried squash
Dutch cabbage
Chili sauce
Candied sweet potatoes
Panned apples
Watermelon

"Go to the kitchen at 11 o'clock, if dinner is to be served at 12," says Mrs. Rorer. "If you use oil, your stove is ready for immediate use. Light two burners, and put on two saucepans half full of water. Cover, and turn to full heat."

Wash five medium sized sweet potatoes. Chop fine one small, hard head of cabbage. The water is now boiling in both pans. Put the potatoes in one and cover. Add a teaspoon of salt to the other, and put in the cabbage. Turn flame down and cook cabbage uncovered for half an hour.

Slice three tart apples in a baking dish. Add half a cup of sugar, and partly cover with water. Light oven burner, and after three minutes put apples on upper rack, covering the dish.

To Candy the Sweets

"The sweet potatoes are now tender. Drain, peel, and cut them in halves. Place in shallow baking pan, adding two tablespoons of butter, four of sugar, and four of water. Put pan in oven under the apples."

"Put four tablespoons of cooking fat in a shallow frying pan over one burner. Drain cabbage and return to saucepan. Add a tablespoon of butter, three of vinegar, half a teaspoon of salt, and a dash of pepper. Cover to keep warm."

"Fry the squash and drain on brown paper. Turn the sweet potatoes. Dish the cabbage and sweet potatoes. Turn out all the burners."

"This is a very simple meal to prepare," Mrs. Rorer concludes. "And, even though you do use the oven, it is for such a short time that the kitchen does not become excessively heated."

If you take the advice of famous cooks, you will keep your summer cooking as simple as possible. It doesn't pay to work too hard in the kitchen in hot weather.

Mr. and Mrs. John Bill, of Henry street, spent the week end with friends and relatives at Trenton.

A COOL KITCHEN

all summer
long!

Take a tip from the
six famous cooks who
tested Perfection.

Be cool!

Hot days are coming! Escape sizzling kitchens and wood or coal drudgery. Six famous cooks recommend the Perfection for cool cooking. Here's what they say.

"THE food gets all the heat—the kitchen none," says Miss Rosa Michaelis, New Orleans cooking expert. "In the Perfection burner," she explains, "the heat is confined directly to the bottom of the cooking pot. That means cool cooking!"

Mrs. Belle DeGraf, the San Francisco authority, suggests Perfection "top stove" cooking for hot summer days.

Least Time, Least Heat

"When I fried chicken, glazed sweet potatoes and boiled pineapple pudding," she relates, "I used only the top of the Perfection. The food cooked quickly and efficiently—and of course, the shorter the cooking time, the cooler the kitchen." That means cool cooking.

"Yes, and remember," adds Mrs. Kate B. Vaughn, famous Los Angeles Home Economist, "the least fire in your stove through the day, the cooler the kitchen. With Perfections no time is lost in heat generation because cooking begins with the touch of a match to the wick."

No Hot Extra Work

"Then, too, the Perfection saves a world of extra work," says Mrs. Sarah Tyson Rorer, pioneer cooking specialist of Philadelphia, "no wood or coal to carry in nor ashes to carry out."

At Battle Creek College of Home Economics, the nutrition expert, Margaret Allen Hall, speaks of still another "no extra work" point.

"The Perfection," says Miss Hall, "is easily moved from one room to another. Move it to the summer kitchen, out on the back porch—wherever it's coolest. You don't need to bake yourself while cooking meals."

Cool to Work With

The "single row" arrangement of Perfection burners gives you another advantage. Miss Lucy G. Allen of the Boston School of Cookery notices this.

"With the Perfection," she makes clear, "there is no reaching across hot flames as with a gas or coal range. You stay away from the direct heat, yourself."

You can escape all those things that make summer cooking the most unpleasant of hot tasks. Your dealer will show you the Perfection today—from the one-burner model at \$6.75 to the five-burner range at \$120. Six famous cooks tested this stove thoroughly and now pronounce it ideal for hot weather. "Buy a Perfection," they say, "be cool!"

Clean, Even • Cooking Heat

The long chimneys of the Perfection burn every drop of the oil before it reaches the kettle. Thus you get clean, even cooking heat free from soot and smoke.

You can be doubly sure of this sort of heat when you use a pure water-white Kerosene that burns cleanly, evenly and without odor—"Standard" Kerosene. It is specially refined.

All impurities that might cause smoke or leave deposits of soot are removed. This assures the maximum amount of heat. By sticking to "Standard" Kerosene you are sure of best results from your Perfection. Insist on it. You can buy it anywhere.

MOREHOUSE GIVES PLAN TO PROTECT PEOPLE FROM WILD-CAT PROMOTERS

American Bankers Association Official Who Has Exposed Fraudulent Schemes for Robbing Savers Draws Up Set of Rules to Foil Crooks.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. IV

THE solution to the great problem of protecting savings depositors from losing their money in fraudulent schemes is largely in the hands of our bankers. If they will co-operate with those who save they can make it hard for these plunderers to continue business. Hasten the day when our bankers without exception will gladly welcome interviews with depositors who contemplate making investments, will urge an investigation or recommend in the stead of little-known securities investments of unquestioned responsibility. In every case where customers call at the bank excited and nervous over some scheme where by investing a few hundred dollars they expect to make thousands any banker will at once sense the situation.

The banker knows that the depositor is being rushed off his feet, with "Hurry, hurry and get in on the big clean-up!" and it remains for the banker to caution the depositor against such tactics. In order to prevent this all that our bankers have to do is to suggest that their customers make it a rule always to bring high-pressure salesmen to the bank to be interrogated regarding their promotions. This will break up sales nine times out of ten, for high-pressure salesmen invariably avoid being questioned too closely by bankers who know investments.

Rules to Follow

Our bankers should urge this investment slogan: "Investigate before you invest. Consult your banker first," and so indelibly impress it on the minds of their depositors that they will always be guided by their banker's advice in making investments. Salient points which should be kept before the investing depositor are:

(1) There are three cardinal points to all good investments, namely safety of principal, certainty of income and salability.

(2) Safety of principal is more important than a high yield; the promise of big returns is usually a sign of a risky speculation.

(3) It is like taking a leap in the dark to invest in promotions which are an unknown quantity and for this reason a thorough investigation should always be made.

(4) It is morally wrong, if not criminally so, for any person to invest in any proposition he feels is a skin game, or which is tainted by trickery or fraud or opens the way for a favored few to "get in on the ground floor," clean up and get out from under before the scheme collapses. Usually the depositor finds he is not in on the ground floor, there is no chance for him to clean up before the scheme collapses and so he loses all that he has invested.

(5) If a promotion is as good as claimed, it would not be necessary for high-pressure salesmen to resort to all sorts of questionable methods, it would not be necessary to rush a victim off his feet and sign him up before he could interview his banker, but he could be given time to consult others before investing.

(6) The only reason high-pressure

pirates go to those who are inexperienced in finance for funds is because they can palm off on them so-called investments which in the eyes of men of experience are valueless.

(7) The glib-talking promoter is not a true friend of the savings depositor but is a wolf in sheep's clothing, he will resort to any kind of trickery to exchange a certificate of stock for the depositor's cash, his glittering promises are fictitious and he is planning how he can entrap his victims and relieve them of their savings and not how he can make good dividends for them.

(8) For every oil well that pays dividends there are many dry holes and abandoned drilling rigs, and for every profitable mine there are many abandoned shafts, and for every successful promotion there are a thousand failures, and because of these facts the savings depositor's chance of winning is too small to justify the great risk involved.

(9) Savers should steer clear of stock, shares or units in world-revolutionizing inventions which are peddled in front of empty stores or sold from house to house or through the mails.

(10) Every novice investor should remember that, as in all lines of business, black sheep have invaded the investment field. They must be shunned, while investment firms and salesmen of responsibility and integrity should be supported.

Let our banks unite in a movement designed to protect the depositor against the schemes of the wild-cat promoter—in a movement that will save our savings depositors from despair and from poverty as a result of having lost all—in a movement that will turn into legitimate investment channels the millions of dollars which are now wasted on fraudulent schemes of one kind or another. The best service a bank can render a novice investor is to keep him from making poor investments by helping him to make good ones.

MIDDLESEX COUNTY ORPHAN'S COURT

In the matter of On Petition for the Estate of—
—of—
DAVID PEARCE, deceased.
ORDER TO SHOW CAUSE

WALTER INMAN, Administrator of the Estate of David Pearce, deceased, having exhibited under oath a true account of the personal estate and debts of the said testator, whereby it appears that the personal estate of the said David Pearce, deceased, is insufficient to pay his debts, and requesting the aid of the court in the premises:

It is thereupon on this 28th day of May, 1926, ORDERED that all persons interested in the lands, tenements, hereditaments and real estate of the said David Pearce, deceased, appear before this court at the court house in the City of New Brunswick on Friday the tenth day of September, 1926, at 10:30 o'clock in the forenoon, to show cause why so much of the said lands, tenements, hereditaments and real estate of the said David Pearce, deceased should not be sold as will be sufficient to pay his debts.

JOHN P. KIRKPATRICK, Judge.

CHARLES FORMAN, Surrogate.
Filed June 3, 1926,
CHARLES FORMAN, Surrogate.

6-11-76

61-14

IN CHANCERY OF NEW JERSEY TO JAMES FARRELL, his heirs, devisees and personal representatives, MRS. JAMES FARRELL, the wife of the said James Farrell, if he be married, FRANCIS SUTLIFF and JACOB SUTLIFF:

By virtue of an order of the Court of Chancery of New Jersey, made on the day of the date hereof, in a cause wherein John Sutliff is complainant and you and others are defendants, you are required to appear and answer the bill of complaint of said complainant on or before the 17th day of August next, or the said bill will be taken as confessed against you.

The said bill is filed to foreclose a certificate of the sale of lands for taxes made by Andrew H. Slover, Collector of Taxes of the City of South Amboy in the County of Middlesex and State of New Jersey to the City of South Amboy and dated the 14th day of December, 1923 and recorded in the office of the Clerk of the County of Middlesex on the 15th day of January, 1924 in Book 424 of Mortgages at page 213, and which certificate was assigned by J. M. Parker, Collector of Taxes of the City of South Amboy to John Sutliff, by Assignment dated the 5th day of May, 1926, and the lands affected by said certificate are known as Lots Nos. 34, 35 in Block 38 of the Perrine Map of the City of South Amboy, County of Middlesex and State of New Jersey; and you, James Farrell, are made defendant because it is alleged in said bill that you are or are claimed or reputed to be the owner of the said lands or some portion thereof; and you, Francis Sutliff, are made defendant because it is in said bill alleged that you are or are reputed to be the owner of an undivided portion of said lands or some part thereof; and you, Jacob Sutliff, are made a defendant because it is in said bill alleged that you have a right of courtesy in said lands or some part thereof; and you, the heirs, devisees and personal representatives of James Farrell, are made defendants because it is in said bill alleged that if said James Farrell be dead you have succeeded to whatever interest in said lands he may have; and you, Mrs. James Farrell, the wife of James Farrell, if he be married, are made a defendant because it is alleged in said bill that as the wife of James Farrell you would have a right of dower in whatever part thereof he might own. Dated June 10th, 1926.

PUBLIC SERVICE

NUMBER FOUR

Gas In Home and Factory!

THE waterless gas holder recently erected by Public Service at Harrison alone has a capacity of 15,000,000 cubic feet, and the combined capacity of all holders in the system exceeds 60,000,000 cubic feet.

This is approximately the amount of gas burned by the people of the territory in which Public Service operates during a single day, yearly consumption for all purposes amounting to more than twenty billion cubic feet.

Service provided by Public Service enables more than 500,000 New Jersey families to cook their meals by gas, and has increased efficiency and lowered costs in hundreds of industrial processes carried on in hundreds of New Jersey factories.

THE SPECIAL SIX 4-DOOR SEDAN \$1315

Full force-feed lubrication, air cleaner, gasoline filter, oil purifier—plus 4-wheel brakes, full balloon tires and 5 disc wheels—included at no extra cost.

Beyond all its superb attractions in the way of superlative beauty in body design, of complete appointments, and of choice fittings, this Special Six 4-Door Sedan has the final and compelling attraction of brilliantly fine PERFORMANCE.

AN "UPSTAIRS" AUTOMOBILE DRIVER IS ANOTHER STEP IN EFFICIENCY

A dual-control electric tower wagon, designed for one-man operation, is the latest addition to the automobile fleet of the electric distribution department of Public Service Electric and Gas Company. So far, the one pictured above is the only one in the company's service. It is being used in Jersey City, and if its try-out is satisfactory others will be purchased.

This tower-wagon, used in the maintenance of street lighting, has two stationary driving positions, the upper one being about five feet

above the regular position and about a foot below the working platform. When the workman is finished at one pole he has only to step down a short distance to the upper driving seat to drive the wagon to the next pole. This arrangement obviates the necessity of having one man to drive the wagon from pole to pole and another to do the work.

The tower is one of the telescoping type and can be raised to a maximum height of seventeen feet, eight inches. Its normal height is eleven feet, five inches.

CLASSMATES GAIN PROMOTION AS COMPANY HEADS ON SAME DAY

JAMES G. O'KEEFFE

FREDERICK A. LYDECKER

Classmates at Stevens Institute of Technology, and graduating in 1907, two Public Service men—James G. O'Keeffe and Frederick A. Lydecker—are appointed general superintendents in the gas department of Public Service Electric and Gas Company the same day. Mr. O'Keeffe, now engineer of construction, becomes general superintendent of manufacture and Mr. Lydecker, now assistant general superintendent of distribution, becomes general superintendent of distribution. Both appointments become effective July 1 and were made by John A. Clark, the new vice president in charge of gas operation. Both report to Herbert H. Forris, the new general manager.

These appointments have also been made by Mr. Clark:

Charles W. Smythe, now assistant to the general superintendent of manufacture, to be assistant general superintendent of manufacture.

Harry Ellis, now engineer of distribution, Southern Division, to be assistant general superintendent of distribution.

William H. Bettie, now superintendent of meters, Essex Division, to be general superintendent of meters.

William H. Chadwell, formerly superintendent of Front Street Gas

Works, Newark, now attached to the drafting department, to be assistant construction engineer.

Mr. O'Keeffe, after graduation from Stevens, became cadet engineer at Front Street Works and in the Newark distribution department. In January, 1909, he was made assistant superintendent of distribution, Newark District, and in October, 1911, superintendent of Front Street Works. In October, 1913, he was made superintendent of Market Street Works, and in April, 1918, went to the Brunswick Avenue Works, Trenton, as superintendent. In 1922, he returned to Newark as engineer of manufacture, Essex Division, and became engineer of construction in 1925. Mr. O'Keeffe lives in Verona.

Mr. Lydecker first spent a year and a half with the Thompson-Starrett Company in New York, and came to Public Service in 1908 as a cadet engineer. He was at Market Street Gas Works for three years. In 1911 he was assistant superintendent of the Summit and Morristown district and superintendent in 1912. He went to Newark as superintendent of distribution in 1916, and in 1917 was made engineer of distribution of Essex Division. In September, 1922, he became assistant general superintendent of distribution. He lives in Glen Ridge.

New York's Old Guard Coming to Sesqui

At an imposing ceremony before their headquarters in New York City the famous Old Guard of New York under the command of Major E. Havemeyer Snyder, commandant of the organization, received the invitation from the officials of the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 and continuing to December 1, to celebrate 150 years of American independence, to attend the Flag Day exercises on June 14, when all the historic military commands of the thirteen original colonies will assemble for a big military display and parade headed by General Pershing. Captain James A. B. Franciscus, of the Old Guard State Fencibles, of the Sesqui city, is presenting the invitation to Major Snyder. At Major Snyder's left stand the commanding officers of the Philadelphia organizations, while the members of the two famous commands are grouped about their leaders in their striking dress uniforms.

The Resurrection of the Cow

Proper feeding will not only resurrect a dairy cow but will turn a cow fit only for the hologna factory, into a real profit producer for its owner.

According to the Larrowe Institute of Animal Economics. Next to feeding scrub cows the greatest mistake the dairyman can make is the scrub feeding of his good cows.

"The condition of some of the average cows on farms is almost unbelievable," the Institute quotes. "Instead of being in good flesh and condition, many of them are poor and scrawny. Their sides are sunk, their ribs plain enough to count and their bones stick out like sore thumbs. It is plain that their run down condition is the result of underfeeding. With proper care and good feed many of these cows could be turned into better than average dairy cows."

As an instance of how better care and feed will resurrect a dairy cow, the Institute cites the case of a typical cow under observation. At the time the test was made, this cow weighed 978 pounds and gave 30.2 pounds of milk, on a ration of corn cob meal and bran, together with silage and hay. This was changed to a ready mixed, well balanced feed, together with 30 pounds of good silage and 10 pounds of mixed hay, daily. The response of the cow to the new ration was nothing short of marvelous. In less than 10 weeks this cow weighed 1,222 pounds, a gain of 144 pounds, and had continued to increase in milk until she

attained a daily production of 40.1 pounds. Equally splendid results have been secured with other cows in various stages of run-down condition.

John J. Ryan, of David street, is attending the summer session at Rutgers College.

FRIDAY, JULY 2, 1926

FRIDAY CHAT

By G. L. Guinand

The month of July is with us once more, the leaves are long and have that solid green color which proclaims to the whole world, that gentle springtime with its tender green verdure and June time and the roses are all gone. But, still, the old poets loved to call July the "sweet summer time."

All that we can softly say for July is, that it suggests to us a soft spot under some low bending tree—there to idle our time away and dream while listening to the rustling of the leaves. Our fancies soon flit away and we slip off to the land of "snooze" and then wake up to find our collars wilted and our faces red and bathed in perspiration. However, this experience isn't so terribly bad, is it?

Remember, papas and mamas, boys and girls, after the glorious "Fourth" we will be at the peak of the summer season and we will then go down hill. The renaissance days of April, the merry month of May and June time and the roses are gone, are sadly gone—so get all the fun you can for the rest of the season.

"When the corn in waving Annie dear, I'll meet you by the stile"—old song. And the corn certainly did undulate in bountiful billowy waves on the north side of Broadway all along from Second to Augusta streets and over to what is now the Long Branch Railroad tracks. This was during Jimmy Buckalew's time and all for the sake or rather the sustenance of horses and mules.

James Buckalew, hailed from the old West Turn Out, afterwards called Jamesburg which was named after the beloved Jimmy. James Buckalew was a very prominent man in the '50's and '60's, hence the corn along Broadway. He had the contract to furnish horses and mules for the Camden and Amboy Railroad, to be used on the Delaware & Raritan Canal. He raised corn both in South Amboy and Jamesburg, to be used for winter fodder. When the canal closed down in December he brought his horses and mules to Jamesburg and wintered them.

It was told to the writer, where James Buckalew left off in this line of action, Richard Stockton Conover continued. Mr. Conover also furnished horses and mules to be used on the canal. The canal opened up for traffic on March 20, closed down on December 20. It was then Mr. Conover brought his motley herd of tired live-stock, something like 200 head to his farm which was located on the old Morgan estate.

Today's Anniversaries

President James A. Garfield was shot while waiting for a train, in the waiting room of the Baltimore and Potomac Railroad at Washington, D. C. President Garfield died on September 19, 1881, two months and seventeen days after he was struck down by the assassin's bullet which was directed by the cowardly hand of a venomous viper.

Guiteau, the assassin after a trial of two months was found guilty. It took the jury just one hour to convict him. Guiteau was sentenced to death and was hanged in the District of Columbia jail on June 30, 1882.

One hundred and fifty years ago today, July 2, 1776, the Provincial Congress of New Jersey, in session at Burlington, adopted the new constitution and assumed the title, State of New Jersey, two days before the Declaration of Independence.

The first legislature of independent New Jersey convened at Princeton, August 27, 1776.

What An Old Timer Learned

Be careful what you do today and you'll have no regrets tomorrow.

Make your speeches simple, sprightly and short. The more you say the less people will remember.

A dry mummy, a wooden manikin and a cod marble statue have no place in politics.

It is the sunny, silent, sincere "Sammy" who loves to do a good turn and give comfort to others and in return he gains a host of resolute friends.

Proceed promptly (if right) on the "Yes". Go slow, very slow and sure on the "No."

A newspaper knock (if unfair, unjust) is a four day's wonder and on the fifth it is dead and buried. Follow Abraham Lincoln's rule—"Keep your mouth shut and smile."

The political accident (we've had 'em) after he recovers from his surprise, secretly believes everyone who voted for him are lubber luffers and proceeds to treat them so. He passes out like a gentle summer rain and his exit is just as refreshing.

The Battle Ax Andrews, Rain-bow Chasing Charlies, Dumb Davids, Hungry Harrys, Larry Liars, Promising Peters and the Reform Roberts, quickly pass out and are forgotten like day before yesterday's tomato cans.

And keep on learning.

Civilization is very old and the cradle of civilization was the Egyptian Valley and the ancient Egyptians did not drink Scotch, Mumm's Extra Dry or Flegenspan's Dark or Light and fellow mourners, the ancient Egyptians are all dead.

Now there is a lady living at Rocky Bay—Rocky Bay is on the Raritan Canal. Old time canals used to say, when about to sail by this place, a hands prepared for you, sickness or some other kind of illness. Now the aforesaid lady is an ar-

dent prohibitionist, she says, in the days when her husband paid ten cents a throw for it, he got drunk only once in a while and kicked her. Now he make it himself, is drunk all the time and she does all the kicking.

MRS. GRIEBEL'S WEEKLY LETTER TO THE WOMEN

New Brunswick, June 30th, 26.

With the coming of warm weather, thin frocks appear in great numbers. It is especially noticeable this year because, with the cool days we have had, most of us wore our tailored suits—and often added top coats—as late as the first week in June.

It's nice now to think of sunny days ahead and the lovely chiffons, georgettes, voiles, etc. promise to be leaders for the summer season. They look so cool and comfortable too. The printed materials are delightful and of unlimited variety. Floral designs, both large and small are used for entire frocks or combined with plain material in the way of panels, borders, berthas, etc. After a jumper of figured stuff is worn with a skirt of plain material and some charming gowns are fashioned of the plain stuff with no decoration at all.

Black chiffon is in demand—sometimes all back but more often pastel colors are introduced in panels and borders. Black frocks for afternoon or evening wear are brightened with a gay flower placed at shoulder or belt.

Printed crepe de chine, foulard, and similar silks are used for tailored models and are especially suited for travel, for business, or for summer shopping trips. You will find many box pleated skirts used for this type of dress and they are most attractive. Usually the pleats are just across the front and this is a point to consider in a travel frock, for then there are no pleats at the back to be sat upon and spoiled. I saw several such frocks that would be most serviceable and they were good-looking besides.

There are the nicest all-over prints in small designs for the woman who makes her own clothes, and if you have use for such a dress, I'd get one while there is a large selection of patterns. It was cut with inverted pleats at the underarm seams to give fullness to the skirt and a narrow belt tied at one side. The front of the dress had been cut open from neck to belt and a two inch band of plain georgette hemstitched around the neckline, down both sides of the front opening and left to hang in a soft bow and ends to the hem line. The band was mitred to form the corners of the collar and a similar method was used for the sleeve trimming.

With a figured material, the choice of the most becoming color in the pattern for the bands adds to the satisfaction of having a dress that suits one perfectly and the bit of plain color gives a note of smartness too. The sleeves wear long and, in this particular dress, close fitting. In most of the thin materials, however, you will find bishop sleeves and often quite full ones.

There was a clever two-piece dress with a four inch pleating around the bottom of the jumper. Neck and surplice closing were also edged with the pleating.

The thin things typify the trend towards girlish, fluttering models. Still they are quite suitable for the older woman if she takes care to select the right material for her dress. The tiny cape is in evidence on many of these dresses, scarf ends, circular, godet and pleated skirts. They must be full enough in one way or

another to be soft and graceful when one moves about.

Cordially yours,
Catherine Griebel,
Extension Clothing Specialist

Touching Up Laggards

Church wardens in England are still empowered, by an old law, to go around public houses and turn out the people found on the premises when the church bell has stopped ringing for service.

The Ananias Club

"Now that you speak of it, my dear," said his wife, "I believe I do need a new dress, but I never would have thought of it if you hadn't called my attention to it."—Cincinnati Enquirer.

Courage of Convictions!

They of 1776 had it—the courage of their convictions.

We of 1926 also have it—should duty call. So we are true to our trust—or National Freedom. But how about your individual Independence? A nation is no more prosperous than its people. Individual Independence is the fruit of hard work and systematic savings—for most of us.

There are more savings accounts in the United States today than in any other nation in the world.

Have you a savings account numbered in that total? If not you should make this the occasion to resolve for a personal independence through a savings account.

NEVER BEFORE HAVE YOU HAD THIS OPPORTUNITY
TO COOK ELECTRICALLY

Never, has there been a similar opportunity for housewives to buy an electric range on these favorable terms. For a small down payment of only \$9.75 the housewife can have an electric range installed in her home. The balance can be paid on easy terms over a period of 18 months. This special offer on a Westinghouse electric range should be taken advantage of by every woman who wants to enjoy her cooking, for cooking with an electric range is really enjoyable.

Electricity Costs So Little For Cooking

And not only will the housewife enjoy preparing her meals a great deal more but she will also save considerably on fuel bills. Electricity costs but four cents per kilowatt hour. If you are now cooking with gas, the saving on monthly bills alone will in time pay for the price of the range.

Westinghouse Console Range Costs Less

The Console range is the first quality electric range put on the market that is priced within reach of every woman. Nothing has been sacrificed to gain this price. The same sturdy construction, the same high quality materials and the same superior workmanship are embodied in the Console Range, that are found in any other product manufactured by Westinghouse.

All Westinghouse Ranges on Sale

Beside the Console Range, we have on display and on sale other Westinghouse ranges. The Junior cabinet range is one of them. It controls its ovens automatically, so that, by setting the clock and the oven temperature indicators, you can have a meal of meat, potatoes and vegetables cooked while you are away from your kitchen.

Telephone Us—Come Into Our Store

The Console range is on display in our show rooms. Come in and see it. Or if you can't come in telephone us. But don't miss this chance to own an electric range.

FORD CARS MAY BE HAD WITH DUOCO FINISH

Dorsey Motors, Perth Amboy Ford dealers have not only passed along to their prospective customers the reductions in prices announced by the Ford Motor Company, but they are also tendering Ford Cars with a genuine Duoco finish to those desiring it at a very small extra charge. One car that is on display in the show windows of the Maple street showroom has won considerable attention lately by reason of the Duoco finish in attractive shades of light colors. The work was done in this city by the Amboy Duoco Co., whose plant is located on Bordentown avenue.

The price reductions are reported to have increased the popularity of the Ford product more than ever and the novelty added by the offer of Duoco finishes has resulted in a surprising demand for it.

See it is Out

There were no better cars in the old days. Your car is not so darned particular. San Francisco Chronicle.

LOCAL HAPPENINGS

Miss Elsie Longbottom of Portia street, will sail for a visit to England on the Steamship Olympic on July 8th. This trip was arranged through the steamship offices of Jacob Goldberger of Perth Amboy.

John P. McGuire and James W. Rea Jr. of this city were among those in attendance at the Lawyer's Banquet held at the Hotel Astor, New York City, last Saturday evening.

Miss Anna Samuels of Sayreville and Mr. and Mrs. Walter Samuels of this city have returned to their homes after spending a week at Homer City, Pa.

Vincent Higgins, of Brooklyn, is visiting in this city this week.

Morgan Beach still attracts large gatherings from this city who enjoy the bathing facilities at that place.

St. Mary's Parish bungalow at Morgan Beach has been opened for the summer season and membership tickets were distributed this week.

Mr. Charles Hendricks, of Yonkers a former resident of this city, visited with friends on David street several days recently.

John McNamara, of Second st., was a Long Island visitor Tuesday.

Mr. and Mrs. Milton Coats, of Newark visited the home of relatives on Second street Wednesday evening.

George R. Delaney is converting his garage on Stevens avenue into a two store business place.

John O'Toole, of Pine avenue, was a New York City visitor yesterday with a number of friends. The party enjoyed one of the major league ball games.

New steam presses have been added to the equipment of Sigmund Eisner clothing plant in this city. The

Someone went away from the Empire theatre on Monday evening and evidently forgot to lock the doors of the playhouse. Roundsman McCormack reported that the doors were open when he discovered the oversight.

Samuel Forgotson, the popular son of Mr. and Mrs. Forgotson, of Washington avenue, has secured a position with the Y. M. H. A., of Wilkes Barre, Pa., as physical training director. Sammie has the good wishes of the community to accompany him to his new position which he starts today.

New machines will replace some of the old and useless machines which have seen many years of service.

Mr. and Mrs. Wm. Dill, of Broadway are enjoying several days vacation at this time.

The Old Home Week Committee is anxious to see the mothers take an interest in the baby parade which is to be a feature of this event. Some very valuable prizes will be awarded.

John Keyes, of Henry street, has purchased a new car of the touring type.

James Keyes, of David street, enjoyed a trip by motor to Brooklyn on Wednesday.

The Legionnaires of this city entertained a large number of members from all over the county at the carnival on Wednesday evening.

The home of Edward Mullen, of David street, has been undergoing extensive improvements lately.

Alex Ziskowski, of Conover street, is able to be about again but is still unable to resume his usual work. He was badly injured several weeks ago while walking along the tracks near the Pennsylvania Railroad station on his way home from work.

City Engineer John A. Conlague has completed the survey of upper David street preparatory to Contractors Gundrum & Kanah starting work on the laying of sidewalk and curbing there.

Relatives from Dunellen visited

with James J. Gallagher at his home on Augusta street during the week.

Thomas Meachan, of Stevens avenue, has entered the insurance business with a Perth Amboy concern.

Sergeant and Mrs. David Quinlan, have moved into their new home on Henry street.

Mr. and Mrs. Harold Stratton have moved to Parlin from their Second street home.

Street Commissioner John J. Connors has been busy repairing the pavement on Broadway this week.

Joseph Dooling, of David street, entertained friends from Yonkers the fore part of this week.

Mr. and Mrs. Allen Balint and family, of Perth Amboy, are spending some time with Mrs. Scully, of John street.

Mr. Frank Nelson has completed the painting of the home of Mrs. Jonathan Compton, on Bordentown avenue.

Ted Mahoney, of Broadway, together with a party of friends left today for Montreal and Niagara Falls where they will spend a vacation.

William Gelsinon, of David street is able to be about after being confined to his home on account of illness.

Arthur Ingraham, of Second street, has severed his connection with the New York Telephone Company and entered the employ of the Du Pont Company at the Parlin plant.

A man hole cover on Washington avenue near Feltus street was broken under a heavy truck wheel on Tuesday. It was soon replaced by the Street Commissioner.

The pavement on Broadway near the Presbyterian Church sank several inches in one spot under the wheel of a heavily laden truck Wednesday afternoon. Temporary repairs were made by Street Commissioner Connors at once by filling the hole with gravel.

A majority of the members of the Progressive Fire Company were measured for their new uniforms on Wednesday evening. The few that were not able to be present for measuring are requested to stop into Green's Men's and Boys Outfitters, on Broadway as soon as possible so that the necessary details as to size, etc. can be obtained.

Edward Gordon, of the Paulus Dairy Company reported to the local police on Wednesday that a dog of Adam Shults, of Washington avenue, bit one of his men.

Health Inspector N. J. Howley has enrolled as a summer student at Rutgers College, New Brunswick.

Mr. and Mrs. Joseph Lesyck, of Pine avenue, entertained friends from Baltimore over the week end.

Master Edward Heston, of Fourth street, will spend his vacation with relatives in Dumont, N. Y.

Mr. Charles Clusen, of South River, spent Tuesday evening at the home of R. S. Powers on Pine ave.

Mr. and Mrs. Thos. Grace, of Augusta street, and Mrs. Esther Carr spent Sunday with Mr. and Mrs. DeWitt Price in South River.

Mrs. Leo Thompson, of Pine avenue, entertained her mother and sisters, Mrs. Mary Ryan and the Misses Catherine and Cecelia Ryan, of Jersey City.

William Bailey, of Pine avenue, has purchased a Willys Knight car.

Mrs. Frank Kabosky, of Pine avenue, entertained friends at a Lawn Party on Monday afternoon last.

Mr. and Mrs. John Sergel, of Bordentown avenue, Mr. and Mrs. Timothy Brophy, of David street, Mr. and Mrs. John Cosgrove, of John st.; Mr. and Mrs. James Cleary, of Wilmont st.; Mrs. Leo Monaghan, of Augusta st. Mr. and Mrs. Frank Monaghan and family returned home on Saturday after spending a week in Chicago where they attended the Eucharistic Congress.

Mrs. Edward Dukes and son Edward, of New Brunswick, spent the week end with Mr. and Mrs. Phillip Purcell, of Pine avenue.

The Cozy Corner has been opened at the corner of Broadway and First street recently. The new store occupies the remodeled building that was for years the site of Sullivan's confectionery store. The Cozy Corner handles a full line of soft drinks, ice creams, tobaccos, candy and cigarettes, novelties and fire works. Doubtless it will win favor and a good patronage among the residents of the vicinity and the city wherein the proprietors number a large circle of friends.

It is understood that the two new fire trucks recently ordered by the city will be delivered here within the next ten days. The machines, it is understood, are about ready for shipment from the factory at Stoughton, Wisconsin.

Mr. Elmer Parisen moved by motor truck the house hold furniture of Frank Marino of this city, to Chicago during the week.

Mrs. Thomas Quinlan, Sr., of David street, entertained her daughter and grand children of Brooklyn over the week end.

Tickets for the Annual Union Excursion of the various Sunday Schools on July 15th, are being disposed of rapidly at this time. This event generally attracts huge gatherings and this year's event is expected to be no exception to the rule.

Mrs. George Delaney and a party of friends motored to Georgine Court College on Saturday last.

DON'T WOUND PLANTS
Avoid wounding or breaking plants when cultivating or working around them. In harvesting fruits and vegetables to be stored, avoid bruising, as decay most frequently begins where the protective covering is broken. Certain insects, such as the potato tuber moth, gain access at points of injury.

WHAT CANARIES LIKE
Canary seed alone does not furnish a balanced feed for canaries, but in combination with hemp and summer rape it forms a good ration. Much of the rape seed put up and sold in cartons is of a kind that even wild birds do not eat because of its pungent and bitter flavor, says the United States Department of Agriculture, but all birds relish the mild taste of true summer rape.

C. D. of A. NOTES
At a special meeting of the Catholic Daughters of America held last night it was decided to hold an outing, the time and place to be decided at the regular meeting to be held next Thursday night.

Plans for equipping the chemistry room of the new addition to St. Mary's School were taken up by the Ways and Means Committee.

Grand Regent Mrs. Clara Cusick urges that all members be in attendance at the meeting next Thursday night sure.

FIRST PRESBYTERIAN CHURCH

Rev. G. E. Schlbrede, D. D., Pastor

Sabbath School 10 A. M.; Adult Bible Class, 10:20. Mr. Paul W. Prather, Superintendent; Mr. Russell Mathis, Assistant.

Church Services, 11 A. M. Communion or Celebration of Our Lord's Supper. It is hoped that all members will be present at this service.

Opportunity will be given in the Morning Service for parents to present their children for baptism.

Junior services as usual.

FRIDAY, JULY 2, 1926

FLIES CLUB CONTINUES
WINNING STREAK

The local representative baseball club, the Flies added the Woodhaven, L. I. club to their list of victims on Sunday last at Whitehead's Field by a score of 10 to 4.

Mike Lauer, the local twirler, was on the mound in this event and although tapped for ten hits, he fanned seventeen batters and was only in trouble in the fifth inning, when the visitors chalked up four runs.

The victory was marked by the return of the home-run king Andy Kane. He distinguished himself in the sixth inning by driving the ball in the vicinity of the hospital for the circuit.

Stanton started the fireworks in the first, with a long triple to left. He scored on Hyson's single. This together with two free passes and singles by Creed and Wooley netted five runs.

Dane again proved himself the most valuable catcher in this section. He hit two singles and was given 3 passes out of as many times at bat. He scored three runs.

A large crowd of fans attended the game. On next Sunday the locals will have for their opposition, the Carteret F. C. in the first of a county series. The Carteret Club was defeated by the Perth Amboy 1 to 0, but holds two victories over the Brunswick of South River.

July 5th the Flies expect to travel and on July 11th they will visit New Brunswick for a contest with the Landings. The fans will enjoy local attractions for the remainder of the season.

Johnny Hensberger is now the official umpire and his work has met with the approval of the fans.

Whitehead's Field is being put into condition for Sunday's game and the fans are expected to turn out strong.

Hymie Hochheiser has been added to the local pitching staff and Jimmy Bloodgood has been retained as utility infielder.

Sunday the Flies will lineup with Dane, Lauer, Wooley, French, Hyson, Stanton, Creed, Kane and possibly Charley Kochek to cover first base. The game will start at 3:15 P. M.

The box score:

Woodhaven				
	R.	H.	E.	
Duryea, 2b	1	3	1	
E. Sullivan, cf	1	1	0	
Roth, lf	1	1	0	
Wolcott, 2b	1	1	1	
Elmsie, 1b	0	1	1	
H. Sullivan, ss	0	0	0	
Fitz, rf	0	0	0	
Troutman, c	0	1	1	
Gremm, p	0	0	0	
Markle, p	0	0	0	
	4	8	4	

Flies				
	R.	H.	E.	
Stanton, cf	2	3	0	
Hyson, ss	1	1	0	
Dane, c	3	2	0	
Kane, 1b	2	2	0	
Bloodgood, 3b	1	1	0	
Creed, lf	1	2	0	
Carhart, rf	0	1	0	
Hochheiser, rf	0	0	0	
Wooley, 2b	0	1	0	
Lauer, p	0	0	0	
	10	13	0	

The summary: Home run—Kane. Three base hits—Stanton and Duryea. Two base hits—Duryea and Sullivan. Struck out—by Lauer 17, by Gremm 2; by Markle 1.

PICK AND SHOVEL ARTISTS
WRECK TELEPHONE SYSTEM

How two laborers in the role of "Hamlet" dug up "Poor Yorick" in the form of telephone cables in 175th street, near Hillside avenue, Richmond Hill, and put 200 telephones out of commission, was revealed in the Telephone Review.

Pete and Nickoly, two pick and shovel men, are still wondering what happened.

They arrived early on the job, where a trench is being dug in 175th street. They took up their picks and "went to it."

"Allo, Pete," exclaimed Nickoly, "vat iss? Looky! Looky!" He pointed to a coil of variously colored strands of wire that his pick had brought to light.

"We dunno," replied Pete, with an expressive shrug. "Maybe somebody feel us, hey? Dumb fool keeps sayin' so."

Without further ado, the husky laborers set to work and began chopping wire. The more they chopped, the more there was to chop, and the more telephones to go out "cold" in Hillside.

Pete and Nickoly were still at it when two puffing linemen loomed over the top of the ditch and fell around their necks.

"You big dumb-bells," chorused the linemen, "you've wrecked about three exchanges. We oughta—"

"Dumb-bell yourself," yelled Nickoly. "Keeps thees stuff outa deets ditch," chimed in Pete. "Boss no like."

FIELD TELEPHONES HELP
HARVEST HAWAIIAN SUGAR

Field telephones are becoming an essential part of the equipment of large sugar estates in Hawaii. By means of a system of portable telephones throughout the fields on the properties of the Hilo Sugar Company at Hilo, direct communication is now possible with whatever field is being harvested. This has proved a great help in keeping the mills supplied at all times with cane.

A regular meeting of the Board of Public Works will be held next Thursday evening at the City Hall.

Vail Awards Made
From Many Cases

A total of 119 workers of the New York Telephone Company merited consideration for awards under the Vail Memorial

E. C. Nelson

Fund for acts of "heroism and noteworthy public service" during 1925, the Telephone Review relates. Of this number four won the coveted Vail medals in bronze, while one was awarded a silver medal and \$250 in cash, one of five such awards in the entire United States.

Medal Winners

Those not successful in winning the medals received honorable mention, and each received a letter of congratulation from President J. S. McCulloh. Everett C. Nelson, installer, of Niagara Falls, was the New York Company employee winning the silver medal and cash award.

Everett C. Nelson is cited "for his presence of mind, resourcefulness and courage in rescuing a fellow employee, Frank E. Byram, from death by contact with a high voltage electric current on June 30, 1925."

The others awarded National Silver Medals and cash awards of \$250 were: Miss Ruby La Verne, operator, Southwestern Bell Telephone Compa-

R. J. Welbezah

T. J. Ellison

ny; Mrs. Josephine August, night operator, Downstate Telephone Company, Michigan; Mrs. Mary Regina Smith, operator, Fabens Telephone Company, Texas, and Emory Daniel Stine, lineman, Bell Telephone Company of Pennsylvania.

Vail medals in bronze for noteworthy public service were awarded to Rudolph J. Welbezah, Edward J. Kaminski, William H. Coffey and Thomas J. Ellison of the New York Company.

The award made to Thomas J. Ellison was for rescuing a fellow worker from possible death on May 7, 1925. While on aerial cable work on Geritten Beach, L. I., Ellison saw his helper hanging in mid-air suspended from an electric light bracket which was crossed with a lighting circuit. Ellison climbed the pole, grasped the man around the waist and broke the contact by pulling him free from

W. J. Coffey

E. A. Kaminski

the bracket, supporting the man's weight and helping him to descend the pole when he regained consciousness.

The award to Edward J. Kaminski was for prompt action on June 22, 1925, in saving the life of a small boy swinging from the rear of a heavy auto truck backing into a loading platform.

At risk of being crushed himself, Kaminski jumped between the truck and the platform and dragged the boy away, one wheel passing over the boy's foot. Kaminski applied first aid methods until an ambulance arrived.

'Ware Gas

William H. Coffey received his award for the prevention of possible death to a fellow worker on January 9, 1925, at Whitestone, L. I. Overcome by gas, the worker, while working underground in a manhole, fell unconscious into a deep water hole. Calling for help, Coffey entered the hole and, although weakened by gas fumes, held the stricken man's head above water until help came. He assisted in the raising of the victim's body to the street, saving him from possible death from asphyxiation.

For rescuing a man from a burning house on December 13, 1925, at Lynbrook, L. I., Cable Splicer Rudolph J. Welbezah received his award. Entering the burning house, he groped his way through smoke-filled halls to an upper floor where an aged couple were imprisoned by the flames. Smashing the door of the room and encountering intense heat and smoke, he dropped to the floor.

He crawled along the floor and was almost trapped by the falling roof, but with the aid of a policeman climbed over the roof and rescued the man by breaking in a window. It was impossible to save the woman.

The Vail memorial medal awards are made under a fund to commemorate the life service of Theodore N. Vail to the telephone industry and give special recognition to telephone men and women meeting unusual emergencies in their work of service to the public.

YEARLY HONOR ROLL FOR
SCHOOL YEAR 1925-1926

The pupils on the yearly honor roll are those who were not late nor tardy during the school year.

School No. 3

Seventh Year: Joseph Buttell, Clarence Sanders, Raymond Dexheimer, Franklin Reed.

Eighth Year: Fred Weldon.

Ninth Year: Ansil Morriss, Darwin Dillon, Virginia Rehuss, Margaret Thomsen.

Tenth Year: Doris Applegate.

School No. 2
Tihrd Year: John Rasmussen.
Fourth Year: Harold Rander.

Fifth Year: Anthony Woznic, Joseph Lawrence, Ruth Richmond, Edward Galley, Carl Straub.

Sixth Year: Mary Sullivan, Vernon Slover, Charles Loichle.

The home of Charles K. Freeman on Ridgeway avenue is receiving a new coat of paint.

DANCE AT LAURENCE HARBOR

On Sunday evening the Laurence Harbor Athletic Association will hold a dance in the Casino at that place. Michaelson's Blue and White Collegians will satisfy the ideas of the lovers of the terpsichorean art during the evening with their seven piece band.

Henry Hess, chairman of the event, is anxious to see a large number present at the affair.

The association has been meeting with much success since their organization this year and expect to be seen in action in several branches of sport before long.

Work on the new addition to St. Mary's school was started during the week by the contractor, and a next force of men will be added shortly to have it completed and ready for the opening of school in September.

WEIGHT OF FLEECE

The weight of fleece is influenced both by destiny and by length of staple. Recent studies by the United States Department of Agriculture show that length of staple offers more of a leverage for increasing wool yields than destiny.

James J. O'Connor, of Broadway, spent Sunday in Washington, D. C.

\$1.75 Round Trip Fare

SUNDAY, JULY 11

Tickets good only on Special Train Leaving South Amboy 7:16 A. M. Returning leave New York, West 23rd Street at 9:22 P. M.; Liberty Street, 9:35 P. M. Children 5 years of age and under 12 half fare. (Eastern Standard Time Shown)

FIVE COUNTS AGAINST STUMPS

Stumps in cultivated fields are a serious liability. They occupy valuable land, foster the growth of weeds, mar the appearance of otherwise smooth fields, shelter harmful insects and animals, and prevent the efficient use of machinery.

ALL READY FOR THE
FOURTH-OF-JULY HOLIDAY?

All ready for your vacation? All ready for week-ends throughout July and August? All ready for those good hot days at work?

Pleasure at play time, and pay at work, both depend upon being dressed to beat the heat.

And knowing your clothes are smart as well as cool, makes the enjoyment of them so much greater.

Everything you'll need for outfitting or working is here.

Cool, stylish, good quality, moderate prices.

May we serve you?

Genuine Palm Beach, Mohair and Tropical Worsted Suits, expertly tailored, silk trimmed \$15 to \$35.

Linen Knickers \$3.75.

4 Piece Golf Suits \$35

All straws reduced to \$2.85 and \$1.45.

Manhattan Shirts.
