DOWNS DEFENDS MANAGEMENT OF WATER PLANT BY THE COUNCIL

Writes Lengthy Letter To Mayor, Chiding Him For Opposition—Says No Need For "Alarm"—Mayor, In Snappy Reply, Again Opposes \$45,000 Electrification And Closed Specifications—To Take Action Himself.

The Mayor's letter of last week asking the president of the Council to call a special meeting of the Council for the consideration of the Water Department problem has stirred up action that bids fair to result in some steps being taken to remedy conditions. President Phillip A. Downs declined to call a meeting, setting forth his reasons in a lengthy letter to the Mayor, in which he defends the present management of the plant and declares that the Mayor has placed the matter before the public for advertising purposes. The Mayor, in a short reply, declares that the situation is serious and demands immediate action, and that if the Council does not take immediate steps to remedy it he will himself call a special meeting of the Council and place the facts before the public.

The matter of electrification is to be brought up tonight at a business session of the Council. Councilman Downs has invited the Mayor to be present, and the Mayor has replied that he will be present if the meeting will be open to the public. The communications between the President of the Council and the Mayor follow:

"My dear Mr. Mayor: "I acknowledge your communication of the 10th relative to the Water Department, but regret that I do not see the necessity of calling a special meeting to consider its status and condition. The members of the Water Committee and the other members of the Council are fully conversant with the present situation in the Water Department and I might respectfully suggest that attendance at the regular business meetings of the Common Council on alternate Friday evenings, would put Your Honor in possession of the same information as the members of the Council have.

"I most earnestly resent your statement that the Water Department for the period ending July 1, 1923 is \$5,000 behind the same period for 1924. This statement creates an impression in the minds of the people that the operation of the Water Department for the current year is far below the standard of 1924, when as a matter of fact such is not the case. This statement is on a par with a message to the Common Council sometime ago in which you stated that "thousands of dollars were in arrears." The auditor's report showed water rents due of \$11,532.61, and also showed the total sales for the year as \$44,953.86, making an average sale for each quarter of \$11,000 odd. Inasmuch

as the water billing for the last quarter was entered in the books as of December 31, 1923, and no payments could have been credited, there certainly was a very small amount of delinquent water accounts.

"It is true that the expenditures of the Department are greater than a year ago, and it is also true that the receipts are lower, but it is a fallacy to say that the receipts for any particular quarter or semi-annual period are a correct indication of the financial status of the Department. It is not a correct presentation of the facts to say that the difference between the receipts and disbursements of a particular period indicates the profit or loss for that period, because the income for one quarter is the billing for the previous quarter.

"Disbursements for the six months ended July 1, 1923, are \$29,506.67, but included in this amount are many items which are not expense accounts but which are inventory items, the full value of which will be received during the following six months. For instance, we have expended in the neighborhood of \$500 for taps to Raritan street properties in anticipation of the laying of a concrete pavement, and the property owners will return this amount to the city. We have installed upwards of 50 meters for which \$500 will be returned to the municipal treasury within the next few months. We have purchased 100 meters at a cost of \$790, which I believe is included in the first six months figures, and this will be repaid when the meters are installed for the use of water users. We have coal on hand at the pumping station which has been paid for, costing in the aggregate about \$2,000. Here then, is \$3,790, which certainly is a disbursement, but which cannot by any stretch of the imagination be called an expense.

"And besides this we are now paying our bills immediately upon presentation. Last night, July 13th, there was one bill in the water department, and that was a disputed item hanging over since 1924, and furthermore there are no bills outstanding for supplies purchased prior to the last business meeting of the Council on July 3rd. From the figures furnished by City Treasurer Kress, it is apparent that the habit of prompt payment of bills was not followed last year, because the expenditures for the first six months of 1924 were \$27,188.50, while the expenditures for the same period of 1923 were \$27,188.50. (Continued on Page 4)

BUSINESS MEN HAVE FINE MEETING

Membership Now Totals Sixty With Many More to Come.

With a membership list swollen to nearly sixty members and nearly two-thirds of that number present, the South Amboy Business Men's Association held what is believed to have been its most enthusiastic meeting Monday night. With a number of routine matters satisfactorily disposed of the organization got down to brass tacks and began work on new ideas for securing cooperation of members and benefitting them all. The meeting, which was considerably shorter than those heretofore, was held as usual in the offices of Reinhardt & Kurowsky. An announcement that one of the members of the association stood ready to donate, free and clear of all charge, a deed to a piece of ground for a site for industrial purposes was hailed with hearty acclaim. The same member, it is understood, will undertake to provide housing accommodations for the employees of an industry locating here, should there be a pressing need therefor.

A newly welcomed member of the organization, Robert Welden, gave an interesting resume of his experience in the formation of a similar organization at Freeport, L. I., where, it is said, problems somewhat resembling those facing local merchants were successfully solved, held the undivided attention of those present at Monday night's meeting. Several of the suggestions arising from the recital were taken under consideration by the local men.

A change in the vice-presidency of the local organization was effected. O. W. Welsh, of the firm of Miller, Bergen & Welsh, was elected to that office vice R. C. Stephenson, who advised he did not feel that he could satisfactorily fulfill the office. The Board of Directors were also authorized to proceed with the incorporation of the organization.

Three important committees were appointed, they being a committee on survey; a committee on signs; and a committee on ways and means. Messrs. Dolan, McCloud, Tedesco, (Continued on Page 8)

MANY GO ON THE ASBURY EXCURSION

Union Sunday School Excursion Attracts Many Local People to Famous Resort.

A delightful day at the seashore was the reward of the many children of this city and vicinity that went with the Union Sunday School excursion to Asbury Park and Ocean Grove yesterday. The excursion realized the expectations of the committee that arranged it in that it was "bigger and better than ever" in all respects. A joyously anticipating crowd gathered at the local railroad station long before train time and it was a happy one that came trooped back to their homes in the late evening.

Steel coaches furnished by the Pennsylvania Railroad were procured this year and enough were ordered so that there was plenty of room for everyone. The committee in charge had thoughtfully arranged to have the train stop at John street and a plentiful supply of men was available to look after the quick loading of the baby carriages. The train, too, was held at the station to accommodate the late comers and loading of the happy crowd was permitted to go forward leisurely.

With sunburned arms and shoulders the popular topic of conversation about town today, the committee desires to express a measure of appreciation to the public for the patronage given their efforts to furnish one more pleasant memory to the long list of similar events of the by-gone years.

Between 650 and 700 people made the trip on the excursion trains, this being the largest crowd in several years. The trip to Asbury Park was made in thirty-eight minutes and the return trip in forty-five minutes, arriving here at 8:45.

PRETTY WEDDING AT BAPTIST CHURCH

Miss Edna M. Leonard, Bride of Robert D. Stivers Tuesday.

The First Baptist Church on Tuesday evening was the scene of a very pretty wedding, when two young people of the church were united in wedlock, by the pastor of the church, the Rev. George W. McCombe. The groom was Robert D. Stivers, son of Mr. and Mrs. G. W. Stivers, of Baltimore, Md., and the bride, Miss Edna M. Leonard, daughter of Mr. and Mrs. Samuel Leonard, of First street. Miss Leonard was becomingly attired in a beautiful white Georgette dress trimmed with Vale lace.

Near the pulpit desk, a double arch of white and pink roses was erected, in the center of which was suspended a large wedding bell of white roses, under which the bride and groom stood, while the pastor performed the impressive ritual of the church that made them man and wife.

At the close of the ceremony the Baptist Young People's Union, tendered the newly married couple a reception in the Social Hall of the church.

After the reception, the happy couple with guests were escorted to the home of the bride on First street where a wedding dinner was given to the guests by the bride's parents. The parents, grandmother and two brothers of the groom motored here from Baltimore to be present at the ceremony.

Mr. and Mrs. Stivers are active members of the First Baptist Church and popular among the young people. They have the best wishes of the community for a long, happy and prosperous life.

CIRCUS IN TOWN ALL NEXT WEEK

Benefit Affair for Mechanicsville Hose Company—Many Acts.

"A dollar a minute!" For riding on a horse. You don't pay it, you get it. That's the starting offer made by the big circus that is being brought to town next week by the Mechanicsville Hose Company. All week, beginning Monday, performances will be given on Stevensdale. The attraction will not cease efforts to entertain until Saturday night falls around.

A big tent, big enough to hold everything within it, concessions and all, is to be erected and in it there will be free performances offered for the entertainment of the kiddies and the grown-ups. The tent, it is said, will accommodate four thousand people. Concessions are to be arranged inside so that inclement weather need not affect the success of the performances.

The startling offer referred to above is made by the management to anyone that will stay on a little black pony that knows how to buck—and likes to do it. It is expected that a good deal of entertainment will be furnished by this animal as the results of efforts of local would-be cowboys to master the horse.

The programs to be offered will include acts by trained horses, dogs, monkeys, aerial acts, clown performances, etc. A uniformed band will furnish music at each performance. Among the feature attractions are Miss Gracie Thomas and her talking horse, Victory, that tells his age, adds, subtracts, multiplies, divides, tells the time, etc. Miss Mabel Lawrence in her wonderful Spanish web and iron jaw act high up in the top of the tent is a sure thrill for the audience. An interesting attention holder is the work of Professor Welsh on the slack wire. Articles are juggled while the actor swings on a wire. There are also many other attractions.

SEVERAL INJURED IN MAIN STREET SMASH-UP

The occupants of a car owned and driven by William Lewis, of Matawan were badly shaken up and suffered minor cuts and bruises late last night when the car in which they were riding and a bus owned by Bills Bus Line figured in a collision on Main street. In the private car were Ruth, Pauline, Sadie, Benny and Donald Bitman, of Matawan, and Mrs. Lewis. Dr. J. F. Weber treated them all for minor cuts and bruises after which they were able to go to their homes. The bus was in charge of Driver William Weller. Roundsman McCormack investigated the accident.

DORIS AMELIA DEXHEIMER

Doris Amelia, the two year old daughter of Mr. and Mrs. Reinhold Dexheimer, of 339 Ward avenue, died Wednesday night after a long period of illness and suffering. Funeral services will be held from the residence of the parents tomorrow afternoon at two o'clock. The Rev. C. E. Kennedy, pastor of Christ Church, will officiate and interment will be made in Christ Church Cemetery under the auspices of Undertakers E. S. Mason & Son.

Butter is rich in vitamins which are essential to health, vigor and growth of children—Blue Ribbon Butter—is rich in health promoting vitamins. Adv.

HANS MILLER WEDS CARTERET GIRL

Ceremony Took Place Last Saturday In That Borough.

Miss Ella Eggert, daughter of Mr. and Mrs. F. M. Eggert of Carteret and Hans Miller, son of Mr. and Mrs. John C. Miller of this city were united in wedlock in The First Presbyterian Church of Carteret last Saturday afternoon at 5 o'clock. The ceremony was performed by Rev. Charles B. McNeill.

Miss Florence Eggert, a sister of the bride acted as bridesmaid and Charles Wist of this city was best man. The flower girl was Catherine Holland and Mr. Walter Eggert and Ernest Johnson acted as ushers. The church was very beautifully decorated and presented an elegant appearance.

During the ceremony selections were rendered by Philip Eggert and Merrill Huber and Miss Catherine Richards of Carteret "Oh! Promise Me" in a most delightful way.

A reception was held in the basement of the church and about 150 guests were present, after which dancing was enjoyed until a late hour.

After the ceremony the happy couple left for a short honeymoon to the shore resorts and on their return they will reside in a newly furnished residence on Stevens avenue, this city.

Many beautiful and valuable presents were received by the bride and groom.

P. R. R. CHANGE EFFECTIVE MONDAY

Consolidation of T. & S. and Yard Masters Office Will Take Place—More Will Be Laid Off.

The plans for the consolidations and reductions in force under consideration affecting the local terminal facilities of the Pennsylvania Railroad have been completed, it is learned. While details as to the proposed changes are still held back it is also learned that the announcement of the drastic changes to be put into operation is to be made next Monday in the form of an order putting them into effect at once. A material reduction both here and even extending along the line as far as Jamesburg is expected to be put into effect. A number of reductions have already been put into effect and it is reported that a few employees who expected their positions to be abolished have sought employment elsewhere rather than wait for the expected blow to fall and find them jobless.

During the present week several employees of the dumpers here have been laid off, it is learned. The cut in force at this point is said to be warranted by the continued fall in coal shipment tonnages, one dumper remaining idle, the other being sufficient to take care of the work. At least five men were thrown out of employment, by the reduction, it is learned.

Work of turning the building housing the office of Yardmaster Heneby into a series of offices has been going forward rapidly. The work is now nearing completion and ought to be ready for occupancy soon.

The expected consolidation of the Terminal Shipping Office with the Yardmaster's department is the cause of numerous rumors as to what is to really take place. In some instances, it is believed, the hopes of certain of the employees are expressed in no uncertain terms. These in turn give rise to counter rumors, while among probably a majority of the workmen the opinion is confidently held that the retrenchment plans won't work out satisfactorily. If they don't there'll be another change in a very short time, they say, which change will restore present conditions, or at least a modification of them. Then that arrangement is expected to last for a long time.

Which of the two department heads is to be most affected by the proposed consolidations is the subject of a great deal of comment. The adherents of both Yardmaster D. B. Heneby and Terminal and Shipping Agent G. W. Crane are stout in their support of their favorite. The popularity of both officials with the rank and file is said to be somewhat contrary to the general belief hitherto held. There is just a whisper that it is Mr. Heneby that is to go from here to another field where he will be given a wider scope for his powers, and that the present T. & S. agent will be saddled with the job of executing the reductions and extending his efficiency methods into the handling of the yard service.

Now is the time to consider your heating problems for next winter; note to sit in a warm room looking out those winter days when the temperature is around zero, isn't it? Try Monaghan for satisfactory results. He has been installing heating and plumbing comforts in homes for 40 years. How about a nice bath room or shower? Good prices. Just now. Broadway & David St., Tel. 253. Adv.

Miss Bertha Healt, of First street, spent Tuesday visiting in Sayreville.

MORGAN RESIDENTS WILL APPEAR BEFORE STATE HIGHWAY BOARD

Will Carry Fight On Closing of Grade Crossing Before State Body Next Tuesday—Freeholders Claim Road Cannot Be Given Back To County Under Present Law. No Title For New Road Secured Yet By State Board.

Determined to get to the bottom of the muddle over the closing of the road crossing at Morgan a delegation of indignant property and business owners of Morgan and vicinity are planning to wait upon the State Highway Commission at the session of that body in Trenton next Tuesday. It is said that the delegation will be headed by Mayor Hartman, of Sayreville, and several of the members of the council of the borough. A representation of the Board of Freeholders is also expected to be present.

The decision to attend a meeting of the State Highway Board was reached following an unsatisfactory conference between the Board of Freeholders and a delegation of Morganites at the County Seat yesterday afternoon. The delegation had been given to understand, it is said, that the road had been relinquished by the State Highway and turned back into the hands of the Board of Freeholders. The delegation urged the county authorities to accept the road and keep the crossing open for the convenience of the residents of that section and the welfare of the businesses that are suffering from the effects of traffic diversion as a result of the closing of the crossing and the opening of the new bridge route. It developed at the session in question that the law provides that a road that is taken over and then kept by the Highway Board for a period of five years cannot be turned back to the county authorities.

It appears that the railroad contributed \$75,000 toward the construction of the overhead bridge route with the understanding that the railroad crossing would be eliminated and the railroad thus be enabled to save the cost of maintenance and guarding. Since the opening of the new route over the bridge someone or somebody authorized the railroad to close the crossing. Accordingly the railroad built a fence on either side of the tracks, blocking the roadway and removed the crossing planks. Last Thursday night a number of men and boys tore down the fence and replaced in a fashion the crossing planking, without being opposed by railroad employees. The next day or so the railroad had a work train pick up everything that was lying around loose in the vicinity of the crossing and take it away. The crossing planking was not disturbed however.

TRAFFIC JAM HERE SUNDAY

New Overhead Bridge At Morgan Fails To Remedy Conditions

Despite the new overhead bridge route at Morgan the traffic conditions in this city last Sunday evening were as bad as ever. The tie up was almost continuous throughout the early evening hours and lasted until late into the night. At times this blockade of standing cars reached to the new bridge at Morgan and even beyond.

The explanation for the tie up is said to lie in the fact that traffic through here and between here and Perth Amboy was handled in the same way as it was prior to the Independence holiday week end. The congestion is also said to indicate the correctness of the contention of certain local authorities that the opening of the new bridge route over the railroad at Morgan would add to the congestion in local streets instead of relieving it.

The situation the previous week-end was due to the method used in getting cars through here and on over the Raritan River bridge. A new way of routing traffic northbound, the idea of Chief of Police Gleason, was tried for the first time and proved very satisfactory, it is said, despite the heaviness of the traffic. The system consisted simply of continuing all cars on Stevens avenue on through the Hole-in-wall instead of down Main street; the cars on Broadway using the State Highway. At the junction of Bridge street and the State Highway the automobiles were run in double file on out onto the bridge and traffic southbound was confined to single file.

The execution of the Gleason plan for handling local traffic congestion as outlined required the co-operation of at least two members of the Sayreville police force. With the small force employed by the borough it is not always feasible to put two officers together at this point for the length of time required to handle the traffic congestion. Such is said to have been the case last Sunday.

Mr. and Mrs. J. Elbert Selover and daughter Margaret are spending their vacation with Mrs. Selover's sister, Mrs. Diehl at York, Pa.

The crossing is still in such condition that it cannot be used by vehicles due to the ball of the rails being several inches higher than the planking that was replaced by the infuriated residents last week after it was torn up by the railroad workmen. The crossing gates are kept down continuously and gatemen refuse to permit the crossing to be used. The new route is not very conspicuously marked, it is said, and many automobiles continue along the old route until the crossing is reached. Then they are compelled to turn around and go back to the junction with the new route. Many expressions of malediction are heard directed against the authorities deemed responsible for the inconvenience.

The situation among the business people located along the former crossing route is a serious one. Trade that it has taken years of painstaking service to build up to a profitable basis has all but completely disappeared in most instances. Sites for shifting of the businesses are not readily available, it is said, hence the unfortunate merchants must remain and suffer in idleness.

A large delegation, which included nearly everyone in business as well as a majority of the residents of the section, appeared before the Sayreville Common Council at a meeting in Sayreville on Wednesday night and urged that body to take action toward having the crossing restored and the roadway kept open. Attention was directed to the fact that the highway was a county road for a hundred years before the State Highway took it over some years ago. It is now understood that the road has, or is to be, turned back to the Freeholders as a county road. A suggestion that the county body also be appealed to was made and readily accepted. Meantime the Sayreville authorities assured the delegation that steps would be at once taken to see what could be done in the way of complying with their requests.

The position of the State Highway Commission as to the new route for the highway is said to be somewhat unusual. Title to the ground occupied has not even yet been perfected, it is understood. There were at least three condemnation commissions appointed several months ago to appraise the ground required but to date, it is said, none of these commissions have taken action. The (Continued on Page 8)

ROTARIANS HEAR TALK ON JAPAN

Spotswood Pastor Gives Interesting Talk Here Tuesday.

Rev. W. R. Severance, of Spotswood, was the speaker at last Tuesday's session of the Rotary Club, giving a most interesting informal talk upon Japan, its customs and present day conditions. Rev. Mr. Severance was formerly a missionary to Japan and his talk was interpolated with interesting personal anecdotes that made it very pleasing to his hearers.

"Dan" Olmstead, of Perth Amboy, was adjudged the winner of an old fashioned quilting contest, nosing out Charlie Safran, who was disqualified because of assistance in threading his needle.

Among the visitors were John Breckenridge and Frank Valentine, of Woodbridge; George Schantz, Daniel Olmstead, H. W. Fisher and Clarence Hawke, of Perth Amboy; George L. Egbert and Rev. Otto Mohn, of the Port Richmond, S. I. Rotary Club.

LOCAL GIRL PRESENTED WITH CHEST OF SILVER

At the Parlin plant of the DuPont Company on Wednesday Miss Agnes Agan, of Bordentown avenue, this city, was presented with a beautiful chest of sterling silver table ware as a token of congratulation and appreciation from the main office associate workers. The arrangements were completed during Miss Agan's absence at the lunch period and the presentation made upon her return, much to her surprise. The desk at which she officiated as chief stenographer had been appropriately decorated with bouquets and ingeniously worded placards carrying messages of congratulations. In a neatly worded speech of acceptance the recipient expressed her appreciation for the testimonial of her friends. A veritable deluge of rice from the circle of co-workers, from clever ceiling ventilator arrangements, etc., marked the close of the diversion from the day's activities. Miss Agan will shortly be married to Mr. Howard Moore, of Philadelphia.

FRIDAY, JULY 3, 1925

25 PER CENT REDUCTION
EXPECTED ON P. R. R.

(Continued from Page 1)

imately a twenty-five per cent reduction in the personnel now engaged. It is thought that the reductions will result in a considerable number of transfers of present employees into other jobs than those they now hold. Whether or not the reductions will prove to be good economy remains to be seen and it is said that at least some of the head men here hold the opinion that the work there is to be done cannot be efficiently performed with a force curtailed as much as the management has ordered.

The changes here are explained, it is said, by the continued falling off of the coal shipping business. The annual shipments now average over two and a half million tons less than the average yearly shipments prior to 1922 when the soft coal strike brought about the installation of so many oil burner substitutions, according to one authority. The development of hydro-electric power in the New England States is said to be responsible for a part of the business that used to go over the local dumpers and the balance is accounted for by reason of the fact that coal from the southern ports and southern fields is used instead of the Pennsylvania coal that used to be popular. This latter condition, too, is said to be the outcome of the strike of 1922 when the supply of southern coal continued to be both cheap and abundant. This coal is transported by water to the New England ports and it can be produced and sold at a lower figure than can the coal from the Pennsylvania mines. In the latter fields the miners are nearly unionized while in the southern fields they are non-union and unorganized. The result is that wages are much lower in the southern fields than they are in the competing field with the union leaders refusing to favorably consider any reductions in the wage levels.

It is said that there are so many small mines that can produce bituminous coal quite cheaply and their total output so nearly equals that of the combined output of the big mining concerns that the resultant competition keeps the price of soft coal down to a nearly constant level. The maximum production of both the large and small mine operators is said to be more than fifty percent in excess of the gross consumption of the entire country and this results in many mines being shut down when the price drops only to open up at once when the price rises enough to make mining attractive once more for the particular owner.

RESTAURANT MAN INSTALLS
ELECTRIC APPLIANCES

George Anthopoulos, the progressive and wide awake proprietor of the Morgan Hotel and Restaurant at Bay View Manor, realizing the practicability, cleanliness and also the economy of electric cookery since the new 4c cooking rate was announced, has recently purchased a complete Hotpoint Electric Cooking equipment from the Jersey Central Power and Light Company, through their local representative, D. J. Delaney.

PYTHIAN SISTERS TO MEET

A regular meeting of Good Samaritan Temple No. 6 Pythian Sisters will be held Monday evening, July 6th. All officers and members of the Degree Staff are urgently requested to be present for initiation. After the business meeting a short social time will be enjoyed as this will be the last meeting until September 21st.

REAL ESTATE SALES

A total of six homes changed hands through the offices of Reinhardt & Kurosky during the past month, according to a statement issued by the Boardway real estate and insurance concern yesterday. Among the recent transfers is that of the residence of Mr. and Mrs. Charles Jones, of Ward avenue, to Antonio and Stacia Matysik, of this city; and the Roddy house on John street, which was purchased by Frank and Viola Point, also of this city.

AUTO AND TREE HIT
BY SKIDDING TRUCK

While parked in front of the hardware store of C. I. Bergen on Stevens avenue last Saturday afternoon the Studebaker sedan of Mrs. Regina McGovern of First street was badly damaged when a truck passing along skidded into it and crushed it against the curb and a nearby tree. In the sedan at the time was James Keyes, of Pine avenue, who sustained a number of minor bruises.

The truck, in charge of William J. Kennedy, of Point Pleasant, is said to have had a new tire on the left front wheel while the tire on the right front was badly worn. This condition and a wet pavement are given as the explanation for the accident. A tree standing in front of the store was bent over about three inches by the impact of the blow.

LEGION HOPING FOR FAIR
WEATHER FOR CARNIVAL

(Continued from Page 1)

boy! Even the grown ups like this attraction. The swings at a Legion carnival have never been idle, but these swings top the limit. They are strongly built, manned by efficient operators, and they are bound to be continually in use, while a line of young people wait for a turn in them.

There is going to be a "Freckle Contest" and a Harmonica Contest, in charge of Bill O'Toole, who is chairman of the Jubilee.

Bill promises that everything will be of the very best; that good order will be kept at the grounds, and that a whole week of merriment is in store for the good people of South Amboy and the vicinity.

Movie Is Good

The moving picture is to be one of the big attractions of the Jubilee. Each night at 11 o'clock the South Amboy picture will be shown. This picture shows the city officials, many scenes in South Amboy today, the Raritan River shops, local churches, the Memorial Day parade and scenes of interest at the American Legion Club House. Hundreds of school children appear in this picture, as well as the local banks, local stores, and hundreds of people you know. There is a fine story running through and touches of humor here and there that will bring many a laugh as you see yourself, and your friends, on the screen.

The following prizes will be awarded on the closing night of the Jubilee: Michelin tire and tube, donated by Michelin Tire and Rubber Company; 2nd, one ton coal, Middlesex Coal Company; 3rd, large silk comfortable, Jas. Bell Co.; 4th, 1-2 ton coal, Howard D. Little; 5th, pair shoes, Cohen's Boot Shop; 6th, meal ticket, Mulrain's Lunch; 7th, 5 lbs. of Blue Ribbon Butter, by Wagner & Wurtzel; 8th, Gent's Shirt, J. A. Johnson; 9th, Gent's Hat, Mrs. Geo. Green; 10th, large ham, by Richard McCloud; 11th, large ham, by Straub Bros.; 12th, large ham, by S. Kwilinski; 13th, large basket groceries, by Eagle Tea Co.; 14th, large basket groceries, by Benj. Strasser; 15th, 25 pound bag flour by A. T. Allen; 16th, 25 pound bag flour, by John Sutliff; 17th, 25 pound bag flour, Greenspan's Store; 18th, 25 pound bag flour, Milton Hammell, Manager A. & P. Store; 19th, two week's bread supply (one loaf per day) by Hess Bakery; 20th, two weeks bread supply (one loaf per day) by Domzal's Bakery; 21st, two weeks milk supply (one quart per day) by M. Zimmerman; 22nd, two weeks milk supply, one quart per day, by B. Pearl; 23rd, two weeks milk supply, one quart per day, by Robert Casey; 24th, one week's ice supply, 25 lbs. per day, by Kirch Bros.; 25th, box cigars, by Dora Ginter; 26th, box cigars, by O'Connors Confectionery; 27th, box cigars, by Wm. Sullivan; 28th, flash light, three cell, by Sam Mendinets; 29th, 10 gallon gasoline, by Demarco's Garage; 30th, one year's subscription to the South Amboy Citizen, by South Amboy Printing Co.

ANNIVERSARY CELEBRATION

(Continued from Page 1)

precative congregation who hold the preacher of the evening in high regard for his work among them. Mr. Abel was pastor just after the terrible explosion, and it was during his pastorate that the church was repaired and improved.

During the pastorate of Mr. Abel the Anniversary Birthday Offering was instituted. It so happened that last Sunday was also the birthday of Mr. Abel. The young people, among whom he was a great favorite while stationed here, had not forgotten that fact. Hence, they had prepared a little surprise for him, in the form of a five dollar gold piece, which was presented by Mr. Carl Skow, the president of the Sunday School Choir. Mrs. Abel was also remembered by the young people, and Mr. Skow presented her with a handsome basket of flowers on behalf of the Sunday School Choir. Mr. and Mrs. Abel accepted these remembrances in a few well chosen words of appreciation.

The church had been tastefully decorated by the decorating Committee. The scheme consisted of streamers of pink and white, with a hanging basket of beautiful flowers suspended from the ceiling of the church. The Church Choir was at its best, with special anthems morning and evening. The Juniors sang special selections at both services, and the Sunday School Choir rendered special music in the evening. The birthday offering netted a splendid sum for the treasury of the Church. Taken altogether, it was one of the most successful Birthday anniversaries that the John Street Church has ever held. The program was arranged by the pastor, Rev. E. A. Wells.

NOTICE

My wife, having left my bed and board, I will not be responsible for any debts contracted by her.

FIRST PRESBYTERIAN CHURCH
G. E. Sehlbrede, D. D., Pastor

Sabbath School at 10 o'clock. Adult Bible Class 10:20 A. M. Mr. Paul W. Prather, Superintendent. Mr. Russel Mathis, Assistant. Church services 11 A. M. and 7:30 P. M. In the morning service Rev. Mr. Mell, Secretary of the P. R. R. Y. M. C. A. will preach on the theme "True Greatness." The Pastor will preach in the evening on the theme "God's Pleasure in His People." Preparatory Service Wednesday evening 7:30 in the Lecture Room.

LADIES NIGHT

St. Stephen's Lodge No. 63, F. & A. M. celebrated with a ladies night in the Masonic Building on Main street last Monday night. There was a large attendance of members of the organization and their wives on hands despite the unfavorableness of the weather conditions. Tasty refreshments and a social hour constituted the entertainment available and both were very much taken advantage of.

Mr. and Mrs. Joseph Duggan of First street are rejoicing over the birth of a baby boy born at the City Hospital on Tuesday evening.

NEW MOTOR TRUCK LAW
IN EFFECT TOMORROW

Tomorrow the law relative to trucks having the name and address printed conspicuously on the sides goes into effect and instructions from Motor Vehicle Commissioner Wm. L. Dill regarding the enforcement of the regulation are being received by police departments throughout the state. The law requires that letters designating the ownership of commercial motor vehicles shall be three inches high and commercial vehicles of the coupe, sedan or touring car type alone are excepted from the provisions of the order issued by the Motor Vehicle Department. The police authorities of various municipalities are arranging to cooperate in the enforcement of the law, which was adopted by the legislature at the recent sessions.

CLAM BAKE

All those who enjoy a good old fashioned clam bake should make it their business to be present at the affair of the Polish American Citizens Society of this city to be held Sunday, July 26th at the Brick Yard Grounds, Melrose. A good time is promised all those who attend and tickets are now on sale by members of the society.

CARD OF THANKS

I wish to take this means of thanking Miss Cantlon and nurses of the South Amboy Hospital for the fine treatment given me during my recent confinement there.

STRAIGHT TALKS WITH AUNT EMMY

ON SAVING AND INVESTING

Aunt Emmy and Maud were talking about saving money.

"What does a savings bank do with the money people put in it, Aunt Emmy?" inquired Maud.

"It is invested in sound mortgages, perhaps, or government and corporation securities. You see, the men who run savings banks are trained financiers. They know what securities are good and what are questionable, so they invest the bank's funds—that is, the money they receive from their depositors—in the best securities in such a way that they will be able to pay you interest on your deposits and be able to return your money to you when you want it. In order to do that they must invest in securities that pay a higher rate of interest than they give you to cover the bank expenses and set aside a surplus against emergencies."

"But, Auntie, if the banks invest our money, why can't we invest it ourselves?"

"We could if we knew as much about investments as the bank does. Bankers are not likely to make the mistakes made by the ordinary person. They are not deceived by impressive looking stock certificates, plausible letters from brokers or charming voices over the telephone urging them to buy this or that. Your banker is a hard-headed business man who investigates thoroughly before he invests the bank's money. For this reason many conservative persons prefer to keep their savings in a savings bank, knowing that their money is in wise hands and that even though the rate of interest they get may be moderate their money is far safer than it would be if it were invested less skillfully."

"Surely, though, it must be possible to get more than 4 per cent on your money and yet be safe," Maud said.

"It is under certain conditions," Aunt Emmy agreed. "The trouble is that so few people are frank about their money matters with men who really can be trusted for advice. They would rather take the advice of a glib stock salesman. No matter how small a sum a person is thinking of investing, advice should be sought from a trust company or bank. Women especially don't seem to realize this."

"The savings bank is always safe. It is a good plan to keep putting money in the savings bank until you have a good sum. Then withdraw part and invest it in some security paying a higher rate of interest. But be sure to seek good advice before you buy. In this way you can always have some cash on hand in the bank, yet gradually convert most of your savings into high grade securities." — ANNE B. ARMES.

THE BURDEN OF GOVERNMENT

The financial burden of government has become increasingly heavy in recent years. It has, at times, reached the point of oppression. The Federal tax of 1920 aggregated more than five and one-half billion dollars. This year, after strenuous efforts to reduce the war-time peak, the total still exceeds three billion dollars—a sum far greater than the entire burden of funded debt accumulated as a result of the Civil War. State and local taxes have increased at an even greater rate. Taxation has become more than a problem; it is a threat of impending disaster.

Nor is the burden of government limited to taxation. We are oppressed by a multiplicity of restrictive laws and administrative regulations. It is estimated that there are over two million laws and ordinances in the records of nation, states and municipalities. One adult person out of every twenty engaged in business or industry is a government official, agent or employee.

In the face of this record, despite the general recognition of the overwhelming burden of government, we find ourselves constantly waging a defensive battle against plans and programs which would transfer still greater duties to government, which would hamper individual initiative still further, which will—if put into practice—crush individual ambition and destroy individual opportunity.

Under these circumstances it is our right—it is our duty—to affirm and defend sound principles of political faith as we have, on other occasions, supported sound principles of economic progress. The Constitution of the United States has stood for 135 years as the bulwark of our individual and our collective liberties. The Constitution has been and is now the greatest existing restraint upon an arrogant majority. It has been and is now the greatest existing defence of the very minorities which, at this time, are being led to denounce its restrictions.

One of our greatest needs is to repel the attacks now being made upon the integrity of this charter of our freedom. We should—we must—oppose vigorously all efforts to give Congress the power to override decisions of the Supreme Court—and thereby destroy the division of governmental power which is the inherent strength of our constitutional system.—Walter W. Head, American Bankers Association.

Letters to the Editor

Perth Amboy, N. J.,
June 30, 1925.

To the Editor, South Amboy Citizen,
South Amboy, N. J.

Dear Sir:

In your last issue there was an article stating that your City Council had rejected all bids upon a 3 1-2 to 4 ton truck for the city street department. The article failed to state why the bids were rejected.

I am taking this opportunity of asking the Common Council why they rejected all bids, including mine, which was \$200.00 less than that of the only other bidder.

Your Council has told the public why a truck was needed, and then prepared specifications for the truck they intended to purchase. I agreed to meet every specification in detail. Since I did this, why was my bid rejected? Your Council is supposed to act in the interest of the taxpayers yet the acceptance of my bid would have saved \$200.00 and they failed to accept it. Everyone knows that the Council had practically already purchased a Federal truck; that the specifications were drawn so that all other bidders would be kept out, and that the Council, if it dared do so, would have awarded the bid to the Federal truck people, even though their bid was for \$4,995.00, \$200.00 higher than my bid for a G. M. C. truck, and only \$5.00 less than the \$5,000 the city appropriated.

I think the public is entitled to know the facts; how their interests are being looked after by a Council that is supposed to save money for the taxpayers.

It makes little difference to me whether or not I ever sell the City of South Amboy a truck, but I think that the public is entitled to know of the unfair methods being used, and also that I could have saved the City \$5,000 in the purchase of two fire trucks, but in spite of the fact that I was promised a demonstration and a conference by the chairman of the fire committee, I was never given it, and the City paid \$20,000 for two Mack apparatus. I could have sold the city trucks as good in every way, and possibly better, for \$7,200 each, with one year's free service on each truck.

I will appreciate it if you will publish this letter, so that the citizens of South Amboy may know how the council is looking after their interests.

Very truly yours,
MOE KOCH,
141 Market St.

BIG INCREASE IN OWNERS OF PENNA. R. R. CO. STOCK

Records of stock ownership just compiled by the Pennsylvania Railroad show that the number of people who have invested in the Company are today three times as many as there were fifteen years ago. During the fifteen year period covered by this analysis the spread of ownership of the Company's stock has been particularly marked among women investors. They have increased not only in actual number but also in the proportion of their holdings to the total amount of stock outstanding which for the greater part of this period has remained the same.

In the last five years alone, the number of Pennsylvania Railroad investors has increased about 30,000. In other words, during the period of the railroad's recovery from war operating conditions, distribution of ownership in the stock has increased

approximately twenty five per cent. At the present time the number of Pennsylvania Railroad stockholders is the largest in the Company's history. The average holding today is 68.02 shares as against 136.81 shares fifteen years ago.

On January 1, 1910 the number of women stockholders was 28,333. They owned 25.95 per cent of the total stock and constituted 48.28 per cent of the total number of stockholders. On January 1, 1925 they numbered 70,803, an increase of 152 per cent. While they still constitute about the same percentage of all stockholders, they now own 32.63 per cent of the total stock outstanding.

? ? ? ? ?

The stockholding list includes all ranks from the successful business man and the large institutions to day laborers and mechanics. A notable increase in the list is from all ranks of officers and employees in the Pennsylvania Railroad service.

A study of the figures as far back as 1910 indicates a steady trend toward more widespread ownership in actual number as well as in territorial location. While the Pennsylvania Railroad System extends into thirteen States and the District of Columbia, its domicile is the State of Pennsylvania, and it is interesting to note that of the whole number of stockholders, 55.98 per cent are credited to that state.

Figures have also been compiled giving the total dividends paid to stockholders since the Pennsylvania Railroad was chartered in 1846. In every calendar year since the Company began to operate, cash dividends have been paid to those who provided out of their savings the money with which to build and equip the road, averaging for the entire period 6 per cent per year and amounting to more than three-quarters of a billion dollars.

James Wallace has completed his painting contract with John Sutcliffe of Pine avenue.

REALIZATION EQUALS ANTICIPATION

LADIES! Many Thanks!

We appreciate the way the ladies of South Amboy patronized our sale of last week. We thank you.

We regret too, that business routine has made it impossible for us to fill the demands of visitors at our factory every day this week.

The demand for another opportunity to get some of the samples and broken odd lots we manufacture is so evident that we are arranging to hold another sale in the near future on a broader scale with more goods displayed and additional facilities.

Watch this paper for further announcements.

MADISON TOWNSHIP

Mrs. William Campbell is spending a week with her aunt Mrs. C. C. Hillier of Port Monmouth.

Mr. George Bloss and children of Milltown and Mrs. James Ellingham and son spent the afternoon at Cliffwood Beach last Wednesday.

A serious accident occurred last Sunday when a Buick car struck a tree near the home of Jacob Loesch located on the Matawan Road. The car was a complete wreck and the occupants who were seriously hurt were rushed to the South Amboy Hospital. One of the victims had his throat badly cut by the breaking glass and had two ribs broken, while the other which was thought to be less seriously injured received lacerations of the scalp and face.

Alice and George Nyman spent last Sunday at Long Branch.

Mr. and Mrs. Arthur H. Campbell and children of New Brunswick are spending the week with the former's parents, Mr. and Mrs. Wm. Campbell of Runyon.

Mrs. Elmer Applegate of Cheesequake visited her mother, Mrs. James Ellingham of Runyon Tuesday afternoon of this week.

Mrs. Mary Vohman, a teacher formerly employed in Madison Township, spent a few days with her classmate, Helen Campbell.

Charles Jurman of Cheesequake has returned home after a week's vacation spent in New York City.

Miss Rose Rehfus of Runyon is a patient at St. Peter's Hospital, New Brunswick, and is reported to be getting along nicely.

Mr. Nelson Applegate and family motored to Smithburg last Sunday afternoon.

Mrs. Douglas Hunt and brother visited their aunt, Mrs. Margaret Palmer of Runyon last Tuesday. Mrs. Palmer has been ill for some time.

Mr. Rozoe Grover has purchased a Ford touring car.

Mrs. James Ellingham spent last Saturday afternoon with Mrs. F. Hartle of Cheesequake.

The recent electrical storms which have visited this section have been very severe in the area of Cheesequake and vicinity.

Jacob Loesch of Cheesequake was also a victim of lightning. While on his way home he was struck by lightning and those who rushed to his aid found him unconscious. An hour later Mr. Loesch had recovered from the shock.

Sarah Hartle and Mary Cressman visited John Poulsen of Runyon who is a patient at the Perth Amboy Hospital.

A sociable given by the Episcopal Church of Cheesequake last Tuesday evening was largely attended.

Mr. and Mrs. Morris Bailey of Milltown spent the week end with the latter's parents, Mr. and Mrs. Karl Rehfus of Runyon.

Barn Struck by Lightning

The barn of Mr. Jerry Farrington was struck by lightning last Saturday. The structure was of a modern type and the property loss was estimated as being considerable. At the time six horses were in the barn and three of these were killed instantly. With great effort on the part of Mr. Farrington, son and an employee, the other three horses were removed to safety. Two fire departments responded to the call but were unable to save the building and it was completely destroyed.

The home of George Heuser of Cedar Grove was also struck by lightning during the past week. Little damage was done as the fire was discovered and extinguished before gaining headway.

BASEBALL NOTES

Baseball peanuts at ten cents a throw is another case of shell shock.

With the lively ball in use third basing has become a matter of bravery.

Opening day has lots of bearing on the rest of the season in the parachute league.

As an outfielder this season Mr. Ruth has proved a highly effective publicity agent.

Ferdinand Zegri, left fielder, has been elected captain of the Columbia baseball squad for next season.

Jonah Halstead of East Paterson, N. J., was elected captain of the Lafayette college 1926 baseball team.

Catcher Lew McCarthy of Baltimore continues his hard and timely hitting, since his return to active duty.

Tom Stanton, a big right-handed pitcher from St. Louis university, has been signed by the Boston Red Sox.

The Baltimore club of the International league secured a fast man in Archdeacon of the Chicago White Sox.

Latest reports are to the effect that there are 57 fewer pounds of Babe Ruth in the public eye than formerly.

Aubrey Speer, star shortstop of the Trinity university team of Texas, has joined the Chicago White Sox for a trial.

First the International sent up an Archdeacon, from Rochester, and then Jack Dunn followed with a Bishop to the A's.

Johnny Lenhan, third baseman of the De La Salle academy team of Chicago, has been taken on for a trial by the White Sox.

Special Warm Weather Radio Concerts For the Summer Listener

By CHARLES B. POPENOE
Manager, Stations WJZ and WJY, New York City

Keeping the air filled with good things—that is the job of the Broadcast Station Manager. To do this requires organization—a staff of specialists. From the first day of 1924 till the last day, station WJZ was on the air a total of 3,085 hours, transmitting 4,935 separate program features. The twin station WJY was on the air a total of 686 hours, transmitting 1,174 separate program features during the same period.

Gone Is the Day of the Radio "Filler"

Back in the early days of radio broadcasting, the program manager didn't have to worry about "filling" his time on the air. One or more phonographs and an automatic piano were fixtures of the broadcasting studio, and when there was a lull in the program the studio announcer made good use of a few of the latest record releases or planola rolls to fill in the time.

That practice, however, is a thing of the past. The radio audience no longer wants to listen to just plain "fillers" to kill time, so to speak. Today, everything that comes over the air must be fresh or first-hand. Moreover, the various features must be fitted into the program with the utmost

the simple and cool style of summer. Atmosphere and surroundings have their effect upon the broadcaster. For that reason we have prepared our studios to carry out the idea of summer and all it stands for with the vast radio audience. This must have a "summer-time" influence on our programs in the making.

We must take into consideration the changing seasons and the changing interests of our vast family of listeners-in. Speaking for stations WJZ and WJY specifically, we are going to broadcast many things of interest to summer-time folks. We shall have excellent talks on swimming, which is a subject of very general interest. We shall have talks on golf—that fascinating imported game which have gained such wide popularity in America. We shall have talks on tennis, basketball, baseball, and other American sports. We shall have talks by practical campers to campers and motor tourists, and once those campers are in the far-off corners, we shall keep them in touch with the world and furnish them with the best of musical entertainment. We shall have talks on the care of the automobile, on motor tours and on other subjects of in-

The huge transmitting towers of Broadcast Central, Stations W J Y and W J Z, New York City.

most care and judgment, so as to make for a harmonious ensemble. Occasionally, when an artist, or a speaker fails to appear at the appointed time, the studio staff must improvise a feature to span the gap in the program. Gifted studio announcers are now a part of the staff and their musical talents serve to good advantage for just such emergencies. Going even one step further, the leading studios have skilled musicians on their regular studio staff, available for all occasions as accompanists or to play solos. WJZ and WJY of the Radio Corporation of America, are fortunate in having Godfrey Ludlow, an accomplished Austrian violinist, on the regular staff. Mr. Ludlow not only plays with the rare skill of a great artist, but he possesses one of the very few real Stradivarius violins in existence. Lovers of violin music have many treats in store for them this coming season, for Ludlow will often play for them. Mr. Keith McLeod is also well-known to the radio audience for his unusual ability as a concert pianist.

When Summer Comes

Radio is no longer seasonal. The recent technical advances in transmitting and receiving equipment, the increased power of the broadcasting stations and other significant factors have done much to overcome the early handicaps of warm weather. Then, too, the program managers have come to recognize the importance of summer-time radio, with the result that their efforts go on just the same in summer as in winter. If anything, program managers consider that summer-time radio has some decided advantage over winter-time radio, in the matter of securing sporting events from the great outdoors, thus giving their programs a dash of seasonings.

For several weeks back we have been getting ready for summer-time broadcasting. Certain changes have been made in the scenery of our studios somewhat after the manner of the housewife who changes the living-room decorations from the heavy and warm style of winter to

terest to the vast army of Americans who travel the highways of our vast country during the coming months.

The Radio Reporter and the Sporting Events

Summer-time being the outdoor time of the year, the program manager goes out more than ever after out-of-the-studio features. During the past year the out-of-the-studio features amounted to 54 per cent of the programs from stations WJZ and WJY, the remaining 46 per cent being studio features. The program manager today no longer waits for radio performers to come to the studio. If he knows of a desirable feature for his audience, which cannot be brought to the studio in the normal course of events, he sends the radio reporter after it with the microphone and the "pick-up" wires which radiate from the studio in all directions.

From Philharmonic Music to the Latest Jazz

There is plenty in store for the music lovers. We have scheduled a series of concerts which will be broadcast direct from Washington, D. C., given by the United States Marine Band and the United States Army Band, and broadcast through WRC of Washington and WJZ of New York City and probably WGY of Schenectady. The Marine band will be broadcast twice a week, and the Army band once a week.

There are several other musical treats in store for the summer-time listeners, which will be announced later. Meanwhile, the usual studio programs will go "on the air" all through the summer, terminating each evening's program, except Sunday, with the latest dance music which will set tens of thousands of feet in action in the city as well as in the remote camp and summer resort.

With regard to informative talks on subjects other than sport, we shall have much interest to summer-time folks. For the ladies—especially during the daytime when they comprise an overwhelming majority of our audience—we shall have talks on gardening; how to arrange the home for warm weather; what to wear during the summer, and so on. For the home-builder and home-owner, we plan to have talks on the building and maintenance of the home.

FIRST METHODIST CHURCH Rev. E. A. Wells, Pastor

The services for Sunday will be as follows: Sunday School in the morning at 9:45.
Morning worship and Sacrament of the Lord's Supper at 10:45.
Epworth League devotional meeting at 7:15 P. M.
Evening worship, communion and sermon by the pastor at 7:45.
Prayer meeting on Wednesday evening at 8:00.
Our Sunday School is making an effort to take the largest number we have ever taken on the Annual Excursion to Asbury Park on July 16.

ANOTHER HOLDUP

Another holdup in this city was reported to the local police late last Saturday night. A man claiming to be Ed Maher, of Cortland street, Perth Amboy, reported that he had been held up and robbed of ten dollars. He thought from the conversation of the several men in the party, according to the police records, that they were from the Mechanicsville section.

Mrs. J. J. Ryan and son John motored to Bordentown on Monday last.

LOCAL HAPPENINGS

Mrs. William Shaw and son Billy of Morristown are visiting Mr. and Mrs. Wallace Emmons of Church street.

Harry Forgotson of Washington avenue has purchased the former Wood homestead on George street.

M. J. Scully of George street is reported to be recovering from an attack of rheumatism which confined him to his home for the past several weeks.

The garbage wagon in certain sections of the city now loads from one side of the street at a time, going up one side and down the other. The change is expected to result in a appreciable saving of time now are walking back and forth across the width of the street bringing and returning containers.

The windows of the department store of B. Tenenbaum on Broadway store of B. Tenenbaum on Broadway fresh coat of ivory color paint. Both the inside and outside surfaces are being treated. Frank Nelson, local painter and paperhanger, is in charge of the work. When completed it is expected that a vast improvement will be noticeable.

While driving on Catherine street Tuesday evening a manhole cover rased up and badly damaged the gasoline tank on an automobile owned and being driven by Chris Kaisan of Kearny. The cover, too, was broken, according to police court records. The autoist was not held.

Joseph McCormack of Augusta street has been appointed captain of one of the ferries which plys between Perth Amboy and Tottenville. For several months past an extra boat has only been used week ends and holidays, but beginning with Wednesday of this week at the start of the electrification of the trains of the Staten Island Rapid Transit, two boats will be used regularly.

Pupils of St. Mary's School who have been conditioned in one subject will enroll for Summer School on Monday next.

Frank Farrell Jr. of David street has accepted a position with the Du Pont Company at Parlin.

The offices of Reinhardt & Kurowsky, local insurance and real estate brokers, will close at 1 P. M. Saturdays during the months of July and August.

A regular meeting of the Common Council will be held next Tuesday evening in the City Hall.

Mrs. Anna Render and son William of Catherine street motored to Atlantic City last Sunday.

Mrs. Horace Wilson, of Broadway, is now driving a new Studebaker roadster.

Chester L. Meinzer, son of Dr. and Mrs. L. F. Meinzer left Sunday for Montessori Camps, Wycombe, Penn. where he will enjoy his summer vacation.

William Forgotson of Portia street has purchased the residence of R. E. Lee Morgan of Portia street.

Mr. and Mrs. C. E. Mulrain and son Chris Jr., of Bordentown avenue, were Atlantic City visitors over the week end.

Mr. and Mrs. J. C. Boll of Augusta street spent the week end in Atlantic City.

Ralph Merritt has purchased a new Studebaker car.

Employees of the water department made repairs to a break in the water mains under the pavement at the west end of the Hole-in-the-Wall early this week. For the greater part of two days traffic was confined to one side of the double passageway through the hole. The leak has been in evidence for some time.

Alden Berbercik of Silver Lake, S. I. and Harry Bell of Astoria, L. I. were the guests of Mr. and Mrs. Richard Powers on Sunday last.

Sister Mary Modesta of Buffalo is spending her vacation with her sister-in-law Mrs. Mary Kennedy of David street.

Misses Mary and Anna Mataranglo of David street spent Friday last in New York City.

On account of the holiday tomorrow practically all of the business places in this city, except, of course, the refreshment parlors, will either remain closed all day or shut up at about noon.

Residents of the Frog Hollow section are again agitating the surface sewer drainage problem that is claimed to be a nuisance in that section. A petition was presented to the Board of Health recently and by that body referred to the attention of the Common Council. It is expected that some sort of action is planned by the city authorities to be taken at the regular meeting next Tuesday evening.

The grade crossing elimination at Morgan was opened to the public yesterday afternoon by the State Highway Department. It is expected that this will help to lessen the traffic jam and will cause a more uniform line of cars to pass through this city. Many cars yesterday failed to notice the new road at Morgan Heights and continued down the old road.

The Board of School Estimate held a meeting in the City Hall on Tuesday evening and approved the amount deemed necessary by the Board of Education for the operation of the schools to the end of the fiscal year. July first was the beginning of a new fiscal year and the amount required to fill out the budget prepared last year was \$1,853.73.

LITTLE COAL BUYING HERE

People Fail To Heed Warnings Of Coming Hard Coal Strike.

Despite the warnings that have been carried in news dispatches and advertisements for months about the possibility of a coal strike in the anthracite mines next month the residents of this city have not, it is understood, protected themselves against a possible coal shortage during the coming winter by filling up their coal bins while the supply was still plentiful and reliable. Several local dealers when asked about the matter say that the demand this summer has hardly equalled that of past similar seasons, thus indicating that there is probably less of a supply on hand now than is usually the case.

According to the news dispatches from the mining centers, mine union leaders, operators spokesmen, etc., a tie up of the coal mines for several months is likely to result from the differences of opinion held by the workers and operators. The show down is expected to come with the end of next month when the present agreement expires. The proposed new agreement offered by the union leaders is reported to provide for an increased wage scale amounting to from five to fifteen per cent while the proposals of the operators include a reduction of as much as twenty per cent from present levels. While it still remains to be seen whether the situation will come to a real strike and resultant tie ups, it would seem advisable for local householders to insure themselves against discomfort by ordering their winter coal while there is still some to be had quickly.

DR. CARROLL ADDRESSES ROTARIANS ON "SERVICE"

Dr. H. J. Carroll, manager of the publicity department of the New York Telephone Company, delivered the principal address at the meeting of the South Amboy Rotary Club Tuesday noon at the Bide-a-Wee Inn. Dr. Carroll interested his hearers on the subject of "Service."

CARD OF THANKS

The family of Mrs. Ann Carroll wish to express their sincere thanks to all those who so kindly assisted them, during the illness and death of our Mother, especially to Father Lannery, Doctor Eulner, nurse Mrs. McDonough, and those who sent flowers and coaches to the funeral. Family of Mrs. Ann Carroll.

CATHOLIC DAUGHTERS OF AMERICA NOTES

The Catholic Daughters of America will hold their regular meeting on Thursday evening next, July 9th. All members anticipating taking advantage of the annual outing will do well to attend this meeting and make reservations.

Mrs. Philip Sullivan, chairlady of the lawn card party to be held July 11th at 2:30 P. M. will receive prizes at this meeting or at her home any time after the meeting.

The following committee will serve on the card party to be held Monday evening, July 6th: Mrs. Margaret Rutan, Mrs. Julia Rea, Henry street, Mrs. Matilda Rush, Annie Smith, Rose Smith, Catherine Smith, Mrs. Nellie Sullivan, Elizabeth Sutliff, Mrs. Lillian Sutliff, Main street, Mrs. Anna Sager, Mrs. Anna Sullivan, Mrs. Anna Trevaskiss, Mrs. Elizabeth Triggs, Mrs. Margaret Weiman, Mrs. Catherine Travinsky, Theresa Triggs.

OFFICER SPRAGUE DISMISSED BY SAYREVILLE COUNCIL

Police Officer Russel Sprague was dismissed by the Borough Council of Sayreville Township after consideration of the charges preferred against him at a meeting of the township authorities Wednesday evening. He was present at the meeting with his wife and he was also represented by Attorney John Lovely. Despite the objections to the manner in which the charges were presented and the hearing conducted as voiced by Sprague's attorney, the councilmen voted four to two on the action to dismiss the officer. Councilmen Nickels and Winkler voted against the dismissal, the former explaining that his action was based upon his opinion that the dismissal was irregular and the Council's attorney absent from the meeting.

SAYREVILLE APPOINTS NEW POLICE OFFICER

The Borough Council of Sayreville Township appointed John Wisnoski, of Parlin, to a position on the police force of the borough at a meeting on Wednesday evening.

FRIDAY, JULY 3, 1925

"CHURCH BEAUTIFUL"
CAMPAIGN INAUGURATED

A "church beautiful" campaign has been initiated for the summer months by the National Plant, Flower and Fruit Guild through which it is hoped to transform the sober green lawns of country and suburban churches into vistas of beautiful color.

As a first step, the Guild consulted with the Library of Landscape Architecture of Harvard University, the Brooklyn Botanic Gardens, Cornell University, the Mass. Agricultural College and the Boards of various religious denominations and finally elected the All Souls Unitarian Church in Plainfield as most suitable for a demonstration in church landscape gardening under the direction of Mr. Clarence Fowler, Secretary of the N. Y. Society of Landscape Architects, who volunteered his services for this purpose. The members of the congregation will be responsible for the carrying out of the plan under the supervision of Mr. Fowler.

Any church, however, may start a Church Garden Club of its own by following the methods prescribed by the Guild.

First of all, states the Guild, it is necessary to prepare a detailed diagram in scale which will show the church buildings, walks, the position of trees and shrubs, the space available for planting, the location of the church in relation to streets and the kind of property it adjoins, designating the color and style of architecture of the church as well as the material from which it is built. If this information together with a list of native plants, shrubs and small trees which will bear transplanting, is sent to the National Headquarters of the Plant, Flower and Fruit Guild, 70 Fifth Avenue, New York City, the National organization will supply without charge a plan for laying out the church grounds and a program for the meetings of the local Church Garden Club to be formed.

Such a Club will be composed of the members of the church, electing its own officers and paying as a body a yearly membership fee of \$1. for affiliation with the National Guild. Its task will be to inspect the soil and if necessary to provide for the people in the community who have gardens for left-over seedlings and fertilizer needed; to appeal to the perennials; to plant and tend the Garden and to arouse the interest of all the members of the church in the project. One way of doing this suggested by the Guild is to hold a Church Garden Bee including even the children of the Sunday School

whos lessons for the following or preceeding Sunday be drawn from the parable of the sower or other Bible Chapters which speak of the cultivation and growth of nature.

The purpose of a Church Garden Club, as pointed out by the National Plant, Flower and Fruit Guild is not alone to beautify church property and make the church a more attractive place to attend. A further and more fundamental idea behind the to raise flowers which may be given out by the Club members to shut-ins establishment of a Church Garden is and institutions in the community itself or which may be taken to the nearest city and left at the Station Flower Booths maintained there by branches of the Guild for distribution, to the city aged, sick and

friendless. Thus a Church Garden Club will inspire and increase the Christian spirit of giving.

Bill the Builder
speaks up

"I HAVE gotten into the habit of putting Thatcher Steam or Hot Water Boilers in the houses I build. In my section of the country everyone has a good word for the Thatcher Boiler. It does its job 100% and hates a big coal bill like a bull hates a red rag. Sure, I have a Thatcher in my own house. We never know a cold day indoors."

THE Thatcher Round Boiler (Steam or Hot Water) requires attention only once or twice a day to keep it firing perfectly. It is most conservatively rated, which means it holds ample heating power in reserve for unusually bitter weather. The Round Boiler is easy on the coal pile and almost runs itself.

Gas—A Fuel That's Under Control!

In many manufacturing processes, it is necessary that the degree of heat applied should be perfectly regulated in order to insure a satisfactory product. Where this is the case, gas has been found to be the best possible fuel and in consequence its use is rapidly increasing. The manufacturer has taken his tip from the housewife and the factory without its gas supply will soon be as rare as the kitchen without its gas stove, so valuable an aid to industry has gas been found to be.

When the popularity of electric light is considered, the steady, healthy growth in the volume of gas sales is as remarkable as the wonderful development of electrical use. Gas and electric revenue of Public Service Electric and Gas Co., is behind the

DEMON CARBON A GAS EATERBy Erwin Greer
(President Greer College of
Automotive Engineering)

An important detail to watch and that which keeps the engine running efficiently, is compression. An engine with faulty compression may appear to run fairly well when the car is rolling at a reasonable speed or when it is working hard. Lost compression shows up when the car is being driven at comparatively low speed.

Under either of these conditions the engine will run with an irregularity that makes the car jerk or jump instead of running steadily, as it should. This condition indicates that there is considerable loss of power and that much more gasoline is being burned than when the engine is developing its full power.

Thousands of gallons of gasoline are wasted every day by motorists because of the inefficient operation of their engines. In fact, gasoline mileage may be cut in half through compression losses, and still the engine may continue to run fairly well according to the ideas of the amateur driver.

If the engine is not running well and a compression loss is suspected, the easiest way to detect it is to use by hand, thus feeling the compression in each cylinder. You will nearly always find that some pistons will go over compression much easier than others, and this means that somewhere there is a leak in this cylinder. The number of miles which a car should run without having the valves reground varies greatly, depending upon oiling and other conditions.

With the average car under normal running conditions, it is probably wise to have the valves ground at least once every 5,000 to 7,000 miles depending upon the running condition of the engine.

COWBOY LINGO FOR LOCAL RODEO FANS

Just as a dictionary of the French language is essential to a European trip, so will a dictionary or rodeo lingo be of much use to the visitor in the West. For the especial benefit of the many here who are contemplating trips to the cattle country this year, the Citizen publishes the below list of terms used by cowboys both on the ranch and in the rodeo. The Roundup and World's Championship Rodeo this year will be held in Grant Park, Chicago, August 15 to 23 under the direction of the Chicago Association of Commerce, with "Tex" Austin, world famous cowboy, in charge of the contests.

"Rodeo" is the Mexican word for "roundup." It is pronounced "Ro-day-o."

"Broncho" is another word originating in Mexico and signifies "mean" and "bad tempered" as applied to a vicious and unbroken horse. A "broncho buster" is merely a horse breaker.

"Bull-dogging" is steer wrestling. A "hazer" is a bullgodder's assistant. He must pick up the former's mount after the leap and protect him from being gored when he realizes his hold on the steer. "Houlihaning" is accidentally knocking down a steer instead of wrestling it. This will not be permitted in the Chicago Roundup.

"Sunfisher" is a bucking horse that twists its body in the air standing on its hind legs so that the sun

hits its stomach. "Crow Hops" is a term describing mild bucking motions of a broncho. "Salty" signifies spirit or viciousness in a horse.

"Eating gravel" means being thrown from a bucking broncho or steer.

"Pulling leather", "shaking hands with grandma", "grabbing the safety knob" all mean holding to the saddle which disqualifies a broncho rider. "Dog fall" is putting a steer down with its feet under. The throw is not complete until the steer is flat on his side with all four feet out.

"Chuck wagon" is the cook wagon. "Doughie" is an unbranded calf less than a year old that has lost its mother. "Maverick" is an unbranded animal more than a year old.

Child's Play Important

The gamesome humor of children should rather be encouraged, to keep up their spirits and improve their strength and health, than curbed and restrained.

Much Cheese Imported

Since 1920 the importation of cheese to the United States has trebled.

Worth Thinking Over

Where we cannot invent, we may at least improve. We may give something of novelty to that which was old, condensation to that which was diffuse.

NOTICE TO CREDITORS

Joseph Grynkiewicz, administrator of Aloiza Grynkiewicz, deceased, by direction of the Surrogate of the County of Middlesex, hereby gives notice to the creditors of the said Aloiza Grynkiewicz to bring in their debts, demands and claims against the estate of the said deceased, under oath or affirmation, within six months from this date or they will be forever barred of any action therefor against the said administrator.

Dated May 1st, 1925.
JOSEPH GRYNKIEWICZ,
Administrator.

Ancient Surgery

A skull of a man found in New Mexico recently showed evidence of an attempt at surgery during an age in which the sharpest instrument known was the flint knife.

Shortest Poem

The shortest poem in the English language, so far as we know, is entitled "The Origin of Microbes." The poem is as follows: "Adam had 'em" — *Pathfinder Magazine.*

FRIDAY, JULY 3, 1925

LOUIS GOLD BUYS STATEN ISLAND LOTS

Louis Gold, who at various times in the last twenty-five years, has led in the purchase and development of large tracts of land in the Bay Ridge and Flatbush sections of Brooklyn, the Ridgewood section of Brooklyn and Queens, the industrial and Astoria residential sections of Long Island City, the Corona-Flushing, Kew Gardens, Forest Hills and other sections of Westchester County, Bronx and Pelham Parkway, and other prominent sections, will pioneer once again on Staten Island.

As the head of Louis Gold & Co., Mr. Gold, his partner, J. A. Dilliard, and their associates, have purchased the Terra Marine, Annadale Park, Huguenot Park and adjacent properties, comprising approximately 5,000 lots on the Raritan Bay Waterfront, the recently electrified Staten Island Rapid Transit System, the famous Amboy Road and both sides of Hylan Boulevard, known formerly as South field Boulevard, which, when completed, will extend the entire length of the Island and be the principal automobile and bus highway along the famous South Shore. The Annadale and Huguenot Park stations virtually are located on the property acquired by Mr. Gold and operation of the electrified train service is scheduled to begin on July 1st, with express service from St. George to Great Kills and local to Annadale, Huguenot and stations beyond. The running time from St. George to Huguenot will be about 24 minutes and to the Battery 45 minutes.

Mr. Gold's great purchase includes more than three-fourths of a mile of water frontage on Raritan Bay, overlooking New York Bay and the Atlantic Ocean. The operating Company will be known as Staten Island Estates, Inc. The Terra Marine Inn which was prominent in pre-prohibition days, is included in the purchase and will be used for Club-Hotel purposes and as a Community Social Center.

The enormous task of developing the property, in separate sections at first, will be begun immediately and Mr. Gold expects to have several hundred builders engaged in all-year homes, cottages and bungalow building during the summer. In addition several business districts are to be located developed, and improved so that home building and the creation of accessible shopping centers will progress coincidentally. Meantime, the necessary municipal improvements will be introduced and carried forward as rapidly as may be necessary.

The progressive development and building programme outlined yesterday by Mr. Gold means that the Raritan Bay, Terra Marine, Annadale and Huguenot sections of Staten Island will soon be transformed into a "City within a City," and that thousands of homes will be erected along the newly electrified Rapid Transit line, Hylan Boulevard and the Amboy Road, in one of Staten Island's most gloriously located and attractive waterfront residential localities, within easy reach of the Manhattan, Brooklyn and New Jersey business centers.

"Electrification of the Staten Island Rapid Transit line was, of course, the fundamental reason behind this big purchase," said Mr. Gold. "Behind this, however, stand the alluring attractiveness, the great natural beauty and the accessibility of the location, the importance of the Amboy Road as the principal automobile highway to the Jersey Coast resorts, via Perth Amboy and the new \$4,000,000 Victory Bridge over the Raritan River, the progress being made in the completion of the new 100 foot wide, 14 mile long Hylan Boulevard from St. George through to Tottenville, the location of two Rapid Transit Line Stations, at Annadale and Huguenot, and the ease with which Manhattan, Brooklyn and New Jersey can be reached via the ferries from St. George to Manhattan and Brooklyn, from Staten Island to Bergen Point, Elizabethport, Carteret, Bayonne and Perth Amboy.

"In the future, we have also the promise of a subway that will connect the Staten Island with the Manhattan subway and L systems. "I faced somewhat the same situation about 20 years ago when I began operating in the Bay Ridge section of Brooklyn, where I bought nearly 2,000 lots along Fourth Ave at an average price of about \$150 a lot. That was long before the 4th Ave subway was built. Five years later the lots I had paid \$150 each for were selling for as much as \$5,000; then they jumped to \$10,000; then to \$15,000 to \$20,000; now in the better business sections, values are up to \$60,000 to \$100,000 a lot. "In greater or lesser measure the same is true of the thousands of lots I have bought and developed since the Bay Ridge operation. Values invariably have risen and I do not know of a single lot I have ever bought, owned and developed that can be bought today for anything like the price I paid for it, or sold it for. And thousands of the lots I have owned, developed and sold since have been resold, in many cases a number of times and at substantial advances over the prices paid therefor.

"I have bought these lots because I can afford to sell them at prices far below the market value of properties less desirably located elsewhere and about equidistant from the principal New York and New Jersey centers of industry and business. "I bought because I believe homes are will prove to be "happy because I believe the public are fed up on "rady and anxious and moderate can have sea-

shore and country combined, with all of the advantage of a Great City thrown in for Good Measure."

BANKERS HELP

Pierce County Bankers Association, Wisconsin, have sent a boy and a girl to the week's Short Course at the University of Wisconsin, all the banks sharing in the expense. The Association is active in boys' and girls' club work.

Eaton County, Michigan, bankers sponsored an enthusiastic dairy-alfalfa meeting at Charlotte. As a direct result of the last campaign, 2,000 acres of alfalfa have been added. A county-wide bovine tuberculosis eradication campaign is being conducted with every assurance that the county will be on the accredited list this fall. Three cow testing associations have been organized.

315 Golden Hours

3-day cruise down coast on Clyde Liner—7-day rest and recreation at Florida's All-Year Resort City—Sailfish and tarpon fishing—Golf—Bathing, and other shore enjoyments—3-day cruise back home.

HOLLYWOOD-by-the-Sea

"Florida's All-Year Resort City"

Your dream of a vacation comes true in the remarkable "Vacation Fortnight" to Hollywood-by-the-Sea—the outstanding vacation of the summer of 1925.

Hundreds of vacationists in the north are realizing this unparalleled opportunity, and are going to the southland on this delightful summer tour.

Nothing like it has ever been presented to the people of your community. Just look at what it offers, and what it costs! A 3-day cruise down the Atlantic seacoast. Seven days at one of the most attractive Florida seacoast hotels, and another 3-day cruise back home. Every hour filled with delightful recreation and rest.

Summer is "The Season"

Thousands of people in the north are learning for the first time this summer what more sophisticated travelers have learned: that this unique southeast coast of Florida is the most delightful shore in the country for a summervacation. A prevailing south-

east wind blowing off the great expanse of the Atlantic keeps the beach at Hollywood cool; yet the water is just right in temperature for surf bathing.

Then, too, Florida's famous fishing season is on with sailfish and leaping tarpon striking as they strike at no other time of the year.

Make the Comparison

Compare what all this offers, and what it costs with anything in the form of vacation that has come before your eyes. Every comfort, everything to entertain you, everything to send you back home with mind rested and body fit, is to be found on this trip.

What's more, it gives you a chance to see today the most talked-about spot in our country—the magical Florida's southeast coast!

You cannot afford to overlook this remarkable vacation offer for any one of a score of powerful reasons. As well as entertain you, it will broaden your experience, and give you many a new idea on life. Reservations are coming in great numbers. Lose no time in making your own. Mail in this coupon for complete information.

\$100.
All expenses inclusive

Steamer transportation, round trip; steamer berth and meals; automobile transportation; hotel accommodations—room and meals; specially arranged entertainment. Yes, all of it for \$100.

Average temperature during summer 84 degrees—every day a June Day

FRIDAY, JULY 8, 1925

Looking Back Thirty Years

(Issue of July 6th, 1895)

New Brunswick Castle No. 71, Knights of the Golden Eagle, have been incorporated.

A new dress of paint has greatly improved the appearance of Councilman Welsh's buildings on First street.

Mayor Treganowan deemed it unnecessary to appoint any special officers to assist in preserving the peace on the Fourth, and his opinion of the orderly character of our people was well founded.

Notwithstanding the tendency of people to indulge in the intoxicating fluids to suitably celebrate the glorious 4th, not one arrest was made in the borough, which speaks well for the good order of the community.

Chris Rehffuss, the baker, will build two houses on Henry street very soon. Disbrow and Slover have the contract.

Let It Be Stopped

Nude bathing from and about Whitehead's and Parison's docks is getting to be something disgraceful. Not only boys, but men who should have some decency about them, can be seen daily bathing in nature's clothing. Our officers would oblige many, who desire to enjoy the sea view and air of our beach, if they would make an effort to break up the practice of nude bathing. Their presence occasionally at the beach, and perhaps an arrest or two would stop it.

THE YACHT RACE

The South Amboy Yacht Club was favored with their usual weather at their first regatta of the season on Saturday last—choppy sea and wind to the eastward with threatening showers and squally from the westward. At the time for the start there was a large number of people on Whitehead's dock to witness the race.

HOW MANY COMPLIED

We have an ordinance, section 2 of which reads: "That no person shall sell or expose for sale, within the limits of this borough, any fireworks, rockets, torpedo, squib balloon, or any other fire works under any other name or of like character, without permission of the mayor, obtained in writing, under penalty of ten dollars for each any every offense. How many of our dealers complied with it?"

A WET FOURTH

The elements on the Fourth were of such nature as to make the day about as disagreeable as possible. All out door sports that promised to make the day lively had to be abandoned, and people were compelled to remain under cover. The exercises under the auspices of St. Mary's Parish in the way of a parade and out door picnic had to be abandoned, while speechmaking, dancing and refreshments were enjoyed in St. Mary's Hall. The picnic of St. Mary Drum Corps was postponed and will be held this afternoon and evening at Swan Hill Grove. The outdoor fete promised under the auspices of the Presbyterian Church had to be dispensed with. A pleasant time, however was had in the basement of the church, where ice cream and refreshments were served. All fireworks displays were impossible and as a consequence many of our dealers have a large stock left on their hands.

COMMENCEMENT AT ST. MARY'S

The commencement exercises of St. Mary's School were held in St. Mary's hall on Friday evening. The hall was well filled with parents and friends of the scholars and the stage presented a very pretty appearance. Among the visitors in the hall were noticed Rev. Father Mulligan, of New Brunswick; Father Miller, of Plainfield; Father Haley, of Lakewood; and Father McCullough. Master J. Fenlon was chosen as salutatorian and he did his part well. The valedictory by Miss M. Burke was excellent and evinced that she was fully aware of her departure from her sweet school days at St. Mary's. The entire program throughout was decidedly well rendered, proving conclusively that the Sisters had not been deficient in their training of the pupils. The address by Rev. Father Mulligan was also greatly enjoyed. Space forbids an extended comment upon the exercises, but suffice it to say that the whole program was carried out on an elaborate scale.

New Half-Dollar Design Was Not U. S. Creation

Washington—Treasury officials have placed responsibility for selecting the design of the half-dollar memorializing the centenary of New Netherlands and the arrival of the Burgoyne in America on the committee in charge of the centenary celebration and the Fine Arts commission. Robert Grant, director of the mint, explained that the design was forwarded to him by the committee and was submitted by him to the commission, which returned it with one or two changes, all of which were approved by him and Secretary Mellon.

Officials of the mint showed much interest in the world-famous recently making of the half-dollar in Rochester, N. Y., as a result of the program in the mint of the coin was turned with the Smithsonian Institution, the Robert and Adeline Collins.

MAKING MONEY FIT BUSINESS

When Times Are Active the Supply Increases—Contraction Follows Seasonal and Periodic Slackening.

New York.—Demonstration that complete elasticity has been imparted to the currency in the United States by the Federal Reserve System despite assertions to the contrary is given in the American Bankers Association Journal by W. Randolph Burgess, assistant agent at the New York Federal Reserve Bank.

"Of all the money in circulation in the United States, Federal Reserve notes now make up almost one-half," he says in part. "In 1920 they were 70 per cent. The increase in currency which the war and high world prices made necessary was provided almost wholly by Federal Reserve notes. Just as the increase was wholly through Federal Reserve notes, so again the decrease was altogether in Federal Reserve notes. Reserve notes in circulation decreased from \$3,300,000,000 in November, 1920, to \$1,700,000,000 in March, 1925. Between the same dates other currency increased from \$1,500,000,000 to \$2,300,000,000, due to an increase in gold certificates.

"There are still some few who produce theoretical arguments to show that for some reason the Federal Reserve note is not elastic. These various arguments raise interesting questions, but they make little headway against the facts, for the facts show that the Federal Reserve note has been elastic.

How Currency Changes Volume

"The amount of currency the country requires reflects changing prices, wage levels, employment and volume of trade. As an example, retail trade at Christmas time is always larger than at other times. This results in a considerable increase in the need for hand to hand currency. Currency withdrawals and receipts at the Federal Reserve Banks illustrate the way this special demand was met. Prior to Christmas there was paid out about \$300,000,000 of currency, all of which was returned to the bank within the two or three weeks following Christmas.

"The mechanism is that when Federal Reserve member banks need currency for their customers they draw it from the Reserve Bank. Member banks can secure additional currency by borrowing at the Reserve Bank. Conversely, whenever currency in circulation becomes larger than is required by business it begins to return to the banks and they immediately utilize it to pay off indebtedness at the Reserve Banks, on which they are paying interest.

"The Federal Reserve System has made all types of currency, except national bank notes, elastic because all except those notes can be issued in amounts required and they all tend to flow back to the Reserve Bank when they are not required. There is another phase of currency elasticity. A \$100 Federal Reserve note may represent only \$40 in gold, because a gold reserve of only 40 per cent is required against Federal Reserve notes. On the other hand, a \$100 gold certificate must represent \$100 in gold. Thus the Federal Reserve Banks can issue, in response to commercial demand, two and one-half times as many Federal Reserve notes as gold certificates before the reserve ratio reaches the legal minimum.

Secondary Stretch

"This secondary elasticity was illustrated during the war, when in response to war demands Federal Reserve notes were issued to the amount of \$3,405,000,000. The Federal Reserve System could have issued more than \$800,000,000 additional without lowering the reserve against notes below 40 per cent, or the reserve against deposits below 35 per cent. In any emergency the power to issue these notes increases by 150 per cent the amount of cash which might be supplied to the country.

"Federal Reserve currency has proved itself flexible in war expansion and in post-war reductions. Since the establishment of the System the currency has been responsive to the seasonal and emergency needs of business. The Federal Reserve Act obtained currency elasticity by placing the country's reserve cash in institutions not organized for profit from which currency might be withdrawn or to which it might be returned in response to the country's needs. While the existence of the Reserve System gives flexibility to almost all forms of currency, the Federal Reserve notes, secured in part by commercial paper, provides a possible secondary expansion in readiness for an emergency."

SUPPLYING THE NATION'S CHANGE

Supplying the wealthiest nation in the world with change is a job of tremendous proportions. During 1924 the United States mint struck 89,324,000 one-cent pieces and 29,315,000 nickels. The small change of the nation was enlarged by 37,940,000 times and 10,892,000 quarters. While a drive was started to popularize the silver dollar, only 15,330,000 of the silver certificates were coined. Singularly, the half-dollar is the most unpopular coin that the United States makes. During 1924 there were just 142,000 half-dollars struck off, and all of these were the commemorative George Washington coins. The mints coined 10,304,000 double eagles.

Once Upon A Time --

Not so many, many years ago there was a man in a town just about the size of South Amboy.

He was an honest man and he tried hard to be a good citizen.

So he formed the habit of pausing each evening to review and think over his deeds of the day and resolve to correct such as did not bear the stamp of good citizenship.

By and by came the day when he felt his acts and dealings were above criticism and he was happy as he mingled with his fellow-townsmen.

All went well for some time—but one day he suddenly realized he was not as happy as he first thought.

The habit formed of self-questioning had not rusted or broken through disuse. Instead it was very much alive and active and he became aware that unconsciously he had been weighing himself, and someplace, he knew not where, he was found wanting.

What it was he could not for the life of him tell, and his was a troubled brow as he wended his way to the corner mail-box.

But the man did not drop the letter he carried into the mail-box. Conscience stepped in and told him his lack in citizenship.

It was in his failure to spend all of his money at home: money earned there; and money that would go right back toward making his a better town in which to live, if spent at home.

He destroyed the mail-order letter.

His resolve then made was to never again patronize mail-order houses and the nearby big city stores—but to do all of his trading at home.

Then he was a happy man.

And his town grew.

EXTINCT VOLCANO ON ALASKA PENINSULA

Aniakchak Crater, on Alaska Peninsula, is one of the most remarkable natural objects on this continent. It is an enormous basin, whose floor measures 6 3-4 by 5 3-4 miles, an area more than half as large as the District of Columbia. The rock walls that form the rim of the crater rise in places 3,000 feet above its floor, and a cinder cone in the crater rises to a height of 2,200 feet four times that of the Washington Monument. In a hollow in the crater's floor lies a lake that is 2 1-2 miles long and that has an area of 2 square miles.

A further measure of the magnitude of the crater may be had by comparing it with better-known volcanic craters, such as Kilauea, in the Hawaiian Islands, which has a diameter slightly less than 3 miles, or the pit occupied by Crater Lake, in Oregon, which has a diameter of about 5 1-2 miles, both being smaller than Aniakchak. Estimates of the amount of material that has been ejected from the present crater vary greatly, but the smallest quantity indicated by the available facts is about 8 cubic miles, and the actual quantity may have been more than 16 cubic miles.

There is no record that this volcano has been in eruption within historic time; in fact, the channels cut by the streams that flow down its

slopes and the growth of vegetation on the ash from the crater indicate that Aniakchak Crater is one of the oldest in the whole series of volcanoes along the Aleutian Range. Indeed the lower part of the cone in which the crater is situated may possibly have been formed before the last great period of glaciation, for some of the valleys that score its sides appear broad, as if they had been once occupied by ice and were later partly filled by volcanic ash.

The Aniakchak district, whose broad prairie-like valleys are rimmed by majestic sharp-peaked mountains, is impressive and in many respects unique. The former scene of terrific earth convulsions is now almost oppressively quiet, and the somber landscape, overswept by fitfully driven clouds, presents an aspect that is almost weird.

Aniakchak Crater was discovered in August 1922 by a party from the Department of the Interior in charge of R. H. Sargent, of the Geological Survey, while they were searching for possible petroleum-bearing areas in the Alaska Peninsula. A report by W. R. Smith, the geologist of this party, which has recently been issued as Professional Paper 132-J of the Geological Survey, gives a detailed description and views of the crater and its surroundings.

John Houlihan of Prospect street has purchased a new Ford sedan through the Sayreville Sales Corp. The sale was made by Joseph McKeon, local representative.

REALIZATION EQUALS ANTICIPATION

Telephone or write the Public Service office nearest you.

Berries Fresh from the Garden

also rhubarb. Ada Besic Swann, director of Public Service Radio Cooking School, will tell you new ways to serve them. Tune in Station WAAM Tuesday and Friday mornings at 11.

That Vacation of your Dreams at HOLLYWOOD-by-the-Sea

Hollywood Hotel, Hollywood-by-the-Sea

You who are shaping plans for vacation, look over the amazing opportunity presented by the "Vacation Fortnight" of Hollywood-by-the-Sea, and compare it with anything you have considered.

Compare it in allurements—and cost. Nothing like it was ever before placed before vacationists in extent, in variety, in rest and recreation, and price.

Through a remarkable combination of arrangements, it is possible for the vacationist to go by steamer to Florida, and the peerless beach of the nation's romantic strand—Hollywood-by-the-Sea—live at the beautiful Hollywood hotels, surf bathe, idle on the glittering shore, and mingle with a host of other delights, all for \$7 a day.

And this means all; transportation, sleeping quarters, meals and entertainment.

Mild, Refreshing Temperature, with the Invigorating Tang of the Sea

Imagination cannot exaggerate the charm and delight held forth in this unusual vacation trip. The sea voyage alone is a vacation in itself. Yet with all its charm, the ocean trip is but an inkling of the recreation, delights and rest that are to come.

Hollywood-by-the-Sea is an intriguing play spot for a visit in any month. Summer and winter, delightful breezes sweep in from the ocean, keeping the shore comfortable, refreshing.

There is the carefree restfulness of the tropics, enlivened by the spirit to be up and busy with pleasures and activities... the sea and the shore lay at your fingertips.

Here is climate that makes life easy; climate that stays the hand of age. The sun is kindly adding its wealth of color, as it rises and sets, to the colorful panorama of sea and land. Day skies and sun outpaint the rainbow in kaleidoscopic brilliance, night skies and moon out-romance the glamor of Orient.

The Atlantic seaside resorts rolled into one offer no more than Hollywood. Boating, Deep Sea Fishing, automobile rides through novel scenes, sailing, surf bathing and sightseeing.

And finally, here is the chance to see with your own eyes the realization of the dream of half the people of the United States. A marvelous chance to see what Florida is. A chance to visit Miami, Palm Beach, and all the other splendid seaside spots of the lovely strand which has more romance, more beauty, more to charm the imagination and senses than any other spot in the country.

Most for the Least

Think over all your previous vacations. Think over what you have in mind for this summer. Think it over in connection with the delightful program of enjoyment offered for just \$100 and not another expense.

Make up your mind to enjoy the greatest vacation you have ever had, or ever had anyone describe to you, for less than you have ever paid.

Act promptly and send in this coupon asking for complete details.

Average temperature during summer 84 degrees—Every day a day in June

Address: Hollywood-by-the-Sea, Touring Department, Suite 300, National City Bldg., New York City
1109 Packard Bldg., Philadelphia
120 Boylston Street, Boston, Mass.
Pennsylvania Ave. and Boardwalk, Atlantic City

\$100.
All expenses inclusive

All of it for \$100

When we say that the entire trip can be taken for \$100 we mean exactly what we say. This figure includes round trip, meals and berth on steamers of the Clyde Steamship Line, to Hollywood-by-the-Sea, Florida.

It includes quarters and meals at the Hollywood Hotel, Hollywood-by-the-Sea, one of the most beautiful and comfortable hotels in the State of Florida.

It includes automobile trips, and many outings on land and sea.

There are three trips already planned—the first on June 30th, second July 14th and third July 28th. Arrange one of these to coincide with your vacation, and write us at once for complete details.

MANY PLAN TO ATTEND
RUTGERS SUMMER SESSION

From the present outlook many students from New Jersey and nearby states are planning to attend the Summer Session at Rutgers which opens on June 29. Registration to date is well in advance of any previous year and the number of applications is growing daily. The entire plant of the university is undergoing repair and will be ready for the opening. Winants Hall and Ford Dormitory will house most of the women students and the men will be assigned to the various fraternity houses. Dr. Charles H. Elliott, Director, in a recent interview, said, "At no time in the past has the Summer School looked so promising. This summer's program includes subjects which meet the requirements for the various state certificates under both the old and the new rulings. Many of the courses offered are of college grade and may be used toward academic degrees. In addition to the above groups, we are offering a course in Public Health Nursing and a Unit Course for Public Health Officers. These courses are new in the field and are attracting a great amount of interest. The services of many prominent physicians of the state have been secured for these courses and the content is outlined to meet the special needs of nurses and public health officers."

We are looking forward to exceptional results from these courses."

Many new features will be added to the outside activities this summer. The Music department has scheduled several open air concerts and public demonstrations; the Physical Education department has outlined a mid-summer fete on the Queen's Campus and the Drawing department is arranging a special art exhibit which will be open to the public at the close of the session.

Rutgers has an ideal location for a summer school. Surrounded by a territory rich in historic background, the summer student has many facilities for diversion. The Raritan River and the numerous canals offer unlimited facilities for boating and canoeing; the university gymnasium, the swimming pool and tennis courts are all available for the use of the students.

"Ah sho loves dat Thatcher 'Twin-Fire' Range. Yo all has coal and gas side by each, whenever yo wants 'em. No wondeh ah cain dish up lubly food fo de missus' fambly. Fried chickum, cohn pone, pies and puddins—dey all come out of de 'Twin-Fire' jest done regefigent! Ain't nothin' else but! And 'at Porcelain Enamel Finish—hot dawg! It sho makes mah kitchen sparkle!"

THE large gas oven of the Thatcher "Twin-Fire" Range is quickly heated by a center action, U-shape burner of greater capacity than the ordinary type. It heats the oven with equal intensity instead of concentrating heat at the bottom. "Twin-Fire" has no nickel trimmings to tarnish. All bolts, door hinges and pipes are concealed.

"This Is My Town"

A pledge of citizenship is an enthusiastic and whole-hearted support in act and thought, of South Amboy, its ideals, its institutions, its homes, its attractiveness, its advantages, its business and of your neighbors. When any individual or local organization makes an effort for a bigger and better South Amboy they deserve and have a right to expect the loyal support of every citizen. At that moment they represent South Amboy and there should be no bickering, no backbiting or factional disagreement which will detract from gaining the objective.

Only in proportion to our combined efforts can we hope to make our town more attractive and more prosperous. No matter the size, every town is too small in number of citizens, to grow when part of its folks take their money and trade to other centers. Our interest in state and national prosperity is not diminished through a strict loyalty to home affairs and town development. On the contrary, when we build an up-and-doing, prosperous and progressive town we add to our state's assets, and, likewise to the nation's.

O. REINHARDT HEADS BUSINESS MEN

Elected President—Committees and Other Officers Are Elected.

The effecting of an organization, selection of officers, and a general discussion of a program of activities consumed the entire evening on Tuesday when the South Amboy Business Men's Association became an actuality. There were over forty merchants of this city present at the gathering in the offices of Reinhardt & Kurowsky, on Broadway and the session lasted until nearly midnight, so interested were the members in the actual bringing into being of a co-operative organization.

Officers were elected as follows: President, O. Reinhardt; vice president, R. C. Stephenson; secretary, R. P. Mason; treasurer, H. G. Hoffman; campaign and advertising manager, R. H. West; sergeant at arms, S. Hochheiser. Trustees were elected for terms as follows: James Dolan, electrician, for one year, also to act as chairman of the board; E. R. Brown, grocer, for two years; Charles Domzal, baker, for three years; I. Barber, manufacturer, for four years; R. McCloud, butcher, for five years; S. Medinets, hardware, for six years; Ferd Tedesco, buider, for seven years.

The chair appointed an entertainment committee consisting of Harry Rosenthal, Ben Tenenbaum, S. Hran-kusky, F. Kurowsky and A. Cohen. This committee will undertake to provide an occasional get-together for the members of the organization so that they can have a lot of fun, etc among themselves. Mr. Barber offered the free use of the upper floor of the K. of P. hall for such entertainments, which offer was met with much applause.

The trustees and officers are to meet on Monday evening to draw up a set of bylaws for the new organization and the decision was made that regular meetings were to be held twice a month on the second and fourth Monday nights. This seemed to meet with the approval of a majority of those present, although the attendance was not what it would undoubtedly have been had not the High School Commencement Exercises and one or two other civic meetings been held on the same night.

A great part of the evening was given over to the discussion of problems that confront the various businesses of this city and of ways and means of interesting industries in choosing a location in or immediately adjoining this city. Plans for building and keeping alive interest in the association were considered as were also ideas for insuring all businesses represented in the association a nearly equal amount of interest and attention.

With the idea of furnishing some measure, at least, of protection against inferior articles frequently offered local residents by itinerant merchants Mr. Kurowsky was designated to interview Mayor Hoffman the association a number of men who and advise him that there were in would, if provided with the proper credentials and authority, gladly take it upon themselves to see that such intertants as came under their observation complied with the local ordinances relative to procuring licenses, etc. In this connection it was brought out that the ordinances the city now has are nearly the same as those used in neighboring municipalities and while it may not be as restrictive as is desired, it has not been declared unconstitutional or fought in the courts. In order to enforce an ordinance that would stand a test for constitutionality the ordinance would itself have to require that all merchants and businesses both local and otherwise be required to pay an equal license fee, no distinction being made as to whether the business was carried on by a local resident in a local establishments or by a stranger soliciting in person or otherwise. It was the sense of the meeting that efforts to secure the enforcement of the present ordinance be carried on while the adoption of a better ordinance was being advocated and perhaps secured.

LIBRARY NOTES

The librarian again requests that long overdue books be returned at once. A charge of 25c per book will be the fine.

The circulation for May, 1925 was as follows: Adults 565; Juniors 382; Total 947.

The following new books will be on the shelves Saturday, June 27, 1925: "He Was a Man"; "Fourteen Points"; "Wild Marriage"; "Faith of our Fathers"; "Invisible Wounds"; "The Chase"; "Mrs. Mason's Daughter"; "Before the Dawn"; "Passage to India"; "Old Ladies"; "The Slave Ship"; "Blind Raftery"; "Martha"; "The Green Hat"; "Golden Ballast"; "Warning"; "The Pearl Lagoon"; "Drag"; "The Loring Mystery"; "Sons of the Sheikh"; "Mother's Recompense"; "Spring Flight."

TO CONTINUE LAURENCE HARBOR CARNIVAL TO JULY 4

The attendance at the carnival being held by the firemen at Laurence Harbor during the past week has been small due to weather conditions, and through the courtesy of Mr. Miles, proprietor of the Laurence Harbor Amusement Beach, the firemen have been granted the use of the beach front to continue their jubilee to July 4th, and it is hoped that there will be a marked increase in the attendance during the remaining period. The action of Mr. Miles is greatly appreciated by the firemen and it is hoped the affair will be as successful as was anticipated.

The fire company has given out the contract for their building on Laurence Parkway and the proceeds of the carnival will go towards this source.

OFFICER SPRAGUE UP ON CHARGES

Police Committee of Sayreville Council Orders Officer to Appear at Hearing.

Charges against Police Officer Russell Sprague of Bay View Manor will be aired out at a hearing before members of the police committee of the Sayreville council on July 1st. The charges against Sprague are absenting himself from duty, and Sprague was ordered to appear at a meeting held on June 17th, but on account of illness did not appear. However his wife put in an appearance at this meeting and announced that her husband was ill and could not attend.

Sprague some months ago was injured when his motorcycle collided with a dog coming down the Parlin hill and was confined to a hospital for some time unable to do police duty. Later it was charged by Councilman Kierst of Melrose that Sprague had been seen driving a truck and contended that if Sprague was able to drive a truck he was able to do police duty. Sprague was tried on this charge and before the hearing was completed, Kierst withdrew his charges. At this time Sprague was represented by Attorney Wilentz, who announced that if Sprague was declared physically fit by a physician selected by the borough, he would return to police duty. In a report presented to the Sayreville council by Dr. Beekman, who examined Sprague about four weeks ago, he stated the man was able to resume his position.

In the meantime, his salary has been held up, and the charges of the police committee were served on Sprague about two weeks ago by Officer Keegan.

COUNCIL FAILS TO PURCHASE TRUCK

(Continued from Page 1.)

ments made by the chairman of the body as to commissioners of assessment for the upper George street and Ridgeway avenue improvements. The appointments were John Cusick, M. F. Nagle and George Mack for the George street job; Edward Dewan, Claire McCarthy and J. J. Dwyer for the Ridgeway avenue work.

The council passed on third reading the ordinance forbidding the blocking of streets and crosswalks by automobile traffic. After its passage Councilman Mullane, in a few remarks, told of his observations along Broadway Sunday evening, when he noted trolley traffic at a complete standstill and passengers being transferred to buses because of the delay. The automobiles ought to be kept close enough to the curbing to permit the passage of trolleys, he said, for while a great majority of the automobiles contain purely pleasure seekers, the trolley car riders are usually working people and as such are entitled to better and more reliable service.

The council was presented with a petition from the residents of Main street urging the adoption of an ordinance or other restrictive measures, which would protect the neighborhood from the possible erection of a public garage and other detrimental structures or businesses. The petition was liberally endorsed and was ordered referred to the council as a whole with the mayor and city solicitor.

A communication from the Public Utility Commission advised of a hearing at Newark yesterday on the application made by James Doukas for two additional bus permits to cover buses operating between Perth Amboy and Keyport. Motion instructing the city solicitor at attend was carried.

The clerk was authorized to advertise for bids for the construction of the curbing and gutter on Raritan street in accordance with the plans and specifications prepared by City Engineer John Conlogue.

Upon motion of Councilman Mullane the City Engineer was authorized to establish a grade for Portia street between Pine avenue and the shore.

DISTRICT MEETING OF KNIGHTS OF PYTHIAS

Grand Chancellor Henry J. Lohse of Bloomfield, together with other officers of the Grand Lodge of New Jersey, including the Deputy Grand Chancellor of District No. 15, will attend the District Meeting which will be held in the Lodge Room of Good Samaritan Lodge on Wednesday evening, July 1st, at eight o'clock in the K. of P. Hall here. Large delegations from New Brunswick, South River, Sayreville and Keyport are expected to attend this meeting. It has been several years since a district meeting was held in South Amboy at which the Grand Chancellor and Staff were present and Good Samaritan Lodge is making every effort to have its members there in "full force." All members of the Order residing or visiting in this city and vicinity are heartily invited to this meeting.

YEARLY HONOR ROLL FOR PUBLIC SCHOOL NO. 1

The following pupils were not absent nor tardy during the school term just closed: Frank Steigway, Florence Henry, Joseph Bowman, Mary Pizzillo, Dorothy Steigway, Ruth Richmond.

"CHICK" CALLAHAN IN TROUBLE AGAIN

Sayreville Man Found Driving Car With No Driver's License.

John "Chick" Callahan of Sayreville, again came in contact with the law last week at Port Norris, N. J., when he was found driving an automobile with no driver's license, being fined \$500 on this charge, and also charged with smuggling whiskey. On the latter charge, he was arraigned on Tuesday before Supreme Court Commissioner Leroy W. Loder at Bridgeton. Callahan waived a hearing and was held for the action of the Grand Jury of Cumberland county and deposited \$1,000 cash bail pending the action of that body.

Callahan was taken in custody after a posse of deputies had riddled a farmhouse with bullets from a machine gun. Authorities charged that the house was a cache for rum runners. Five other men were arrested with Callahan. He has secured Roscoe C. Ward of Bridgeton to represent his interests.

NOTICE TO CONTRACTORS

Sealed bids and proposals will be received by the Common Council of the City of South Amboy, N. J., on Tuesday evening, July 7, 1925, at 8 o'clock P. M., (Daylight Saving Time) for the construction of a concrete sidewalk and combined curb and gutter on Raritan Street.

Plans and specifications may be obtained at the office of the City Engineer in the Trust Company Building, South Amboy, N. J.

Each bid must be accompanied by a certified check for \$500 payable to the City Treasurer.

The Council reserves the right to reject any or all bids as may best serve the interests of the City.

By order of the Common Council. G. FRANK DISBROW, City Clerk.

PARLIN NEWS

M. V. Hitt of Wilmington spent the week end at his home in Parlin. W. J. Richter of the DuPont Wilmington Office was a recent visitor at the Parlin Plant.

Mrs. W. N. Sharp and daughter Betty are spending a few days visiting relatives in Wilmington.

E. S. Yerger of Maple street was a recent visitor at the DuPont Office in Wilmington.

W. S. Lynch of Wilmington was a recent visitor at the DuPont Parlin Plant.

Miss Marjorie Boden of Deerfield street has accepted a position in the filing department of the DuPont Main Office.

Mrs. A. G. Dunfee and Mr. and Mrs. H. Wurgler of Deerfield street were recent South Amboy visitors.

L. D. Reed, Office Manager of the DuPont Co., spent the week end at his home in Arlington.

I. B. Aumick motored to Philadelphia over the week end and visited with relatives.

E. Jones spent the week end with his family at Arlington.

R. A. Ford of Kearney was a recent visitor at the home of C. D. Ford of Woodlawn avenue.

Miss Alice Martin has returned to her duties at the DuPont Main Office from her vacation which was spent in Atlantic City and other points of interest.

E. F. Christian of the DuPont Main Office is enjoying a two weeks vacation.

Miss Mildred Harris of the DuPont Office is on a two weeks vacation.

Mr. and Mrs. G. E. Magee of Crossman avenue entertained Mr. and Mrs. C. H. Fahrenholz of Milltown on Sunday.

Mr. and Mrs. P. B. Brocey entertained relatives from Jersey City over the week end.

Mrs. W. S. Holmes and son Walter of South River spent Sunday with Mr. and Mrs. F. E. Fitterer of Deerfield street.

R. Kendall motored to Wilmington over the week end and visited with relatives.

Parlin was well represented at the school election held in Washington school on Tuesday evening. While the Parlinites were in favor of building a new school, the proposition was defeated by a vote of 373 to 243, and the vote of buying a lot on Washington road was also defeated by some twenty votes.

Lyle Van Doren of Woodlawn avenue has purchased a Chevrolet sedan through the Armstrong Sales Corporation of South River.

G. H. Simpson, a western salesman of the DuPont Company located at the Chicago office, was a recent visitor at the Parlin Plant.

E. M. Flaherty was a recent New York visitor.

Mrs. N. P. Oakley of Deerfield street spent Tuesday visiting relatives in Keyport.

Mrs. Elsie Holzworth was a Parlin visitor on Wednesday.

DuPonts Defeated

On the DuPont diamond last Saturday the Birds of New Brunswick defeated the DuPont team 10 to 0. Conny Haverman pitching for the Birds gave a wonderful exhibition of pitching by holding the DuPont team to two hits and also striking out 13 batters, while Stratton pitching for DuPont was found for 13 hits, among which were 3 two baggers, 1 three bagger and a home run. The great hitting for the Birds was made by Lynch, Lauer and Haverman. This is the second encounter between these two teams, DuPont having won the first 4 to 3. A third game will be necessary to decide the series.

The PX Department baseball team defeated the Film Plant on Tuesday night by the score of 12 to 4. Weck pitched for the PX and allowed 6 hits while the PX batters hammered Freeman for a total of 13 hits.

In a recent plant baseball game the main office team won their first game at the expense of the Film Plant, winning by the score of 19 to 5.

On Friday night the Office Team were defeated by the PX team 4 to 2. By forcing in two runs by J. Brady, the Office team pitcher practically won the game for the PX team.

Parlin A. C. Win

In one of the best games played on the DuPont diamond this season, the Parlin A. C. last Sunday defeated the Tiger A. C. of Perth Amboy by the score of 6 to 5 in ten innings. Both teams started off by scoring two runs in the first inning. J. Kurtz pitched for the Parlin A. C. and allowed 7 hits, while Kybranck the Tiger pitcher was found for 8 hits.

The DuPont baseball team traveled to New Brunswick on Monday evening and played the St. Peter's Lyceum and were defeated by the score of 10 to 1 due to the fact that the DuPont batters are in a batting slump. While the other team were able to get 14 hits the DuPont team had to be satisfied with 3. Dustal and Molly pitched for DuPonts.

The PX Department team, leaders in the Parlin plan league will play the Parlin A. C. on the DuPont diamond on Friday night. A good game is looked for by the crowd that will be on hand.

On Saturday the DuPont team will travel to Matawan for the second game between these two teams. Matawan defeated DuPont in the first game, but the DuPont boys are confident of being returned the winner on Saturday.

The game between DuPont and

Michelin scheduled for Wednesday night was called off by the Michelin management.

MAKE THE BATTERY GO TO BAT

By Erwin Greer

Learn to read the hydrometer, as it is the best way of testing the battery. Get one made of celluloid instead of glass as this type is in less danger of breaking. A reading between 1.275 and 1.300 denotes that the battery is being properly charged by the generator. If the hydrometer reading gets down to 1.200 you may be using the lights or starter too much. If the engine is hard to start excessive use of the starter will run down the battery. If the car is not operated much during the daytime the battery may not get enough current to carry the lights. In case none of these troubles are shown and the system still is at fault, you should have the car taken to an electrical expert, as the generator may not be delivering the amount of current necessary.

Keep the battery terminals tight and covered with cup grease to prevent corrosion by the battery acid. Prevent short circuits by watching the insulation of the wires and covering worn places with tape. The only attention the wires need is to see that they do not come loose or become short circuited. By going over the thumb nuts occasionally and glancing at the rest of the wiring such troubles will be avoided.

Keep an eye on the ammeter to make sure that the battery is charging when the engine is running. When the car is running about twenty miles an hour, with all the lights turned on, the ammeter should show "charge." If it doesn't the battery will be discharged. This calls for expert attention. Also note when the ammeter doesn't "discharge" when lights and ignition are turned off. This is a short circuit between the ammeter and switch and it must be found and corrected immediately. If the ammeter needle becomes bent, giving wrong reading, this may be determined by shutting off the lights and disconnecting the wire from the ammeter to the switch.

The successful motorist is the fellow who learns by observation and who is constantly tinkering with his car. Try it out and find out how much you don't know about an automobile.

Heart of Midlothian

The Heart of Midlothian was the name popularly applied to the old jail, torn down in 1817, which stood in the center of the city of Edinburgh, which is the capital of Midlothian county, Scotland.

Cole McDonough has purchased a new Ford truck for use in his ice business.

FIRST METHODIST CHURCH

Rev. E. A. Wells, Pastor

Seventy-two years ago the First Methodist Episcopal Church of South Amboy was organized. For many years the society worshipped on Broadway. Thirty-one years ago the ground was broken for the present edifice on John street. The Birthday Anniversary of the Church will be observed on Sunday. The speaker for the day will be Rev. George W. Abel, of Salem, N. J., a beloved former pastor of the Church. While stationed in South Amboy, Rev. Mr. Abel organized the Junior Church and instituted the annual Birthday Offering.

The Sunday School will meet in the morning at 9:45. At 10:45 morning worship. There will be a rally of the Junior Church at the morning service, and Mr. Abel will deliver a special address to the boys and girls, who will sit in a body and sing a special selection.

The anniversary sermon will be preached by Mr. Abel at the evening service at 7:45. The Junior Church will attend in a body. The Sunday School Choir will sing a special selection. There will be special music also by the Church Choir.

Envelopes have been sent to all the members of the congregation and the Sunday School for the annual birthday offering—a penny for each year of age from everyone, old and young.

The Junior League has closed its sessions for the summer. The Church prayer meeting will be held on Wednesday evening at 8:00.

The Sunday School Excursion to Asbury Park will be held on July 16th.

Advertise in the Citizen.

NOTICE

The Fifth Annual Stockholders meeting of the Investors and Owners Building and Loan Association will be held on Tuesday evening, June 30, 1925 at the South Amboy Trust Company for the election of 4 officers, 17 directors and 3 auditors. Polls will be open from 8 to 9 P. M.

J. LEE LAREW,
Secretary.
